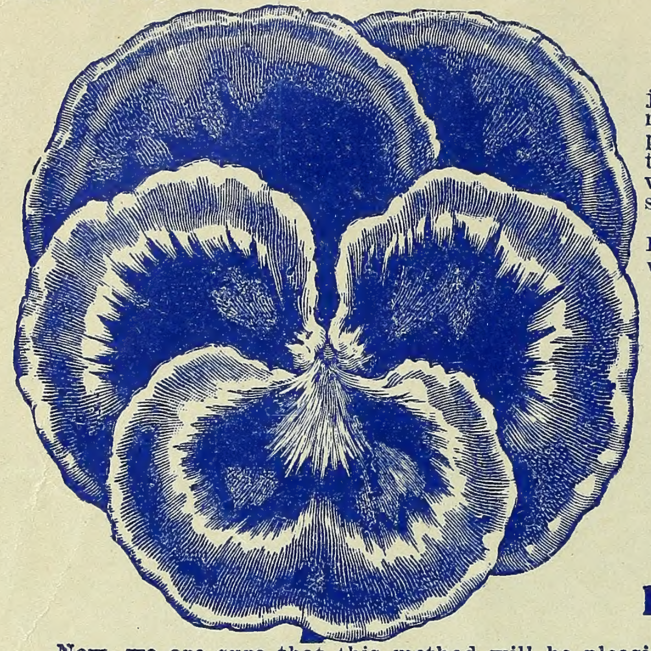
Giant Peacock Poppies
A Package Free
With Each 50¢ Order

FREE PREMIUMS.

We have adopted a new plan, a happy plan, a splendid plan, to give away the rarest, best, choicest seed novelties of our own and other firms' introduction **Absolutely Free to Our Customers**, and the best of all is that we allow you to do your own [illegible]ing of these brilliant Flower or rare Vegetable Seed Novelties.



ISN'T THIS JUST LOVELY.

On all orders under $20.00 we allow you to select of the following seed novelties just as many free packages as the amount of your order entitles you to; thus, if you remit $2.00 you can select 6 packages plus the Giant Peacock Poppy; if $3.00, 10 packages; if $4.00, 15 packages, etc., etc., of the following superior flower and vegetable seed novelties, all of which will be added to your order, free of all cost. In this way you will have an opportunity to try some of the very best, newest things in the seed line and make the trial absolutely free of cost to you. That is fine, isn't it?

These Premiums can be selected only on Flower and Vegetable Seed orders, and Plants from pages 3 to 83, inclusive, but not including Bargain Seeds and Collections, which are NET and not on Farm Seed orders.

☞On Farm Seed orders, see page 139.

Now if the money you send amounts to:

We prefer that remittance be made by BANK DRAFT, EXPRESS or POSTOFFICE MONEY ORDER and we GUARANTEE that money sent us that way will reach us. Do not send us your personal or private Bank cheque—it is sure to cause delay and Extra Expense in collecting, while the methods of remitting as mentioned are perfectly safe and cost but a trifle.

We accept postage stamps, currency or coin, but we DO NOT GUARANTEE that money sent us in letters not registered will reach us.

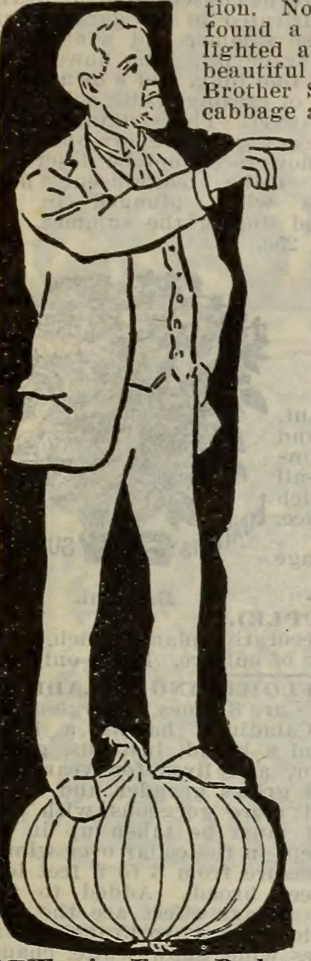
TO OUR PATRONS AND FRIENDS, GREETINGS!

Great was our trade for 1909! Orders poured in upon us by the thousands and thousands and no firm on earth has more cause to feel thankful to its hundreds of thousands of patrons than we. The reason is this. Each and every one of our patrons is our friend, not only in name, but in truth—a warm-hearted, whole-souled friend. This we have again experienced last year in the fullest measure. Our duties called us, within the past twelve months, into many states—from Oregon, Idaho and Montana in the west to New York in the east—and everywhere, without exception, we were greeted so cordially, so heartily by our kind patrons, words often failed us to express our keen appreciation. No matter where we stopped, we found patrons of the John A. Salzer Seed Co., and where we found a patron we found a whole-souled friend. How often we heard expressions like this: "How are you. Mr. Salzer? How delighted and glad I am to see you. You must come to my home and see my beautiful flowers and garden." Or a farmer would grasp our hand and say: Brother Salzer, you must see my crops. Such hay. such oats and corn, sucn cabbage and wheat, and above all, such potatoes!"

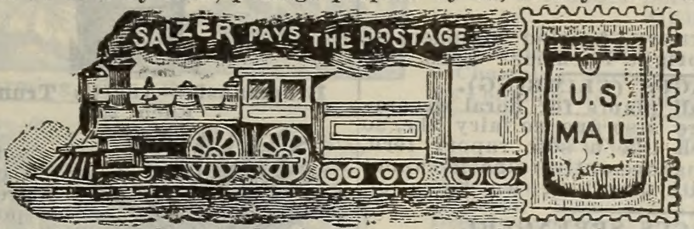


☞We give Free a Package of Salzer's Giant Peacock Poppies with each 50 cent order.☜

WHAT WE DO.

FREE DELIVERY BY MAIL.

All seeds ordered at the packet, ounce, quart, or pound mail prices, also bulbs, roses, vines and such goods as are offered postpaid or by mail, will be sent by mail, **postage prepaid by us,** to any address in America. We sometimes send by express (prepaid) instead of by mail, but only when there is a saving of cost to ourselves, and when convenient for purchaser to receive them that way. **POSTPAID BY MAIL.**



We deliver postpaid to any postoffice in the United States any article in this Catalogue offered **by mail.**

BY EXPRESS OR FREIGHT

means that we deliver the stock to express or railroad here, and the **purchaser pays all transportation charges** on receipt of goods. That means such large plants or trees as are listed by express or freight, as also vegetable seeds by pint, quart, peck or bushel, also all Farm Seeds, roots, potatoes, implements, etc., etc. No charge for packages.

EXPRESS RATES.

These have been greatly reduced for us. The express companies, recognizing our claims as their largest shippers, have given us for our customers very low rates. Thus a

TWENTY-FIVE POUND PACKAGE

would cost, to points in Illinois, Nebraska, Missouri, Indiana, New York, Pennsylvania, Kentucky, the Dakotas, Kansas, Michigan and Ohio, from 40c to 90c.

To points in **Alabama, Maine, Rhode Island, Arkansas, Massachusetts, Tennessee, Connecticut, Mississippi, New Brunswick, Delaware, New Jersey and Virginia, from 90c to $1.30.**

To points in the far west and south—**Arizona, $3.00; New Mexico, $2.50; Idaho, $3.00; Oregon, $3.50; Montana, $2.00; Utah, $2.00; Nevada, $3.50; Washington, $3.50.**

Above gives you a fair idea of express charges. **When seeds, etc., are quoted by express or freight it means that you pay the transportation charges;** by mail, postpaid, that we prepay by mail.

WHAT YOU SHOULD DO.

MONEY—We prefer all money sent by Money Order, Bank Drafts or Registered Letters. Do not send loose money in a letter without registering it; it is not safe, and if it is lost we are not responsible for it. Silver coin should be sewed or pasted upon strong cloth or paper to prevent breaking through registered letter.

Private Checks.

Please do not send your check, because it costs 25 cents to collect same, which is deducted from the amount, and besides orders must be held until our bankers report private checks paid. This causes needless trouble and delay in filling orders.

Postage Stamps.

We accept postage stamps when other modes of remittance are inconvenient, and prefer them in 1 and 2-cent denominations. Be very particular to use due caution so that they do not get damp, stick together or attach to the order.

Important.

It occasionally happens (very seldom) that an order is lost in coming to us, or the goods in going to the customer. Therefore, if any who order do not hear from us within a reasonable length of time, **they should send a duplicate order,** naming the date on which the former was sent, and the amount of money inclosed, and in what form. **DO NOT** simply say, "I sent you an order 10 days ago, and have not heard from same," but be explicit. This will enable us to investigate the matter and fill the duplicate order with dispatch.

Prepaid Railroad Stations.

Many of our farmer customers live on Prepaid Railroad Stations, where there are no agents. In such cases we ship the goods to the nearest station to this Prepaid Station, as we do not pay freight charges on heavy seeds, machinery, tools, etc. This insures quick delivery and no danger of loss.

OUR PRICES.

Our constant aim is to make HIGHEST QUALITY A FIRST CONSIDERATION, and then make our PRICES AS LOW AS GOOD, HONEST SEEDS CAN BE SOLD FOR. OUR PRICES, THEREFORE, will in all cases be found as LOW as those of any other RELIABLE HOUSE for seeds of the highest standard of excellence. OUR DETERMINATION to grow and distribute nothing but the VERY BEST SEEDS THAT IT IS POSSIBLE TO PRODUCE has increased our business to its present LARGE PROPORTIONS, and gained for us the largest trade enjoyed by any house in America, direct with critical market gardeners and experienced planters who cultivate for profit, and whose trade always seeks the source where the highest quality can be obtained.

☞Please let us estimate on your wants.☜

TRIAL GROUNDS & TEST GREENHOUSES
EVERY SORT TESTED BEFORE BEING SENT OUT
JOHN·A·SALZER SEED CO. LA CROSSE, WISCONSIN.

OUR TRIAL GROUNDS

No seeds leave our warehouses before being thoroughly tested as to life and vitality. The **modus operandi** is shown in the accompanying cut. When you sow **our seeds** you are **absolutely sure** they will grow—such as you can take to any fair and get **first prize.** When you sow you want to reap—that's eternally right, and that's what you can always depend upon doing if you sow or plant Salzer's seeds. They have established a record the world over and are known as

"SALZER'S SEEDS NEVER FAIL."

OUR FARM AND TRIAL GROUNDS.

We own and operate large farms for the production of our seeds—great men have visited same, among them Gov. Chas. N. Harried, Ex-State Auditor J. E. Hipple, Land Commissioner J. L. Lockhart, Prof. J. H. Shepard, of Brookings College, Congressman J. A. Pickler, together with Senator George Schlund, Senator J. W. Orcutt, Hon. H. C. Walcott, Hon. L. C. Taylor, Hon. E. E. Chilcott, Hon. L. C. Corbett, Hon. F. D. Adams, Hon. Ben R. Hoover, Hon. F. D. Hinds, and many thousand others, who viewed our trial grounds and farms in Dakota. Prominent newspapers throughout America have had descriptions of this farm, such as the **Chicago Daily Inter-Ocean, the Tribune, Herald, Farm, Field and Stockman, Minneapolis Journal, St. Paul Pioneer Press, Dakota Farmer,** together with almost every paper published in the State of South Dakota, many of the editors having visited same and reported thereon.

One of the chief reasons for sending out seeds only of superlatively high quality are our extensive trial grounds.

FOR 1910

We earnestly solicit a share of your kind orders for 1910—We are frank in telling you we cannot well get along without same. We honestly believe; yes positively know that our Seeds are of even higher merit than before, if that were possible. We surely have spared neither time, care, money nor expense to make them the very best the earth can produce.

All our Seeds are State Inspected and State Guaranteed, in regard to purity and height of germination.

FREE { **With each 50 cent order we give you a package of Giant Peacock Poppies—See front cover.**

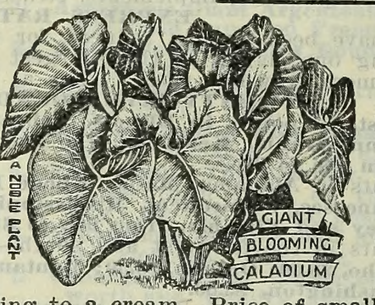
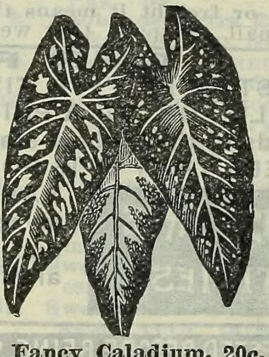
ANANASSA (PINAPPLE).

We have a fine stock of this gorgeous decorative plant, which, when in fruit, is unsurpassed by any; very easy of culture. Each, only 30c.



GIANT FLOWERING CALADIUM.

Its leaves are 3 times as large as the common Caladium, having a heavy texture and a broad, lustrous, glossy green color, and lives for years and years, and grows grander and handsomer and more gorgeous with each season. It must be taken up in the fall and kept in the cellar over winter. Leaves measure from 3 to 5 feet long by 2½ feet broad. Added to this wonderful foliage effect are the long lily-like blossoms, 12 to 15 inches long by 7 inches wide, snow-white, changing to a cream. Price of small plants, 30c each; 3 for 75c, by mail.



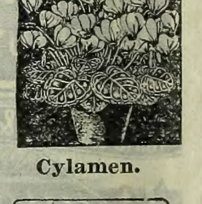
Fancy Caladium, 20c.

CALADIUM ESCULENTUM.

The foliage of this tropical plant is of immense size, frequently measuring from 8 to 10 feet in circumference. It is particularly striking when grown either single or in a group on the lawn, with Cannas as the center. Each, 15c; 3 for 40c.

☜FANCY CALADIUM.

No plant excites more admiration than the Fancy Caladium. The coloring of the leaves are simply marvelous. Each, 20c; 3 for 45c.

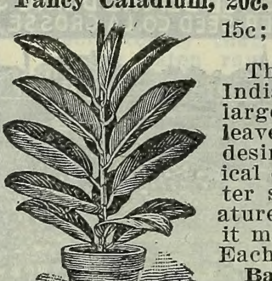


Cylamen.

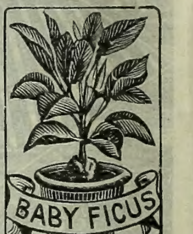
CYCLAMEN.

A bulbous plant always in bloom in winter, and greatly admired by all.

Known also as Shooting Star. It's a grand bulb. Each, 15c; 3 for 40c.



Fiscus Elastica.



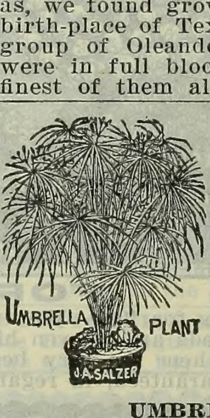
FICUS ELASTICA.

This is the variety from which India rubber is obtained. It has large, handsome, glossy, green leaves which make the plant a very desirable one to use where a tropical effect is wanted. No plant better stands the changes of temperature and atmosphere, which makes it most valuable for house growth. Each, 30c; large, $1.00.

Baby Ficus—Smaller leaves. Each, 25c.

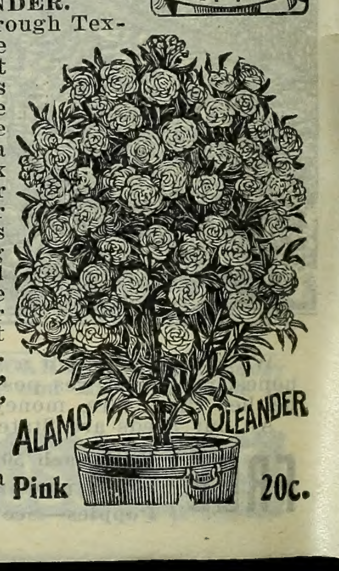
THE ALAMO OLEANDER.

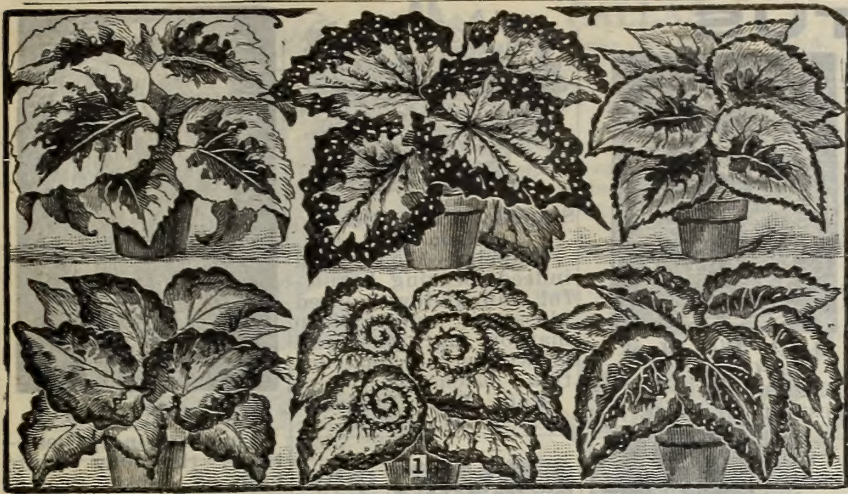
On one of our trips through Texas, we found growing near the Alamo, the birth-place of Texas liberty, a magnificent group of Oleanders. The glorious plants were in full bloom, and we obtained the finest of them all, and have named same "The Alamo." It is a large semi-double, pink bloomer. No matter how badly the Oleander is treated, whether it is put in the cellar during the winter, or in a cold room, it rewards the grower in the summer and fall with a great abundance of blossoms. **Price. Pink Alamo, each, 20c; Double, Semi-White, each, 20c.**



UMBRELLA PLANT.

Splendid for vases or in water, where a magnificent effect is desired. Each, 15c.





Types of Salzer's Charming Rex Begonias.

CHARMING REX BEGONIAS.

Among the rarest, choicest Plants that grow are found the Rex and Blooming Begonias. Indeed, today no collection is complete without these exquisite beauties. The leaves of the Rex varieties are massive and grand, while the blossoms of the Blooming sorts are unrivaled.

Countess Louise Erdody—See Cut No. 1—The striking peculiarity which distinguishes it from all other Begonias consists in the fact that the two lobes at the base of the leaf do not grow side by side, but one of them winds in a spiral-like way until in a full grown leaf there are four of these twists lying on the top of the leaf. Each, 35c.

Drops of Blood—This is a superb new variety recently imported. The leaf is dark, with center blotched with red of a blood hue. It is without question the finest Begonia grown. Each, 25c.

Queen of Hanover—Leaves silvery white, sometimes greenish white; border veined; very fine. Each, 25c.

Scepter—One of the finest dark leaved varieties. Each, 25c.

Silverstate—A bright, silvery leaf; rapid growth. Each, 25c.

American Beauty—The grandest of all new Begonia Rex. It is simply perfect, both in growth and appearance. Each, 30c.

Above 6 Wonder Sorts, postpaid, $1.00.

OUR JEWEL COLLECTION.

Composed of our selection of rare Rex Begonia sorts, we offer postpaid:

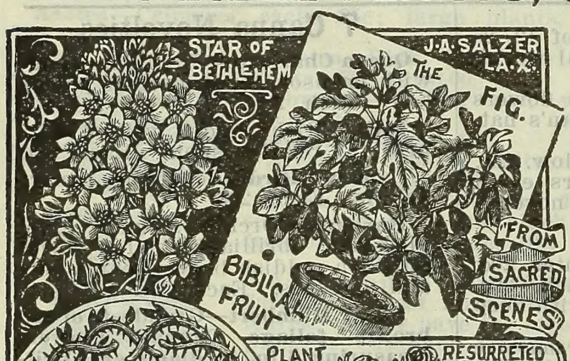
4 BIBLE PLANTS, 75c., POSTPAID.



1. CROWN OF THORNS, OR EUPHORBIA.

On the wild, rocky hills of Judea, and in the immediate neighborhood of Jerusalem, this emblematic plant is found. It is a peculiar plant, thorny, with a few bright green leaves, and an abundance of light **rose blossoms,** of the easiest possible culture, and can be trained to assume any shape, as a crown, anchor, harp, wreath, cross, etc. **The "Crown of Thorns" worn by our Savior** was made out of this plant. Indeed, some sacred historians assert that the drink given to our Savior before his death was made from the juice of this plant. **Each, 25c; large size, 50c.**

2. THE FIG.

The fig, this great Bible plant, is of the easiest culture, can be placed in cellar during the winter and started early in spring. Bears abundantly; lots of absorbing interest and pleasure growing it! You will like it and your children will rave over the fig. Each, 25c; 2d size, 50c.

3. THE RESURRECTION PLANT.

Among the pines and cedars of Palestine, this singular plant is found. Imagine a bunch of withered looking shoots, brown, stiff and apparently dead; place it in water, and within an hour it is transformed from a withered-looking bunch into a lovely patch of green moss. Each, 15c; 2 for 25c.

4. STAR OF BETHLEHEM.

In the valleys of Jezreel and Hebron, at the foot of Mount Tabor and the Lebanon Mountains, also throughout the plains and valleys watered by the Jordan, this pale blue, almost white, star-like, bulbous plant grows wild. Each, 15c; 3 for 40c.

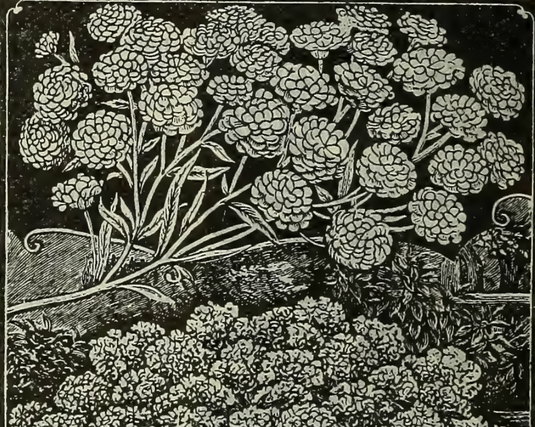
ACHILLEA.

Salzer's Giant. Each, 15c.



Giant Achillea—The 5,000 Blossom Plant.

Queen of all hardy, free flowering, constantly blooming, pure white flowers. We cannot too strongly urge you to plant a few of our Achilleas, hardy as oak, a profuse bloomer, and will do well everywhere. It is a hardy perennial, the top dying down to the ground every winter. Its many branches grow to the length of 1 or 2 feet, holding their great mass of pure white feverfew-like flowers about a foot above the soil. For **cemetery planting,** it is the most valuable of all **WHITE** flowers. **If there was but one white flower in our garden, the Achillea Alba would be the one. Its 5,000 pure snow-white perfect blossoms would accord it the place. It is hardy as oak and blooms from May until snow flies. Giant Achillea, each 15c; 2 for 25c; 5 for 50c; 10 for 75c.**

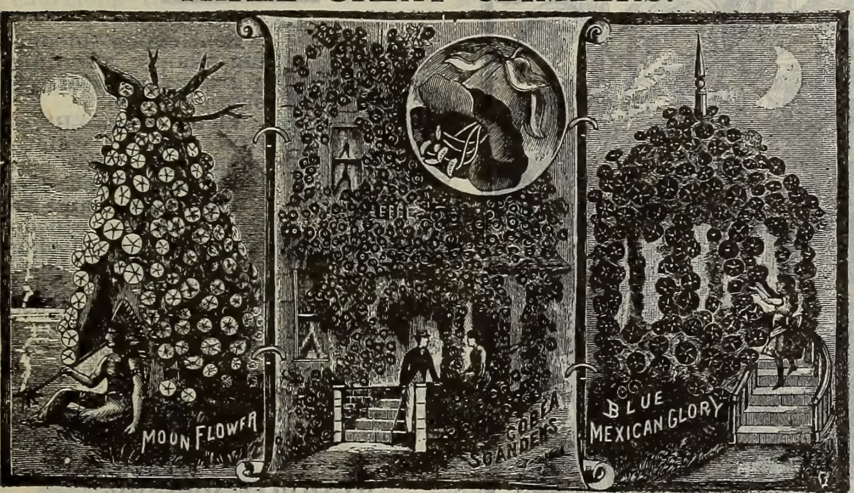
THREE GREAT CLIMBERS.



1. NEW GIANT MOON FLOWER.

It grows anywhere there are old trees, walls or strings to cling to, **growing 50 feet in one season; blooms continuously** from June to November, its **moon-like** flowers being of the purest white, of giant size; blooming only at night or on dull days; gives out a delicious odor similar to the jasmine. **Extra strong plants, each 20c; 3 for 50c; 12 for $1.75, by mail. Seed, 15c per pkg.**

2. COBEA SCANDENS, OR MEXICAN GLORY.

Three or four plants placed on the side of the house will cover it fully twenty feet wide and rival each other as to which will reach the top of the roof first, and will all the while display a purple blossom glory unknown to any other flower or vine, continually lavishing its mass of great purple, bell-shaped, perfect pendant blossoms, borne on long stems, during the whole season. Its leaves are fresh, green, of unusual beauty of cut, while the gorgeous glory of its great purple blossoms stands unrivaled in the great domain of Flora. **Each, 20c; 3 for 50c; 12 for $1.25; seed, per pkg., 15c; free by mail.**

3. BLUE MEXICAN GLORY.

This magnificent blue blooming Glory blossoms in great profusion. It is similar to the Moon Flower in growth, with blossoms from 3 to 8 inches in diameter. **Each, 20c; 3 for 50c; 12 for $1.25, by mail. Seed, pkg., 10c. One each of above 3 Lightning Climbers, 40c.**

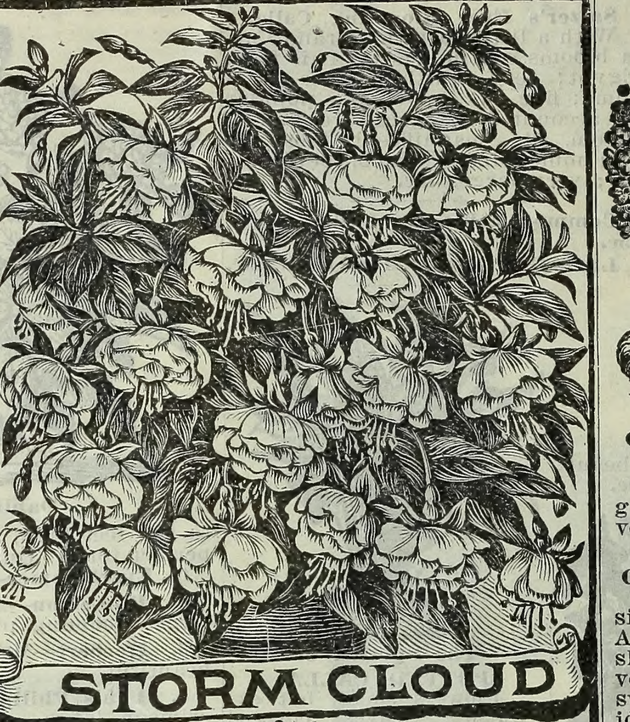
MIDNIGHT



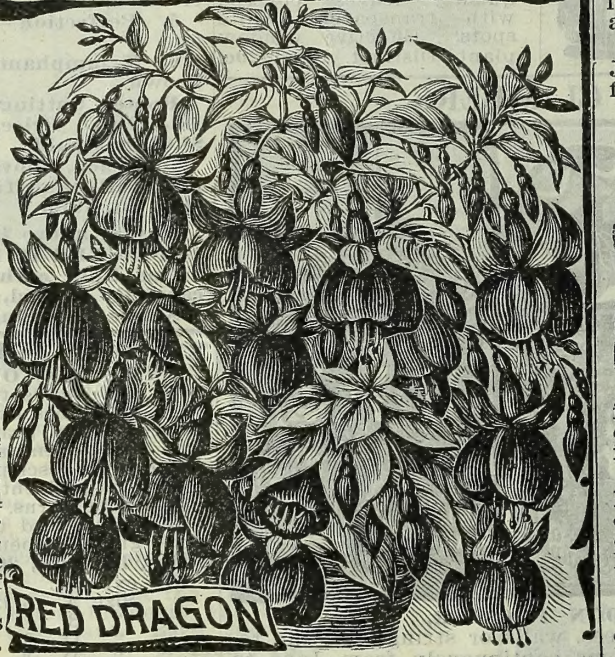
STORM CLOUD

3 RARE FUCHSIAS, 40c.

1. Storm Cloud—We have a bed of several hundred large plants, that is, at the time of writing, one solid mass of great, glorious, snow-white balls, a sight worth coming miles to see, and hundreds of city visittors have been here daily, admiring this garndeur. It is the largest, finest double white Fuchsia, and its great snow-white balls, borne in such prodigal profusion, almost completely hide the foliage of the plant. **Each, 20c; 5 for $1.00.**

2. Midnight—This is an acquisition. Grows somewhat taller than its companion Storm Cloud. but for genuine beauty its deep midnight blossoms are hard to beat, and is certainly the largest, finest, most floriferous, dark purple Fuchsia grown, having good habits, very healthy, bushy, and covering itself with great blossoms. **Each, 20c; 5 for $1.00.**

3. Red Dragon–Pre-eminently beautiful. While Storm Cloud and Midnight are great balls of Fuchsia blooms, Red Dragon assumes an elongated shape, the blossoms often measuring 3 to 4 inches in length, and of an original new crimson-red hue. It is exceedingly floriferous; the original seedling, when 9 months old, bore at one time 167 large, long, lovely buds and blossoms of a peculiar, indescribable vermillion velvety crimson color, that must be seen to be appreciated, as no pen can describe this "blue-blood" novelty. **Each, 20c.**



RED DRAGON

Salleroi, 15c.

SEVEN BEST DOUBLE GERANIUMS.

The following seven are the rarest, choicest, finest of a long list of over 200 Double Geraniums. Each one of the seven is a gem in the fullest sense of the word. They are splendid bedding Geraniums, and also make magnificent pot plants.

1. S. A. NUTT. (RED.) It is safe to say that there are **ten times** more Nutt Geraniums planted each year, than of any other **ONE** variety. It simply is the very best of the **dark double crimson scarlet** bedders, always in heavy demand. We have a very large stock of it; stands the sun perfectly, and is always a mass of bloom. Each, 20c; 3 for 50c; 10 for $1.20.

2. RARE GERANIUM, JEAN VIAUD. (PINK.) This is a wonderful Geranium. Semi-double, with single flowerets often measuring **2½ inches in diameter,** making up enormous trusses frequently **15 inches in circumference.**

The color is a clear rosy pink with a distinct striking white blotch at the center. It is a rare Geranium, a wonderful Geranium, sure to please. **Price, each 20c; 3 for 50c.**

3. GEN. GRANT. (SCARLET.) Henderson devotes a half page of his catalog to this wonderful Geranium, calling it the "Leading Scarlet Double, full fire, Bedding Geranium." Color bright vermillion scarlet; full round; giant florets; borne in colossal trusses on long stems; very distinct, clean, healthy foliage with a profusion of bloom. Price, 20c each; 3 for 50c.

4. NEW GERANIUM TRAGO. (SCARLET.) Giant among the intense brilliant, scarlet, semi-double Geraniums. Single florets often measuring 7½ inches in circumference, or nearly 3 inches in diameter. The trusses are of colossal size, borne on long, stiff stems, a great rarity. Price, each, 20c; 3 for 50c.

5. MME. LANDRY. (APRICOT SALMON.) Constantly in bloom throughout winter and summer. The florets are very large and borne in enormous trusses on long stems. Color brilliant apricot salmon, shading to copper with eye; withstands the extreme heat of summer perfectly. Price, 20c each; 3 for 50c.

6. BERTHE DE PRESILLY. (DAY BREAK PINK.) Wonderful shade of silver rose; exquisite brightness; resembling the famous Day Break Carnation; blooms giant size; semi-double; finely shaped; robust habit; splendid for pot or bedding. Price, 20c each; 3 for 50c.

7. LA FAVORITE. (WHITE.) One of the finest double whites pure in color; flowers of an enormous size; continuous bloomer. Unsurpassed as a white bedder. Price, 20c each; 3 for 50.

One each of above 7 Doubles, 90c.

NEW IVY GERANIUMS.

Mrs. J. G. Day—Intense shade of rosy crimson rich and glowing. Each, 15c.

Colonel Powell—Flowers enormous size, giant among Ivy Geraniums. Color white, soft blush, something immense. Each, 15c.

Leopard—Single florets measure 2½ inches across. Semi-double. Colorings so brilliant and distinct as to resemble an orchid, a remarkable Geranium. Each 25c; 2 for 40c.

One each above 3 Ivy Geraniums, 45c.

BEDDING PLANTS.

We grow immense quantities of this class of stock for planting out early in spring for beds and border purposes. The stock is healthy, large, fine for immediate effect. For a showy bed, the Cannas—either the green or redleaf variety for the center, and then bordered by Coleus or Ageratum make magnificent, gorgeous display.

The Caladium do splendidly for a round bed in a garden and can be bordered with Coleus or Golden Feather or Heliotrope.

It is nice to border the Geranium bed with a silver variety like Salvias. In arranging beds, Cannas should be set about 2 feet apart each way; Caladium, 2 feet; Geraniums, 16 inches; Salvias, 16 inches. The other plants about 12 inches. If sent by express we add extra plants to partially cover express charges. Prices quoted are by express; if by mail add 20c per each 10 for postage.

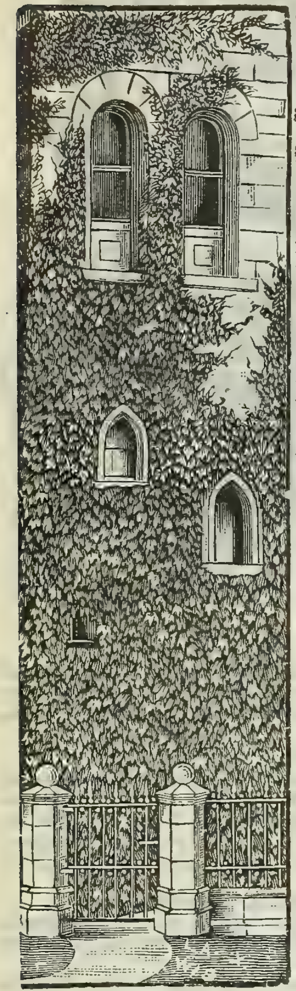
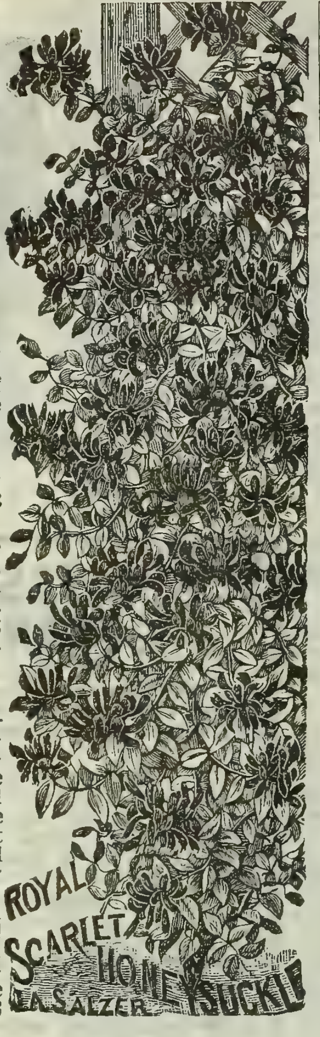
HARDY OUTDOOR CLIMBERS.



Ampelopsis Veitchii, 20c.



Ampelopsis Veitchii.

It clings firmly to any wall or tree; needs no support. The leaves at first are of an olive green color, then brown, changing to bright scarlet in the autumn. Indescribably grand. No climber just like it. It's handsome. Try it! Each, 20c; 3 for 50c; 7 for $1.00. Extra size, each, 40c; 3 for $1.00.

Ampelopsis Englemanii. (New)

The most magnificent of all Ampelosis varieties, perfectly hardy, of wondrously free growth, covering walls and trellises with bright, shiny, overlapping foliage, brilliantly beautiful. Each, 25c; 3 for 60c.

Ampelopsis Virginia.

A vine well known; climbing in one season to the height of 20 feet. It is as hardy as oak; does well anywhere. Each, 20c.

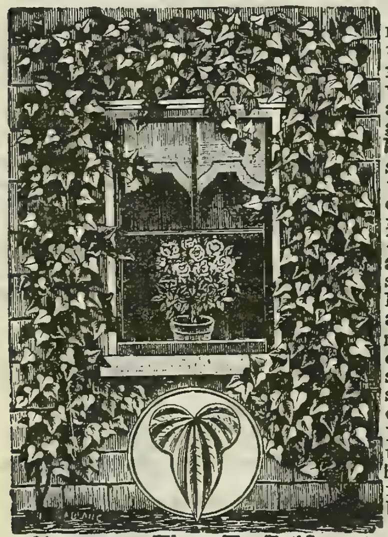
Honeysuckles.

1. **Royal Scarlet**—The prince of all Honeysuckles; climbs rapidly, attaining the height of 20 feet and bears innumerable bright scarlet, fragrant blossoms. The Royal Scarlet is extremely hardy and floriferous A three-year-old plant is known to have had by actual count over 2,000 great scarlet clusters of bloom in one season. Each, 20c; 3 for 50c.

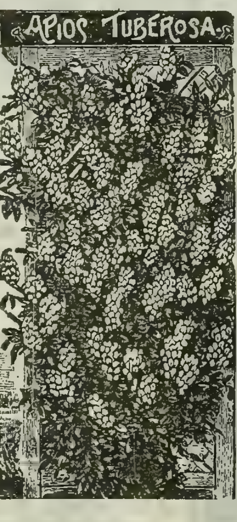
2. **Happy Childhood**—Our new, pure, white seedling. Grows very rapidly and bears great quantities of pure white, very fragrant flowers. Hardy. Each, 20c; 3 for 50c.

3. **Golden Beauty**—Bears very long golden yellow blossoms in great profusion. Each, 20c; 3 for 50c.

2 HARDY CLIMBERS, 20 CENTS.



Cinnamon Vine, Each 10c.



1. **The Great Cinnamon Vine.**—It is safe to say that there are millions more of this vine distributed than any other. It's **"the grandest vine,"** with beautiful, shiny, heart-shaped leaves. The vine cannot be described, so beautiful is its rapid growth, a single 10c plant making vines and laterals in one season fully 3,000 feet long. The blossoms are fine, of a rich cinnamon fragrance. They die down in fall, but spring up in early spring with greater energy than before. Mr. Salzer urges you to plant these two hardy vines—both Cinnamon and Apios are beauties of a rare order! Each, 10c; 3 for 20c; 10 for 60c, postpaid.

2. **Apios Tuberosa**—A matchless beauty, hardy as oak, having clusters of rich deep purple flowers, of delicious violet fragrance. Grows stronger each year. Each, 15c; 3 for 35c.

One each above 2, 20c; 3 plants of each, 40c.

TUBEROSES.

Belle of S.C.

Indeed, they will average 99 bloomers out of every 100 bulbs. They should be planted early in 5-inch pots, in rich sandy loam, watered moderately, beginning to bloom as early as July or August, and continuing for some months. A good way to have succession of bloom would be to plant bulbs every second week.

Pearl—Dwarf habit, free blooming; extra. Each, 8c; 2 for 15c; 10 for 50c; 25 for $1.00.

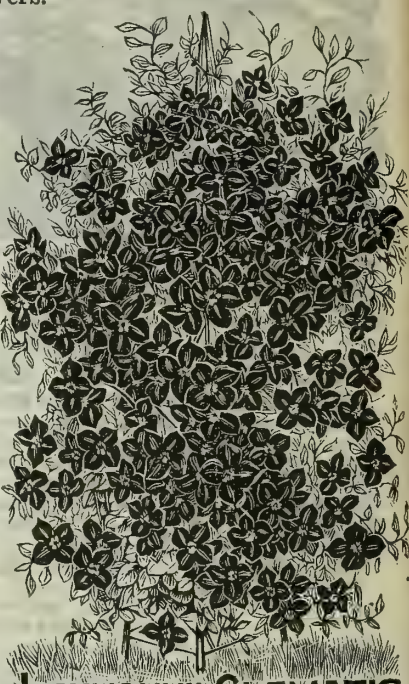
Double—Each, 5c; 3 for 15c; 10 for 25c.

BELLE OF SOUTH CAROLINA TUBEROSE.

A novelty; very double and free blooming. Each, 10c; 2 for 15c; 10 for 60c.

CLEMATIS.

The royal glory of this splendid, everblooming flower may well be said to mark it as a prince among all hardy flowering vines. We presume every one of our customers who sees it bloom each Summer promises to plant it in his own yard or garden at the next opportunity. It is especially adapted to open lawns or house fronts in the city or country. Perfectly hardy; blooms the entire season, bearing beautiful and lasting flowers.



JACKMANNII CLEMATIS

1. Clematis Jackmannii.—This Clematis, with its royal purple giant blossoms, is easily the Prince of all Clematis. It begins blooming usually the same season, and then forever thereafter it is lavish with its floral glory. On a 3-year-old plant it is not unusual to see from 100 to 200 blossoms at one time. The Jackmannii blooms early and continually. The blossoms are very large, thick in texture, and of rich deep purple. The 50c sizes are strong and will with ordinary care bloom freely this summer.

Price, 1st size, 50c each, 2nd size, 30c.

2. **Claret**—Wine color, always rare, gorgeous blooms, 1st, 50c; 2nd, 30c.

3. **Snowflake**—Very fine white variety, blooming freely, bearing hundreds of blossoms. 1st size, 50c; 2nd size, 30c.

4. **Sky Blue**--Exquisitely beautiful, large blossoms, very rare, 1st size, 50c; 2nd size, 30c.

PRICE OF CLEMATIS.

1 each above 4 large flowering Clematis, 1st size, $1.75, 1 each above, 2nd size, $1.00. Any 2, 1st size, $1.00; any 2, 2nd size 55c.

CLEMATIS PANICULATA.

A vine of very rapid growth, quickly covering trellises and arbors with handsome, clean, glossy green foliage. The flowers are of medium size, pure white, borne in immense sheets and of a most delicious and penetrating fragrance. The flowers appear in September, at a season when few other vines are in bloom. The extreme rapidity of growth, the showy foliage, beautiful and fragrant flowers and hardiness, serve to make this one of the very choicest of recent introductions. **Each, 25c; 3 for 60c.**

9 HARDY SHRUBS POSTPAID, $1.00.

WISTERIA

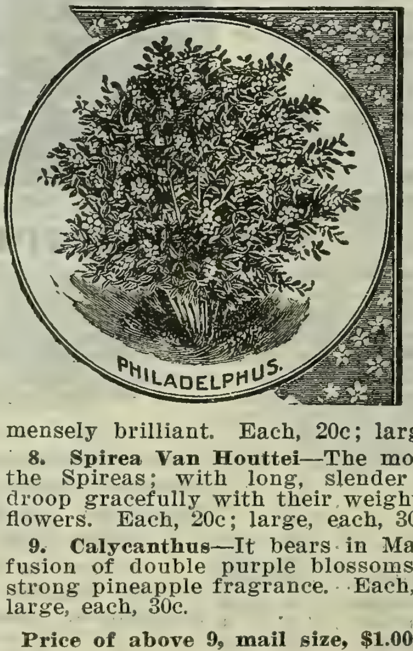
3. **Persian Lilac**—Bears its enormous trusses often ten inches long of pure white, strongly fragrant. Each, 20c. Express size, large, each, 30c.

4. **Spirea Bumalda**—Blooming from July until killed by frost. The blossoms are large and of a bright rose color; perfectly hardy. Each, 25c. Express size, large, each, 30c.

5. **Weigelia Rosea**—Laden with fine bell-shaped pink blossoms during June. Each, 25. Express size, large, each, 30c.



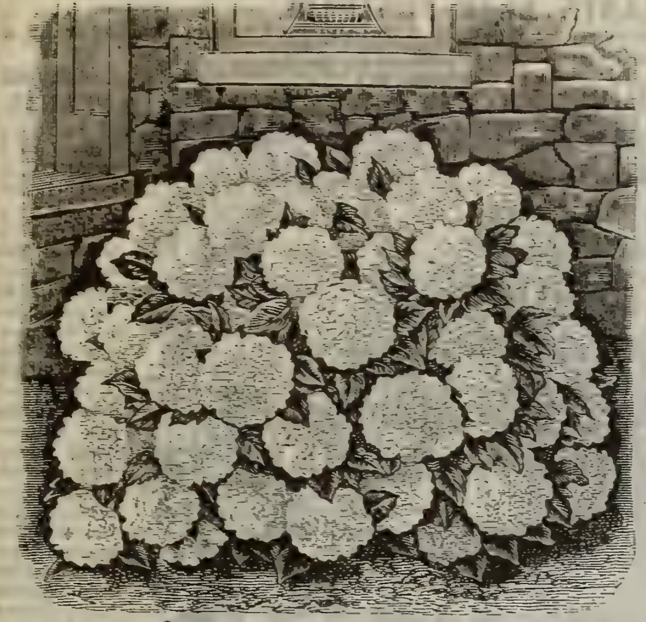
6. **Philadelphus**—The blossoms are large, pure white, waxy, of delicious orange fragrance, and borne in prodigal profusion; absolutely hardy. Each, 20c; 3 for 50c. Express size, large, each, 30c.

7. **Forsythia or Golden Bell**—Robes itself, during April and May, the length of its branches, in pendulus bells of a bright yellow color. Immensely brilliant. Each, 20c; large, 30c.

8. **Spirea Van Houttei**—The most showy of all the Spireas; with long, slender branches that droop gracefully with their weight of pure white flowers. Each, 20c; large, each, 30c.

9. **Calycanthus**—It bears in May a great profusion of double purple blossoms, which have a strong pineapple fragrance. Each, 15c; 3 for 40c; large, each, 30c.

Price of above 9, mail size, $1.00; any 3 for 45c; any 6 for 75c, postpaid. Express size, large, the 9 for $1.75.



A 4th Sized Hydrangea Plant on Salzer's Lawn!

HYDRANGEA GRANDIFLORA.

Its equal has yet to be found. Indeed, it is the finest hardy shrub in cultivation; flowers are formed in large white trusses 6 to 10 inches in length, remaining in bloom until killed by frost. The flowers turn to rosy pink in the fall. It is as hardy as oak and a profuse bloomer; grows 6 feet high. Had a bush on our grounds 4 years old, **in bloom last fall, and there were on it over 300 great trusses** of flowers. As shown in the engraving, the plant is of compact and sturdy habit, and when laden with its great masses of bloom is exceedingly striking and attractive. This noble shrub adorns alike with its superb presence the cottage, farmyard, large lawns, extensive grounds, parks, etc., and is especially desirable when grown as single specimen plants, as shown in our illustration. A universal favorite. Splendid for cemetery. Stands 60 degrees below zero.

Prices according to size.

SALZER'S HAPPY HOME COLLECTION OF 21 PLANTS $1.20 POSTPAID.

This great plant collection, composed of the best the greenhouses of America or Europe can furnish, a rainbow of colors, we offer at a price so completely within the reach of everybody, whether rich or poor, that we predict it will take

1,000,000 PLANTS to fill our orders for 1910. Well, no matter; we have them. To meet the demand of our plant trade we are obliged to grow enormous stocks of all kinds of roses, plants and bulbs—often more than necessary—to make sure that we have enough; so after the heavy spring business is about over, in May, we take this stock of various rare and good things and make it into a Happy Home Collection, and offer them to our customers at 21 plants for $1.00, giving them 3 to 4 times the value of their money. They will be sent free by mail. All collection orders are booked and will be shipped as early in the season as our stock permits.

This collection is immensely popular among our customers.

THE ROSE.

Hundreds of new roses are being offered to the people of America at present by florists, and of the long list but few are really of lasting merit, or such that will reward the ordinary grower with anything like "paying buds." One or two buds a year from a new Rose with a high, commanding title is certainly not as good as 100 or more buds from a trusted, tried and standard Rose; hence our list this year contains only the cream of free bloomers.

EVER BLOOMING ROSES.

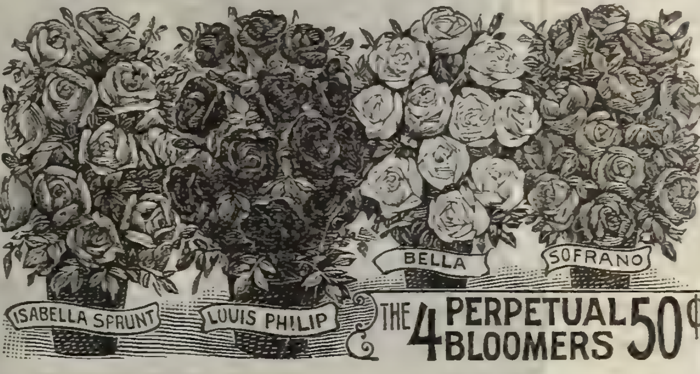
FOUR PERPETUAL BLOOMERS, 50c.

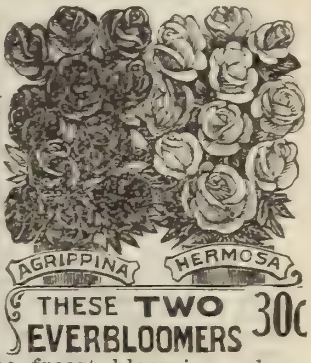
Of these four extremely free flowering Roses we sold the past four years upward of 100,000 plants, and no Roses on earth bloom more freely than these.

1. **Bella**—The sweetest, freest bloomer, of pure snowy white. Each, 15c.
2. **Louis Philip**—The grandest, freest blooming crimson red Rose known. 15c.
3. **Isabella Sprunt**—No breed so fine, no yellow Rose so free of bloom. 15c.
4. **Sofrano**—Grand saffron or coffee colored; exquisite buds; free bloomer. Each, 15c.

They never fail you.

Price of the four, 50c, postpaid.





Agrippina—A magnificent Rose, blooming almost continuously; color, intense dark red. Makes a magnificent bud for buttonhole purposes. Each, 20c; 3 for 50c.

Hermosa—The freest blooming, glorious pink Rose in cultivation; an everbloomer; magnificent in every respect. Each, 20c; 3 for 50c.

One each of above two, postpaid, 30c.

FIVE EVERBLOOMING ROSES, 60c.

1. **The Bride**—Flowers giant size, pure white, long stems, magnificent buds. Each, 15c.
2. **Woutton**—Striking and brilliant violet crimson, everblooming Rose; flowers are large, full and regular. Each, 25c.
3. **Clothilde Soupert**—The color is pearl white, deepening to carmine in the center and it certainly surpasses all other varieties as an everblooming pot Rose. Each, 20c.
4. **Perle des Jardins**—Color, clear golden yellow. Its proud buds are of colossal size. Each, 15c.
5. **Catherine Mermet**—A glorious everblooming Tea Rose; bright flesh color; of easy cultivation; buds of mammoth size. Each, 15c.

Perle des Jardins.

FANCY ROSES.

1. AMERICAN BEAUTY ROSE.

Proudest and noblest of all Roses, that's what the American Beauty can truly claim. It has the true hybrid fragrance, and this, with a large size (blossoms often **7 inches in diameter**), rich, **deep crimson** color and free blooming properties, makes it the finest Rose in America today. Flourishes outdoors with slight winter protection. Each, 30c; large plants, 50c each.

2. LIBERTY.

A brilliant, deep red, monthly Rose, of gorgeous buds. Each, 30c; large, each, 50c.

3. GOLDEN GATE.

White, tinged with intense orange. Each, 30c; 2d size, 50c.

4. MARSHAL NIEL.

A glorious Rose, great giant, sulphur yellow, ball-shaped, fragrant blossoms. Hardy south of St. Louis. Each, 20c; 2d size, 50c.

5. KILLARNEY.

Probably no Rose has ever taken such a prominent place so quickly as Killarney. It is one of the most popular of our garden Roses, and also one of the leading varieties for winter cut flowers. It is perfectly hardy in this latitude; in growth it is strong and robust, and as free-flowering as any Rose we know. In color it is a sparkling, brilliant, imperial pink; the blooms are large, the buds long and pointed, the petals very large and of great substance, and just as handsome in the full-blown flower as in the bud form. Each, 20c; large, 30c.

6. MAMAN COCHET.

An extra strong grower, producing its large buds and flowers in the greatest profusion; color deep rose-pink, inner side of petals silvery-rose; borne on long stout stems; very double and exquisite in bud or when full bloom. Each, 20c; large, 30c.

7. CHATENAY.

A great rose, used largely for cut flowers, large monster, rosy carmine buds. Each, 20c; large, 30c.

One each of above 7, $1.00; 7 large, $1.50.

SALZER'S EIGHT HARDY HYBRID GARDEN ROSES.

SALZER'S RARE GARDEN ROSES.

1. Gruss aus Teplitz—One of the very brightest colored Roses extant, of peculiar lasting qualities, retaining its magnificent vivid, rich, fiery red coloring even during the hottest summer weather. It blooms more freely than the monthly rose. It's great; it's a blooming wonder. 2 year old, each, 35c; 3 for $1.00, by express. By mail, small plants each, 20c.

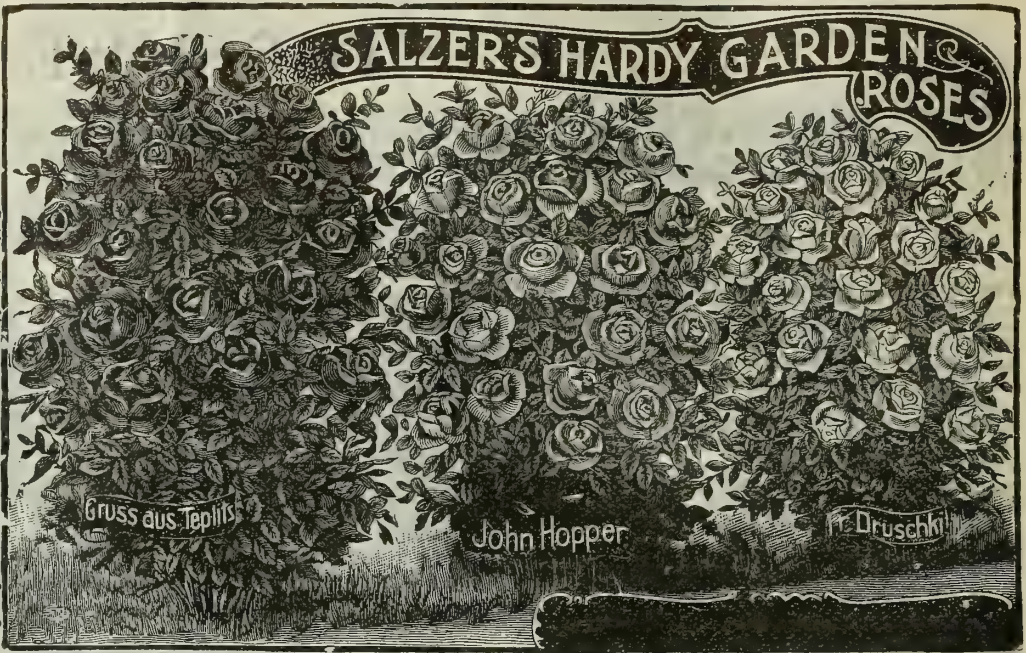
2. Frau Karl Druschki—**The ideal hardy white Rose.** Its flowers, which are very large, are perfect in form and snow-white in color, with large shell-shaped petals, forming a beautiful flower. The plant is a strong, vigorous, healthy grower, and remarkably free-flowering. Two year old, 40c each; 3 for $1.10. By mail, small plants each, 25c.

3. John Hopper—Bright Rose, carmine center; flowers large, cupped and well formed. Two year old, each, 35c; 3 for $1.00. By mail, small plants, each, 20c.

4. Souvenir de Pierre Notting—The ideal yellow bedding Rose; has exceptionally large flowers, which in form and beauty surpass almost everything in the rose garden. In color it is a deep, apricot-yellow shaded with orange; rich and beautiful. Two-year-old, 50c each, 3 for $1.25. By mail, small plants, each, 25c.

☞One each above 4 Rare Roses, by mail, 75c.

☞One each above 4 Rare Roses, 2 year old, large, by express, $1.50.



The above 4 Rare Garden Roses are without question the most wonderful creations in the hardy rose garden produced in recent years. They are Everbloomers! On my own grounds, 2 year old plants, planted May 1, were never out of bloom until frost.

1. CATALPA SPESIOSA.

The most wonderfully luxuriant foliage imaginable adorns the Catalpa, with majestic, massive,

Giant Leaves Often 50 Inches in Circumference.

It is a wonderful grower; a 15 cent plant often grows to 7 feet the first summer and a five-year-old tree attains the height of 25 feet; grows symmetrical and is loaded with 300 to 500 immense panicles of massive white dotted with purple blossoms. It is truly a regal tree, and its appearance reminds one of the luxuriance of the tropics. It is hardy in Wisconsin—yes, everywhere. It is a grand tree.

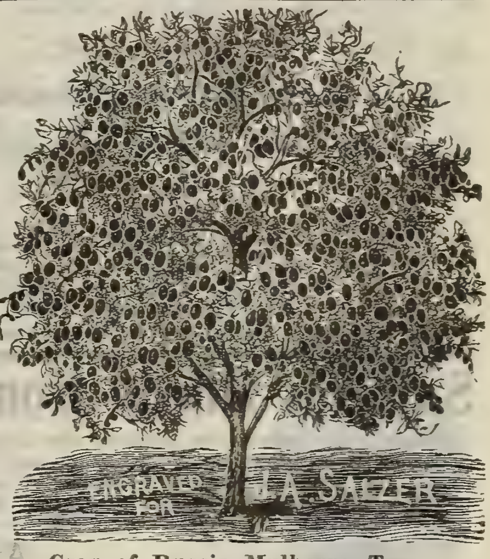
By mail, postpaid: Each, 15c; 2 for 25c; 10 for $1.00; 25 for $2.00.

By express: Large trees, 5 to 7 feet tall, each, 40c; 3 for $1.00.

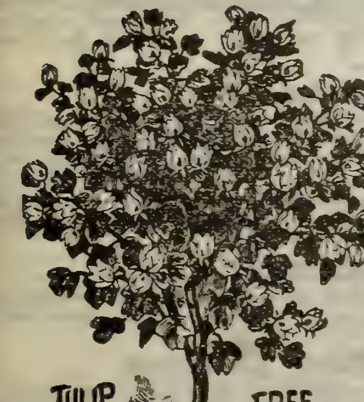
Seed: Pkg., 10c; oz., 15c; ¼ lb., 30c; lb., $1.00, postpaid.

2. MULBERRY, CZAR OF RUSSIA.

It grows as freely here as any forest tree, and can be planted anywhere. It bears when but two or three years old, according to size, from 1 to 10 bushels of fruit, which, when ripe, falls to the ground and is eagerly eaten by fowls and pigs, which thrive on same remarkably. A few trees will sustain a large flock of fowls and a drove of pigs for two or three months, as they bear and ripen their fruit for a long period. The fruit has a subacid, sweet taste, and is used for dessert as we use Blackberries or Raspberries. **Price, mailing size:** Each, 20c; 3 for 50c; 8 for $1.00, postpaid. **Large trees, 5 to 7 feet, each 40c; 3 for $1.00.**



Czar of Russia Mulberry Tree, 5 Years Old.



3. Tulip Tree.

This is a most magnificent tree of rapid and beautiful growth, and bearing in May and June thousands of yellowish-white flowers, the size and shape of tulips from which it derives its name. Plant one or two by all means. Each, mailing size, 25c; 3 for 60c; 10 for $1.25, postpaid.

Large trees, 5 to 7 feet, 50c each; 3 for $1.15.

Seed, pkg., 10c; oz., 15c; ¼ lb., 50c.

4. Cut Leaf Birch.

Without question one of the most elegant of all pendulous trees. Its tall, slender, vigorous growth, graceful, drooping habit, silvery-white bark and delicately cut foliage present a combination of attractive characteristics rarely met with in a single tree.

Price: Large trees, 5 to 7 feet, 90c each, 3 for $2.50.

5. Cut Leaf Maple.

A silver maple with remarkable and beautifully dissected foliage; of rapid growth; shoots slender and drooping, giving it a very graceful appearance; magnificent in every respect. A noble tree. Will give tremendous satisfaction. One on my lawn could not be had for $100.00, only 10 years old! It's as hardy as the hardiest oak!

Price: Large trees, 5 to 7 feet tall, 70c each; 3 for $2.00.

Salzer's Hardy Ironclad Fruit Trees. The 15 for $1.65, Postpaid.

There is a tremendous demand for Apples, Crabapples, Cherries and Plums. Of these four varieties there are annually planted millions of trees throughout the U. S. The one year stock which we send by mail measures from 2 to 3½ ft. It is just the stock to plant by you, either for your garden or orchard, on account of its hardy, vigorous growth and of its doing so well and growing so rapidly, and usually bearing the second or third year after planting. Our northern grown stock is elegant, well-rooted, will grow rapidly and make fine established trees very quickly.

4. The Bismarck Apple.

Since 1896, when we obtained this apple on a visit to Europe, it has completely captured all hearts. The most remarkable fact about this Apple is that you do not have to wait until you are gray before it bears. Plants set out this year will give you fruit the next, while the second year following you will have lots of it.

The apples are very large in size, of excellent quality.

On a 4-Year-Old Bismarck Tree

on Mr. Salzer's private grounds at La Crosse were gathered 1½ bushels of the finest apples imaginable the past season! We consider it the greatest novelty ever offered in America.

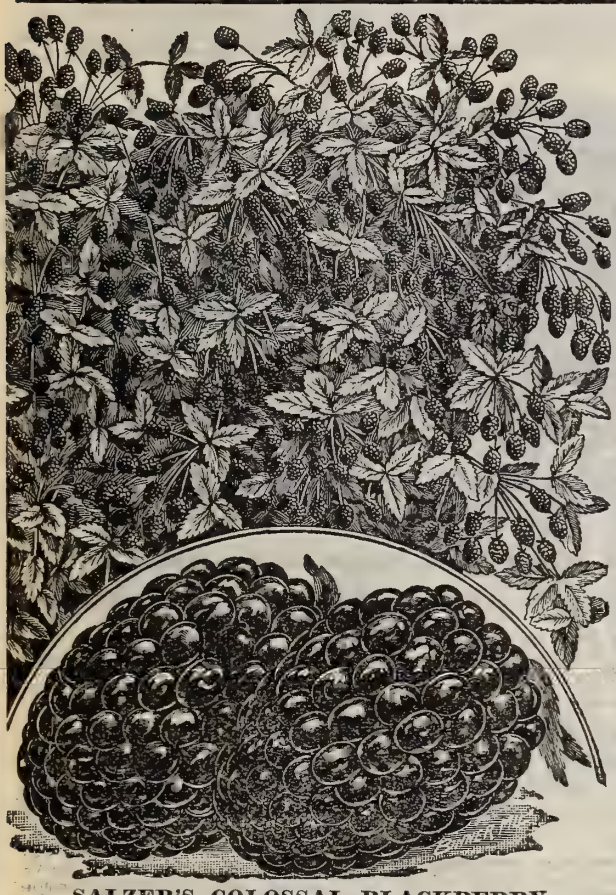
Milton Plum.

☞ BANANA APPLE.

Its introducers claim it to be the finest dessert Apple as also the most beautiful Apple in existence, wonderfully productive, bearing the second year after planting. The fruit is claimed to be the greatest Apple for table use ever introduced, of exquisite flavor and perfect form, selling rapidly from $5.00 to $10.00 a barrel.
Price, by mail, 35c; 3 for $1.00; by express, 3 to 4 feet, 50c each; 3 for $1.25.

BLACKBERRIES.



SALZER'S COLOSSAL BLACKBERRY.

This fruit has fairly leaped into popularity the past years. All over the country acres of same are being planted for market. When such excellent sorts are planted as Salzer's Colossal, The Governor, and the like, the profit is very large, often reaching $500 per acre after all expenses are paid. Of course, it depends upon your market.

1. Salzer's Colossal Blackberry.

Its **enormous large berries**, solid and delicious, especially adapt it for shipping; its extreme hardiness particularly adapts it to all manner of climates. The berry is very large, sweet, juicy, and of delicious flavor. Then, as to productiveness—it is simply productiveness itself; indeed, so early does it begin and so long does it remain bearing its giant fruit, that some have suggested the name "Salzer's Everbearer." **Each, 20c; 3 for 35c; 10 for $1.00, postpaid; 50 by express, $3.00.**

2. The Governor. (Salzer's.)

The berries are very large, round to oblong, ripen early, and continue to bear so late that many who have seen the patch pronounce them everbearing. A 3-year old vine yielded **23 quarts of fine, luscious berries.** Each, 20c; 3 for 35c; 10 for $1.00; 50 for $3.00 by Ex.

3. Minnesota King. (New.)

Perfectly hardy, originated in Minnesota. As a chance seedling it is without fault. It is an excellent berry for family use, for market garden use, and for shipping. It grows large, of delicious flavor. Each, 20c; 3 for 35c; 10 for $1.00, postpaid; 50, by express, $3.00.

ONE EACH ABOVE 3, 35c.

5 each of above 3, or 15 plants, by express, $1.25; 10 each, or 30 plants $2.50; 100 each, or 300 plants, $15.00.

Early Wilson Blackberry.

A very early sort; hardy and prolific. Is largely grown in the East. Each, 15c; 5 for 50c; 10 for 90c; by express, 100 for $2.50.

The Snyder Blackberry.

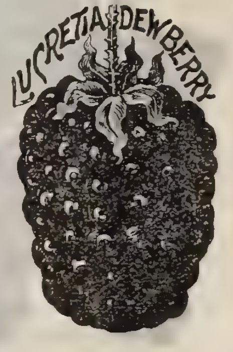
This is the standard, iron-clad sort; very productive, delicious and profitable. Each, 15c; 10 for 50c; by express, 100 for $2.25.

White Blackberry.

A real novelty that has lots of genuine merit. It's a grand berry and hardy. Each, 15c; 10 for $1.00.
Mixed Blackberry Seed—Pkg., 10c; oz., 30c.

Salzer's Mammoth Dewberry.

Enormous clusters of delicious fruit, larger, richer and more prolific than the Blackberry. It is perfectly hardy. **Each, 15c; 4 for 50c; 10 for $1.00, postpaid.**



Lucretia Dewberry.

The fruit, which ripens early, is often 1½ inches long by 1 inch in diameter; soft, sweet and luscious. **Each, 15c; 10 for 75c.**

CURRANTS

Our Northern-grown stock of Currants is valuable above Eastern and Southern, on account of its hardiness and vigor to withstand cold winters.

☞**We can always send larger plants by express than by mail.**

Salzer's Red Cherry—Large, very prolific, excellent flavor; cannot be too strongly recommended for general crop; is splendid for all purposes. 3 for 25c; 10 for 65, postpaid; by express, 10 for 55; 25 for $1.25; 50 for $2.35; 100 for $4.50.

White Cherry, or Grape—Large, white, sweet variety; unusually fine for table use. 3 for 25c; 10 for 65c, postpaid; by express, 25 for $1.25; 50 for $2.35; 100 for $4.50.

Black Cherry—Fine black sort, very large. 3 for 30c; 10 for 75c; 25, by express, $1.50.

Fay's Prolific—Remarkably prolific, berries often as large as cherries; 3 for 30c; 10 for 90c, postpaid; by express, 25 for $1.75; 50 for $3.00; 100 for $5.75.

Currant Seed—Mixed sorts. Pkg., 10c; oz., 40c.

Crandall Tree Currant.

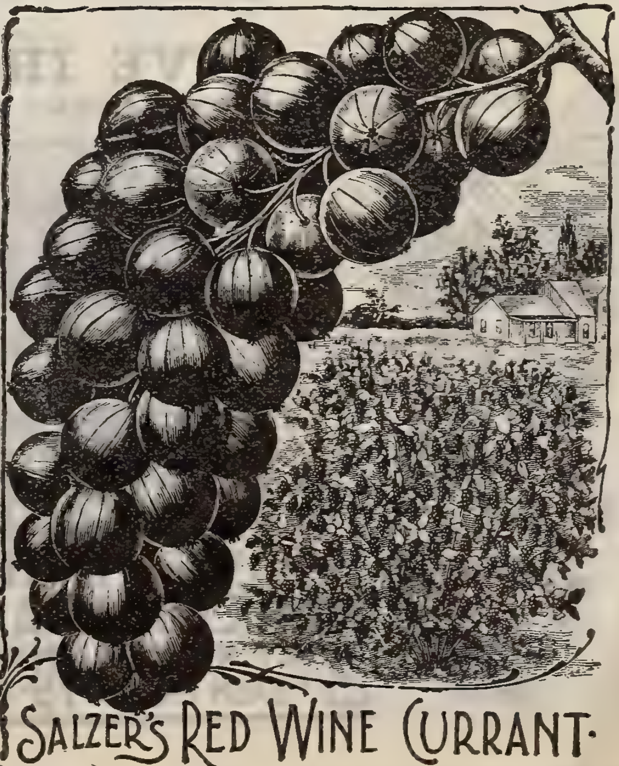
In size, it ranges from the very largest Cherry Currants to the size of Concord Grapes, berries ⅝ of an inch in diameter being very common. It attains a height of 5 to 6 feet, forming an enormous bush. Fruit the size of grapes, **jet black in color;** and very fine in flavor. Plants, each, 25c; 4 for 75c.

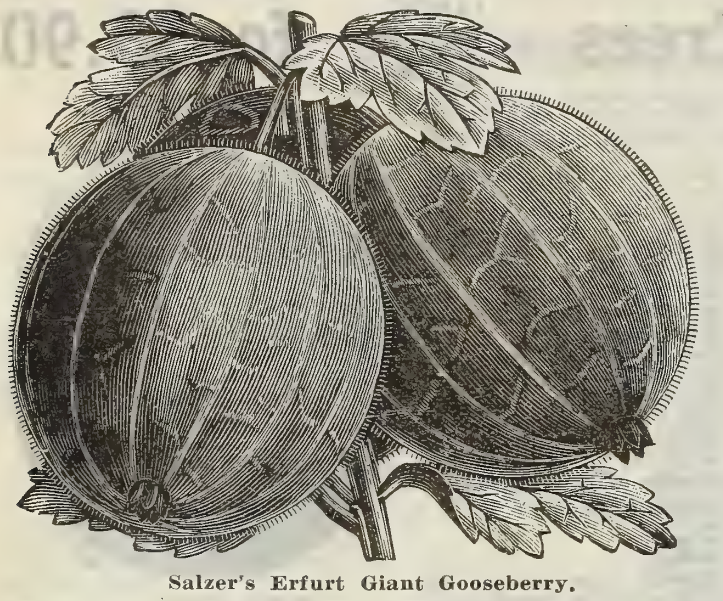
Currant Novelty—Salzer's Red Wine. ☞

For years there has been a call for an extra large fruiting, healthy, vigorous-growing Currant. This demand, we believe, can now be met fully in each and every particular in our magnificent new variety, Red Wine Currant. This has been carefully tested for several years and not found wanting. The berry is borne in large, long clusters of enormous size, bright red color. The fruit is singularly free from acid, and is bound to give great satisfaction. It is enormously productive, and withstands our coldest winters. It is positively the rarest, greatest Currant of the day. On our private place, it bore fruit the past summer often 1-2 to 4-7 of an inch in diameter; bore same in great clusters and singularly free from every objectionable feature. It's positively the greatest RED CURRANT of the age! If we had to pay $5.00 a plant we'd have the Red Wine every time!

Each, 20c; 3 for 50c; 10 for $1.50, postpaid.

By express, 10 for $1.25; 25 for $3.00; 50 for $5.50; 100 for $10.00.





Salzer's Erfurt Giant Gooseberry.

The Great Erfurt Giant Gooseberry.

The berry itself is enormous in size, and of the most delicious flavor. The color is green to red. It is singularly free from mildew, either in leaf or fruit, and is creating a sensation among Gooseberry growers. It will bring almost double the price of others in market. It is perfectly hardy. The berries are of a remarkable size, often 1½ inches in diameter. Has produced 60 berries on a twig 15 inches long. We consider it the rarest Gooseberry variety ever introduced into America. In order to give it a widespread introduction, we have placed the price at but one-quarter what its merits demand. We truly believe there is no better Gooseberry in the world to-day than the Erfurt Giant. It is of enormous size—that is, the berry—the growth is vigorous, while the fruit is peculiarly luscious. **Each, 25c; 3 for 50c; 7 for $1.10, postpaid; by express, 25 for $3.40; 100 for $13.50.**

Downing Gooseberry.

Large and fine. Probably the best known American variety; fruit very large, and the plant is enormously productive, bearing great quantities of excellent berries, fine, juicy, perfectly hardy. Each, 15c; 3 for 35c; 10 for $1.10, postpaid; 100 for $8.50; 25 for $2.25; 10 for $1.00 by express.

The Houghton Gooseberry.

A magnificent sort, enormously prolific, of strong growth, vigorous and healthy. Fruit medium size, fine and juicy. Each, 15c; 2 for 25c; 10 for $1.10, postpaid; 10, by express, $1.00; 25 for $2.25; 100 for $8.50, by express.

Industry Gooseberry.

The best English Gooseberry yet introduced, of vigorous, upright growth; greatest cropper and freest from mildew of any of the English varieties; berries of the largest size—1½ inches in diameter—and of the most excellent flavor; both pleasant and rich; color, when fully ripe, dark red. Each, 20c; 3 for 50c; 10 for $1.65, postpaid; 10, by express, $1.40; 100 for $13.00.

Mixed Gooseberry Seed—Pkg., 10c; oz., 75c.

GRAPES.

Our Grape varieties are the cream, the best, the hardiest and most fruitful, selected out of over 300 American varieties. These sorts stood 40° below zero, and bore heavily in our latitude last season. There is no fruit more delicious than Grapes, and none that yields a more prompt and generous return. Everybody who has a few feet of vacant ground, a bare wall, fence or outbuilding, can plant a few grape vines and have annual returns of the most delicious and noble fruit under the sun.

SALZER'S CONCORD

SALZER'S CONCORD

Salzer's Concord produces about twice the amount of fruit found on the common Concord Grape. It is very prolific, hardy as oak, and has never failed to ripen at La Crosse. With each succeeding year it gains new friends; indeed, there is no dark colored Grape except Salzer's Earliest that is its peer. It is so early, so luscious, so large, and so hardy that it ought to find a place in every garden in America. **Postpaid, each, 20c; 5, 60c; 10, 90c; by express, 25 for $2.00; 50, $3.50; 100, $6.50.**

SALZER'S GOLDEN POCKLINGTON
3 YEARS OLD
231
231 FINE BUNCHES FROM 3 YEAR OLD VINE.

231 Great Bunches Grown by J. L. Case, Marion County, Kansas.

SALZER'S Golden Pocklington.

J. L. Case, of Marion County, Kan., writes us in July: "Last spring I purchased a 2-year-old Pocklington Grape vine from you. It is now ripe and has 231 full grown bunches! They are the richest novelty ever seen here."

Salzer's Pocklington must not be compared with the ones sold by other seedsmen.

No golden-white Grape exceeds this in yield, luciousness, and earliness. Bears large fruit and is perfectly hardy. **Price of Salzer's Golden Pocklington—Each, 20c; 3, 50c; 10, $1.50, postpaid; by express, 100, $10.00.**

Salzer's Strain of Moore's Early.

This is positively the finest dark extra early, extra sweet, extra luscious, extra fine, extra hardy—standing 40° below at La Crosse without covering—we say this is the finest strain extant of this popular Grape. We have greatly improved same, hence the small additional price: Each, 25; 5 for $1.00; 10 for $1.75; 100 for $12.50.

TWO GREAT NOVELTIES.

1. Salzers Earliest.

It is a splendid Grape throughout, large, full, luscious, and of a decidedly better quality than the Concord, which it resembles in type. It is very hardy, very prolific, bearing great bunches of deliciously flavored fruit, which is very large, very luscious, very sweet, and will surely please. It's the earliest black Grape we know! Each, 25c; 5, $1; 10, $1.75; 100, $12.50

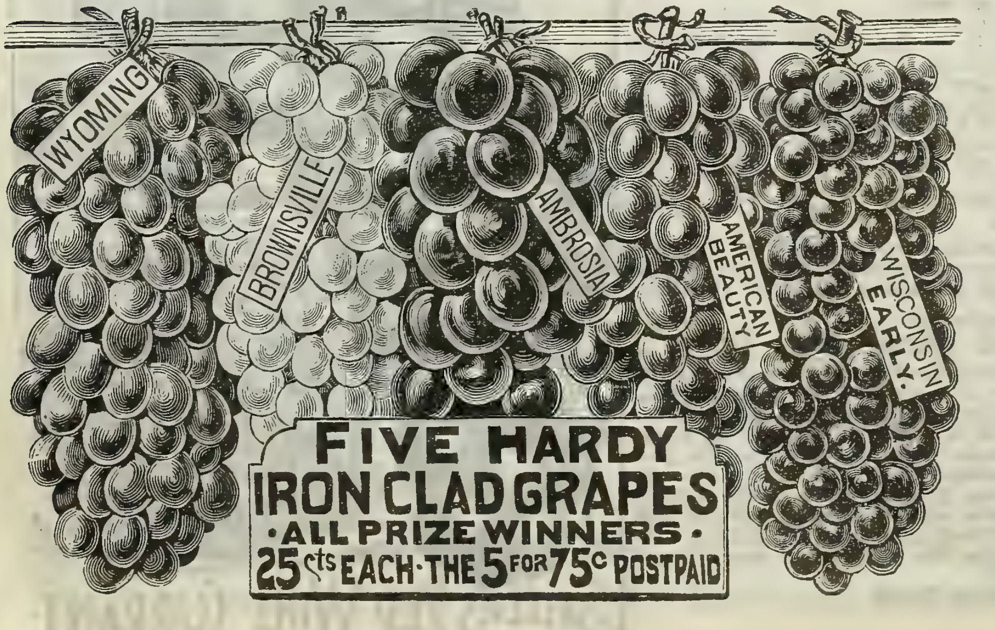
2. Salzer's Sunbeam.

The clusters are unusually large and compact, sometimes shouldered with a greenish-white, turning to a pure amber berry; the flesh is slightly pulpy, sweet and good. We do not believe that there is an earlier white Grape superior in quality, that bears younger, is more productive and of finer quality than this rare novelty. Each 25; 5, $1.00; 10, $1.75; 100 for $12.50.

☞ One each, Salzer's Earliest and Sunbeam, 40c, postpaid. ☜

FIVE IRONCLAD GRAPES, 75c.

Salzer's Grapes are known for giant size of the fruit, hardiness of the vine and luciousness of the rich, colossal grapes.



NO. 1. WYOMING (RED).

Red; vine very hardy, healthy and robust, with thick, leathery foliage; color of berry similar to Delaware, but brighter, being one of the most beautiful of the amber red Grapes, and in size nearly double Delaware; flesh tender, juicy, sweet; one of the earliest to ripen. Each, 25c; 3 for 60c; 10 for $1.50.

NO. 2. BROWNSVILLE (WHITE).

It has many points of merit; among these, earliness, solidity, very large berries and very large clusters. It is very hardy and very prolific, outyielding almost all other white varieties. Each, 25c; 3 for 50c; 10 for $1.50.

NO. 3. AMBROSIA (BLACK).

It is one of the finest Grapes that has ever come under our notice. The bunch is very large, the fruit delicious, almost melting in one's mouth. It is extremely early, which lends to it great value. Each, 25c; 3 for 40c; 10 for $1.50.

NO. 4. AMERICAN BEAUTY (RED).

As the American Beauty is by all odds the finest, grandest, most glorious Rose in cultivation, so will this great seedling Grape at once take its place at the front of all red varieties. The berry and bunch are very large, of excellent flavor and quality. Each, 25c; 3 for 50c; 10 for $1.50.

NO. 5. WISCONSIN EARLY (PURPLE).

A magnificent new, early and extremely hardy Grape. Berries larger, fuller, juicier, richer and finer flavored than the Concord at its best! That says lots! But Wisconsin Early will do that and more. Color a beautiful rich dark purple. Each, 25c; 3 for 50c; 10 for $1.50.

Above 5 Hardy Grapes 75c. postpaid; any 10 for $1.50.

RASPBERRIES.

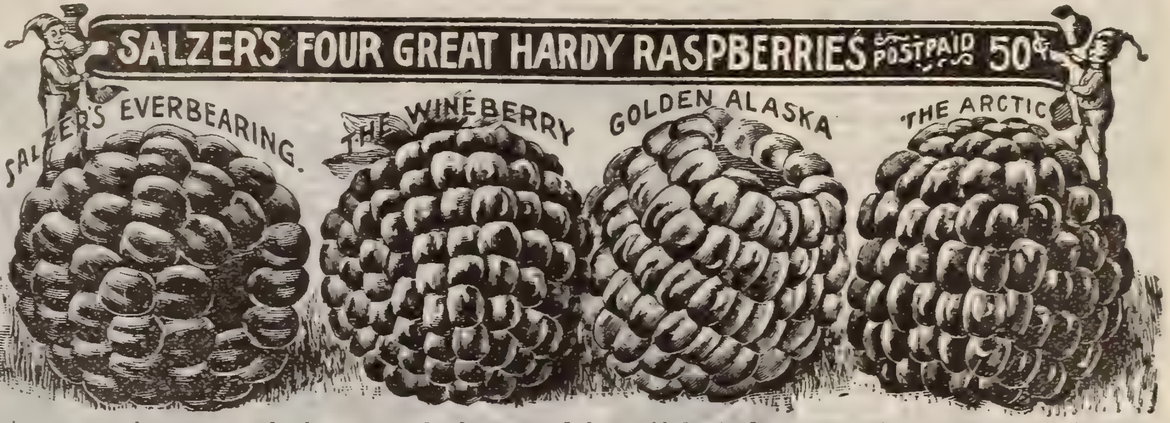
4 GREAT RASPBERRIES, 50 CENTS.

1. **WINEBERRY.**—It is perfectly hardy and is, without question, one of the best red Raspberries yet introduced. Bears enormously. **Each, 15c; 3, 40c; 10, 75c; 100, $4.00.**

2. **SALZER'S EVERBEARING.**—The fruit is of large size, a beautiful rich red color. So long does this excellent fruit remain that it has received the name Everbearing. It has withstood the severest winters of Wisconsin. **Each, 15c; 3 for 40c; 10, 75c; 100, $5.00.**

3. **THE ARCTIC (Black).**—Extremely productive, and of excellent quality, the berry, for general culture, bearing more delicious fruit and lasting longer than any black variety we know of. **Each, 15c; 3, 40c; 10, 75c; 100, $5.00.**

4. **GOLDEN ALASKA (Yellow).**—It is a golden yellow berry of great size, extremely productive and fine quality; rich, juicy and delicious. The vine is a strong, rank grower; fruit extremely large and beautiful. **Each, 15c; 3, 40c; 10, 75c; 100, $5.00.**

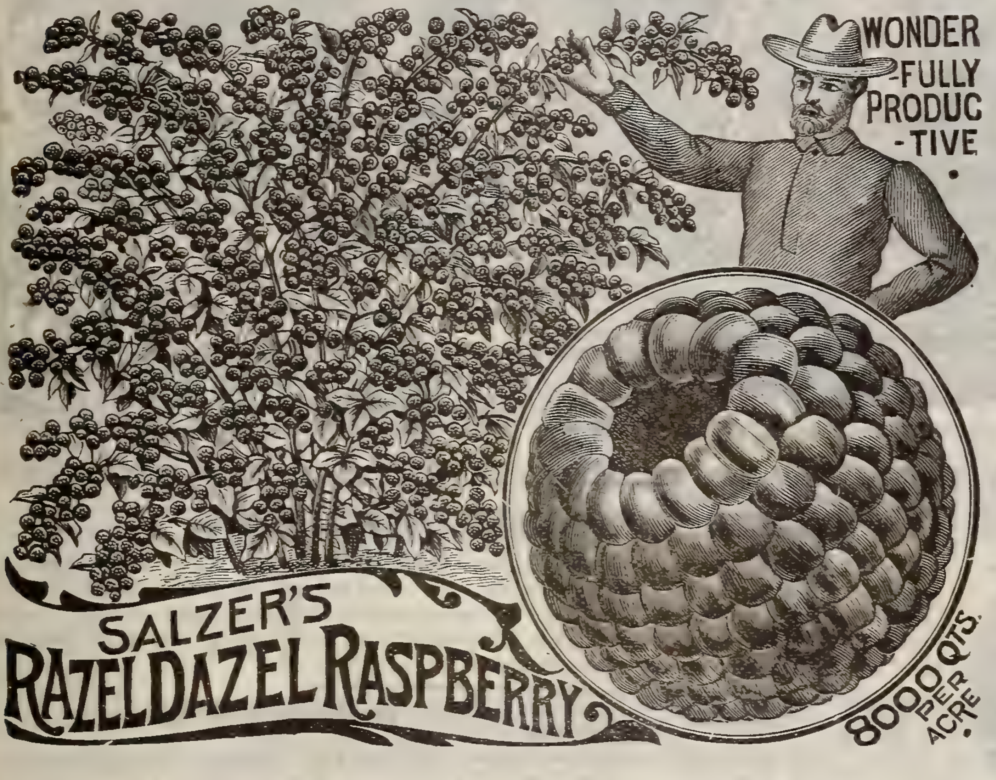


☞1 EACH ABOVE 4 RASPBERRIES, 50c.

THE DAZEL RASPBERRY COLLECTION FOR 65 CENTS.

Twenty to forty Raspberries—say ten of each of these five sorts—will furnish a good-sized family a great plenty of rare, rich, luscious fruit a long while during the fruit season. They are hardy.

These five new, hardy, heavily bearing, delicately flavored, giant—yes, colossal sized—Raspberries are the cream of the 500 varieties before the American people today. They are as hardy as oak.



1. **IMMACULATE.**—This is positively the greatest crimson Raspberry in cultivation. The berries are giant in size, measuring 3 in. around, rich crimson, elegant, and can be shipped a great distance. Flavor is delicious; is extremely rich and luscious. **Price, 20c each; 3 for 50c; 10 for $1.00; 50 for $3.50.**

2. **HAYMAKER.**—An enormous producer, excelling Salzer's Everbearing Raspberry, improbable as this may seem, the Haymaker has for several seasons, in different localities, under same conditions, produced more fruit, and we offer it as the most productive Raspberry on earth. **Price: 15c each; 3 for 35c; 10 for 75c; 50 for $3.**

3. **GOLD COIN.**—A glorious variety, brilliant yellow, giant size, of delicious fragrance and flavor. **Price: 20c each; 3 for 50c; 10 for $1.00; 50 for $3.50.**

4. **CUMBERLAND RASPBERRY.**—A black Raspberry of enormous size, the berries measuring ⅞ to 15-16 in. in diameter; but in spite of this, the fruit is possessed of unusual firmness, and is thus well adapted for standing long shipments. **Price: 15c each; 3 for 35c; 10 for 75c; 50 for $3.00.**

5. **RAZEL DAZEL.**—The berry of our dreams, dazzling scarlet, colossal in size, with rich, melting fruits and delightful flavor. One of the greatest berries known, yielding as high as **8,000** quarts per acre with ease. It's rich in quality, superb in flavor, wonderful in yield! **Price: 1 for 25c; 3 for 60c; 10 for $1.25; 50 for $4.00.**

One each above 5 grand Raspberries, 65c; any 3 for 40c.

LOGAN BLACKBERRY-RASPBERRY.

The greatest fruit novelty of the century. Almost thornless. **Each, 25c; 3 for 50c; 10 for $1.25.**

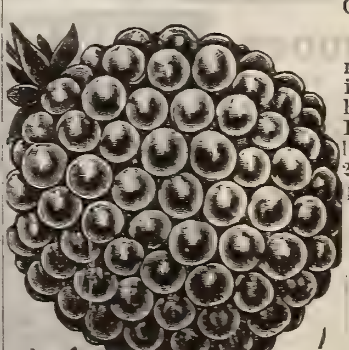
The New Logan Berry

This splendid novelty is an **almost thornless** Blackberry-Raspberry; the hardiest of all berries known. Most remarkable fruit ever offered. Hardy as a rock; stands driest weather; fruits in poorest soil and where all other fruit fails. A hybrid between a raspberry and blackberry; as large as the largest blackberry; rich, dark purplish red; of most delightful new flavor of surprising quality. In the East it ripens its fruits in June, before all other raspberries; brings four times the price of other berries. Bears fruit the first year planted; thornless and insect-proof.

While in Portland and again at Seattle visiting the fair we saw great quantities of this splendid fruit. It's a great novelty and will please you 365 days a year. Our plants are very hardy. **Price: Each, 25c; 3 for 50c, postpaid; 10 by express, $1.25.**

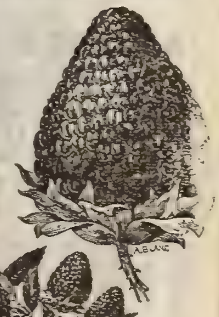
CHILD'S JAPANESE RASPBERRY.

A great novelty. From 50 to 100 berries are borne on a branch. These are enclosed in a burr and when ripe open. Color, deepest, glossiest scarlet. **Price: Each, 20c; 3 for 50c; 10 for $1.00.**



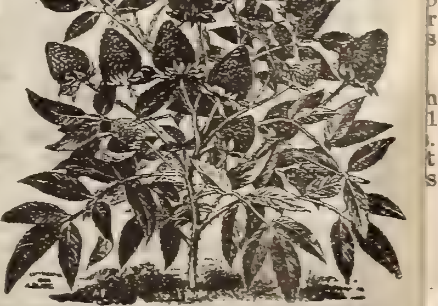
Golden Japanese Mayberry.

A great fruit novelty, ripens in May. Very large berry. Extremely delicious. **Each, 25c; 5 for $1.00, postpaid.**



THE STRAWBERRY-RASPBERRY. ☞

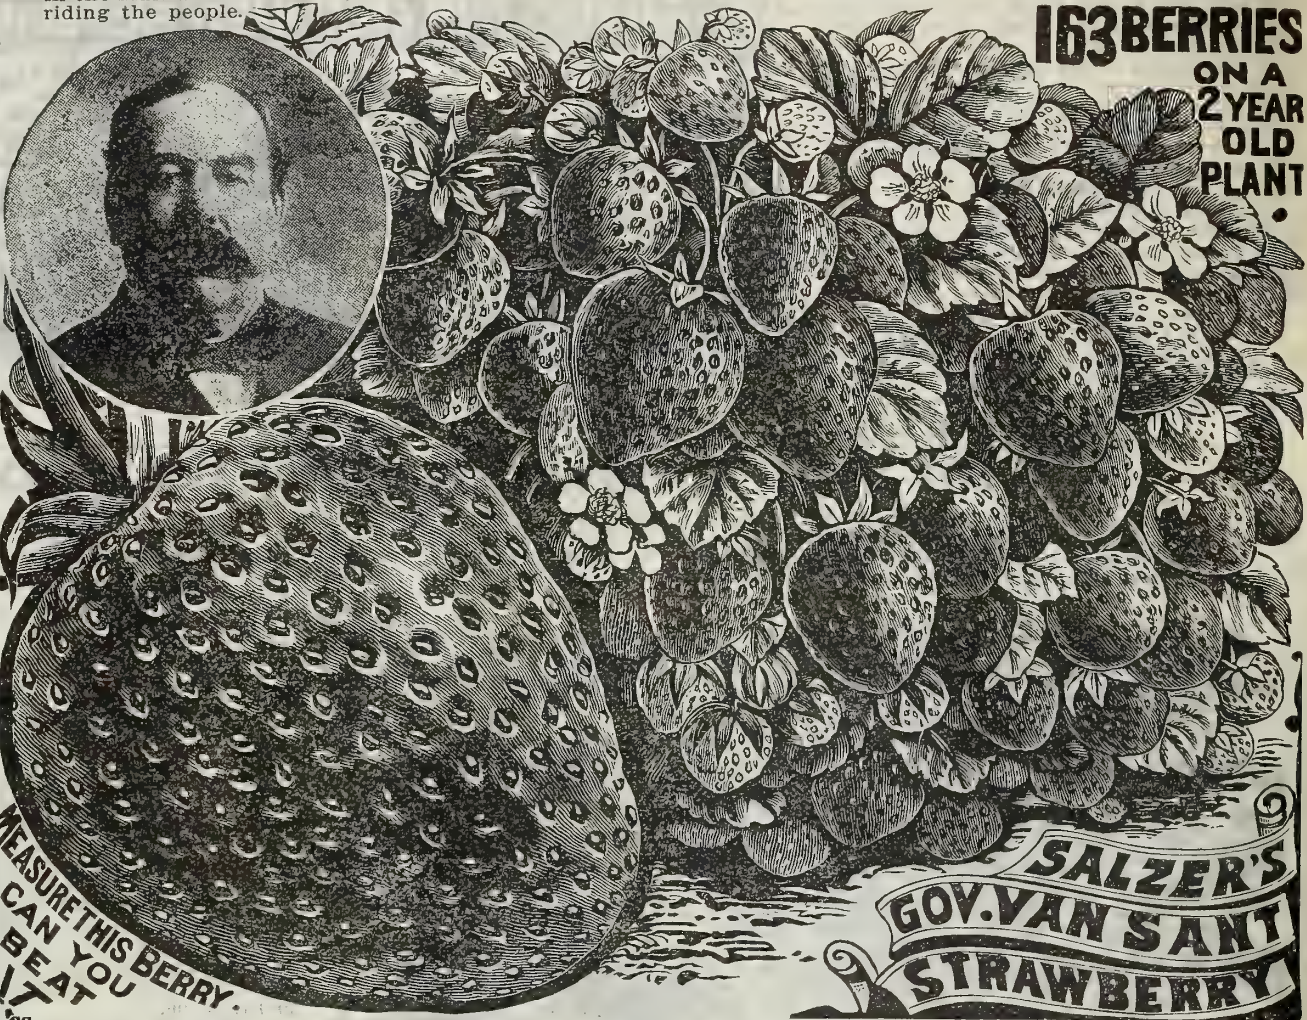
Foliage like a rose bush. Very early in the season the plants are covered with the purest white, single rose-like flowers, in so large a number as to present a very ornamental appearance. The fruit sets very early. They are of a very bright red color, in the shape of a strawberry, quite desirable and novel, standing upright and well above the foliage, thereby being easily gathered. **Price of Strawberry-Raspberry: Each, 20c; 4 for 60c; 10 for $1.00.**



Strawberry-Raspberry.

THE GOVERNOR VAN SANT STRAWBERRY.

Do you know Governor Van Sant? Well, sir, your life would be richer to have met and talked with this whole-souled Governor, who called the railroads to halt. Everybody admires him, while the railroads hate him. That is the reason the farmers love him. No matter whether you are a Republican or a Democrat, you believe in the man who has honest convictions and is not afraid to tackle the millions of corporate money who are overriding the people.



163 BERRIES ON A 2 YEAR OLD PLANT
MEASURE THIS BERRY. CAN YOU BEAT IT
SALZER'S GOV. VAN SANT STRAWBERRY

Introduced by us, and named for the great governor of Minnesota. This berry at once has become immensely popular and stands **AT THE HEAD**—way at the top—among all growers and consumers of strawberries, particularly among those who desire the most uniformly handsome and large, richly colored, delightfully flavored Strawberry for the home table. Salzer's Governor Van Sant fills all of these requirements in a superlative degree. In our 35 years of experience in testing, growing and hybridizing strawberries, there has been no variety that we could send out with the abiding confidence that we have in Governor Van Sant, proving highly satisfactory to all purchasers. The healthy, vigorous growth, remarkable productiveness, immense size, handsome, uniform shape, deep lustrous crimson color, and, above all, the rich, luscious flavor, combined with the delightful aroma, render Governor Van Sant peerless among strawberries. It commences to ripen soon after the early varieties, and bears until nearly all others are gone. The luxuriant growth of the plant and its remarkable deep-rooting qualities enable it to produce beautiful large berries even during a dry season when other varieties are withered and fruitless.

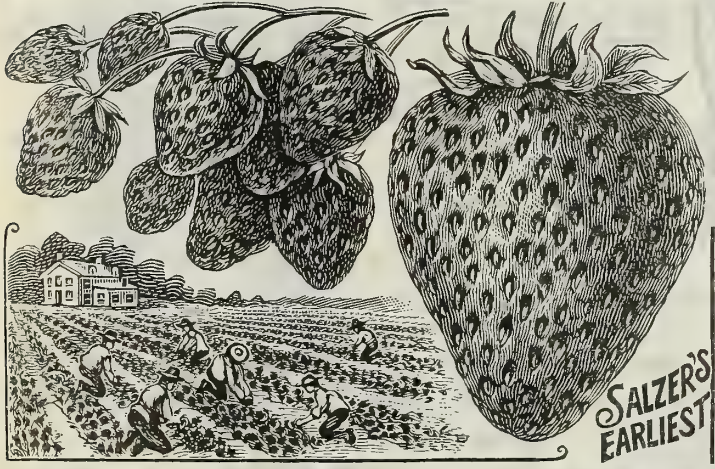
YIELDED 13,326 QUARTS, OR OVER 400 BUSHELS PER ACRE.

It is perfectly hardy, withstanding our cold winters.

IT IS A PERFECT BERRY.

That makes it worth $100.00 more a year for each and every acre you plant. It needs no other strawberry to stand near it to fertilize and help along its yield. It is perfect in itself, perfect in every respect. The two-year-old plant from which the illustration was drawn **proudly bore 163 berries on strong, healthy stalks.** The yield of this berry is colossal.

PRICE OF PLANTS: Per 2, 15c; per 4, 25c; per 10, 50c; per 25, $1.00; per 50, $1.75; per 100, $2.90; per 500, $12.50; 1,000 for $20.00.



SALZER'S EARLIEST STRAWBERRY.

The earliest Strawberry in cultivation. Bears enormously. Very hardy. Luscious fruit. A splendid variety for family use and early market. Has proven itself enormously productive and very popular as the greatest, earliest berry in the United States. Seems to adapt itself to all soils, conditions and climes. **Price: 3, 20c; 10, 40c; 50, $1.50; 100, $2.75; 1,000, $15.00.**

Salzer's Great Ponderosa.

Of this giant novelty, 16,000 quarts have been gathered per acre of rarest quality, excellent for all purposes. It's a berry of unusual hardiness, doing well all over our great United States. Here at La Crosse it always brings advanced prices in the market. It is liked here on account of its hardiness and extremely fine fruit. **Price, 3 plants, 25c; 10 for 50c; 100 for $2.75.**

Perfection Strawberry.

It is the perfection in Strawberries. It cannot be improved upon as a family berry. It is very hardy and prolific. This wonderful novelty can be had only of us. Yields over 8,000 quarts per acre **Per 3, 20c; per 10, 40c; per 25, 80c; per 100, $2.75.**

SALZER'S LATE MASTODON.

The latest Strawberry known. Fruit of enormous size; delicious; fine quality. Grows rank and is perfectly hardy. **3, 20c; 10, 50c; 25, $1.00; 50, $1.75; 100, $2.75; 1,000, $17.50.**

NEW HOME STRAWBERRY "BOB WHITE."

Its first best feature is a perfect flowered variety, ripens with Salzer's Perfection Strawberry and has therefore a long season.

The Berry resembles the Gov. Van Sant in shape, but heavier. It is remarkably uniform in shape for such a large berry.

Its Quality is unsurpassed, juicy, luscious, solid to the center, the flavor being what is generally known as "mild."

In Color it is dark crimson, very glossy and attractive, remarkably even all over the berry, never showing a white tip.

In Growth you are reminded of Gov. Van Sant, it is excellent, large, deep green, handsome foliage. The fruit is borne on strong stalks, and in great profusion, as may be seen in the cut, which is made from a photograph of a plant in the field.

Price, 40c for 10; 90c for 25; $3.00 per 100; $24.00 per 1,000.

CHOICE FLOWER SEEDS.

Nine-tenths of the failures in the flower and vegetable garden occur from improper sowing and treatment. We want everybody buying our seed to have success with them, and we urge upon them to carefully read the culture directions on each package and the following rules:

Soil.—Prepare this carefully; have it smooth, fine, mellow and well enriched. It is well to choose a south, sunny location of the house; make your seed bed even by means of a smooth board. **Do not sow on wet, cold soil**—have it warm and mellow. Put a little stick at each end of each row, so as to mark it, and pull up all weeds that appear between the rows the first day they can be seen. When plants are large enough, remove same where you want them to remain, and they will reward you with flowers all summer, and vegetables fine and large, to gladden your heart.

From early childhood we have been passionately fond of flowers. The summer days were always spent in our parents' garden. Great beds of Phlox, Pansies, Verbenas, Portulaca, Sweet Williams, Four O'Clocks, Candytuft, Balsam, etc., were our daily delight. Our boyhood was spent in the garden (our father being a nurseryman and gardener), our young manhood found us there; indeed there is no place we feel so completely at home as when surrounded with plants and flowers. We have for long years tested every flower obtainable, and our list is full of choice sorts—and we pride ourselves that no **flower seeds** offered in **America** have a higher reputation among gardeners and all lovers of beautiful blossoms than **Salzer's choice northern grown, sure to grow, Flower Seeds.**

LOBBS NASTURTIUMS.

Foliage somewhat smaller than the common Nasturtiums. Blossoms very brilliant. Our mixture is par excellent. Pkg., 5c; oz., 10c; ¼ lb., 30c; lb., $1.00, postpaid.

NASTURTIUMS—FINE MIXED COLORS.

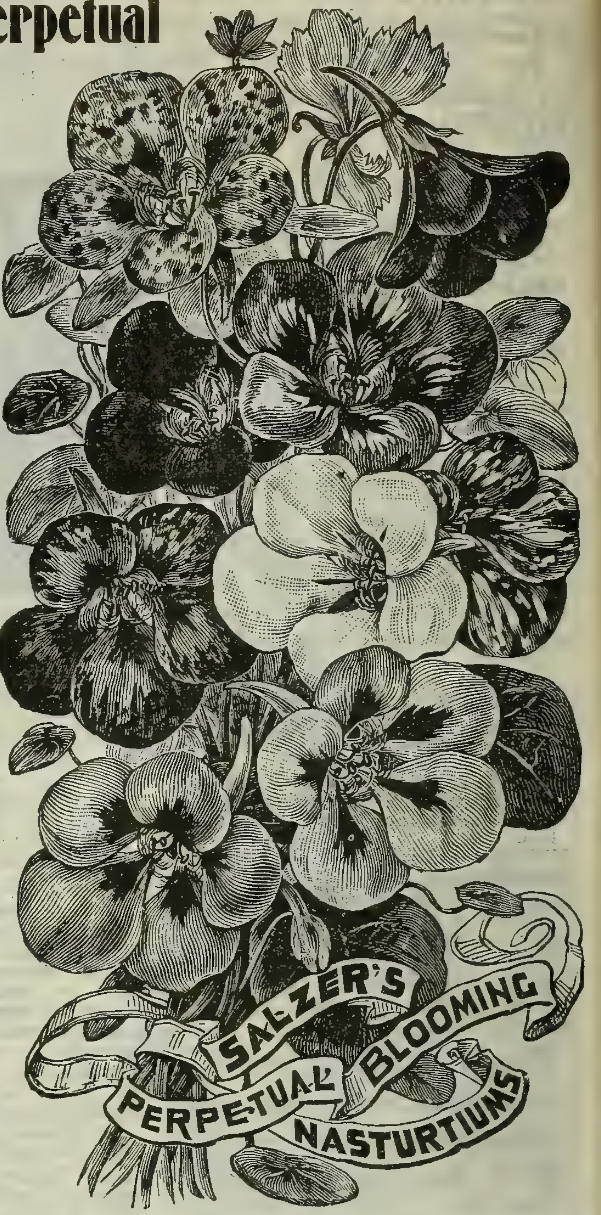
This mixture of Nasturtiums is exceedingly beautiful and justly popular. Recently we sent to many seedsmen for their rarest, highest priced Nasturtiums. Not one of them sent us half so fine flowers as are contained in our Fine Mixed, not to say a word of our Perpetual Blooming Mixture! Salzer's Nasturtiums cannot be excelled the world over. Indeed, our Fine Mixed Colors are the acme of perfection in colorings, form, size and beauty and beat any varieties we have ever seen from other sources. Pkg., 5c; oz., 15c; ¼ lb., 30c; lb., 70c.

Salzer's Perpetual Blooming.

This race of perpetual blooming Nasturtiums stands without a rival and are exquisitely brilliantly colored, vigorous and rapidly growing, wondrously fine blooming Nasturtiums. We control all the seed of this wonderfully free-blooming Nasturtium. It blooms early and continually throughout the season. This mixture contains many brilliant and fashionable colors that are particularly adapted for dress bouquets.

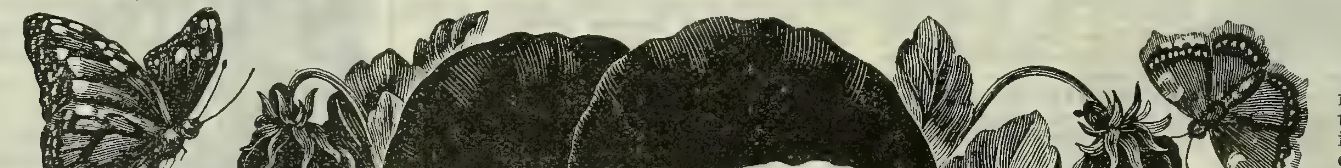
10 BUSHEL BASKETS full of beautiful flowers were grown from one oz. of seed. The flowers are large, proud, beautifully and exquisitely colored, borne on long stems. The endless variety contained in the Salzer's Perpetual Blooming Nasturtiums popularizes them as the most beautiful of all the Nasturtiums, and thousands of ladies who have grown them extol them without stint—yes, are cheerfully lavish in describing their great beauty and peerless brilliant colorings.

Price: Big Pkg., 10c; oz., 20c; ¼ lb., 50c; 1 lb., $1.25.



Pansies.

Wisconsin's soil and climate are especially adapted to the growing of splendid blossoms, and hence **our strain** is recognized among florists as the finest by all **odds in America.** It was grown on the new process of **growing enormous** blossom for seed, with experience, soil, climate, etc., all in our favor of producing the best Pansy seed in the world.



SALZER'S MAMMOTH BUTTERFLY PANSY.

This illustration does not do our Mammoth Butterfly Pansy justice. Specimen blossoms have frequently been grown, measuring 3½ **inches by 4¼ inches.** Only a word about this new race of Pansies. They are giants in size, wonderful in coloring, marvelous in texture, brilliant in their shading and hues. Indeed, it would take pages of this catalog to describe this wonderful Pansy. There are no Pansies on earth producing larger or handsomer flowers than Salzer's Mammoth Butterfly (with the possible exception of Salzer's Superb.)

HOME SWEET HOME PANSY MIXTURE.

No bed in your garden will be more sought by husband and children than Home Sweet Home Pansies. It is without question the rarest, choicest mixture of giant, sweetly fragrant blossoms. It would be folly to attempt to describe them, for no pen can do same justice and no artist's brush would attempt to imitate their marvelous colorings. They blend, in perfect forms of monstrous size, all the colorings.

Price: Pkg. 100 kernels, 15c; 200 kernels, 25c; ¼ oz., $1.00; ½ oz., $1.75; oz., $3.00.

SALZER'S SUPERB PANSIES.

This strain is gathered from mammoth colossal flowers only, and is made up to accommodate many of our customers who want great, great, glorious, giant, colossal, mammoth flowers regardless of price.

ANGEL'S ROBE.

(Pure White.)

Especially adapted for cemetery planting or edging in the garden. It's the sweetest of all white Pansies. Its large snowy white beautifully formed blossoms attract attention everywhere, very free blooming, exquisite. Pkg., 15c; 200 kernels, 20c.

PANSY MIXTURES.

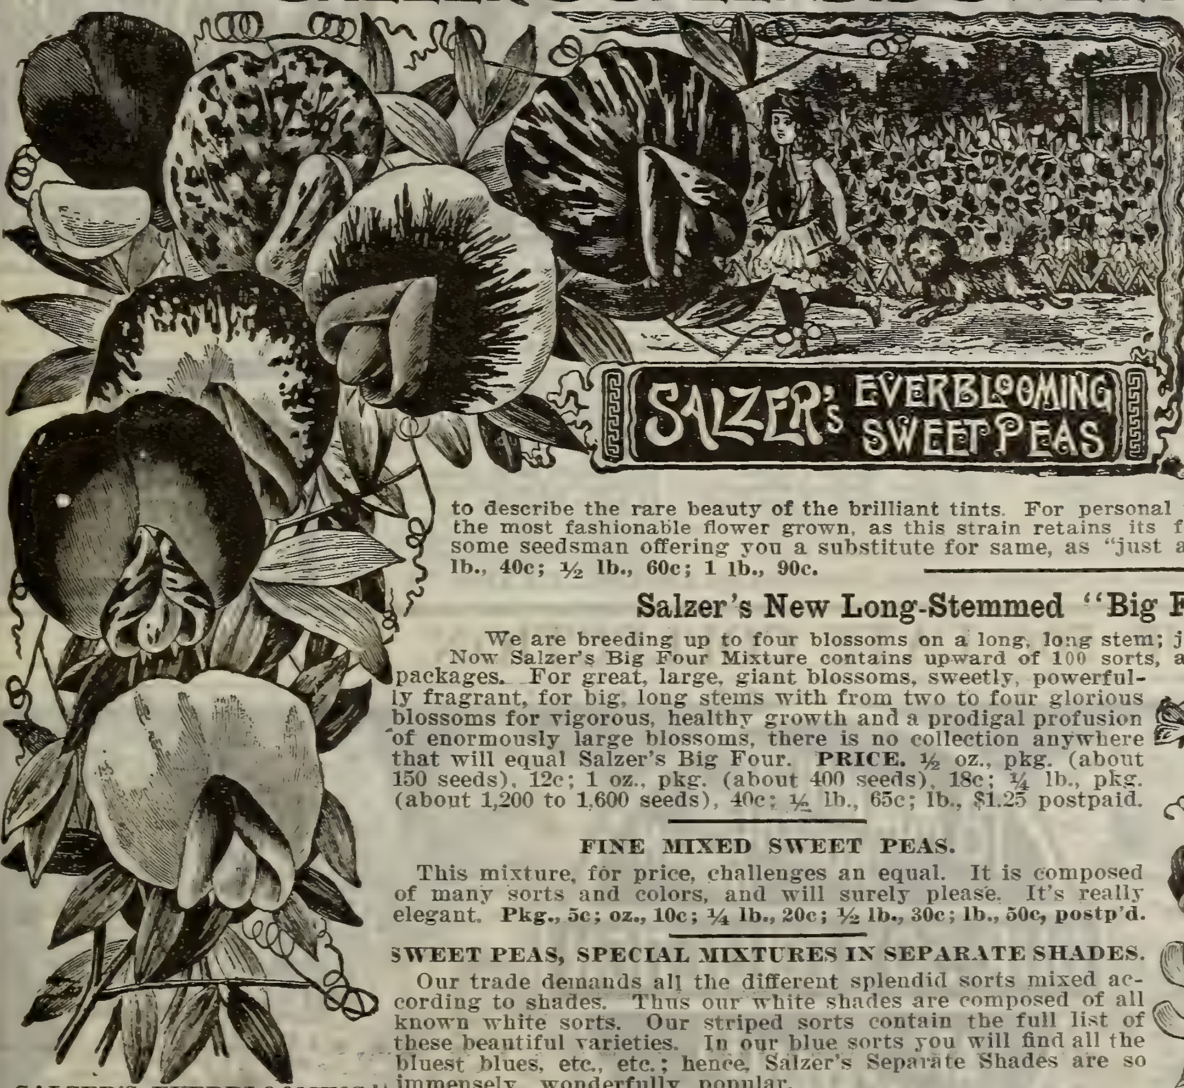
My Pansy mixtures stand for more than the average mixtures—indeed we believe them to be the finest on earth—considering the price.

No. 1—Choice Mixed Pansies; very choice. This is the most popular Pansy mixture we sell. Grand colors, beautiful shades, immense sizes, contains some Peacock seed. **Pkg., 10c; ¼ oz., 40c; ½ oz., 75c; oz., $1.25.**

No. 2—Mixed Pansies. This mixture is as fine as many seedsmen's 10c mixtures. Pkg., 5c; ¼ oz., 30c; ½ oz., 50c; oz., 90c.

No. 3—Good Mixed. This mixture is really fine. Pkg., 3c; ½ oz., 40c.

SALZER'S SPLENDID SWEET PEAS



SALZER'S EVERBLOOMING
Pkg., 10c; oz., 15c; ¼ lb., 40c.

We sell great quantities of Sweet Peas. We had formerly 250 named sorts, but the masses of planters, the dear ladies, do not want 250 separate named sorts, but they want 250, or as many different sorts as they can get in one package. That's the secret. One lady writes she had 92 kinds in one-quarter pound of Salzer's Everblooming; that's the reason Salzer's Sweet Peas are so popular. Then we sell them in separate shades. That's popular. Ladies like them to come that way.

For **long, long** stems, large, full, bright flowers, subtle, yet intense fragrance, hardy, free-flowering, ever-blooming varieties, we commend to you **Salzer's Sweet Peas.**

Salzer's Ever-Blooming.

Our **Ever-Blooming Sweet Pea** is something especially rare, of unusually large blossoms, brilliantly shaded, deliciously fragrant, that bear continuously until destroyed by severe frosts. It is impossible to describe the rare beauty of the brilliant tints. For personal wear during the summer and autumn it is the most fashionable flower grown, as this strain retains its freshness for hours. Don't be misled by some seedsman offering you a substitute for same, as "just as good." **Price: Pkg., 10c; oz., 15c; ¼ lb., 40c; ½ lb., 60c; 1 lb., 90c.**

Salzer's New Long-Stemmed "Big Four" Sweet Peas.

We are breeding up to four blossoms on a long, long stem; just the thing that everybody is looking for.

Now Salzer's Big Four Mixture contains upward of 100 sorts, and is sold only in half-ounces and larger packages. For great, large, giant blossoms, sweetly, powerfully fragrant, for big, long stems with from two to four glorious blossoms for vigorous, healthy growth and a prodigal profusion of enormously large blossoms, there is no collection anywhere that will equal Salzer's Big Four. **PRICE.** ½ oz., pkg. (about 150 seeds), 12c; 1 oz., pkg. (about 400 seeds), 18c; ¼ lb., pkg. (about 1,200 to 1,600 seeds), 40c; ½ lb., 65c; lb., $1.25 postpaid.

FINE MIXED SWEET PEAS.

This mixture, for price, challenges an equal. It is composed of many sorts and colors, and will surely please. It's really elegant. **Pkg., 5c; oz., 10c; ¼ lb., 20c; ½ lb., 30c; lb., 50c, postp'd.**

SWEET PEAS, SPECIAL MIXTURES IN SEPARATE SHADES.

Our trade demands all the different splendid sorts mixed according to shades. Thus our white shades are composed of all known white sorts. Our striped sorts contain the full list of these beautiful varieties. In our blue sorts you will find all the bluest blues, etc., etc.; hence, Salzer's Separate Shades are so immensely, wonderfully popular.

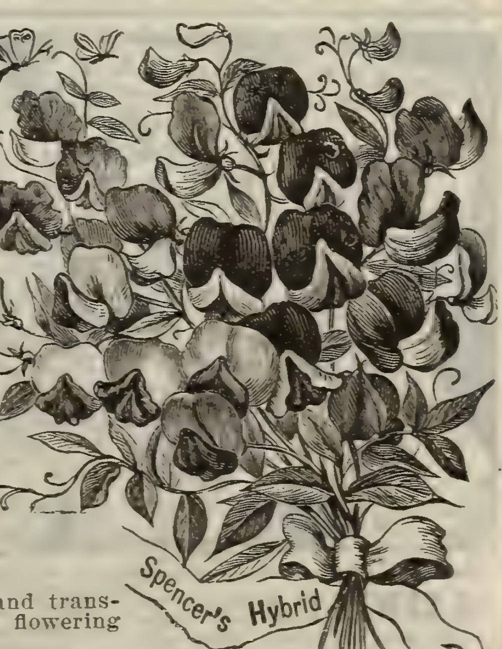
Cupid, The Dwarf Sweet Pea.

These dwarf varieties are growing more beautiful and choice and brilliant in colorings with each year. Our mixture contains every known sort and color in Dwarf Sweet Peas and is sure to please you. **Pkg., 10c; oz., 20c; ¼ lb., 50c; 1 lb., $1.25.**

PERENNIAL SWEET PEAS.

The flowers are not so large and not nearly so finely colored as the annual Sweet Peas, but perfectly hardy; climber. **Pkg., 5c; oz., 15c; ¼ lb., 50c**



SPENCER'S HYBRID SWEET PEAS

Are giant orchid flowering Sweet Peas, originated in England and transported to California, where this wonderful race of giant orchid flowering Sweet Peas has been greatly perfected and improved.

We are sure nothing you ever purchased in the Sweet Pea line, as a novelty, will give you more pleasure and happiness in growing than the **Spencer type of Sweet Peas.** Spencer's Hybrids frequently grow seven feet tall literally filled with giant blossoms, rich colorings, brilliant hues and choicest fragrance!

The Great $1.00 Collection of Earliest Vegetables.

Imitators abound everywhere. There are seedsmen in Illinois, Michigan, Iowa and other states who are so unprincipled as not only to imitate but bodily steal our cuts, our descriptions, etc., in order to sell their inferior seeds. Thus they will try and palm off MEDIUM EARLY VEGETABLES, claiming them to be "just as good" as Salzer's Northern Grown Earliest. But they are not! This collection of 35 packages Earliest and Best vegetables is without an equal. It is composed of our specialties—varieties we have cared for and improved for the past 20 years. There is nothing like it in the seed trade. That's the reason some seedsmen try to copy it. This collection pleases. The seeds therein are the earliest in the world, and give satisfaction everywhere.

We could introduce testimonials from Europe, Asia, Africa, South America, Australia and from every country and state of our grand United States. Everybody praises this collection as the Earliest in the wide, wide world. Try them this year. They are fine and cheap. Think of it! Postpaid for only $1.00; not 3c per package, and every sort a gem.

This collection of 35 grand vegetable sorts is without question the very finest offered in the world.

Many seedsmen, of course, will imitate this, but in quality it is impossible to reach it, because many of the seeds contained herein are **our specialties**, and cannot be had from any one else.

SALZER'S VEGETABLE SEEDS.

The past season was good for the market gardener and farmer who planted a-plenty of onions and cabbage and potatoes and peas and beans, etc. While prices rule high, the outlook for next year will be immense to the market gardener and farmer. It therefore behooves you, if money making is a pleasure to you, to sow a-plenty of onions, cabbage, beans, peas, potatoes, etc., as prices are apt to be high and crops short. Look out for 1910, plant a-plenty. It is our honest desire to have the best vegetable seeds on earth. If we fail in an item please write us, giving all particulars, so we can correct.

HOW MUCH SEED TO SOW.

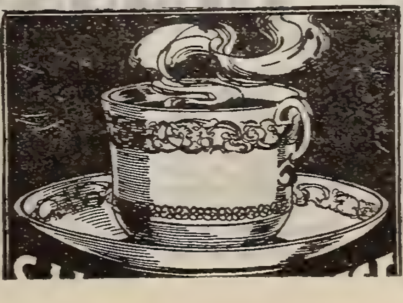
GERMAN COFFEE BERRY OR BEAN.

While in Germany we took great pains to look up our great German Coffee Berry and to our surprise and pleasure we found it used in most all hotels and restaurants in Switzerland, Germany, Holland and France. They use large quantities, mixing it with Rio and other genuine Coffee. It is the poor man's friend.

PRICE OF GERMAN COFFEE BEAN:

Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.25, postpaid. Full culture directions with each package.



SALZER'S JAPANESE JAAVAA COFFEE.

We obtained a supply of seed, have grown it here in the North and find that in some respects it is superior to our great German Coffee Berry; and we offer it as a fit companion to this most remarkable novelty in the Coffee substitute line. The berry is larger, is different shaped, and the growth of the plant is somewhat different from the German Coffee Berry.

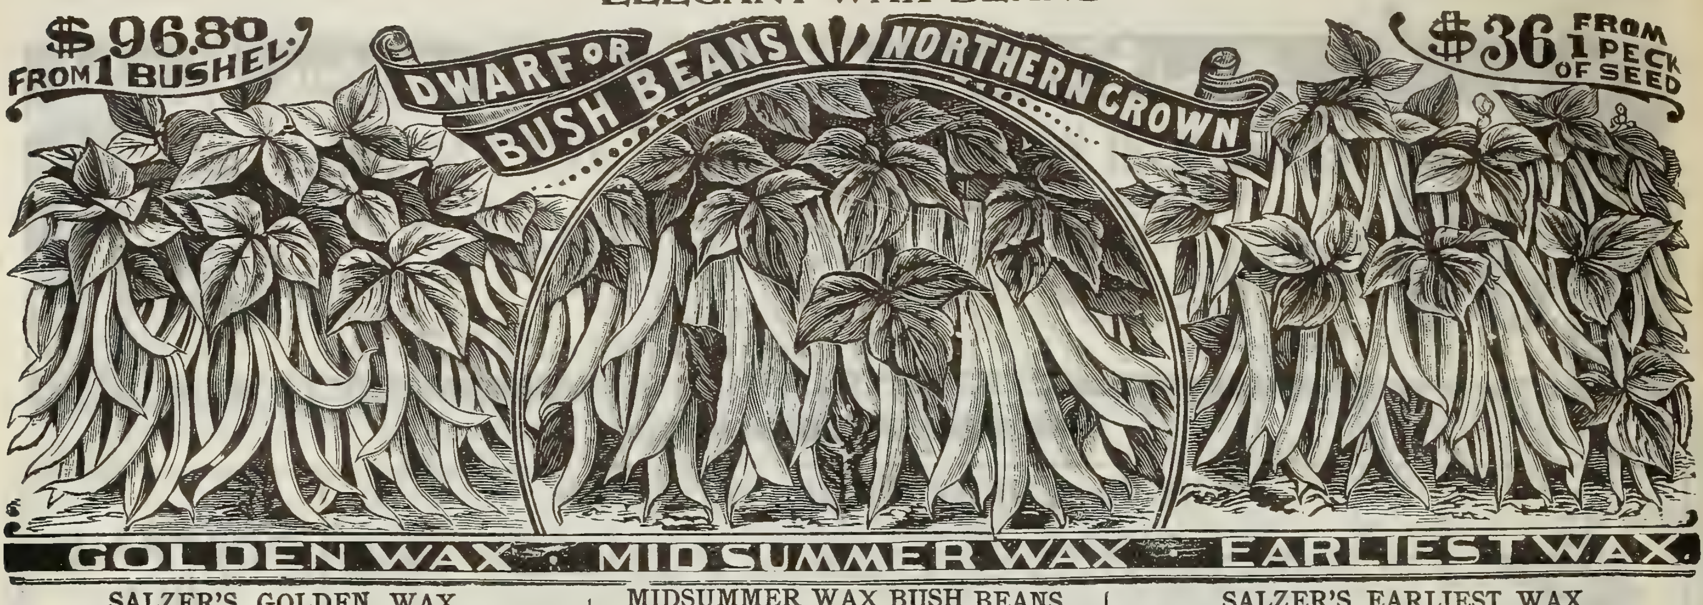
ELEGANT WAX BEANS



SALZER'S GOLDEN WAX.

This bean has earned the pre-eminent distinction of being the **Best Wax Bean in the world for general culture.** Salzer's Earliest is much earlier and fills the want for a very early Wax Bean, but Salzer's Golden Wax fills the place of a general purpose Wax Bean. Our strain of Golden Wax has proven itself rust proof. It is very bushy, thereby retaining moisture in the soil, so that the drought does not affect it. It has been the means of making many a market gardener rich, as we have gardeners who plant from 5 to 20 bushels of our Wax Beans annually.

$96.80 FROM 1 BUSHEL.

Henry King, of St. Louis Co., writes: I planted 1 bushel of Salzer's Golden Wax. I sold $96.80 worth of the finest Wax Beans I ever saw of that one bushel planted. **It is the finest, prolific, tenderest stringless Golden Wax Bean grown. It is very early, following Salzer's Earliest, of delicious flavor, and one of the best Wax Beans in the market. Sells like hot cakes in green state. Slendid for family use, splendid for market, splendid for every purpose.**

PRICE OF SALZER'S GOLDEN WAX.

Pkg., 10c; ½ pt., 20c; pt., 30c; qt., 45c; postpaid; by express, pkg., 10c; pt., 20c; qt., 25c; ½ pk., 65c; pk., $1.10; bu., $4.20.

MIDSUMMER WAX BUSH BEANS.

Salzer's Midsummer Wax has taken the gardeners all over America by storm. There is a great demand for a second early Bean, ripening after Salzer's Earliest Wax and Salzer's Golden Wax, so that a succession of Wax Beans can be had for market. It produces an enormous crop of long, bright, large pods, of clear, transparent color, and exquisite quality. It is as near **everbearing** as any Wax Bean can be. Our experience with same proves it to be absolutely free from rust. The dense foliage insures plenty of protection from the scorching midsummer suns retaining abundant moisture around the roots, which keeps the plants continuously vigorous, bearing a bountiful crop of tenderest beans.

For private gardens it is especially valuable on account of the long duration of its bearing season.

PRICE OF MIDSUMMER WAX BEAN.

Pkg., 10c; pt., 20c; qt., 35c; postpaid; by freight, ½ pk., 70c; pk., $1.25; bu., $4.50.

SALZER'S EARLIEST WAX.

For many years there has been a great call for an Extra Earliest Golden Wax Bean. With this in view, we have been experimenting and originating new varieties, until to-day we believe we have the earliest Wax Bean in the world in **Salzer's Earliest Wax Bean.**

$36.50 FROM 1 PECK SEED.

I sold three pickings from Salzer's Earliest Wax Beans, receiving for same $36.50. This was from one peck Beans planted. I received for them 8c, 6c, and 4c a pound, netting me 6c a pound. So writes J. A. Wood, of Detroit, Mich.—This is a variety that will surely find a warm place in the hearts of market gardeners, who well know that the earlier they can get their Wax Beans in the market the handsomer their profit. This variety is extremely hardy. We have never seen them rust. It produces an extremely heavy crop, pods are very long, broad and showy, and not liable to blister. **It's the Bean for extreme early.** It's the earliest Wax Bean known, and the very finest too!

PRICE OF SALZER'S EARLIEST WAX.

Large pkg., 10c; ½ pt., 20c; pt., 30c; qt., 45c; postpaid; by express, pkg., 10c; pt., 20c; qt., 30c; ½ pk., 70c; pk., $1.20; bu., $4.25; 2 bu., $8.25.

YOSEMITE MAMMOTH WAX BEAN.

The pods attain a length of 10 to 14 in., with the thickness of a man's finger, and are nearly all solid pulp, and are absolutely stringless, cooking tender and delicious. As many as 50 of its monster pods having been counted on one bush. **Pkg., 10c; ½ pt., 20c; pt., 25c; qt., 35c, postpaid. By express or freight, ½ pk., 90c; pk., $1.60.**

THE SILVER BEAN.

A wonderfully distinct variety of the white wax Bush Bean, and we take great pleasure in listing it among the best things of the season. The pods are of a beautiful silvery color, being palest green with a silvery sheen, and are borne in great profusion. They are sweet, tender, and crisp, and can not be excelled in point of table merit. Bound to become immensely popular. **Pkg., 10c; pt., 35c; qt., 60c; postpaid. By freight, pk., $2.00; bu., $7.00.**

WARDWELL'S KIDNEY WAX BEAN.

Known the world over as one of the best wax Beans. **Price: Pkg., 10c; pt., 30c; qt., 50c, postpaid. By express, pt., 20c; qt., 30c; pk., $1.25; bu., $4.20.**

3 ROUND WAX BEANS.

The magnificent characteristics of these Beans are small, dense foliage, enormous productiveness, roundness of pod, of a clear, transparent color, good sized, remaining tender a long time. Free from rust, and solid, juicy and meaty.

1. **Valentine Wax—A bean of superlative quality.**
2. **Salzer's Round Podded Wax**—The epicurian's delight.
3. **Refugee Wax**—(Round.) Rich, rare, racy!

Price of each: Pkg., 10c; pt., 20c; qt., 35c, postpaid; by express or freight, ½ pk., 90c; pk., $1.60; bu., $5.90.

The prices of the following 4 Wax Bean Sorts are:

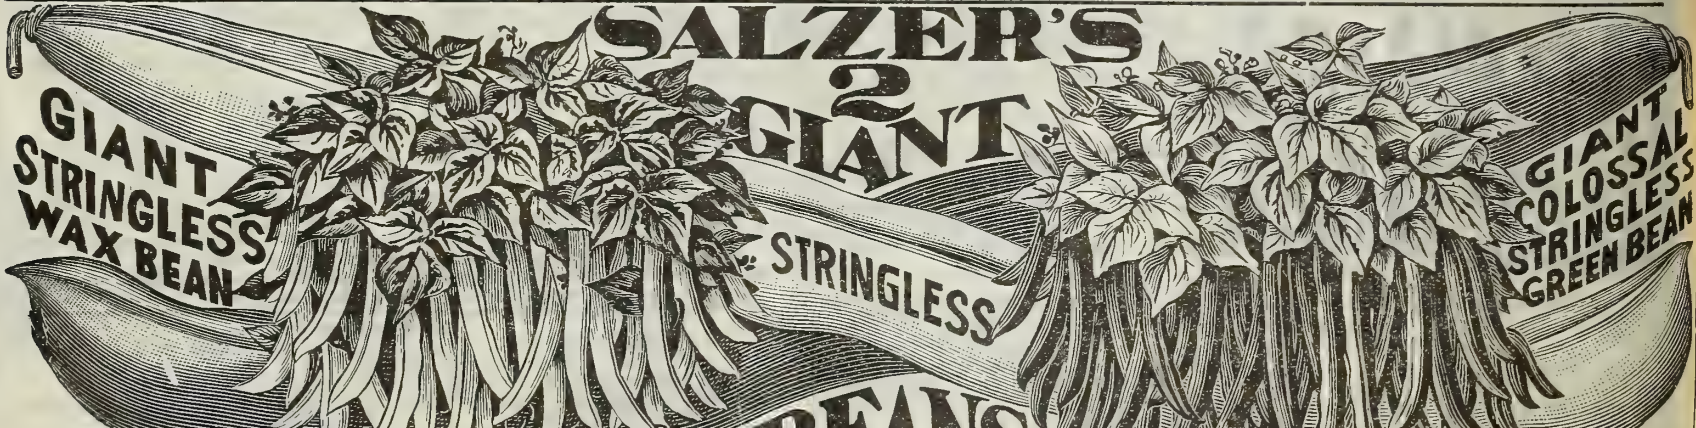
1. **White Wax**—Pods rich, tender and very prolific.
2. **Ivory Podded Wax**—A magnificent wax Bean.
3. **Davis White Wax**—Very quick growing. Popular.
4. **Prolific Black Wax**—Very productive and one of the best varieties for early market. Pods, when fit to use, are of a beautiful yellowish waxy color, fine quality, tender and delicious.



SALZER'S 2 GIANT
GIANT STRINGLESS WAX BEAN
STRINGLESS
BEANS
GIANT COLOSSAL STRINGLESS GREEN BEAN

Salzer's Giant Stringless Wax Bean

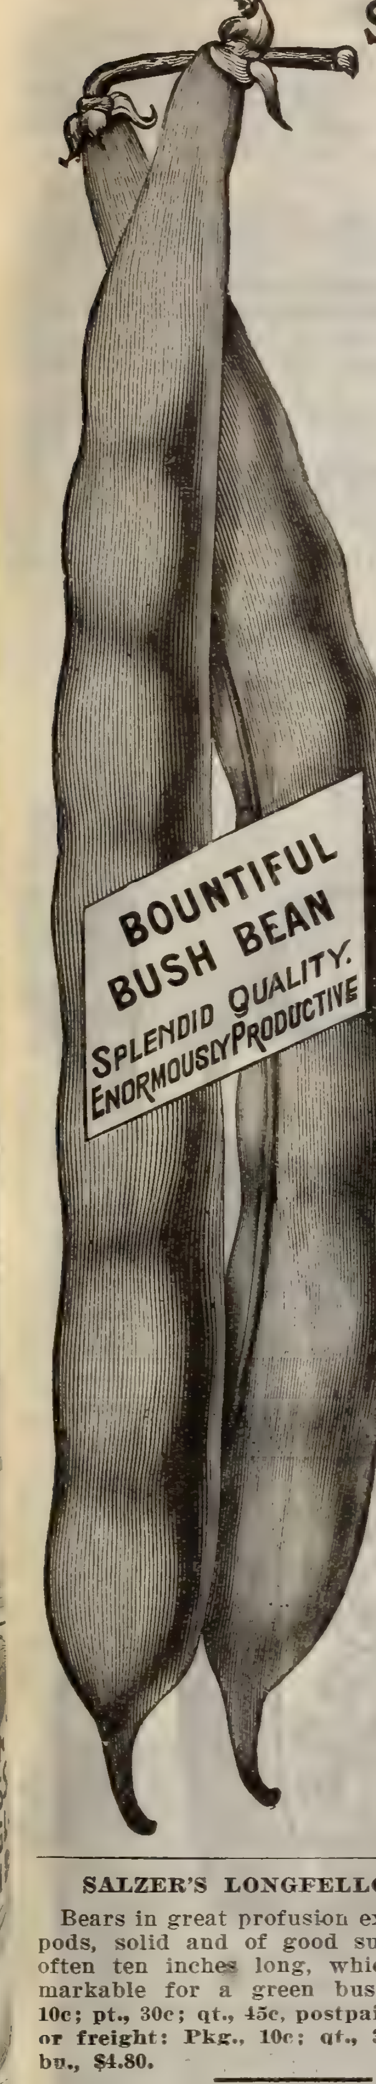
A marvelous new Wax Bean! Why, the way this bean sold last season, it seemed that every market gardener in America was wanting same, and well they may, for it is really the finest variety of all stringless wax snap Beans; indeed, we know of no Bean that can touch it in quality, in richness, in stringlessness, and in vigorous snap, so much desired in the wax Bean. The plant is extremely fleshy, of strong growth, very prolific, while the pods often are from 6 to 7 inches long, quickly filling the bushel measure, and selling at an advance. It's the Wax Bean to tie to and make weekly plantings, from April to August. **Price by mail: Pkg., 10c; pint, 25c. By express. Quart, 25c; 2 quarts, 40c; 4 quarts, 70c; peck, $1.25; per bushel, $4.90.**

Colossal Stringless Green Pod

If I used 20 pages of this catalog I could not recount all the merits and splendid qualities of this wonderful green bush bean!

A superb new bean; absolutely stringless, and of beautiful, fleshy appearance. The pods are ready for market two weeks earlier than the best stock of Improved Extra Early Red Valentine; in fact even earlier than the Early Yellow Six Weeks, which, as all know, is valuable only for its extra earliness, being of inferior quality. Pods often 7 to 8 inches long. **Price by mail: Pkg., 10c; pint, 25c; quart, 50c. By express: Quart, 25c; 4 quarts, 60c; peck, $1.00; bushel, $3.90.**

SALZER'S BOUNTIFUL BUSH BEEN (GREEN.)



Henderson devotes a full page of his catalog to this magnificent bean and among other things he says it is a prolific and a continuous bearer; the earliest in spring, latest in fall, while for tenderness and flavor and delicious quality and stringless habit it stands without a peer; it is unapproachable!

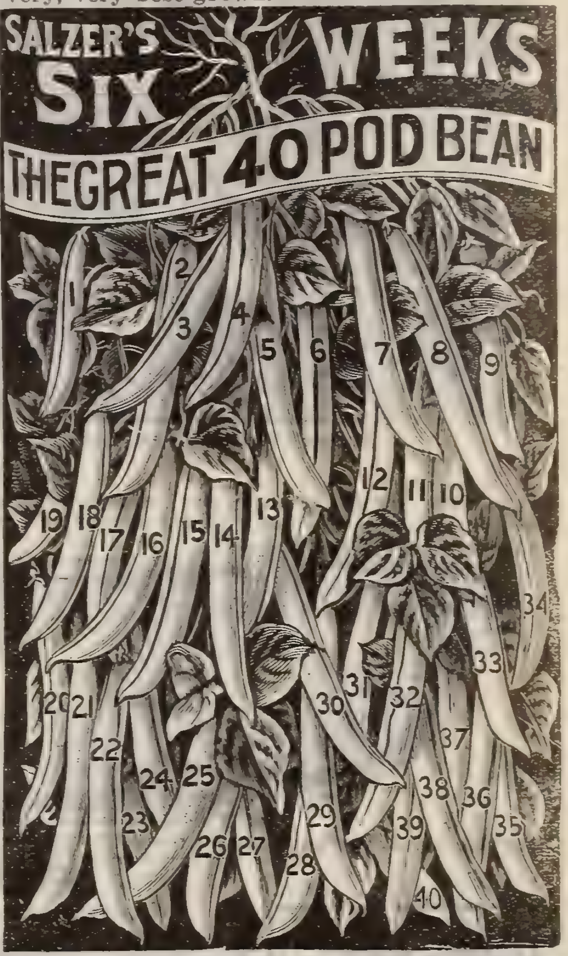
Not only has it all of above merits, but the crowning merit of this grand bush bean is found in the rich green, succulent, meaty pods, which are of immense size; broad, extra long, very thick and very uniform in shape, solid, meaty, juicy and of a high quality, meltingly tender and having a delicious flavor, exclusively their own, a flavor so much found in German beans.

Moreover, the pods are absolutely stringless and are free from any tough membranous lining, not only when young, but this tender, snappy, brittle quality is retained even into maturity.

Now, then, any bean that can bear up and carry out to the letter above recommend is something of unusual merit. Our own trial proves this bean to be one of the very, very, very best grown.

Price: Postpaid, package, 10c; pint, 25c; quart, 45c. By express, package, 10c; pint, 20c; quart, 25c; peck, $1.50; bushel, $5.00.

SALZER'S GREAT GREEN SIX WEEKS BEAN—THE 40 POD BEAN.



Covered itself with glory last year. The earliest green Bean known; very prolific, bushy and full, yellow seed. One of the best for family use in every respect, as also for early market. No trouble to sell $400.00 worth of Green Beans per acre of this variety. This Bean grows quickly and sells quickly; and the best of all is that everybody testing same is so delighted with it, that he would not get along without it at any price. It is a great boon for the market gardener. Large, fine pods.

400 BUS. GREEN BEANS PER ACRE.

Salzer's Early Six Weeks Bean is a dandy. It is a producer. Its great record of forty rich, juicy, tender, large pods to the bean makes it a tremendous yielder.

How can I get 400 bus. per acre, you ask. It is as easy as falling off a log. I will tell you. My land is a rich sandy loam sloping to the south. I plant about two bus. to the acre and figure on 23,000 plants to the acre.

23,000 plants at 40 pods each equals 920,000 pods.
2,000 pods to the bu. equals 460 bu.

If you are near a market the way to figure your profit on an acre of Salzer's Early Six Weeks Beans is as follows:

The first 100 bus. should net you	$225.00
The second 100 bus. should net you	140.00
The last 200 bus. should net you	120.00
Total	$485.00

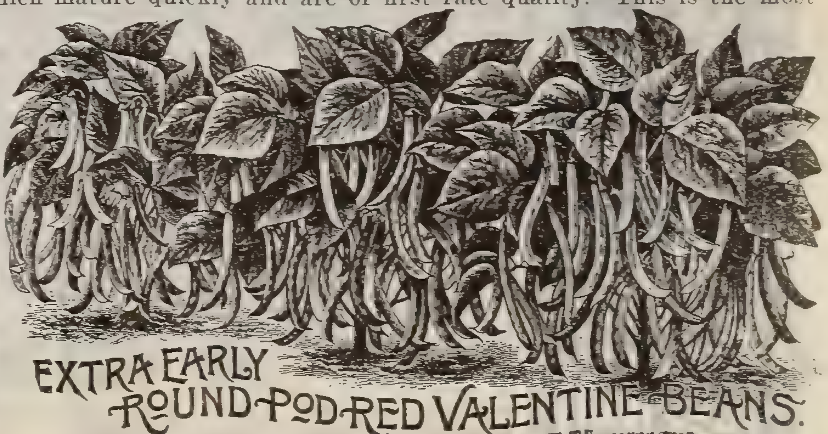
$485.00

Total $485.00 per acre. That is splendid, and that is what you can expect out of Salzer's Great 40 Pod Six Weeks Bean. It's the Bean to plant for 1910.

Price of Salzer's Six Weeks Bean: By mail, pkg., 10c; pt., 20c; qt., 30c. By express, pkg., 10c; pt., 15c; qt., 20c; ½ pk., 65c; pk., $1.00; bu., $3.80.

SALZER'S EXTRA EARLY TENDER VALENTINE BEAN (EARLY VALENTINE).

No green Snap Bean has ever had so tremendous a run and been so immeasurably popular as Salzer's Extra Early Tender Valentine—a selection of the famous Early Valentine. You will find it one of the very best snap sorts, round, fleshy pods, which mature quickly and are of first-rate quality. This is the most popular of all green-podded Beans, both for the family and market gardener. We have always kept abreast of the improvements made in so important a variety; and have for some years past grown a **strain that is unequaled in extra earliness, evenness and handsome, round-podded appearance.**



Salzer's Strain of Valentine is the cream, the best, the rarest, the very finest of all Valentine Green Beans. It cannot be beat.

It's a great money-maker for you. Just try it!

Pkg., 10c; pt., 18c; qt., 35c, postpaid. By express: Pkg., 10c; pt., 12c; qt., 20c; ½ pk., 60c; pk., $1.00; bu., $3.80.

SALZER'S WHITE WONDER FIELD BEAN.

There is nothing more profitable to grow for the farmer than beans. When you take the White Wonder Field Bean and can crop from 30 to 40 and up as high as 60 bushels per acre, there is lots and lots of money made at same, as beans are seldom sold at a less price than from $1.50 to $2.50 per bushel. We urge everybody this year to make large plantings, as the crop is nearly one million bushels short and there will be a tremendous demand next year, as every bean will be used up this winter. Plant the White Wonder early, and use the product for early sale, when beans for cooking should fetch next July and August $3.00 to $4.00 a bu.

SALZER'S WHITE WONDER FIELD BEAN
500 TO 1

Salzer's White Wonder Field Bean is the grandest Bean for a farm crop we have ever seen; side by side with any Bean known to us, it outyields it by fully one-third to one-half, placing it as a marvelous cropper. The pods are large and filled full with medium sized pure white beans. Extremely early. and sells just at the time when Beans are rare and high. **We consider it absolutely the finest, largest yielding, best selling field Bean known.** Excellent for cooking and baking. Habit, dwarf; very bushy, and wonderfully full of pods. Just figure the profits on an acre yielding 40 to 60 bushels. If you don't grow for market, get a pint or quart of the best Beans for house use during the winter. **Over 20,000 farmers and citizens are planting this most wonderful of all White Beans. It's the yielder; nothing like it, go the world over. No Bean approaches it in yield, quality and readiness to find sale in the market. That's the universal verdict. It's a beauty and a quick seller in all markets.**

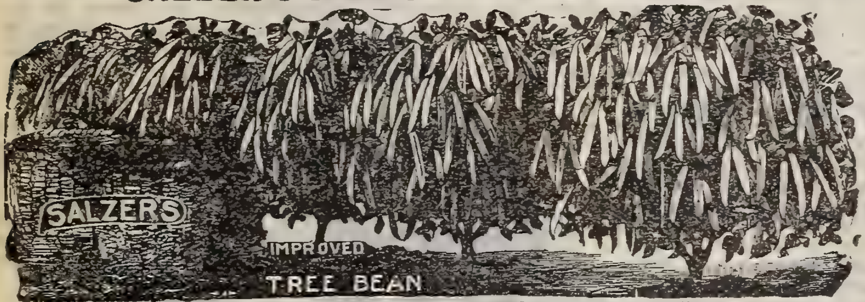
SALZER'S IMPROVED TREE BEAN.



It yields all the way from 30 to 40 bushels per acre. One customer writes: "From 1 pint of seed I grew 10 bushels." And another: "1 bushel of seed brought 150 bushels." It's not quite so heavy a yielder nor so fine as Salzer's Great White Wonder Field Bean, but for all that the Tree Bean has a great run. Of course, the Navy Bean is well known, but it is far behind in yield to above two splendid sorts. Pkg., 8c; pt., 20c; qt., 35c; by express, pt., 15c; qt., 25c; pk., 90c; bu., $3.20.

BOSTON FAVORITE BUSH BEAN. For Green or Dry Use. The celebrated Boston Baked Beans, which are known the world over on account of their richness and delicacy of flavor, are made from this Bean. It is an extremely prolific variety. It is the Shell Bean of New England, and no Bean is more sought in the Eastern markets and fetches fancier prices than the Boston Favorite Bean. Price: Pkg., 10c; pt., 20c; qt., 35c, postpaid. By express, pt., 15c; qt., 20c; pk., $1.00; bu., $3.60.

NAVY WHITE BEAN.

This Bean is well known everywhere. It is not so prolific as White Wonder nor so fine as our Tree Bean, but is always in great demand. Pkg., 10c; qt., 35c, postpaid; by express, qt., 20c; pk., 90c; bu., $3.00.

RED KIDNEY BEAN.

In great demand as a shelled Bean. By mail, pkg., 10c; pt., 20c; qt., 35c; by express, pk., 90c; bu., $3.50.

Dwarf Horticultural—One of the best shell Beans of the century. By mail, pkg., 10c; pt., 20c; by freight, pk., 90c; bu., $3.50.

SALZER'S FIRST OF ALL NEW GREEN BUSH BEAN.

If there is a vegetable that we like a little bit better than any other it is a tender Green Bush Bean, properly served with a leg of mutton. This is a dish fit for the gods, at least we think so.

IT IS ENORMOUSLY, PRODIGALLY, WONDROUSLY FRUITFUL!

Now, then, Salzer's First of All will give us these green Beans—earlier, tenderer, juicier, finer, sweeter, better, and quicker than any other Green Bush Bean that we know of. The Bean is extremely early, is stringless, tender and prolific, in fact, is perfection in every respect. **Price: Pkg., 15c; ½ pt., 20c; pt., 40c, postpaid. By express, pt., 20c; qt., 30c; pk., $1.50; bu., $5.00.**

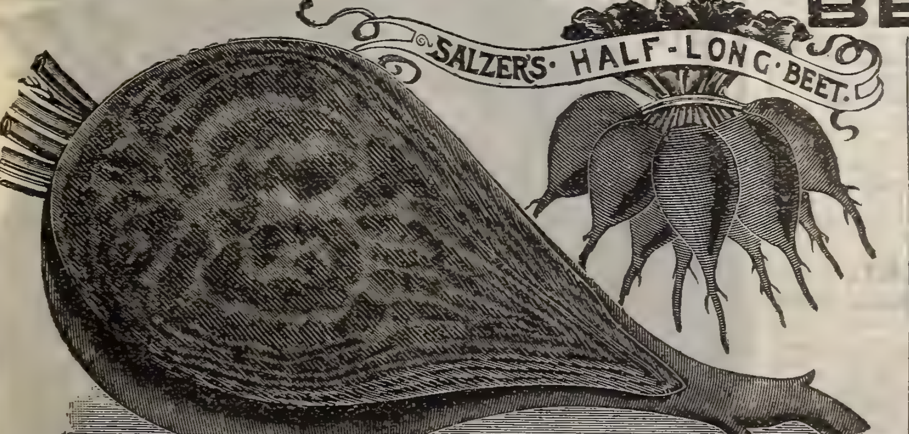
BEETS.



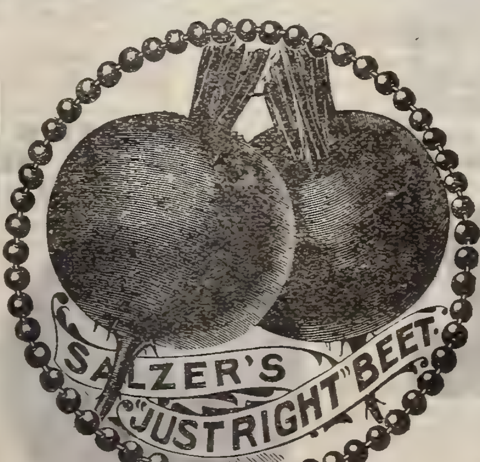
SALZER'S· HALF-LONG·BEET.

SALZER'S ROYAL HALF LONG BEET.

There has been a tremendous inquiry and demand for a half long dark red beet. Indeed, it has grown to such proportions that there is more of this one variety sold than any other single globe variety and there is a reason for its immense popularity. It is of elegant shape, enormously productive, just the right size for house use and the flavor and quality and tenderness and richness of this beet must be tested and tasted and will be pronounced, we believe, better than any of the others. No more brilliant color can be desired than is shown in slicing this tender, splendid variety. The quality and yield and richness will surely surprise and please you.

Pkg., 10c; oz., 20c; ¼ lb., 35c; lb., $1.00.

NEW BEET, SALZER'S JUST RIGHT.



SALZER'S "JUST RIGHT" BEET.

As the name implies, it is just right, just right in every respect, and we do not know how we could possibly improve this beet. It is just right in shape, in earliness, in color, in smoothness, in roundness, in tenderness, in yield, yes, in each and every quality that goes to make a rich, finely-flavored, profitable beet. It is the beet for you to plant in your own garden, especially if you want but a small quantity of just right, richly flavored beets. We know of nothing that will please you better, and prove more satisfactory than **Salzer's Just Right Beet.** We have only 100 lbs. of this rare novelty and the price this year will be: **Pkg., 15c; oz., 25c; ¼ lb., 75c; lb., $2.00.**

SALZER'S GREAT RED BEAUTY BEET.

This earliest Beet has a proud record and again, among our 250,000 Beet growers, proved itself positively the earliest Beet in the world It is a perfect turnip-shaped, deep red, extremely **early Beet, fit for table in only 28 to 35 days**; of excellent flavor, good quality, having a delightful deep red color when cooked, just the color you desire, with a flavor rich and tempting.

SALZER'S RED BEAUTY BEET
READY FOR TABLE IN 35 DAYS
1000 DOZ. BUNCHES PER ACRE @ 35 = $350.00

Market gardeners are all pronounced in saying: "It is the earliest, finest blood-red Beet in existence." Up to date, despite the constant efforts of seedsmen, they have not been able to produce a Beet which in beauty and earliness approaches **Salzer's Red Beauty Beet,** and we doubt whether any will ever be produced that is earlier than this, for we are constantly improving our own stock. Its shape, general appearance and grand color are simply unapproachable; that rich crimson so peculiar to **Red Beauty Beet** finds for it a rapid sale at fancy prices. It is so perfect in all its requirements, so excellent in its flavor, so quick in its growth, so handsome in its appearance, that everybody is "superlatively pleased" with same. It would take 50 pages of this catalog to print the testimonials received on **Salzer's Red Beauty Beet** in the past years from our customers. Everyone is delighted and pleased, and profited by planting same. **Price: Big pkg., 10c; oz., 20c; ¼ lb., 35c; ½ lb., 50c; lb., 90c; 5 lbs. by express, $4.00.**

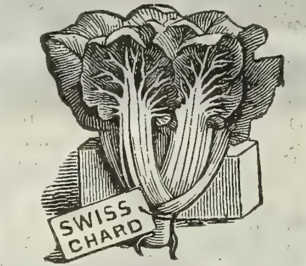
SALZER'S BEST OF ALL BEET.
EDMUND'S
ECLIPSE

SALZER'S BEST OF ALL BEET.

A great acquisition; color outside is deep blood red; inside layers of blood red and light red alternately. Cooked they are beautiful dark red throughout, fine grained and unsurpassed in quality. Now this Beet has been before the public but a couple of years, but the demand for same is something simply enormous. Everybody who has tested it wants it a second year. It is a great money-maker, as its fine shape and size bring for it excellent prices wherever offered. Its flavor is superb and its quality is never found wanting. Indeed, Salzer's Red Beauty, Salzer's Best of All and Salzer's Bingen Ball Beets are varieties you can bank on. **Pkg., 10c; oz., 15c; ¼ lb., 30c; lb., $1.00.**

LONG CRIMSON BEET NOVELTY.

A long red table Beet, of exquisite flavor and quality. Very rich and rare in quality and enormous in yield. Pkg., 10c; oz., 20c; ¼ lb., 40c; lb., $1.



SWISS CHARD.

Cultivated for its leaves; served like Asparagus. Pkg., 5c; oz., 20c; ¼ lb., 30c; lb., $1.00.

SPINACH BEET.

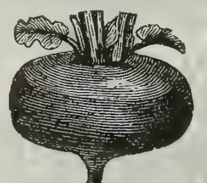
Makes a great quantity of greens, in flavor very much resembling the best spinach. Good and tender all summer long. Pkg., 10c; oz., 15c; ¼ lb., 35c.

THE BINGEN BALL BEET.

The Bingen Ball Beet is ready for market in 40 to 45 days from date of sowing. It is turnip shaped, with a disposition to deepen to the half long type; though by no means a half long Beet. It is deeper than Crosby's Egyptian, with more body and more value. The flesh is of a dark crimson color with lighter rings, and is handsome in appearance, becoming solid crimson when cooked. The top is small, which favors close planting, though this Beet in common with all others, matures most quickly when give plenty of room—say 4 or 5 inches in the row. It has a rich, swee flavor when cooked, and is tender and free from fiber or toughness. It is, in fact, by all odds **one of the best extra early table o market Beets within our knowledge.**

The Bingen Ball Beet is worthy of universal trial by gardeners It is good for the table and good for market, and will at once wi public favor by reason of its earliness and its excellence. **Pkg. 10c; oz., 20c; ¼ lb., 45c; lb., $1.25.**

Dark Red Egyptian.



Highly prized by market gardeners everywhere; size about three inches, slightly flattened; skin dark red; flesh fine, compact texture, tender; of superior flavor. **Pkg., 5c; oz., 10c; ¼ lb., 15c; lb., 50c.**

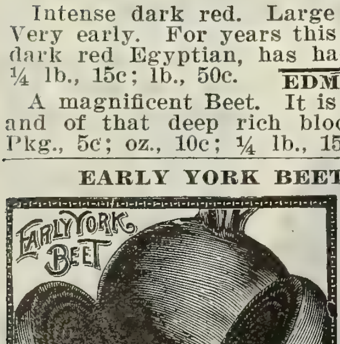
IMPROVED ECLIPSE.

Intense dark red. Large Beets. Grow smooth; are globe shaped. Very early. For years this was the standard early variety, and, like dark red Egyptian, has had a tremendous sale. Pkg., 4c; oz., 10c; ¼ lb., 15c; lb., 50c.

EDMUND'S BEET.

A magnificent Beet. It is of good size, very early, perfect in form, and of that deep rich blood color so much sought by gardeners. Pkg., 5c; oz., 10c; ¼ lb., 15c; lb., 55c.

EARLY YORK BEET.

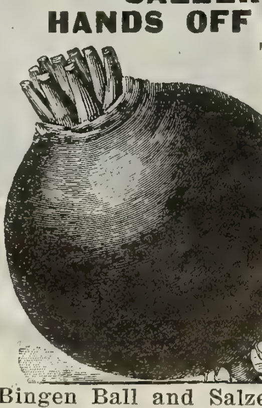


This is a new strain of Turnip Beet, remarkable early, few leaves, with very tender and sweet flesh. Its fine appearance, excellent color, splendid flavor, tender, juicy qualities recommend same to everybody. **Pkg., 10c; oz., 15c; ¼ lb., 30c; lb., 80c.**

NEW CRIMSON KING.

A Beet novelty, very early, globe shaped. Crimson color. Pkg., 10c. oz., 20c; ¼ lb., 40c; lb., $1.00.

SALZER'S HANDS OFF BEET.



The Ideal Table Beet; fine grained, rich red flesh, exceedingly tender, remarkably early. Combines more good qualities than any other round beet. This Beet, with Bingen Ball and Salzer's Red Beauty are quick money-makers. **Price: Pkg., 10c; oz., 20c; ¼ lb., 45c; lb., $1.25; 4 lbs., $4.00.**

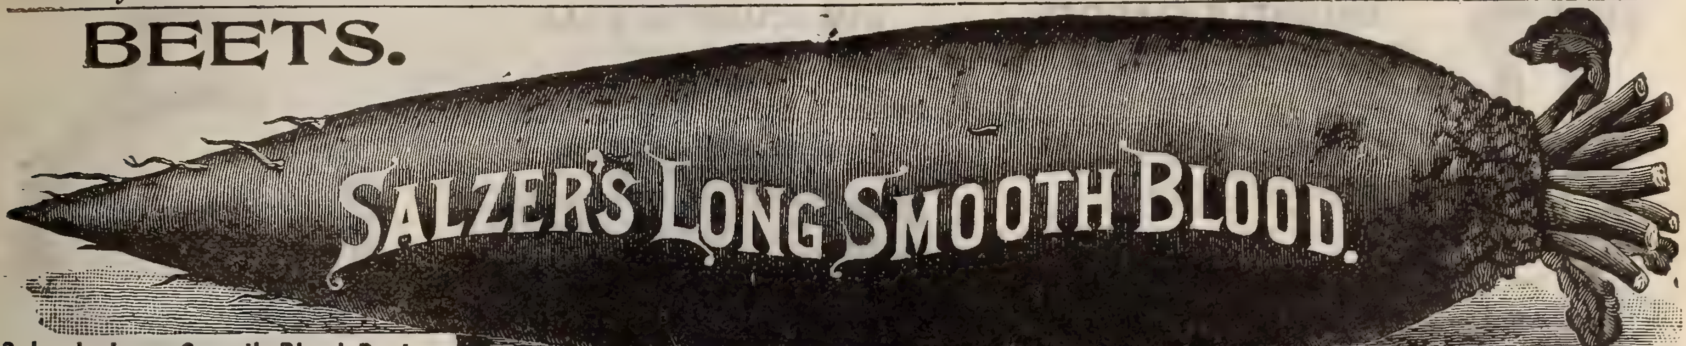
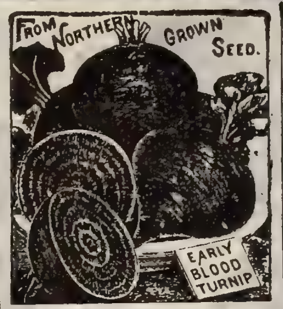
BEETS.



SALZER'S LONG SMOOTH BLOOD.

Salzer's Long Smooth Blood Beet.

Salzer's Long Smooth Blood Beet has an enviable record and it should have; for it is without question the finest long Beet grown for fall and winter use. It is of deep red color, excellent flavor and an enormous cropper and keeps solid and fresh throughout the long winter. Cooks sweet, tender and crisp, and **in every way may be considered the standard sort for the market and the home gardener.** It must not be compared with the common Long Smooth Blood offered by many seedsmen at a less price. Its high grade was attained by long years of care and selection. We could introduce many thousand testimonials on our Red Beauty for extreme earliness; on our Best of All for large size and excellent quality as a round Beet, while more than 47,000 gardeners and citizens are ready to say that Salzer's Long Smooth Blood is the finest Beet of all late sorts—a regular money-maker. Each succeeding year adds thousands to its list of friends. Will you not be among them this season? **Price, big pkg., 10c; oz., 15c; ¼ lb., 25c; lb., 65c; 5 lbs., $3.00, postpaid.**

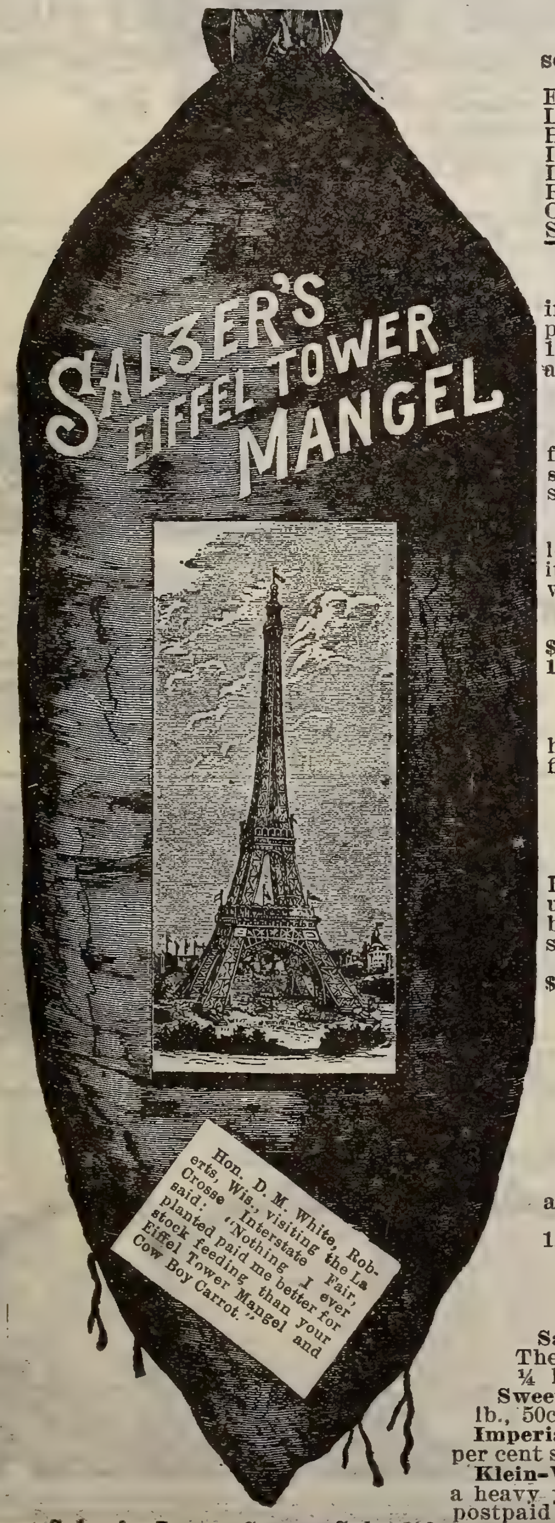


Bastian Extra Early—Probably one of the earliest varieties of turnip Beet. It is of blood red color when boiled. Pkg., 3c; oz., 8c; ¼ lb., 15c; lb., 38c.

Early Blood Turnip—The standard early sort; good for both early and late use. Splendid in every and all particulars. Pkg., 3c; oz., 8c; ¼ lb., 15c; lb., 38c.

Dewing's Red Turnip–A fine variety, of deep red color, and very early. Pkg., 3c; oz., 8c; ¼ lb., 15c; lb., 38c.

Early Bassano—Almost as early as the Egyptian; light color. Pkg., 2c; oz., 8c; ¼ lb., 14c; lb., 35c.



Hon. D. M. White, Roberts, Wis., visiting the La Crosse Interstate Fair, said: "Nothing I ever planted paid me better for stock feeding than your Eiffel Tower Mangel and Cow Boy Carrot."

MANGEL FOR STOCK.

No root crop is a better paying investment for farmers to grow than Mangel Wurzel. Sow in drills 24 inches apart and 9 inches in rows; sow when ground is warm and moist. It will pay every farmer to plant an acre, as the yield is enormous. Feed after milking. A yield of 1,000 bushels per acre is common. Keeps well and does cattle much good, as a change in food always does good.

EIFFEL TOWER MANGEL.

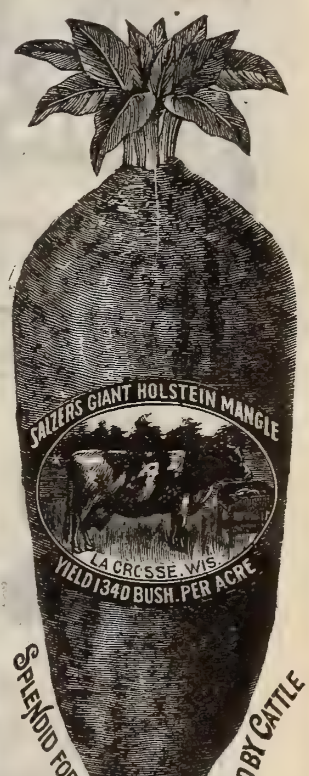
Eiffel Tower Mangel again fairly covered itself with glory, and called forth unanimous praise from thousands of farmers. **Eiffel Tower stands way ahead of every Mangel yet tried.** It is mammoth in size, a specimen having been grown under irrigation in Arizona

Weighing 104 Pounds.

The Mangel is enormously, wonderfully prolific. Its yield is fabulous, 1,000 to 1,800 bushels is nothing uncommon on good soil. Its quality is of a high order, and is greatly relished by all cattle, giving a wonderful flow of milk, and is an excellent food for fattening.

PRICE OF EIFFEL TOWER MANGEL.

By Mail: Pkg., 10c; oz., 15c; ¼ lb., 20c; lb., 50c; 5 lbs. (for 1 acre) $2.25. By express: Pkg., 10c; oz., 15c; ¼ lb., 20c; lb., 40c; 5 lbs (for 1 acre), $1.90; 10 lbs., $3.50.



COLOSSAL HALF SUGAR WHITE MANGEL.

This is a new Mangel, growing to mammoth size, easily dug, white half sugar beet, admirably adapted for cattle feeding as it does not flavor the milk as the common varieties of mangels do.

Price, postpaid: Pkg., 10c; oz., 15c; ¼ lb., 20c; lb., 50c; 5 lbs., $2.00.
Price by express: Lb., 40c; 5 lbs., $1.85.

GIANT HOLSTEIN MANGEL.

A superior Mangel, long, red; of enormous size and excellent flavor. In the celebrated Holstein region (Europe) this splendid Mangel is used to the exclusion of all other sorts. It is eagerly eaten and relished by cattle, and returns a large yield of milk or fattening substance to stock. Think of 1,340 bushels per acre!

By mail. Pkg., 5c; oz., 10c; ¼ lb., 20c; lb., 55c; 5 lbs. (for 1 acre), $2.60; 10 lbs., $5.00.
By express: ¼ lb., 15c; lb., 45c; 10 lbs., $4.00.

Golden Tankard.

SUGAR MANGEL.

This class, although not so large a cropper as our unrivaled Eiffel Tower, has many excellent qualities. Its flesh is white and very sweet.

Salzer's German Sugar Beet—Specially grown for us by a great Sugar Beet grower in Germany. The stock roots from which our seed was grown averaged 17 per cent sugar. Pkg., 5c; oz., 10c; ¼ lb., 15c; lb., 40c; by express, lb., 30c; 5 lbs., $1.25.

Sweet White—Largely grown for feeding purposes and for sugar. Pkg., 5c; oz., 10c; ¼ lb., 15c; lb., 50c; by express, lb., 40c; 5 lbs., $1.25.

Imperial Sugar—Under average conditions it has yielded 14 tons of roots to the acre, containing about 16 per cent sugar. Lb., by mail, postpaid, 40c; ¼ lb., 15c; oz., 5c; 10 lbs., by express, $2.75; 5 lbs., $1.50.

Klein-Wanzleben—This is cultivated on a larger scale than any other Sugar Beet. It is easy to dig, a heavy yielder, and contains from 13 to 15 per cent of sugar. Pkg., 5c; oz., 10c; ¼ lb., 15c; lb., 40c, postpaid; by express, lb., 30c; 5 lbs., $1.25.

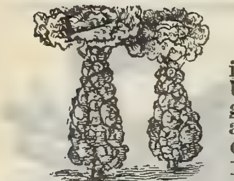
MIXED MANGEL SEED.

Every year there are hundreds of our customers who write us for Mixed Mangel and Sugar Beet Seed, and we have therefore mixed of all the varieties that we have in excellent proportion. It is cheap, and will surely give satisfaction. We can heartily indorse same. On our own farm the planting of mixed Mangels yielded over 700 bushels per acre. Price. Pkg., 3c; 2 pkgs., 5c; oz., 7c; ¼ lb., 10c; lb., 27c, postpaid; 2 lbs., 52c; 5 lbs. (sufficient for an acre), by mail, $1.25; by express, lb., 18c; 3 lbs., or more, 17c a pound.



BRUSSELS SPROUTS.

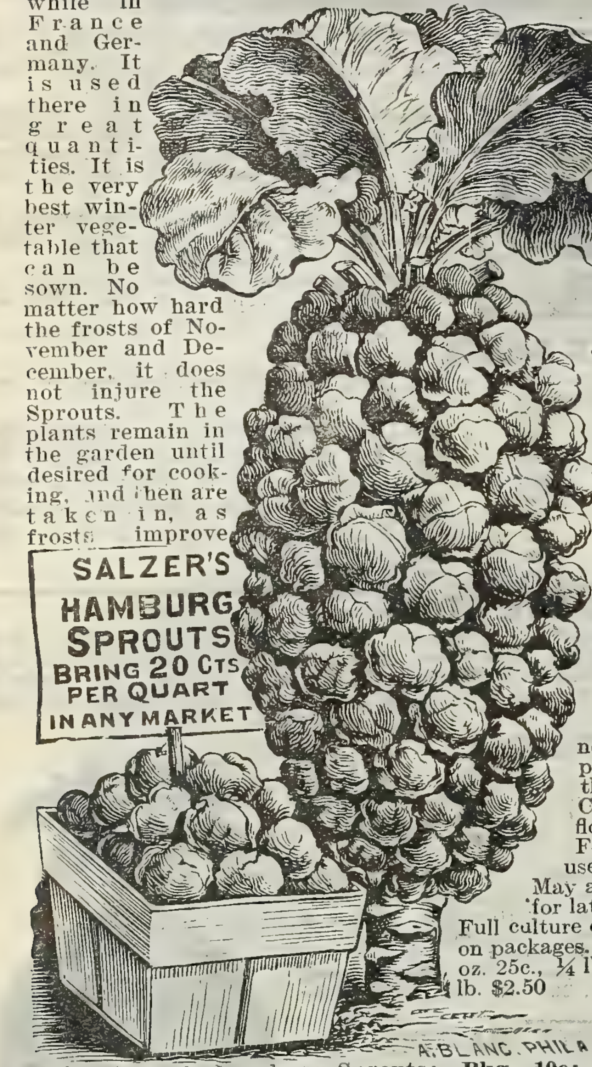
Improved Dwarf—Being planted in increasing quantities all over the United States. It is a vegetable of great delicacy and while not as large as the Salzer Hamburg Strain, yet this dwarf sort is very fine. Pkg., 5c; oz., 15c; ¼ lb., 50c; lb., $1.75.

DALKIETH BRUSSELS SPROUTS.

This variety is a great improvement over the old fashioned Improved Dwarf, but it cannot touch a candle to Salzer's Celebrated Hamburger Sprouts and yet we recommend a trial. It is a very delicious vegetable. Price: Pkg., 10c; oz., 30c; ¼ lb., $1.00; lb., $3.00.

SALZER'S HAMBURG BRUSSELS SPROUTS.

We saw immense fields of this splendid vegetable while in France and Germany. It is used there in great quantities. It is the very best winter vegetable that can be sown. No matter how hard the frosts of November and December, it does not injure the Sprouts. The plants remain in the garden until desired for cooking, and then are taken in, as frosts improve them. Strip off the outer covering of the sprouts cook them whole—ah! such sprouts melt in the mouth, and are a delicacy not surpassed by the finest Cauliflower. For early use plant in May and June; for late in July Full culture directions on packages. Pkg. 10c oz. 25c., ¼ lbs., 75c., lb. $2.50

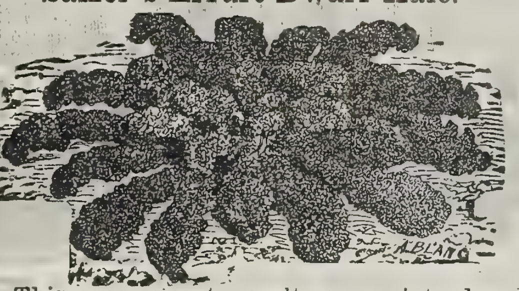


Price, Salzer's Hamburg Sprouts: Pkg., 10c; oz., 25c; ¼ lb., 75c; lb., $2.50.

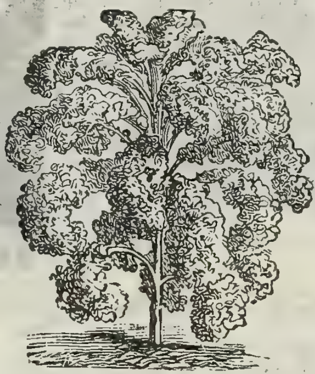
BORECOLE OR KALE.

A hardy, useful winter vegetable. Sow in the middle of April or in the fall. Improved in taste when touched by frost.

Salzer's Erfurt Dwarf Kale.



This magnificent novelty we introduced from Erfurt, Germany, where Kale is grown to great perfection. It is extremely prolific, of the richest color and most delicious flavor. If you haven't given Kale a trial, do so this year; you will relish it. Pkg., 10c; oz., 25c; ¼ lb., 60c; lb., $2.00.



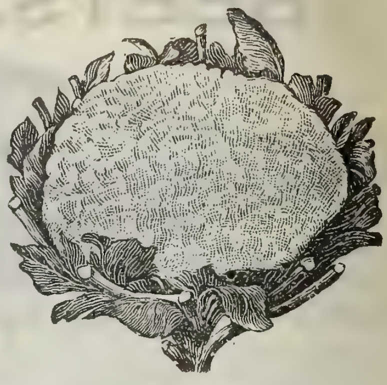
Scotch Green Kale.

DWARF GERMAN GREEN KALE.

Grown in large quantities by our German friends, who thoroughly understand the preparation of this splendid vegetable. Pkg., 5c; oz., 20c; ¼ lb., 50c; lb., $1.75.

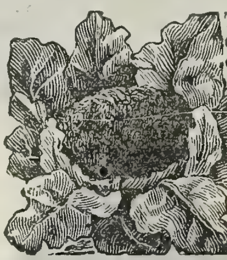
Scotch Green Kale—Very fine. See cut. Pkg., 5c; oz., 15c; ¼ lb., 30c; lb., $1.00.

BROCCOLI.



Large White Broccoli.

Nearly allied to Cauliflower, but more hardy, of excellent flavor, and greatly relished by all who grow them.



Large White—The finest, largest and best cropping sorts. Pkg., 10c; oz., 30c; ¼ lb., 85c; lb., $2.75.

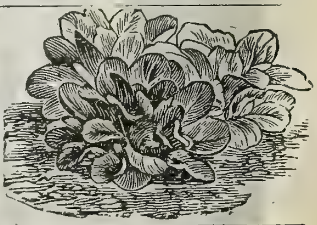
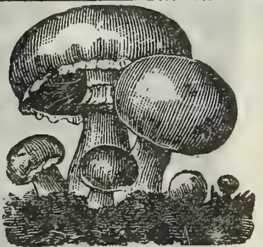
CORN SALAD OR FETTICUS. ☞



An excellent vegetable, used as a salad; largely grown for market. Sow early in spring, in rows 1 foot apart, and it is fit for use in six weeks. Pkg., 5c; oz., 10c; lb., $1.00.

CHAMPIGNONS OR MUSHROOMS.



Mushrooms. 1 lb., postpaid, 30c.

The demand for Mushroom Spawn among private growers and gardeners for growing in cellars, sheds, etc., has increased with us since its introduction over 1,000 per cent. Everybody is trying this most delicious of all edible fungi. Our booklet, "Mushroom Culture," is mailed you on receipt of 10c, or free with each order of Spawn. The Mushroom is a delicious edible fungus, of a white color, changing to brown when old. The gills are loose, of a pinkish red, changing to livid color. It produces no seed, but instead a white, fibrous substance in broken threads, called spawn. Can be grown in cellars and out-of-the-way places.

CULTURE OF THE MUSHROOM.

Our booklet, price 10c; or mailed free with each order of Spawn, tells all about it.

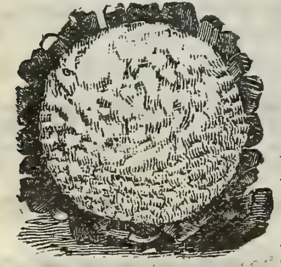
CAULIFLOWER.

EXTRA EARLY DANISH SNOWBALL CAULIFLOWER.

Has proven invariably a sure header. The flowerhead is of very fine grain, dense growth, while the plant has a very short stem and close outer leaves. While we are aware that price is of little consideration in this critical seed, it cannot be denied that if equal quality may be obtained a moderate reduction in price is not to be despised. Pkg., 12c; ⅛ oz., $1.25; oz., $2.00; ¼ lb., $6.00.

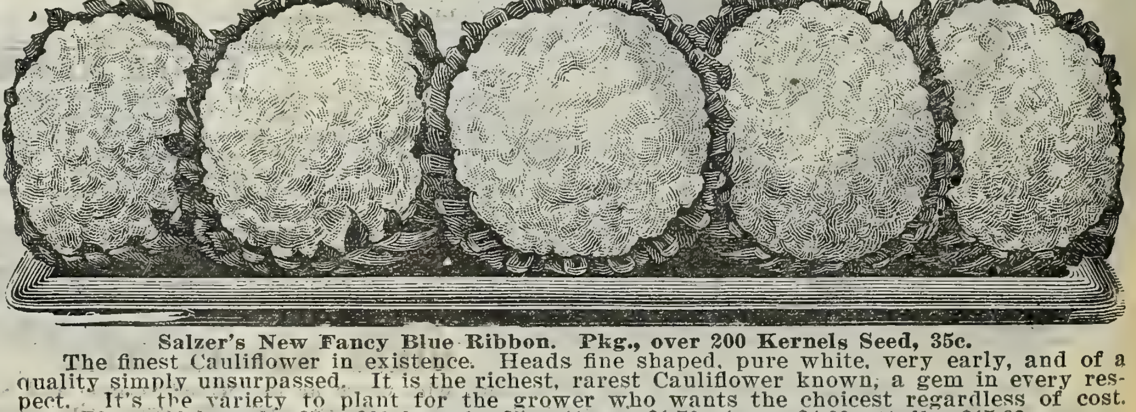


Henderson's True Snowball. Pkg., 10c.

HENDERSON'S TRUE SNOWBALL.

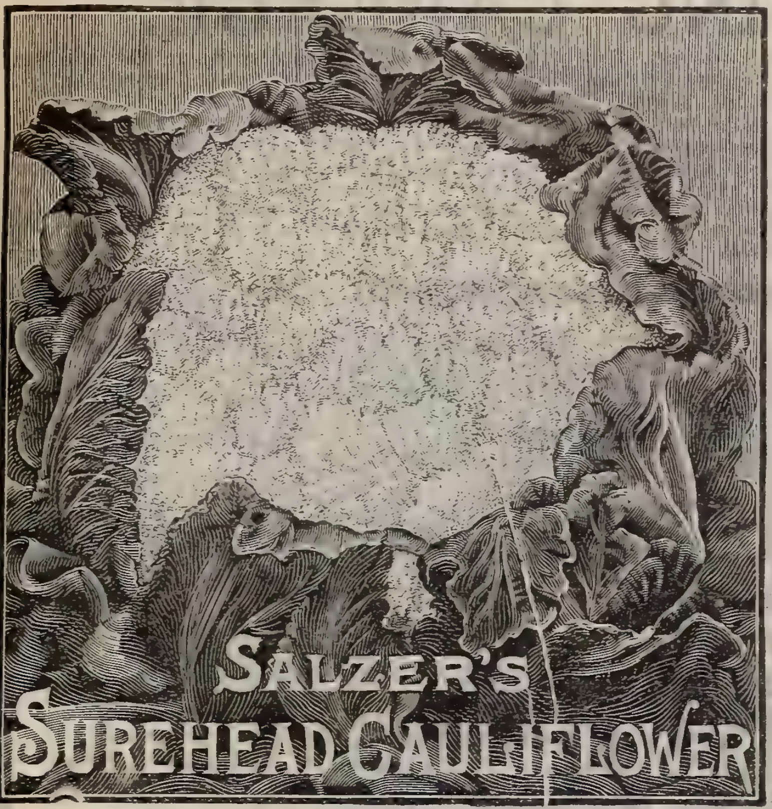
Largely grown in the East, where it has become famous. In quality, earliness and yield it is superb. Pkg., 10c; ½ oz., $1.50; oz., $2.50.

Salzer's New Fancy Blue Ribbon Cauliflower.



Salzer's New Fancy Blue Ribbon. Pkg., over 200 Kernels Seed, 35c.

The finest Cauliflower in existence. Heads fine shaped, pure white, very early, and of a quality simply unsurpassed. It is the richest, rarest Cauliflower known, a gem in every respect. It's the variety to plant for the grower who wants the choicest regardless of cost. Pkg., 100 kernels, 25c; 200 kernels, 35c; ¼ oz., $1.50; 1 oz., $4.00; ¼ lb., $15.00.



Salzer's Earliest Surehead Cauliflower.

Is Beyond Question The Best For Either Early or Late, For Family and Market Garden, For Forcing or Cold Frames.

IT HEADS WHERE OTHERS FAIL.

Whether for forcing or open ground, planted early or late, it is the surest header of all. Very dwarf and compact in growth, it can be planted very close, 18 inches each way, and is particularly desirable for forcing under glass. On our trial grounds every plant produced a **superb head and surpassed all older varieties in earliness, size and quality.** We do not believe, on earth can be found a finer, more tender, surer heading earliest Cauliflower than Salzer's Surehead. (Salzer's July 1st may be a little earlier, for description see below.)

Salzer's Earliest Surehead Cauliflower is superior in flavor to all others; we think it is the earliest of all Cauliflowers. Its close growing, compact habits enables one to grow one-third more on the same space of ground that can be done with such varieties as Henderson's Snowball, Autumn King and the like.

A Few Testimonials Only.

A. G. Edbert, Iowa: "Never before did I have such beautiful Cauliflower. Surehead is sure."

Mrs. Gov. Hoffman, Jefferson, Wis., says: "Its the finest, richest flavored Cauliflower I ever saw. Every plant headed beautifully."

$1,100.00 Per Acre.

I had a space 15 by 150 ft. Planted 1,000 plots, 1½x1½ ft. These 1,000 Cauliflowers brought me $60 or at the rate of over $1,100 per acre. C .E. B.

9,000 Heads Brought me $546.00.

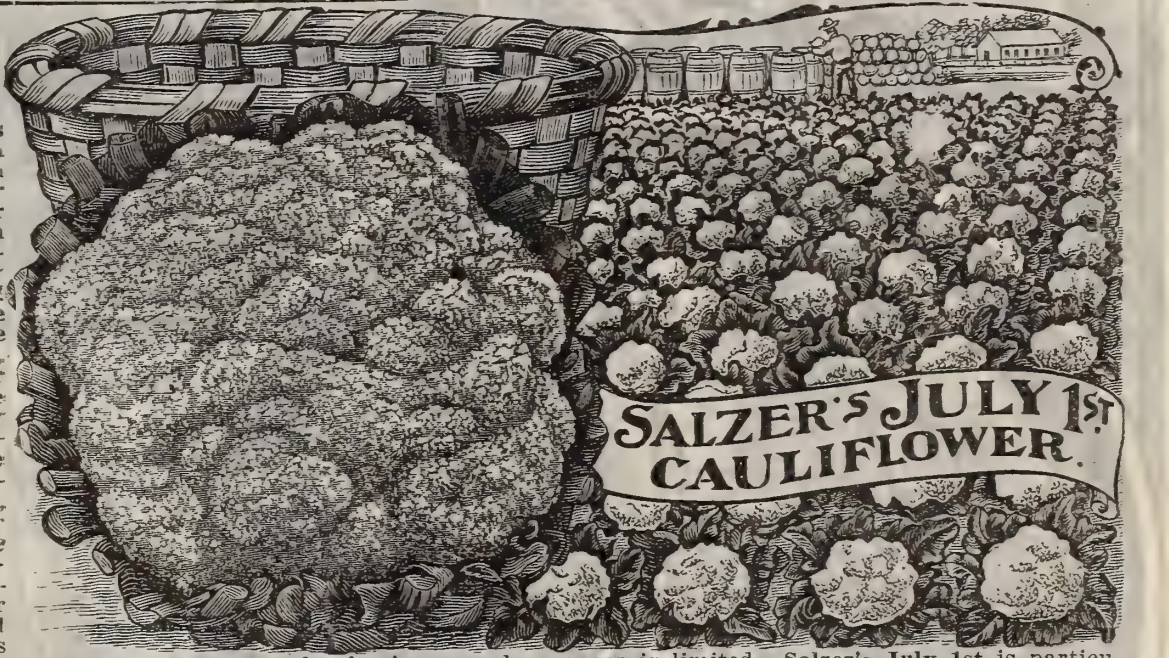
James Cook, a grower for the Milwaukee market, planted one acre of **Salzer's Earliest Surehead** and sold 9,000 splendid solid white Cauliflowers netting him $546.00.

Salzer's Earliest Surehead

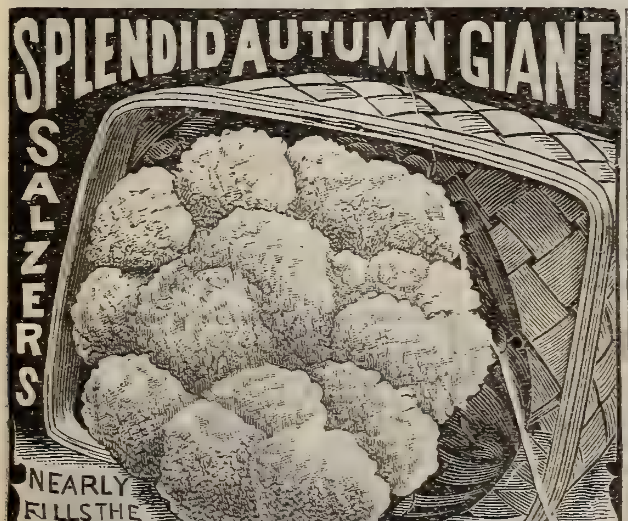
Is unquestionably one of the largest and best of all early Cauliflowers. Market gardeners once having sown it will plant no other. We know of no Cauliflower that will make you more money than Salzer's Earliest Surehead. It can be planted for early, for medium, for fall and for late and always responds with profit. We want to introduce it everywhere, hence our extremely low price.

Price of Salzer's Earliest Surehead Cauliflower: Pkg., 15c; ¼ oz., 80c; ½ oz., $1.50; oz., $2.50; ¼ lb., $7.50; 1 lb., $25.00.

SALZER'S NEW CAULIFLOWER, "July 1st."



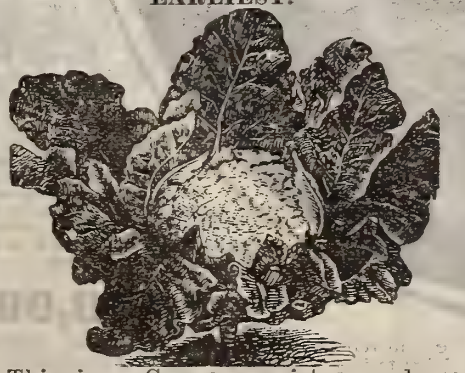
Stand Aside! Hear the Tale! For many years we have challenged the world to produce a finer, handsomer or earlier Cauliflower than our Salzer's Earliest Surehead. None ever dared to accept the challenge; no one ever raised a handsomer, earlier Cauliflower than Salzer's Earliest Surehead! But to-day Earliest Surehead hangs its head and modestly proclaims **Salzer's July 1st** as the earlier! My! we feel proud of our Cauliflowers. There are none better than Earliest Surehead, but here is one, such a lovely beauty, so fine and early, that we cannot find words to express our delight. **For reliability of heading and size and solidity of heads,** it is superior to any other variety—a claim which has been established by innumerable tests in all parts of the country. It is sure to head even under unfavorable circumstances. The plants are dwarf, and while the outer leaves are erect the inner ones lap over the heads so as to fully shade them from the sun, preserving them a beautiful snowy white. The plants can be set closely, and they grow and mature rapidly under favorable conditions. It is very dwarf and compact in habit of growth, like the Salzer's Earliest Surehead, and can be planted as close as 18 inches each way for forcing, or where space is limited. **Salzer's July 1st** is particularly desirable for forcing under glass, while in our open air trials every plant has produced a head. It is unquestionably the best of all. Note low prices. ¼ oz. is good for 900 plants. **Pkg., 20c; ¼ oz., $1.20; ½ oz., $2.00; oz., $3.50; ¼ lb., $10.00.**



AUTUMN GIANT CAULIFLOWER.

A glorious Cauliflower, immensely popular, indeed the sales in 1909 were over 300 per cent more than eight years ago! Everybody likes it for a late Cauliflower. A gorgeous fall sort, with fine heads; very large and of excellent quality. **Pkg., 10c; ½ oz., 75c; oz., $1.25; ¼ lb., $3.00.**

NEW CAULIFLOWER, BERLINER EARLIEST.

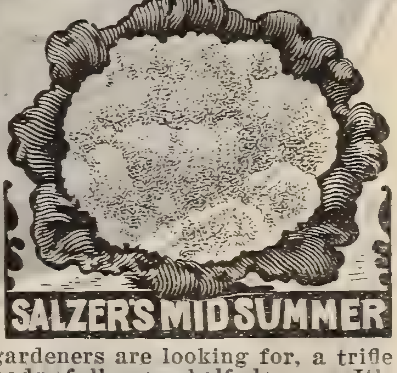


This is a German variety, produces very early, good-sized, pure white heads, which are tender and delicious. Good for market or home garden. It's not so handsome as Salzer's July 1st, not so fine as Salzer's Earliest Surehead, not so large as Midsummer, but it's early, early, early! All Berlin raves over it on account of its extreme earliness; and then look at the low price: ¼ oz. (good for 700 plants), only 20c. It will pay you to try this new novelty. **Price of Berliner Earliest Cauliflower:** Pkg., 5c; ¼ oz., 20c; ½ oz., 30c; oz., 50c; ¼ lb., $1.50.

EARLY PARIS.

One of the earliest; small heads; quick grower. Pkg., 10c; oz., 75c.

SALZER'S MIDSUMMER CAULIFLOWER.



There has been for years a need for a second early Cauliflower, one with larger heads ripening right after our peerless Salzer's Surehead, Salzer's Blue Ribbon and the Snowball. Now, in our Midsummer, we believe we have met the sort gardeners are looking for, a trifle later with heads fully one-half larger. It's a sort that will bear a trial. When once grown, will be always used. **Pkg., 12c; 2 pkgs., 20c; ½ oz., 75c; oz., $1.25; ¼ lb., $3.00.**

ERFURT EARLY DWARF.

This is the celebrated Cauliflower of Germany, early, fine, and sure to head. Pkg., 10c; oz., $2.00.

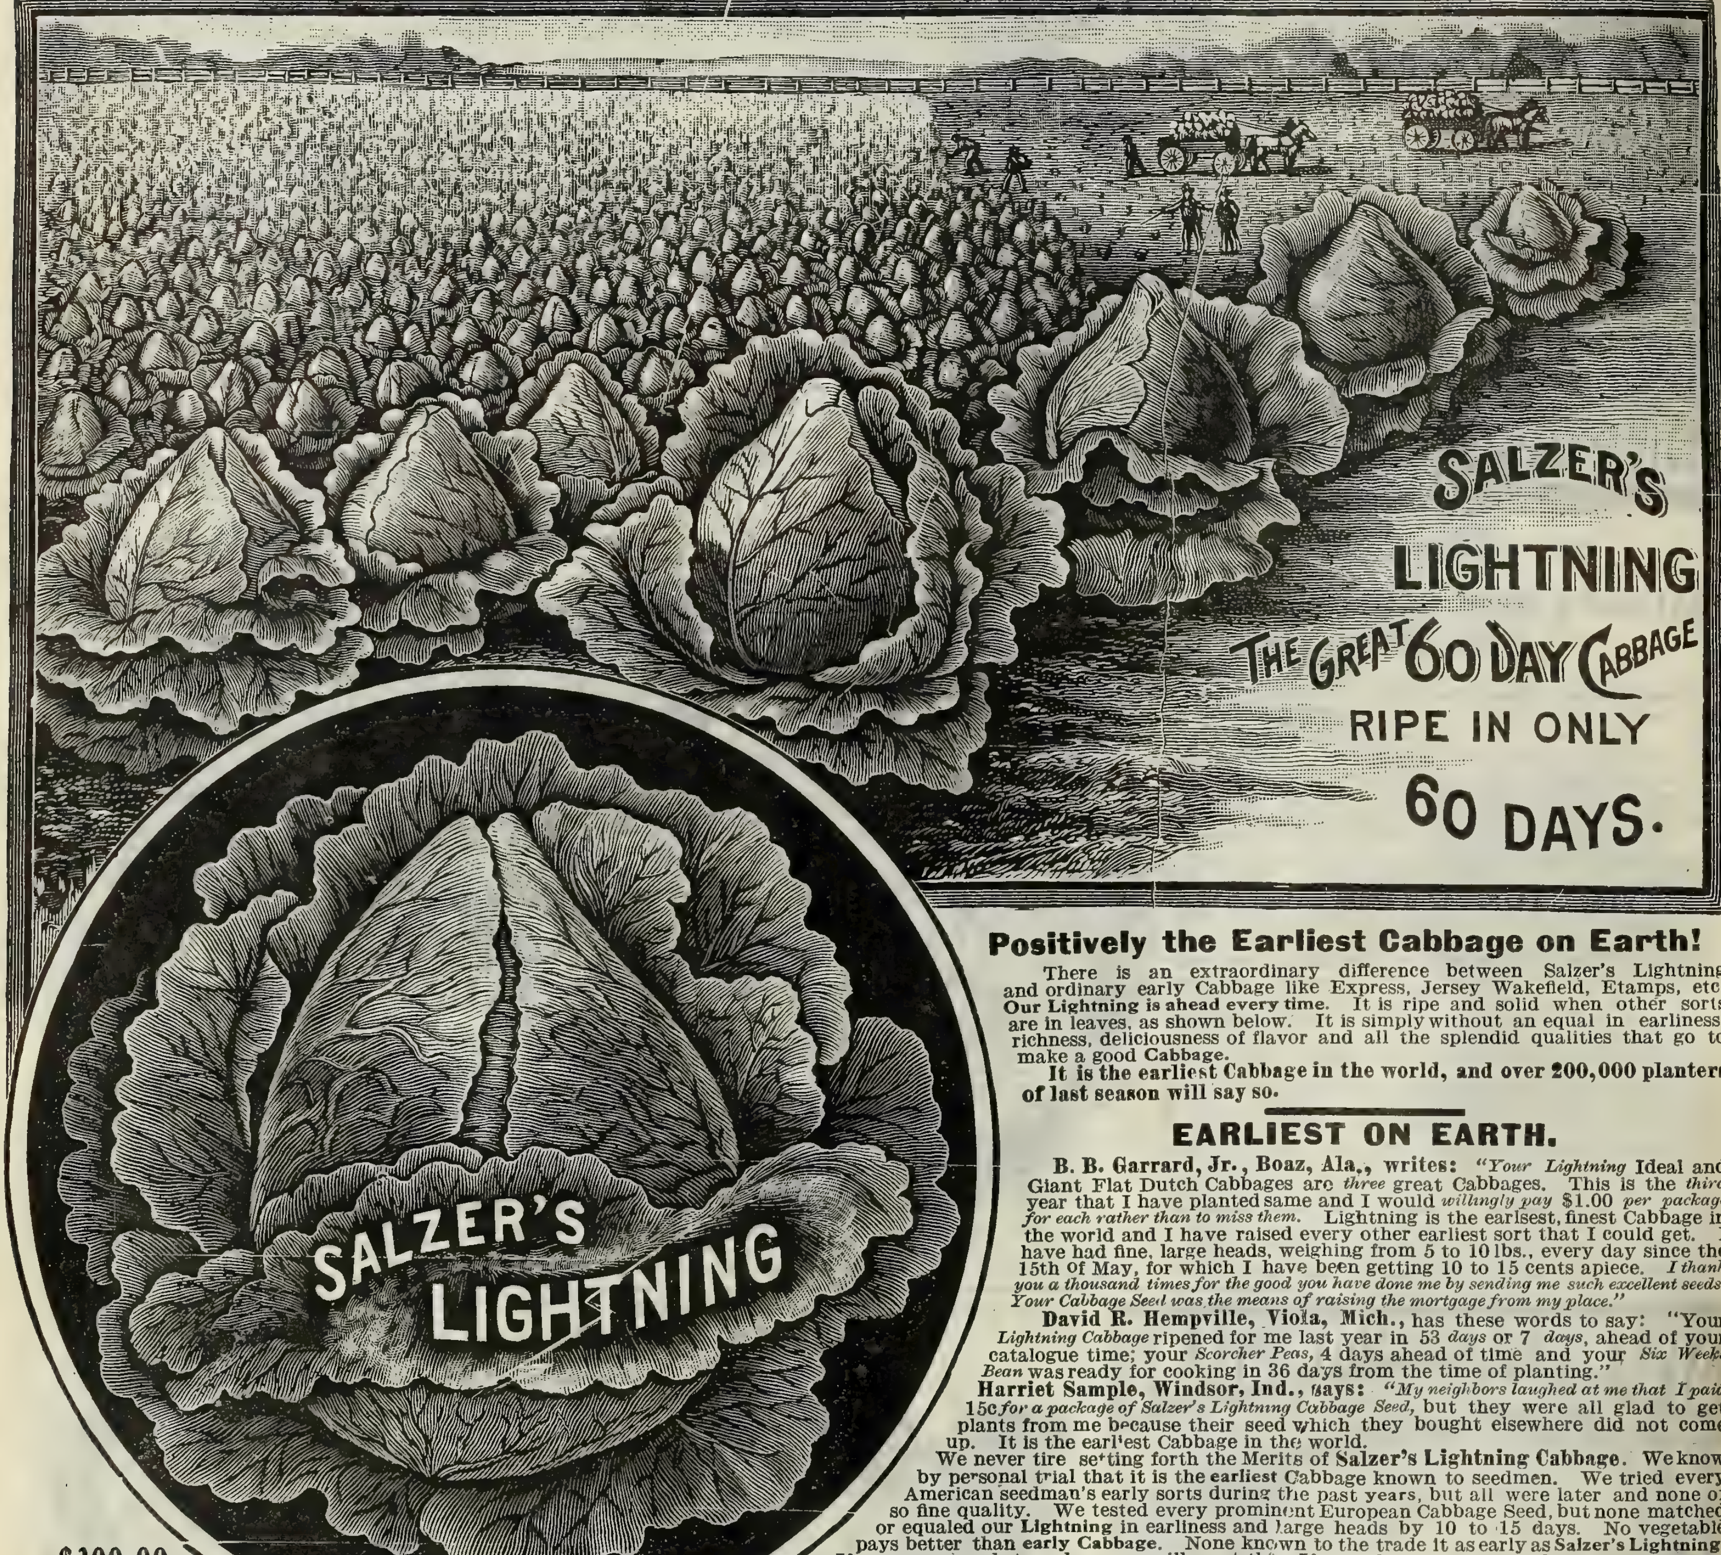
LA CROSSE EARLY FAVORITE.

Growing side by side with Snowball, this was decidedly the finest in appearance, earliest in yield, with largest number of sure heads. **Pkg., 20c; 3 pkgs., 50c; ¼ oz., $1.10; ½ oz., $1.75; oz., $3.00.**

SALZER'S LIGHTNING CABBAGE.

The most important crop among market gardeners and market farmers is Cabbage. Failure in this depends largely upon the quality of seed used. America has been flooded with **cheap, poor** European-grown Cabbage seeds. which is sold at 2c a paper or thereabout by some Illinois, Iowa, Minnesota, and other cheap seedsmen, who do not care for quality—just to sell Cabbage seed cheap.

Now, then, Lightning Cabbage is the earliest of all. First introduced by us in 1889, and pronounced by one and all the greatest addition for the past HUNDRED YEARS to the Cabbage family. Produces fine-sized, marketable heads, 60 DAYS FROM SOWING OF THE SEED. We did not think we would be able to offer an earlier Cabbage than Salzer's Earliest, but LIGHTNING IS 10 DAYS EARLIER THAN EVEN THIS NOW FAMOUS EXTRA EARLY SORT. In quality it is A No. 1, has comparatively few loose leaves, and almost every plant forms a fine, solid, heavy head every time. It holds its head admirably, and as it can be planted so close together, yields a very large crop. There are many Cabbages called "Earliest" listed by other seedsmen, but we glady say that LIGHTNING WILL DISCOUNT THEM ALL AND BEAT THEM IN EARLINESS FULLY 10 DAYS OR MORE.



Positively the Earliest Cabbage on Earth!

There is an extraordinary difference between Salzer's Lightning and ordinary early Cabbage like Express, Jersey Wakefield, Etamps, etc. **Our Lightning is ahead every time.** It is ripe and solid when other sorts are in leaves, as shown below. It is simply without an equal in earliness, richness, deliciousness of flavor and all the splendid qualities that go to make a good **Cabbage.**

It is the earliest Cabbage in the world, and over 200,000 planters of last season will say so.

EARLIEST ON EARTH.

B. B. Garrard, Jr., Boaz, Ala., writes: *"Your Lightning* Ideal and Giant Flat Dutch Cabbages are *three* great Cabbages. This is the *third* year that I have planted same and I would *willingly pay* $1.00 *per package for each rather than to miss them.* Lightning is the earlsest, finest Cabbage in the world and I have raised every other earliest sort that I could get. I have had fine, large heads, weighing from 5 to 10 lbs., every day since the 15th of May, for which I have been getting 10 to 15 cents apiece. *I thank you a thousand times for the good you have done me by sending me such excellent seeds. Your Cabbage Seed was the means of raising the mortgage from my place."*

David R. Hempville, Viola, Mich., has these words to say: "Your *Lightning Cabbage* ripened for me last year in 53 *days* or 7 *days*, ahead of your catalogue time; your *Scorcher Peas,* 4 days ahead of time and your *Six Weeks Bean* was ready for cooking in 36 days from the time of planting."

Harriet Sample, Windsor, Ind., says: *"My neighbors laughed at me that I paid* 15c *for a package of Salzer's Lightning Cabbage Seed,* but they were all glad to get plants from me because their seed which they bought elsewhere did not come up. It is the earliest Cabbage in the world.

We never tire setting forth the Merits of **Salzer's Lightning Cabbage.** We know by personal trial that it is the **earliest** Cabbage known to seedmen. We tried every American seedman's early sorts during the past years, but all were later and none of so fine quality. We tested every prominent European Cabbage Seed, but none matched or equaled our **Lightning** in earliness and large heads by 10 to 15 days. No vegetable pays better than **early Cabbage.** None known to the trade it as early as **Salzer's Lightning.** If you are a market gardner you will want this; If you have a city garden you can't get along without it. We are happy in the fact that since its introduction in 1889—just 21 years ago—more than

1,550,000

separate plantings have been made of Salzer's Wonderful Early Lightning Cabbage, and, without exception, everybody of above remarkable number sings its praises as the earliest—10 to 15 days ahead of other Seedsmen's Earliest, or in other words, Lightning is ripe when others are in leaves—see illustration.

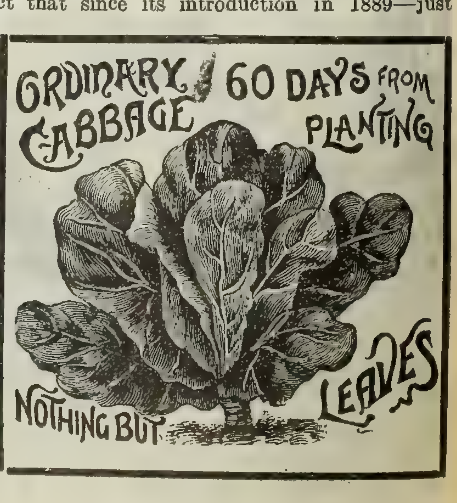
We could fill this catalogue with earnest, hearty, enthusiastic reports of our 3 great Cabbages—Lightning, Ideal and Giant Flat Dutch. They are prize-winners everywhere. There is nothing like them. They are our great specialties. Any seedsman offering you these 3 or "just as good" sorts, you can put him down and out. **No seedsman** has the genuine seed of these 3 sorts; if he says he has, he tells you an **untruth.** We sell these sorts only to our customers. Therefore, if you wish the **earliest Cabbage,** in the world, you must **plant** Salzer's **Lightning.**

$300.00 Per Acre Easily Made on LIGHTNING CABBAGE! in 55 Days!

Ray McPheeters, Greenville, Ind., hauled off a load to market 55 days from sowing of seed.

GOES HIM 10 DAYS BETTER.

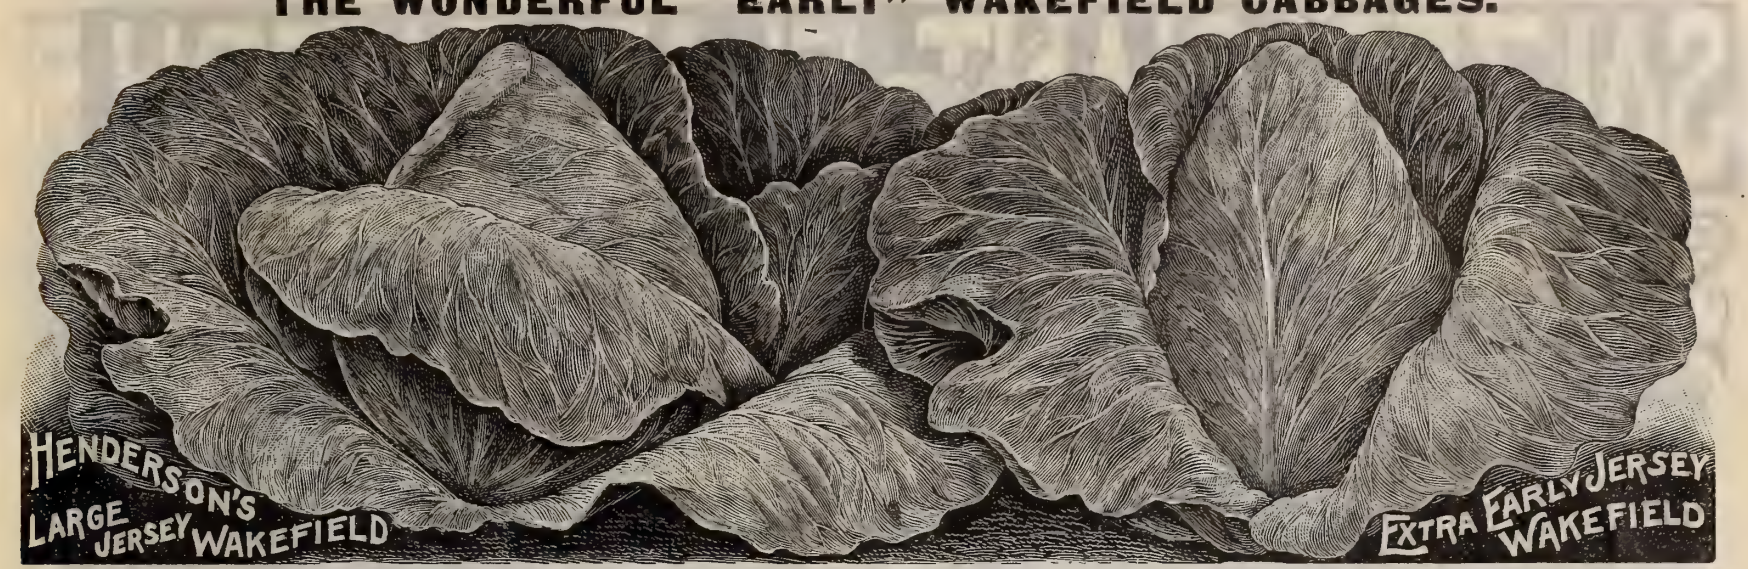
Wm. Franke, Waverly, O., says: "I sold Salzer's Lightning Cabbage 45 days after sowing the seed. That's good enough."



PRICE OF SALZER'S LIGHTNING CABBAGE SEED:

Price for big pkg., 15c; 2 pkgs., 25c; ½ oz., 35c; oz., 60c; ¼ lb., $2.00; ½ lb., $3.50; lb., $6.50; 3 lbs., $15.00, postpaid.

THE WONDERFUL "EARLY" WAKEFIELD CABBAGES.



HENDERSON'S LARGE JERSEY WAKEFIELD
EXTRA EARLY JERSEY WAKEFIELD

HENDERSON'S LARGE JERSEY WAKEFIELD.

(Also known as Charleston Wakefield.)

This is a magnificent Cabbage. A trifle larger than our Extra Early, about 6 days later, and it's not infrequent to have heads weighing 8, 10 and 12 lbs., as solid as a rock. Price: Pkg., 10c; oz., 30c; ¼ lb., $1.00; lb., $3.50.

WASHINGTON WAKEFIELD.

(Sold only in sealed packages.)

The Washington Wakefield Cabbage we find ripens about 7 to 10 days later than our Lightning and a couple of days later than the Extra Early; in fact it ripens about the same time as Henderson's Charleston Wakefield. Price: Pkg., 10c; oz., 30c; ¼ lb., 90c; lb., $2.50.

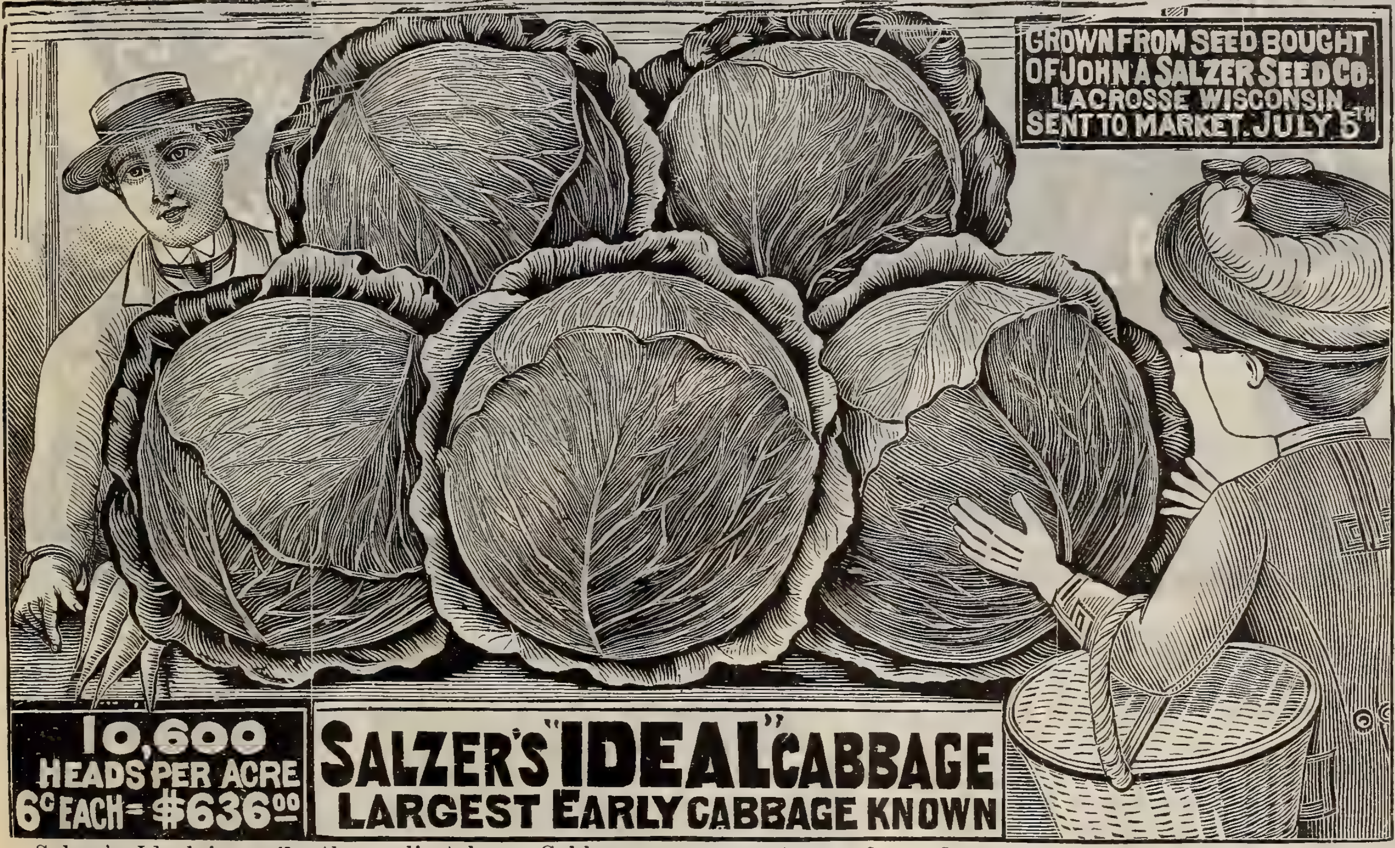
SALZER'S EXTRA EARLY JERSEY WAKEFIELD.

Next to **Salzer's Lightning Cabbage** this is the most satisfactory of the extra early varieties to plant. It ripens a week after Salzer's famous Lightning; brings fine heads of most delicious flavor. It is largely used about New York and is unquestionably the earliest Wakefield in the land! Price: Pkg., 5c; oz., 20c; ¼ lb., 75c; lb., $2.50, postpaid.

If you really want the earliest Cabbage on earth, always plant Salzer's Lightning. See page 37.

SALZER'S IDEAL CABBAGE.

The **earliest Cabbage** in the world is Salzer's Lightning. The best, surest heading **late** Cabbage is Salzer's Giant Flat Dutch. "But what have you between?" we are so frequently asked. To this we unhesitatingly answer:



GROWN FROM SEED BOUGHT OF JOHN A SALZER SEED CO. LACROSSE WISCONSIN. SENT TO MARKET, JULY 5TH
10,600 HEADS PER ACRE 6c EACH = $636.00
SALZER'S "IDEAL" CABBAGE
LARGEST EARLY CABBAGE KNOWN

"SALZER'S IDEAL." Verily and truthfully the finest large, early or summer Cabbage in the wide world! That's strong, you think—Yes, it is a strong statement but a statement we can prove every time.

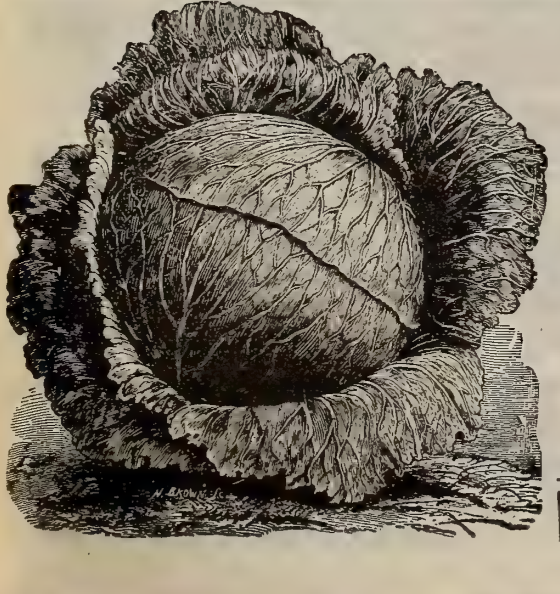
WHAT ARE ITS CLAIMS?

Earliness! Ripe about as soon as Eastern seedsmen's early sorts, with heads **twice,** yes, often **three times,** as large! When we were market gardening, years ago, if we could have had this Cabbage, it would have been a **fortune to us,** because every market gardener needs just such a Cabbage, one that as soon as Salzer's Lightning is ripe and on sale, will come with its matchless heads of such beauty that they will sell quickly at $1.00 to $1.50 a dozen. That's the price you will get for Salzer's Ideal!

Quality! Well, now, we don't know of a Cabbage so uniform in size, so beautiful in appearance, and of such tender and excellent quality as Ideal.

Salzer's Ideal is **easily** the earliest large Cabbage grown; it is the finest flavored and the surest heading summer variety known. More than 10,000 large solid heads (ripe in this northern country in July) can be grown to each acre on account of its remarkably compact growth.

PRICE OF SALZER'S IDEAL: Big pkg., 12c; 2 pkgs., 20c; ½ oz., 25c; oz., 35c; ¼ lb., $1.25; lb., $3.75.



EARLY SPRING CABBAGE.

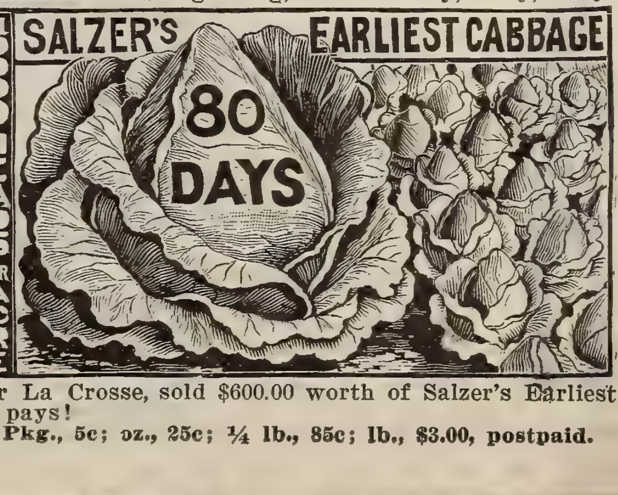
Used largely in New York, Boston and Eastern cities. It's a very large sort, and **as early as the large Wakefield;** is very uniform, round in shape, slightly flattened, very solid, even before the Cabbages attain their mature size. The flavor is excellent.

On account of its shape, productiveness and solidity, it will prove a serious rival to the Wakefield. Gardeners cannot afford to be without this, as it is a "seller," round Cabbages receiving always the preference, while its compact form and good quality will commend it for the private garden.

Pkg., 10c; ½ oz., 20c; oz., 30c; ¼ lb., 90c; lb., $3.00 postpaid.

SALZER'S EARLIEST CABBAGE.

This is the earliest small head Cabbage on earth—broad keen statement, but it's the truth as you will find when you plant same! It's not so large and fine as Salzer's Lightning, but it's early, early, early!



Henry Benke, a market gardener near La Crosse, sold $600.00 worth of Salzer's Earliest Cabbage from 1¼ acres of land. That pays!

PRICE OF SALZER'S EARLIEST: Pkg., 5c; oz., 25c; ¼ lb., 85c; lb., $3.00, postpaid.

NORTHERN GROWN SEED IS THE BEST
THE MOST WONDERFUL CABBAGE IN THE WORLD
9990 HEADS OUT OF 10,000!

Greatest of all late Cabbages, and every planter of same pronounces it the most wonderful of all late Cabbages! and well they may, for it certainly is the **finest late Cabbage grown.** That's strong, you say—but not half strong enough, you'll think, after you have given it a thorough test. It has been in our possession for years. While we were engaged as market gardeners at La Crosse, **it always brought the highest price in the market.** We have by careful selection greatly improved it, and with hundreds of market gardeners and farmers who are using same exclusively for late Cabbage, pronounce it **absolutely the best, surest heading, largest late Cabbage grown.** It is a grand Cabbage. If there is a better Cabbage than this in America we don't know it, for every obtainable **sure-head** Cabbage has been tried by us, but all found inferior to **Salzer's Giant Flat Dutch.** Farmers and others planting this will always realize from $4.00 to $8.00 more a load than of any late Cabbage we know of. Better pay 10c a package for this and grow 500 big, solid heads than 1, 2 or 3c for some cheap kind and get only 20 to 30 loose indifferent Cabbage heads. Try it! It is cheap at ten times the cost. We control the entire stock of this strain in America, and it can only be had of us. Don't be fooled by seedsmen offering to sell you **"just as good a strain"** of sure-heading Cabbage. They can't do it. They will give you an inferior kind every time. If you desire the genuine **buy none unless in our packages.** Any one offering you Giant Flat Dutch Cabbage not in our sealed packages, **PUT HIM DOWN; HE'S "FOOLING YOU."**

10 POINTS IT IS DISTINGUISHED BY:

1. **It's the Surest Heading Cabbage in the World.**
2. **Is the superior of all other Winter Cabbages.**
3. **Enormous solid heads, averaging 16 to 20 lbs.**
4. **Measuring 12 to 14 inches in diameter.**
5. **Specially grown heads often reach 50 lbs. each.**
6. **Interior creamy white, compact and crisp.**
7. **Unequaled for cooking or slicing; flavor especially fine.**
8. **It is the best winter keeper in forty states.**
9. **It has more friends than any other sort.**
10. **It is known to flourish on all soils.**

ABSOLUTELY SURE HEADING—999 OUT OF 1,000.

For sureness in heading and regularity in growth, Salzer's Giant Flat Dutch certainly heads the list. No words of praise are too high for its merits. It forms **every time,** very large, very hard, solid heads, uniform in shape, color and handsome appearance. It has a very short stem, and at the same time it is a very compact grower. It forms few loose leaves, which turn in from the head. Reports of 999 marketable heads from 1,000 plants set out are of daily occurrence. There are many magnificent strains of Cabbage offered in this catalogue, but we think we can safely say that Salzer's Giant Flat Dutch is equaled and surpassed by none.

John F. Wicke, Keokuk, Iowa: Salzer's Giant Flat Dutch stood the season well. I cleared $100 off a small patch. My neighbors bought their seed of Eastern seedsmen, and had nothing but stalks. My Giant Flat Dutch sold readily at $1.25 a dozen! Salzer's Seeds can't be beat!

OVER 1,400,000 CABBAGE GROWERS

Have tested Salzer's Giant Flat Dutch Cabbage, and in all the years since its introduction we have never had a single complaint. The fact is, this Cabbage is all right. It can't be beat. It's perfect. It's what you want. It's what you need. If you want a Cabbage **ALL HEAD AND ALWAYS SURE TO HEAD,** you have it, without a doubt, in **Salzer's Giant Flat Dutch.** A few of the many excellent qualities possessed by the Cabbage are the **remarkable uniformity** with which it **always** heads, the heads being unusually firm, hard and fine in texture. It has comparatively few loose leaves, keeps well, is good for shipping, is just the variety and quality to suit all lovers of good Cabbage.

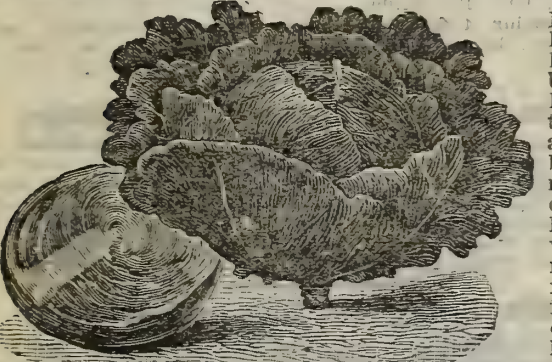
DUTCH WINTER OR HOLLANDER CABBAGE.

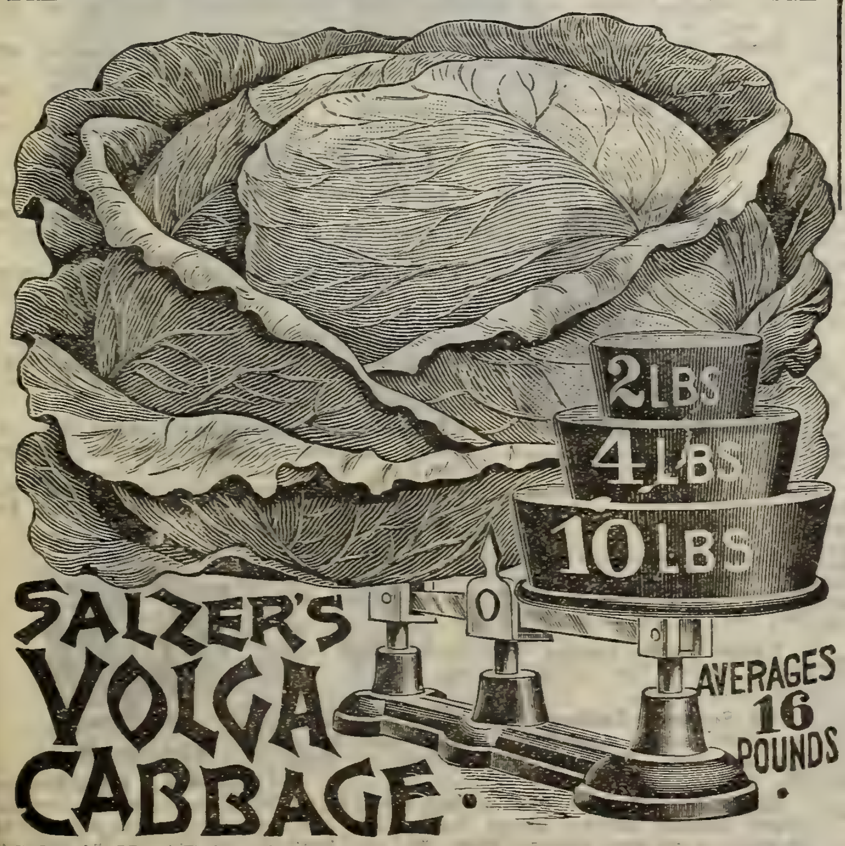
Are you aware that Holland sends this Cabbage to America, and retails it here at double the price of American grown other sorts? The heads weigh about 8 lbs., are very solid and deep, and of finest white color, keeping better than any other variety that we know of, excepting Salzer's Giant Flat Dutch. It has a short stem, is very uniform in shape, with solid, hard heads of delicious flavor. You will never be disappointed in planting a plenty of Dutch Winter or Hollander Cabbage. There are two or three varieties offered by seedsmen that are not the genuine Winter or Hollander. Be sure and get the genuine when you order. We could fill ten pages of this catalog with rich testimonials on the great excellency of this remarkable winter Cabbage. Next to Giant Flat Dutch, we like this the best.

Big pkg., 10c; ½ oz., 20c; oz., 30c; ¼ lb., 75c; lb., $2.50, postpaid.

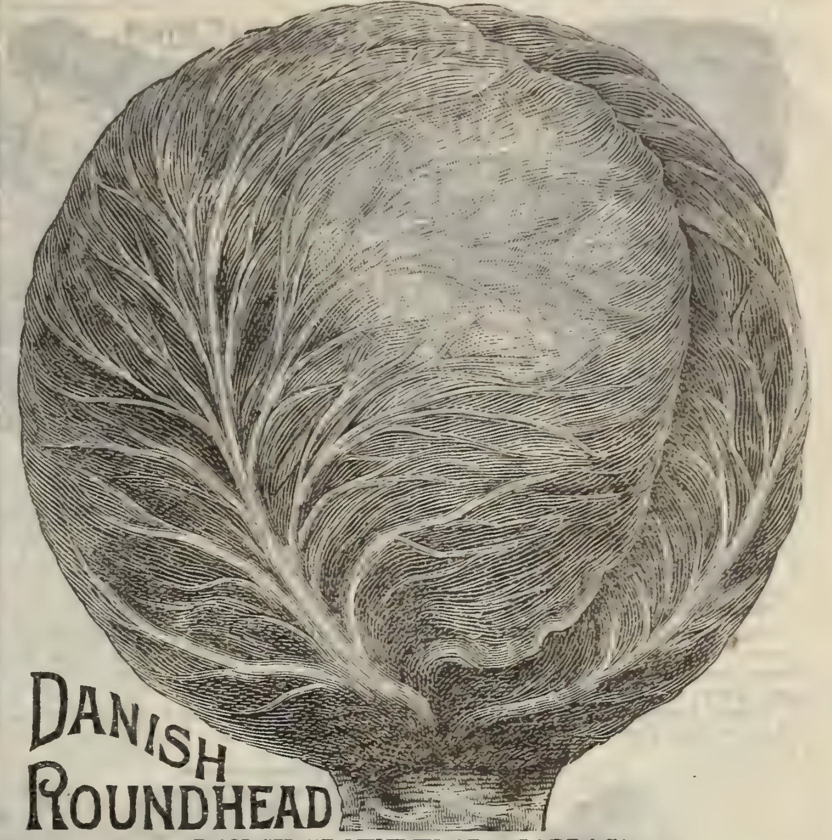
RED ROCK CABBAGE.



Next to Salzer's Giant Red Dutch this is the largest and surest heading red cabbage. Used largely for pickling and salads, but the Germans cook this and serve with a roast beef and it makes the richest, best flavored dish imaginable. The head is large, round, very solid and of deep red color, averaging from 10 to 12 pounds in weight. **Pkg., 5c; oz., 20c; ¼ lb., 50c; lb., $1.90.**



Salzer's New Volga is one of the rarest, richest best Cabbages known in America. Pkg., 10c; oz., 40c; lb., $4.00.



DANISH "ROUNDHEAD' CABBAGE.

We are proud of the record made by this Cabbage! Danish Roundhead has given such splendid satisfaction to growers for winter market that we could fill pages with enthusiastic letters from pleased planters.

The heads average slightly larger in size than those of the **Ballhead**, maturing about two weeks earlier and are set on shorter stalks. They are extremely hard and solid; interior leaves blanched to the purest whiteness; of sweet flavor and crisp tender texture.

The great weight of the heads has been noted by all growers. When heads were cut from the stalks to show the distinctly round form, the usual comment was, **"hard as a bullet and heavy as lead."** The new Danish Roundhead has less outer foliage and is better able to resist blight than Danish Ballhead, being in most sections quite as vigorous in growth during the hot summer as the best American types. **Per pkt., 10c; oz., 35c; ¼ lb., 90c; lb., $3.20, postpaid.**

DANISH SUMMER. (BALLHEAD.)

This intermediate sort matures soon after early summer, producing much larger heads, of unsurpassed beauty and solidity. It has a noteworthy compactness of growth, which permits close planting. Indeed, as many plants may be set to the acre as of the Early Summer Cabbage.

Danish Summer is, a remarkably sure and uniform header, and is one of the most profitable market varieties. June until October. It is a truly fine summer Cabbage in all respects.

Danish Summer Ballhead Cabbage has met with wide appreciation and hearty endorsement, and I do not know of a sort of more commercial importance to market gardeners for warm weather culture. **Pkt., 10c; oz., 25c; ¼ lb., 75c; lb., $2.50.**

DANISH BALLHEAD.

First introduced by us from Denmark twenty-two years ago, our Danish seed is absolutey unequaled! It is esteemed for winter use because of the great solidity and excellent keeping qualities of the heads. From repeated trials, as well as from the experience of many customers purchasing our original Danish-grown seed, we know that this selected strain surpasses in even growth and heading, as well as in uniform size and solidity of heads, any other stock of so-called "Hollander Cabbage." The magnificent head are nearly round in form, very hard and solid, they keep in finest condition when buried through the winter, coming out solid in spring.

Per pkg., 10c; oz., 30c; ¼ lb., 85c; per lb., $3.00, postpaid.

SALZER'S NEW VOLGA CABBAGE.

WE CLAIM FOR THE VOLGA CABBAGE:

1st. Uniformity. In one field of three acres there was not a single plant thrown out, or that showed in any respect any variation from a true and valuable type.

2nd. Uniformity and Solidity of Head. In this respect it is a vegetable wonder, as the heads are of about equal size and shape, weighing from 12 to 18 pounds each.

3rd. Quality. Unlike most types, the heads are perfectly solid, and the stem does not run up into the head nearly as far as in all other types, and the flesh is exceedingly firm, tender and white, making it a most desirable form for kraut, as well as for all other purposes for which Cabbage is used.

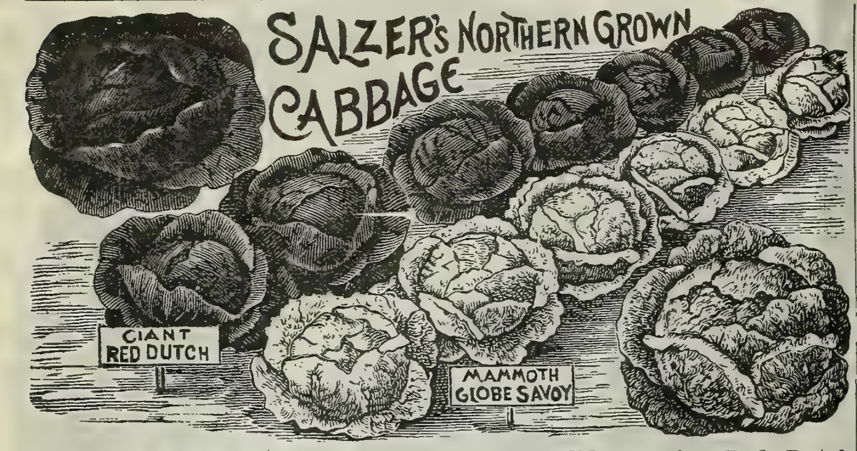
4th. Hardiness. In this respect we have never seen a type which would favorably compare with Volga. The most severe winters ever known in this section did not inflict the slightest injury to **the Volga.** While all other kinds suffered terribly, not a head of this was lost, and while others have partially or totally dropped out, our fields of this give promise to an enormous crop; in fact, it is already secured, and at the present writing ready for the harvest. We think this point of hardiness of great importance to the shipper.

5th. Earliness. This type is remarkable for its quick-growing habit, as are all vegetables that come from cold countries. We have noticed particularly this type, and find that it will mature its heads fully two weeks earlier than any of our late growing kinds. Let us be fully understood in this matter. If we sow the seeds of any of our winter Cabbages on July 1st, Volga need not be sown before July 15th—so quick of growth for a winter sort.

MONEY MAKER.

We suggest to market gardeners and farmers to make a planting of Salzer's Volga. Hand it out to your best customers, and next year they will want no other for fall and winter use.

Price of Volga Cabbage: Big pkg., 10c; ½ oz., 25c; oz., 40c; ¼ lb., $1.25; lb., $4.00. Small pkg., 100 kernels, 6c.

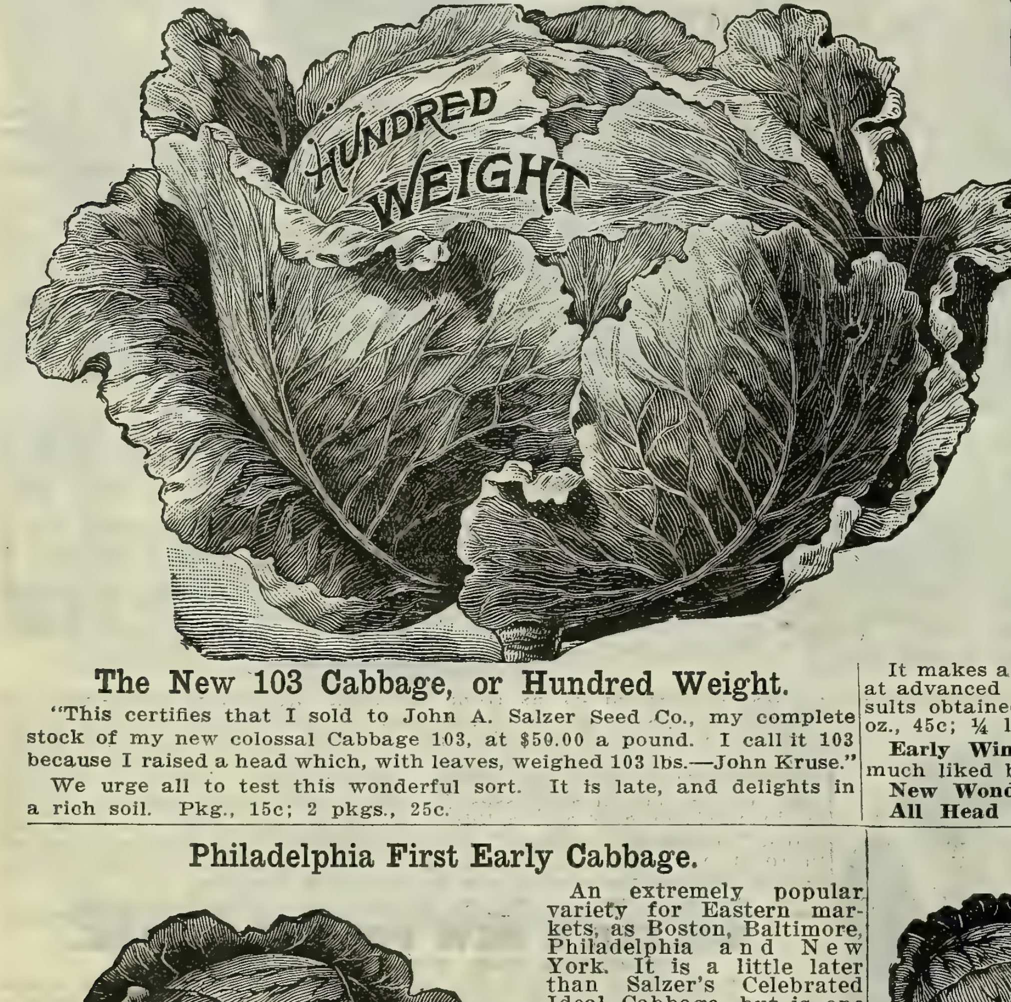


Giant Red Dutch—This strain of Giant solid superior Red Dutch Cabbage has fairly jumped into popularity. It is a magnificent head, solid, close grained and of superior quality for cooking and pickling. It's the sort the Yankee likes and the German seeks. Pkg., 10c; oz., 20c; ¼ lb., 60c; lb., $2.00.

Red Dutch—This is the well-known small red pickling Cabbage with very solid heads. Pkg. 10c; oz., 15c; ¼ lb., 40c; lb., $1.50.

Mammoth Globe Savoy—A Savoy Cabbage of rare quality and great excellence. Heads large, leaves beautifully curled, the delight of the housewife and epicurean. No Savoy compares with it in rich qualities, and is in greater demand among German Americans. Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.70.

Green Globe Savoy—A fine Cabbage; small but solid heads; in every respect the Cabbage for family use. Pkg., 5c; oz., 15c; ¼ lb., 35c; lb., $1.25.

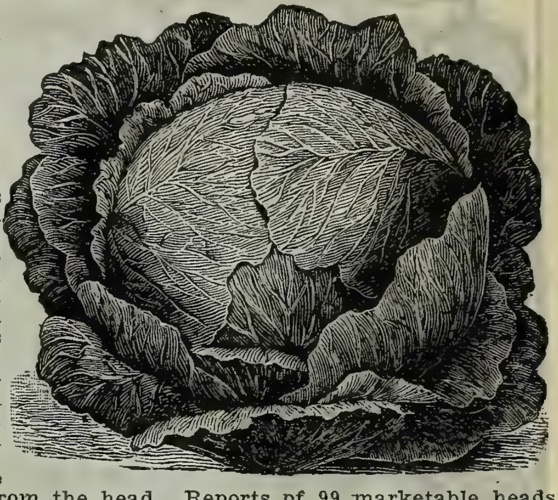


The New 103 Cabbage, or Hundred Weight.

"This certifies that I sold to John A. Salzer Seed Co., my complete stock of my new colossal Cabbage 103, at $50.00 a pound. I call it 103 because I raised a head which, with leaves, weighed 103 lbs.—John Kruse."

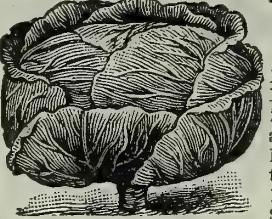
We urge all to test this wonderful sort. It is late, and delights in a rich soil. Pkg., 15c; 2 pkgs., 25c.

Genuine Surehead Cabbage.



This is the celebrated strain of Surehead Cabbage offered by the seedsmen of Philadelphia. It is a very choice variety of late Flat Dutch Cabbage, but not equal to Salzer's Giant Flat Dutch in all qualities that go to make up a good late Cabbage. This stock is obtained from the same growers that all the prominent houses in Philadelphia obtain their genuine Surehead from. It is A No 1. in every respect. It forms **every time** very large, hard, solid heads, uniform in shape, color and handsome appearance. It has a short stem, and is a compact grower. It forms few loose leaves, which turn in from the head. Reports of 99 marketable heads from 100 plants set are of frequent occurrence. There are many magnificent strains of Cabbage offered in this catalogue, but this sort is equaled only by Salzer's Giant Flat Dutch—truly the greatest of all Cabbages—Salzer's Kraut King and Dutch Winter or Hollander. With these three exceptions, Genuine Surehead comes next as the best winter sort.

Price of Surehead: Big pkg., 10c; oz., 20c; ¼ lb., 55c; lb., $1.75.



Short Stem Drumhead.

The Lupton.

This Cabbage was sent out by Eastern seedsmen with great claims. It has met many of the claims. It is a fine late Cabbage, but we think a thousand miles behind our peerless Giant Flat Dutch. However, the Lupton is worthy a trial. Pkg., 10c; ½ oz., 15c; oz., 30c; ¼ lb., 80c; lb., $3.00.

Short Stem Drumhead.

A magnificent late Cabbage, doing well everywhere. Pkg., 10c; oz., 40c; ¼ lb., 75c; lb., $2.00.

Salzer's Improved Market—One of the **very best second early** Cabbages grown. It ripens next to Wakefield, while it is nearly double its weight. Pkg., 5c; oz., 20c; ¼ lb., 60c; lb., $2.00.

Excelsior Cabbage—A very superior second early Cabbage, large, full, solid head. Pkg., 3c; oz., 10c; ¼ lb., 35c.

Henderson's Autumn King Cabbage.

It produces enormous solid heads of that dark shade of green that is most desirable in a Cabbage, and has such small outer leaves that it can be planted much closer together than the ordinary late sorts. A distinctive feature of the Autumn King is the peculiarly crimped leaves.

Price: Pkg., 10c; oz., 30c; ¼ lb., 90c; lb., $3.00.

New Bridgeport Mammoth Cabbage.

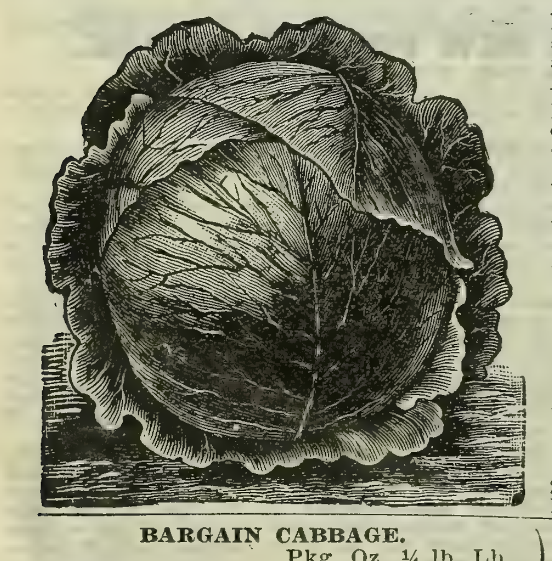
It makes a large, solid, round firm head which seldom bursts, and sells at advanced prices. You will be surprised and surely pleased at the results obtained from this cabbage. Pkg., 10c; 2 pkgs., 15c; ½ oz., 25c; oz., 45c; ¼ lb., $1.00; lb., $3.50.

Early Winningstadt—One of the very best early for general use; much liked by gardeners. Pkg., 5c; oz., 15c; ¼ lb., 45c; lb., $1.50.

New Wonderful—All-the-Year-'Round Cabbage. Pkg., 10c; oz., 50c.

All Head Early—Pkg., 10c; oz., 30c; ¼ lb., 75c; lb., $1.75.

Philadelphia First Early Cabbage.



An extremely popular variety for Eastern markets, as Boston, Baltimore, Philadelphia and New York. It is a little later than Salzer's Celebrated Ideal Cabbage, but is one of the finest large flat very early Cabbages grown.

We have no doubt that the demand for First Early Cabbage seed this year will exceed the supply, on account of the reception accorded it last year. We have received hundreds of letters endorsing First Early as the earliest flat. No one who planted it last season was disappointed but in every case it surpassed the higest expectations of all our customers, both for home use and for marketing.

Big Pkg., 10c; ½ oz., 25c; oz., 40c; ¼ lb., $1.25; lb., $4.00.

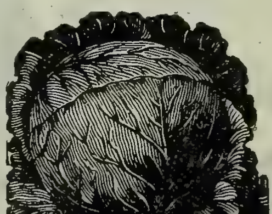
Late Flat Dutch Cabbage.



Late Flat Dutch.

The standard late Cabbage; extra strain. Better than most seedmen's best, because it's **Northern grown.** Pkg., 3c; oz., 10c; ¼ lb., 35c; lb., $1.30.

Premium Flat Dutch—Large and excellent for winter. Pkg., 3c; oz., 10c; ¼ lb., 35c.; lb., $1.30.

Marblehead Mammoth—Largest Cabbage in the world; heads have been grown weighing **60** lbs. Pkg., 3c; oz., 10c; ¼ lb., 35c; lb., $1.30.

Henderson's Genuine Succession, or, "All the Year Round"—A well-known, second early sort. Pkg., 3c; oz. 10c; lb., $1.30.

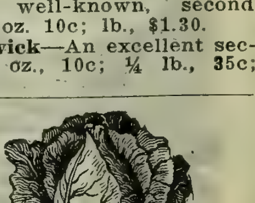
Fotler's Imp. Brunswick—An excellent second early. Pkg., 3c; oz., 10c; ¼ lb., 35c; lb., $1.30.

Early York—This has for years been the favorite early sort; small heads; excellent flavor; good header. Pkg., 3c; oz., 10c; ¼ lb., 35c; lb., $1.30.

Large York—Larger but later than the Early York; fine. Pkg., 3c; oz., 10c; ¼ lb., 35c; lb., **$1.30.**

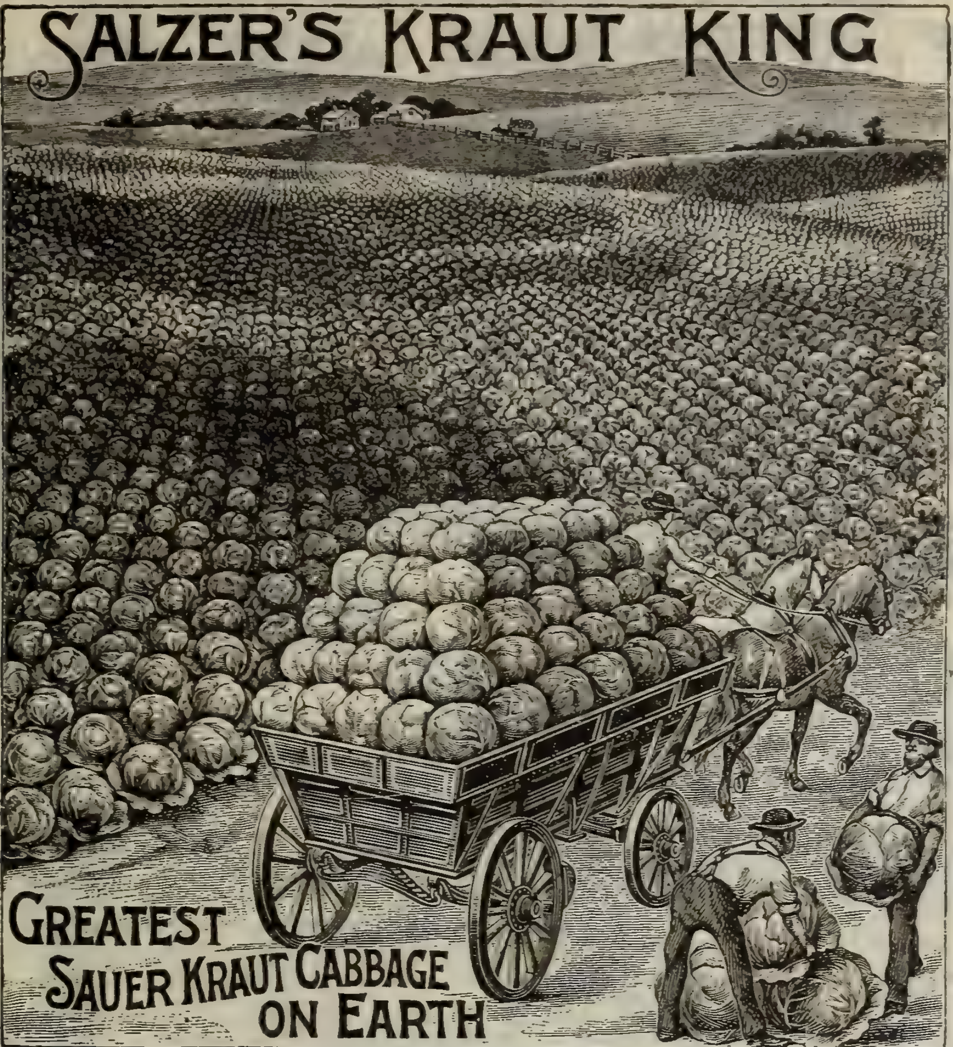
All Season's Cabbage—The boss Cabbage; good for early, good for summer, and good for late use. Pkg., 3c; oz., 10c; ¼ lb., 35c; lb., $1.30.

Early Flat Dutch—The second early Cabbage; largely grown about New York and Boston; good size heads. Pkg., 3c; oz., 10c; **lb., $1.30.**



Filderkraut.

German Filderkraut—Well known to German growers; extra stock. Pkg, 3c; oz. 12c; ¼ lb., 45c; lb., **$1.50.**



SALZER'S KRAUT KING
GREATEST SAUER KRAUT CABBAGE ON EARTH

Salzer's Kraut King Cabbage is one of these varieties that we delight to honor. It has that superb quality, that richness of flavor, that desirable color so much sought for Sauerkraut purposes. It is in our mind as nearly perfect as any Sauerkraut Cabbage can ever be.

We know that everybody planting same will be surprised and delighted at the results. We commend Salzer's Kraut King as the acme of perfection for a genuine Sauerkraut Cabbage.

PRICE OF SALZER'S KRAUT KING CABBAGE:
Big pkg., 10c; 6 pkgs., 50c; ½ oz., 22c; 1 oz., 40c; ¼ lb., $1.30; ½ lb., $2.00; 1 lb., $3.75; 2 lbs., $6.90, postpaid.

SALZER'S KRAUT KING.

With one great bound has Salzer's Kraut King Cabbage leaped into tremendous popularity. This is the Cabbage that market gardeners and truckers and market farmers have been looking for the past quarter of a century, and in all these years there has been a continuous inquiry for a superb Sauerkraut Cabbage. Now we have experimented and grown and crossed and originated new varieties in these twenty-five years but never come up to our standard of perfection for a Sauerkraut Cabbage until we secured Salzer's Kraut King.

SAUERKRAUT KING.

G. Schumacher, manager of Union Foundry Co., Anniston, Alabama, calls this the king of all Sauerkraut Cabbages, and well he may, for there is no Cabbage superior to it for rich, juicy, tasty Sauerkraut. It makes medium to large, roundish, solid heads, just the right color and size and heft for an ideal Sauerkraut Cabbage. It is a very sure header; indeed, it is almost the equal of that peerless of all peerless late Cabbages, Salzer's Giant Flat Duch, as a header. Salzer's Kraut King has but very few loose leaves, consequently can be grown closely together. Not only is it a magnificent variety for Sauerkraut or pickling, but it also does splendidly to put into winter quarters either in a pit or cellar for March and April sale, as it keeps as fresh as when put in. It is the King of all Cabbages for Sauerkraut purposes, and as such is a great money maker. We never introduce or attach our name to any variety unless same has excellent merits.

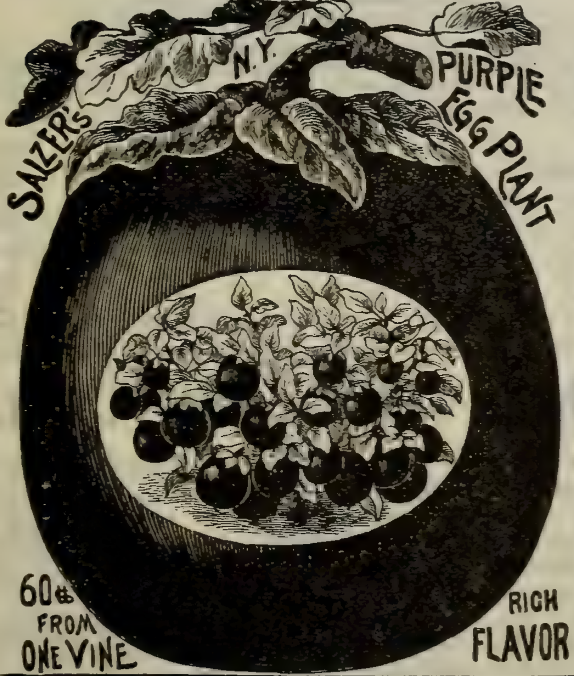
BRAUNSCHWEIGER CABBAGE.

KAUFE SALZER'S SAMEN
SAUERKRAUT
SALZER'S BRAUNSCHWEIGER KRAUT

This is the celebrated Cabbage of Germany, and thousands upon thousands of acres are annually grown there to be made into Sauerkraut. This Cabbage is particularly **adapted for pickling.** It forms a very large, fine, compact head. wish you could have seen the large fields of this splendid variety in Germany! The flavor is peculiarly pleasant. It was a sight worth seeing, reminding us of the great fields one sees of our matchless Giant Flat Dutch in many parts of America.

We are sure this sort will please you.

Pkg., 10c; ½ oz., 20c; oz., 35c; ¼ lb., $1.; lb., $3.50, postpaid.

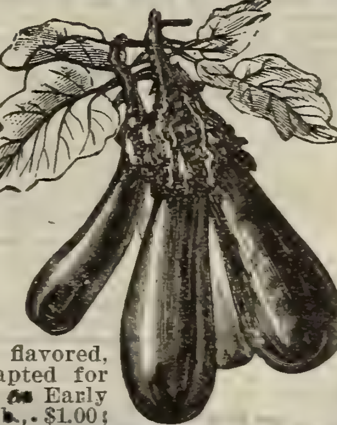


EGG PLANTS.

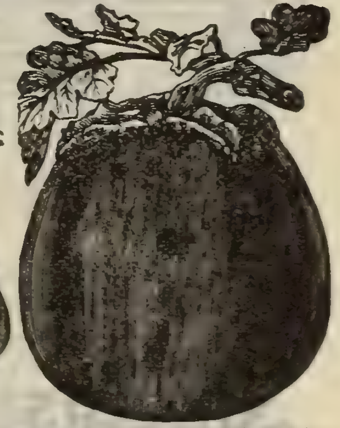
The Egg Plant is one of the rarest delicacies in the vegetable world! Its rich, chaste flavor is reached by no other vegetable.

Salzer's New York Purple—Our strain of this celebrated variety has been greatly improved; it's early and extremely prolific. Extra large, **60** pounds have been grown from 1 plant; delicious oyster flavor when fried. Pkg., 5c; oz., 30c; ¼ lb., 90c; lb., $3.50.

Salzer's Early Purple—The finest of all Egg Plants. It's the earliest, tenderest, most delicately flavored, richest of all. It is especially adapted for family use. Nothing quite "so good as Early Purple." Pkg., 10c; oz., 40c; ¼ lb., $1.00; lb., $3.60.



Early Long Purple.



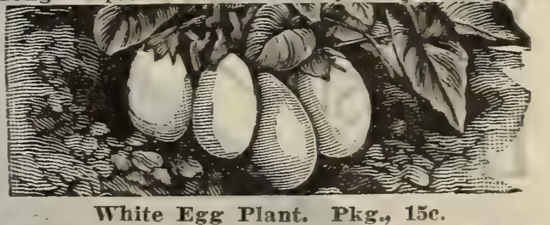
Salzer's Early Purple. Pkg., 10c.

TREE OR HIGH BUSH EGG PLANT.

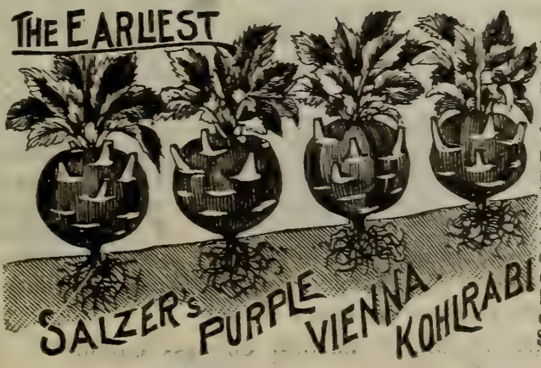
A great novelty from Florida, growing tree shaped and bearing enormously, fruit large, tender, rich in color and delicate in flavor. Pkg., 15c; ½ oz., 30c; oz., 50c; ¼ lb., $1.50; lb., $5.00.

Early Long Purple—A grand variety. Pkg., 5c; oz., 30c; ¼ lb., 90c; lb., $3.50.

White Egg Plant—A novelty. Very nice and fine. Pkg., 15c; oz., 60c.



White Egg Plant. Pkg., 15c.

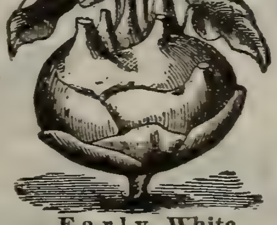


Price of Salzer's Purple. Pkg., 10c; oz., 30c.

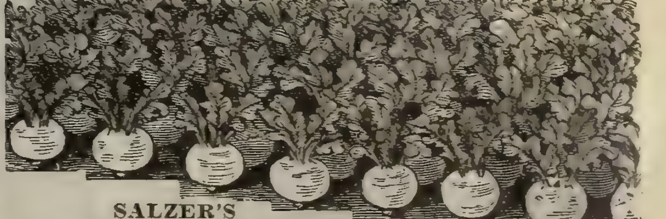
KOHLRABI.

This delicious vegetable is justly popular. Excellent for soups or cooked as turnips. Full cabbage flavor; earlier than cabbage.

Salzer's Purple Vienna—The finest of all. Early, sweet, tender. Will ripen fit for use in 28 days. It is a delicious cabbage flavored dish; you will like it. Pkg., 10c; oz., 30c; ¼ lb., $1.00; lb., $3.00.



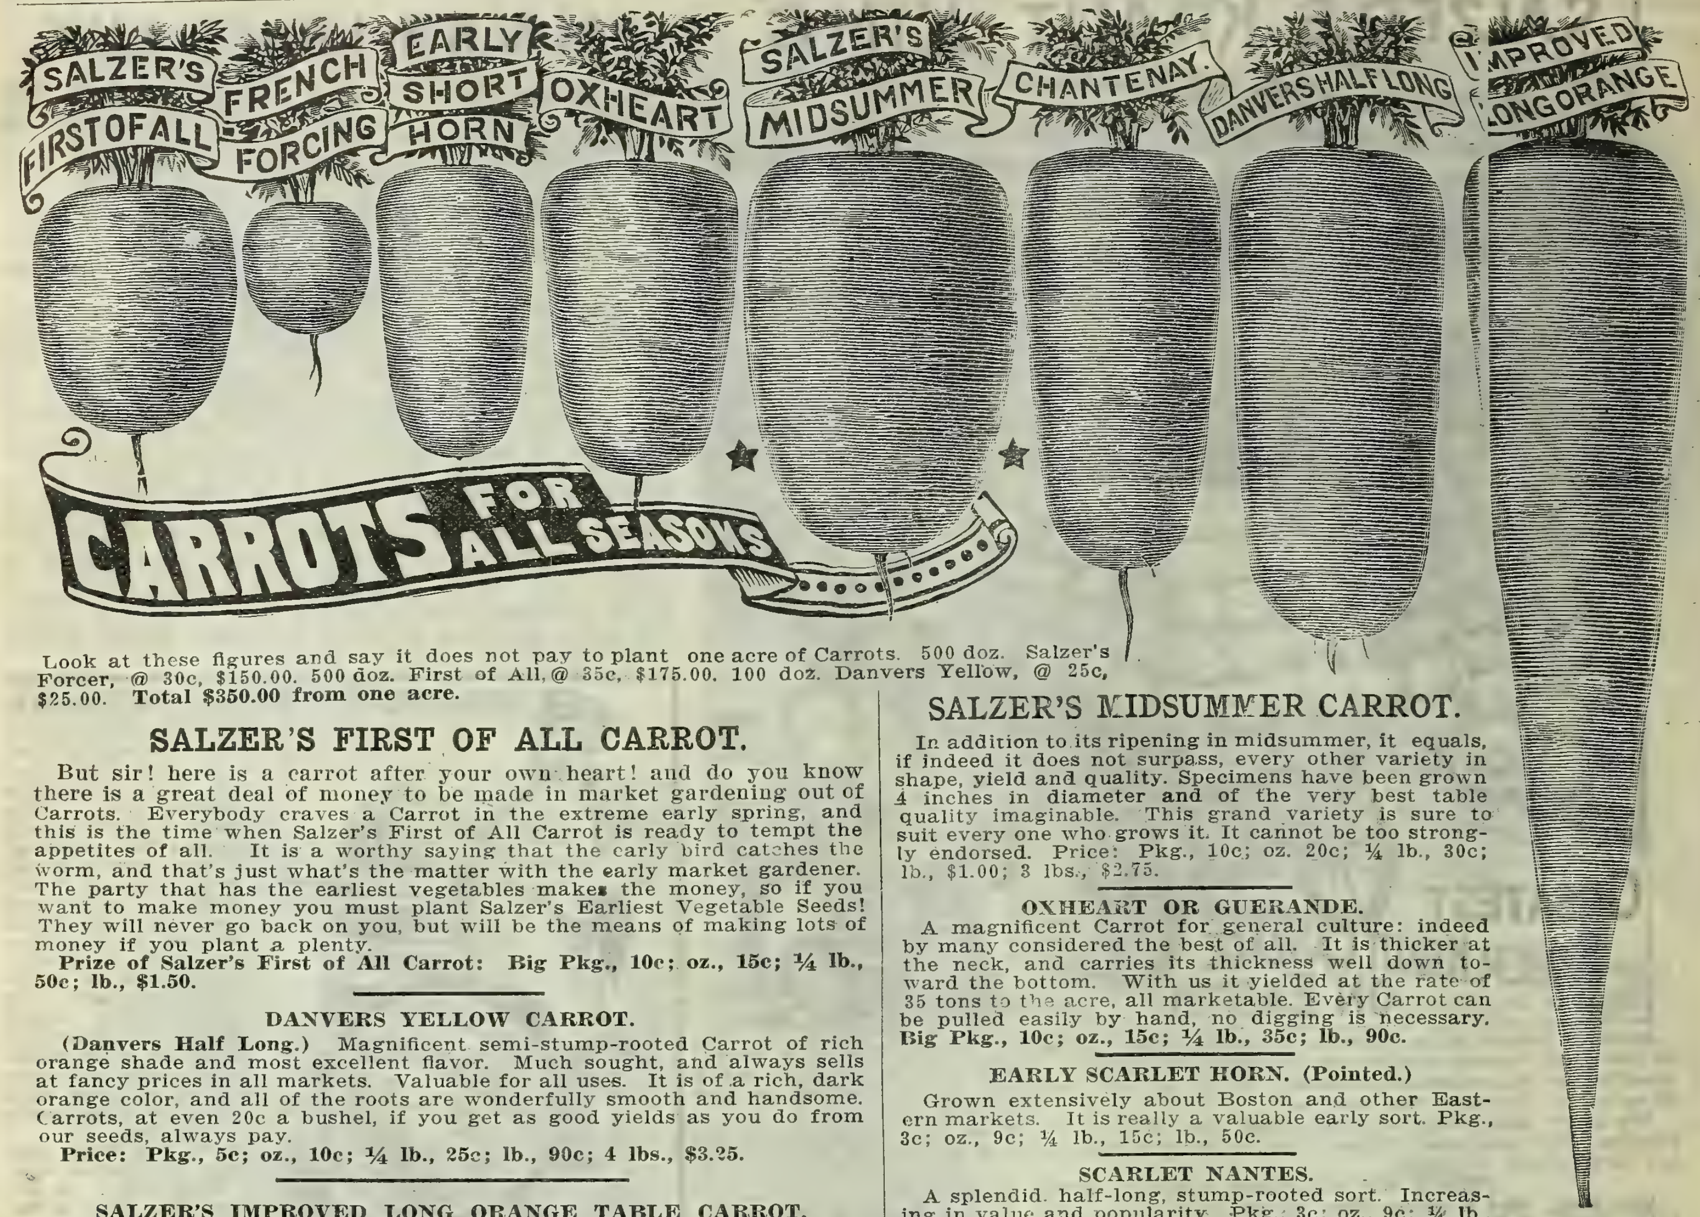
Early White



SALZER'S MAMMOTH KOHLRABI.

Salzer's Mammoth—Grows to large size and of juicy quality. 1 oz. will furnish 1,000 plants. It grows much larger than the Vienna varieties. Will also do well for stock feeding. Pkg., 10c; oz., 25c; ¼ lb., 60c; lb., $2.00.

Early White Vienna—Very early, ripening right after Salzer's Purple. It's of fine shape, very early and of delicate cabbage flavor. Pkg., 5c; oz., 15c; ¼ lb., 50c; lb., $1.50.



Look at these figures and say it does not pay to plant one acre of Carrots. 500 doz. Salzer's Forcer, @ 30c, $150.00. 500 doz. First of All, @ 35c, $175.00. 100 doz. Danvers Yellow, @ 25c, $25.00. **Total $350.00 from one acre.**

SALZER'S FIRST OF ALL CARROT.

But sir! here is a carrot after your own heart! and do you know there is a great deal of money to be made in market gardening out of Carrots. Everybody craves a Carrot in the extreme early spring, and this is the time when Salzer's First of All Carrot is ready to tempt the appetites of all. It is a worthy saying that the early bird catches the worm, and that's just what's the matter with the early market gardener. The party that has the earliest vegetables makes the money, so if you want to make money you must plant Salzer's Earliest Vegetable Seeds! They will never go back on you, but will be the means of making lots of money if you plant a plenty.

Prize of Salzer's First of All Carrot: Big Pkg., 10c; oz., 15c; ¼ lb., 50c; lb., $1.50.

DANVERS YELLOW CARROT.

(Danvers Half Long.) Magnificent semi-stump-rooted Carrot of rich orange shade and most excellent flavor. Much sought, and always sells at fancy prices in all markets. Valuable for all uses. It is of a rich, dark orange color, and all of the roots are wonderfully smooth and handsome. Carrots, at even 20c a bushel, if you get as good yields as you do from our seeds, always pay.

Price: Pkg., 5c; oz., 10c; ¼ lb., 25c; lb., 90c; 4 lbs., $3.25.

SALZER'S IMPROVED LONG ORANGE TABLE CARROT.

This is the standard Carrot for table use, and especially for winter. **It is enormously productive, yielding as high as 29 TONS per acre,** and is of delicious flavor. An ounce of seed is sufficient for a winter's supply for a family. No better Carrot can be found for all purposes than this. We consider it the best strain of Long Orange Carrot in the market. It is exceptionally smooth and fine. It will please you. Salzer's Long **Orange beats the world. Price, Big Pkg., 10c; oz., 15c; ¼ lb., 20c; lb., 65c.**

SALZER'S MIDSUMMER CARROT.

In addition to its ripening in midsummer, it equals, if indeed it does not surpass, every other variety in shape, yield and quality. Specimens have been grown 4 inches in diameter and of the very best table quality imaginable. This grand variety is sure to suit every one who grows it. It cannot be too strongly endorsed. Price: Pkg., 10c; oz. 20c; ¼ lb., 30c; lb., $1.00; 3 lbs., $2.75.

OXHEART OR GUERANDE.

A magnificent Carrot for general culture: indeed by many considered the best of all. It is thicker at the neck, and carries its thickness well down toward the bottom. With us it yielded at the rate of 35 tons to the acre, all marketable. Every Carrot can be pulled easily by hand, no digging is necessary. **Big Pkg., 10c; oz., 15c; ¼ lb., 35c; lb., 90c.**

EARLY SCARLET HORN. (Pointed.)

Grown extensively about Boston and other Eastern markets. It is really a valuable early sort. Pkg., 3c; oz., 9c; ¼ lb., 15c; lb., 50c.

SCARLET NANTES.

A splendid. half-long, stump-rooted sort. Increasing in value and popularity. Pkg., 3c; oz., 9c; ¼ lb., 15c; lb., 50c.

EARLY SHORTHORN.

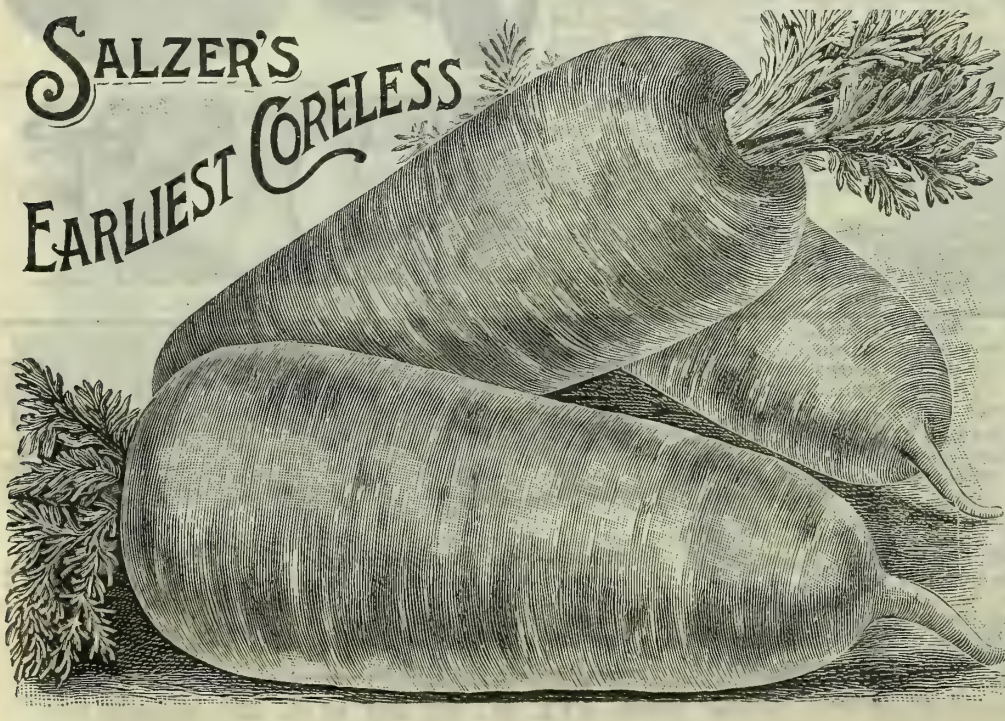
Known favorably by all growers. Considered by many to be the best table variety. Flesh fine grained. In color deep orange; has small tops; grows well in shallow soil. Matures 8 to 10 days sooner than Long Orange. Pkg., 5c; oz., 10c; ¼ lb., 20c; lb., 70c.

SALZER'S FRENCH FORCER OR FORCING.

It is a very sweet and early splendid sort. It is not nearly so large as Salzer's First of All, but it is a great beauty and very early. This Carrot has enjoyed a tremendous sale, as everybody likes the little beauty. Pkg., 4c; oz., 10c; ¼ lb., 20c; lb., 5[illegible]c.

CHANTENAY.

A magnificent English Carrot, grown in that country in great quantities for fall use. Pkg., 10c; oz., 15c; ¼ lb., 35c; lb, 90c.

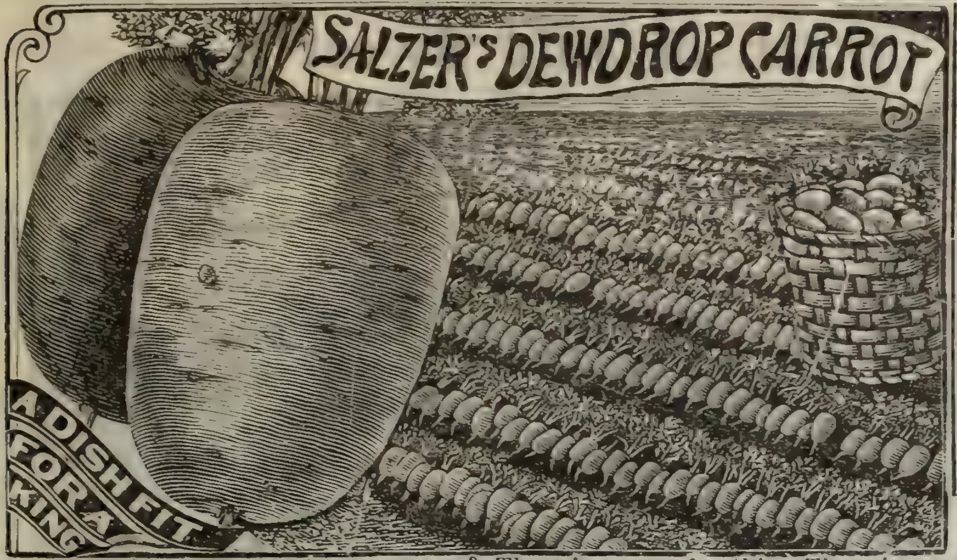


Salzer's Earliest Coreless Carrot.

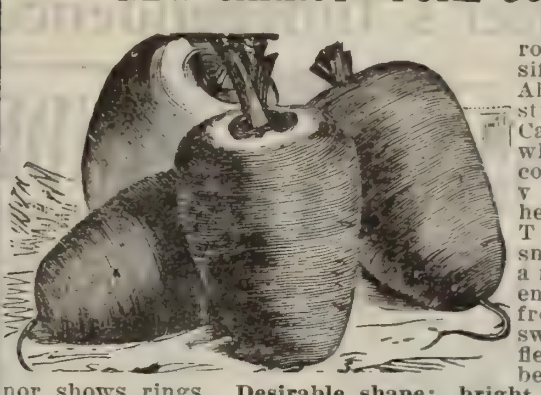
This new carrot is an intensified Danvers, suited **specially for the Elite table!** It is a half long, stump-rooted carrot, somewhat deeper in color than the famous Danvers and a heavier cropper. The root is smooth, uniform and handsome, almost entirely free from core with sweet and tender delicious flesh. It never becomes stringy nor shows rings. Highly recommended for the most critical table use, and especially desirable for market gardeners and amateurs who wish to grow something choice in quality. With ordinary good treatment Salzer's Early Coreless will yield close to 45 tons to the acre. The only **carrot** we consider superior on account of its **extreme earliness** and wonderful richness of flavor is Salzer's First of All, fully described above—after that the best is Salzer's Early Coreless.

Our suggestion is: For extreme early use Salzer's First of All; for next and all summer use—yes, even for forcing—use Salzer's Earliest Coreless! This is the Carrot for Texas, Louisiana, Florida and southern planters to have. Ready for January and February shipments north—then these bring fancy money.

Price of Salzer's Earliest Coreless Carrot:
Pkg., 10c; oz., 15c; ¼ lb., 40c; lb., $1.25.



NEW CARROT—PURE GOLD.



This new Carrot is an intensified First of All. It is a stump-rooted Carrot, somewhat deeper in color than Danvers, and a heavier cropper. The root is smooth, uniform and handsome, entirely free from core, with sweet and tender flesh. It never becomes stringy nor shows rings. **Desirable shape; bright and attractive color. Excellent as a table Carrot. Price: Pkg., 10c; oz., 15c; ¼ lb., 40c; lb.. $1.00.**

NEW CARROT—DEWDROP.

Do you know that there is used to-day five times as much Carrot seed as there was ten years ago? There is reason for this. There is scarcely a vegetable that to-day is in greater demand than the extremely early Carrot, and in Salzer's Dewdrop we have the par excellence of all carrots. It is fine in shape, the right color, very juicy, very early, very sweet and will please the most fastidious. It's a great novelty. **Price: Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.50.**

CARROTS FOR STOCK.

Carrots are excellent for feeding to stock. Horses relish them and fatten on one feed of Carrots daily. The yield is so heavy that an acre will keep your horses fat and healthy all winter.

NORMAN BELGIAN CARROT.

A yellow sort, growing to large size, and of the finest flavor for stock. We cannot too strongly urge you to try this Carrot. It is great for stock. Have you a horse at home, and you desire to have him look bright and feel gay, feed him with Carrots once a day during winter. One ounce of Norman Belgian will furnish enough food. Pkg., 10c; oz., 15c; ¼ lb., 25c; lb., 65c; by express, 10 lbs., $4.50.

COW BOY FIELD CARROT.

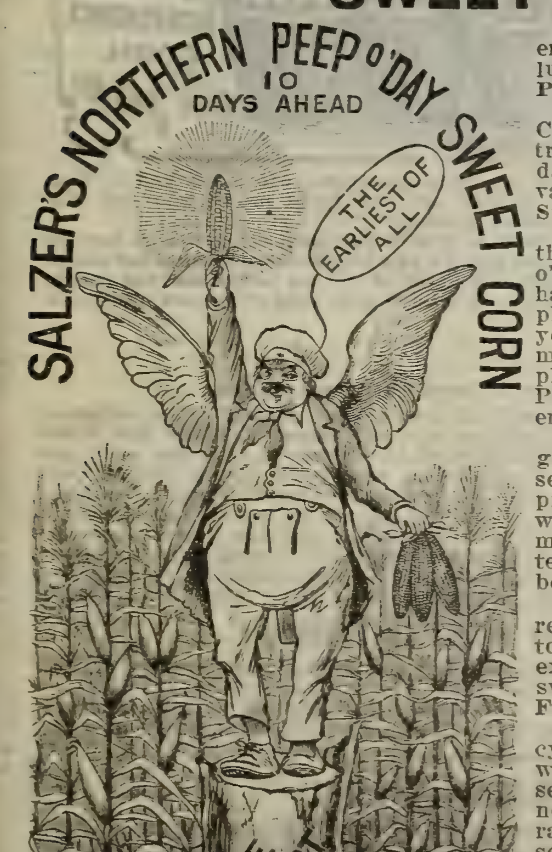
We know of nothing that will pay the farmer better in this state and everywhere than to grow from 5 to 10 or 15 acres of Carrots, especially if he has a large herd of cattle, sheep and horses. It will pay to feed them daily thereon. There is no variety better than the Cow Boy. It is an enormous producer, yielding from 400 to 800 bushels per acre. Price: **Big Pkg., 10c; oz., 15c; ¼ lb., 20c; lb., 50c; 3 lbs., $1.35.**

Long White Belgian—A white Carrot which has become the standard for stock. It is sweet and gives excellent results as a stock food. Pkg., 5c; oz., 10c; lb., 45c.

California Mammoth—Very large; yields 100 tons per acre. Pkg., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; 10 lbs., $6.00.

Mastodon—Carefully selected Carrot. It is grand for stock and very prolific. Pkg., 5c; oz., 10c; ¼ lb., 20c; ½ lb., 30c; lb., 60c; 5 lbs., $2.50, postpaid.

SWEET CORN.



This Corn we find about 4 to 6 days later than Salzer's Famous 4th of July, illustrated on page 45. The Introducers of **Peep o' Day** Sweet Corn have this to say:

We regard our new Peep o' Day Sweet Corn as the most important vegetable introduction of years. Think of a Corn ten days or two weeks earlier than any other variety, and not only the **Earliest** but the **Sweetest** of all Sweet Corn, early or late.

If you do not buy anything else from this catalog send at least for some Peep o' Day Sweet Corn. Every gardener should have Peep o' Day. A 10-cent package will plant 50 to 60 hills and the only regret you will have is that you did not plant more. A good thing to do is to make a planting every few days and then have Peep o' Day on your table throughout the entire season.

What product of the garden is so eagerly awaited as the first Sweet Corn of the season? Not the tasteless, discouraged, premature corn shipped long distances, worthless when picked and unfit for human food when it arrives, but the real, tender, juicy Sweet Corn, ready for use before the summer has really commenced.

PEEP O' DAY. The two points of this remarkable Sweet Corn to which we wish to call most particular attention, are its extraordinary earliness and unparalleled sweetness: almost as Sweet as Salzer's Famous 4th of July.

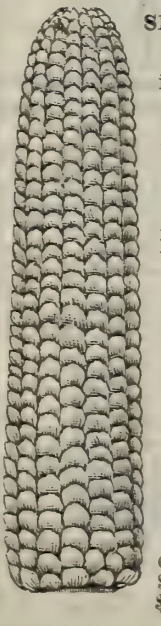
So marked is its sweetness and delicacy of flavor, that many of our customers who have been in the habit of planting several varieties to secure a succession, now plant Peep o' Day exclusively, arranging the plantings a few days apart so as to have this delicious Corn throughout the entire season.

The early varieties of Sweet Corn do not, as a rule, yield as heavily as the late sorts, **but Peep o' Day** not only surpasses in this particular all other early varieties, but all late varieties as well; in fact our crops of **Peep o' Day** have given us year after year almost double the yield an acre of any other variety we have grown, early or late.

PRICE OF PEEP O' DAY:

Big Package, 10c; Pint, 20c; Quart, 35c, Postpaid. By express: Package, 8c; Pint, 15c; Quart, 25c; 4 Quarts, 80c; Peck, $1.25; Bushel, $3.40.

POP CORN.



SALZER'S SILVER BALL

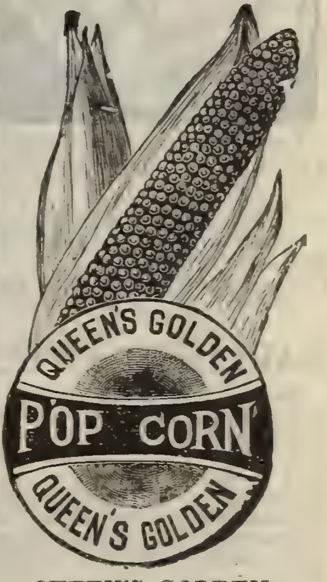
With us it is enormously productive, of fine, delicious taste, and pops readily and evenly. It is the Corn for everybody to plant. A package will be sufficient for family use. Give the boys on the farm an acre to plant Pop Corn for the market. It pays. By mail: Pkg., 10c; pt., 25c; qt., 45c. By express: Pk., $1.25; bu., $3.25.

WHITE RICE.

One of the finest, most prolific Pop Corns grown; largely planted. Very good. By mail: Pkg., 10c; pt., 20c; qt., 35c. By express: Qt., 20c; pk., $1.00; bu., $3.00.

RED RICE.

A variety that pops up nicely. Pkg., 10c; pt., 25c; qt., 40c, postpaid.



QUEEN'S GOLDEN.

A splendid sort. Above all is its exceeding tenderness when popped, together with its delicious and delicate taste; splendid for all purposes. By mail: Pkg., 10c; pt., 20c; qt., 35c. By express: Pk., $1.00; bu., $3.25.

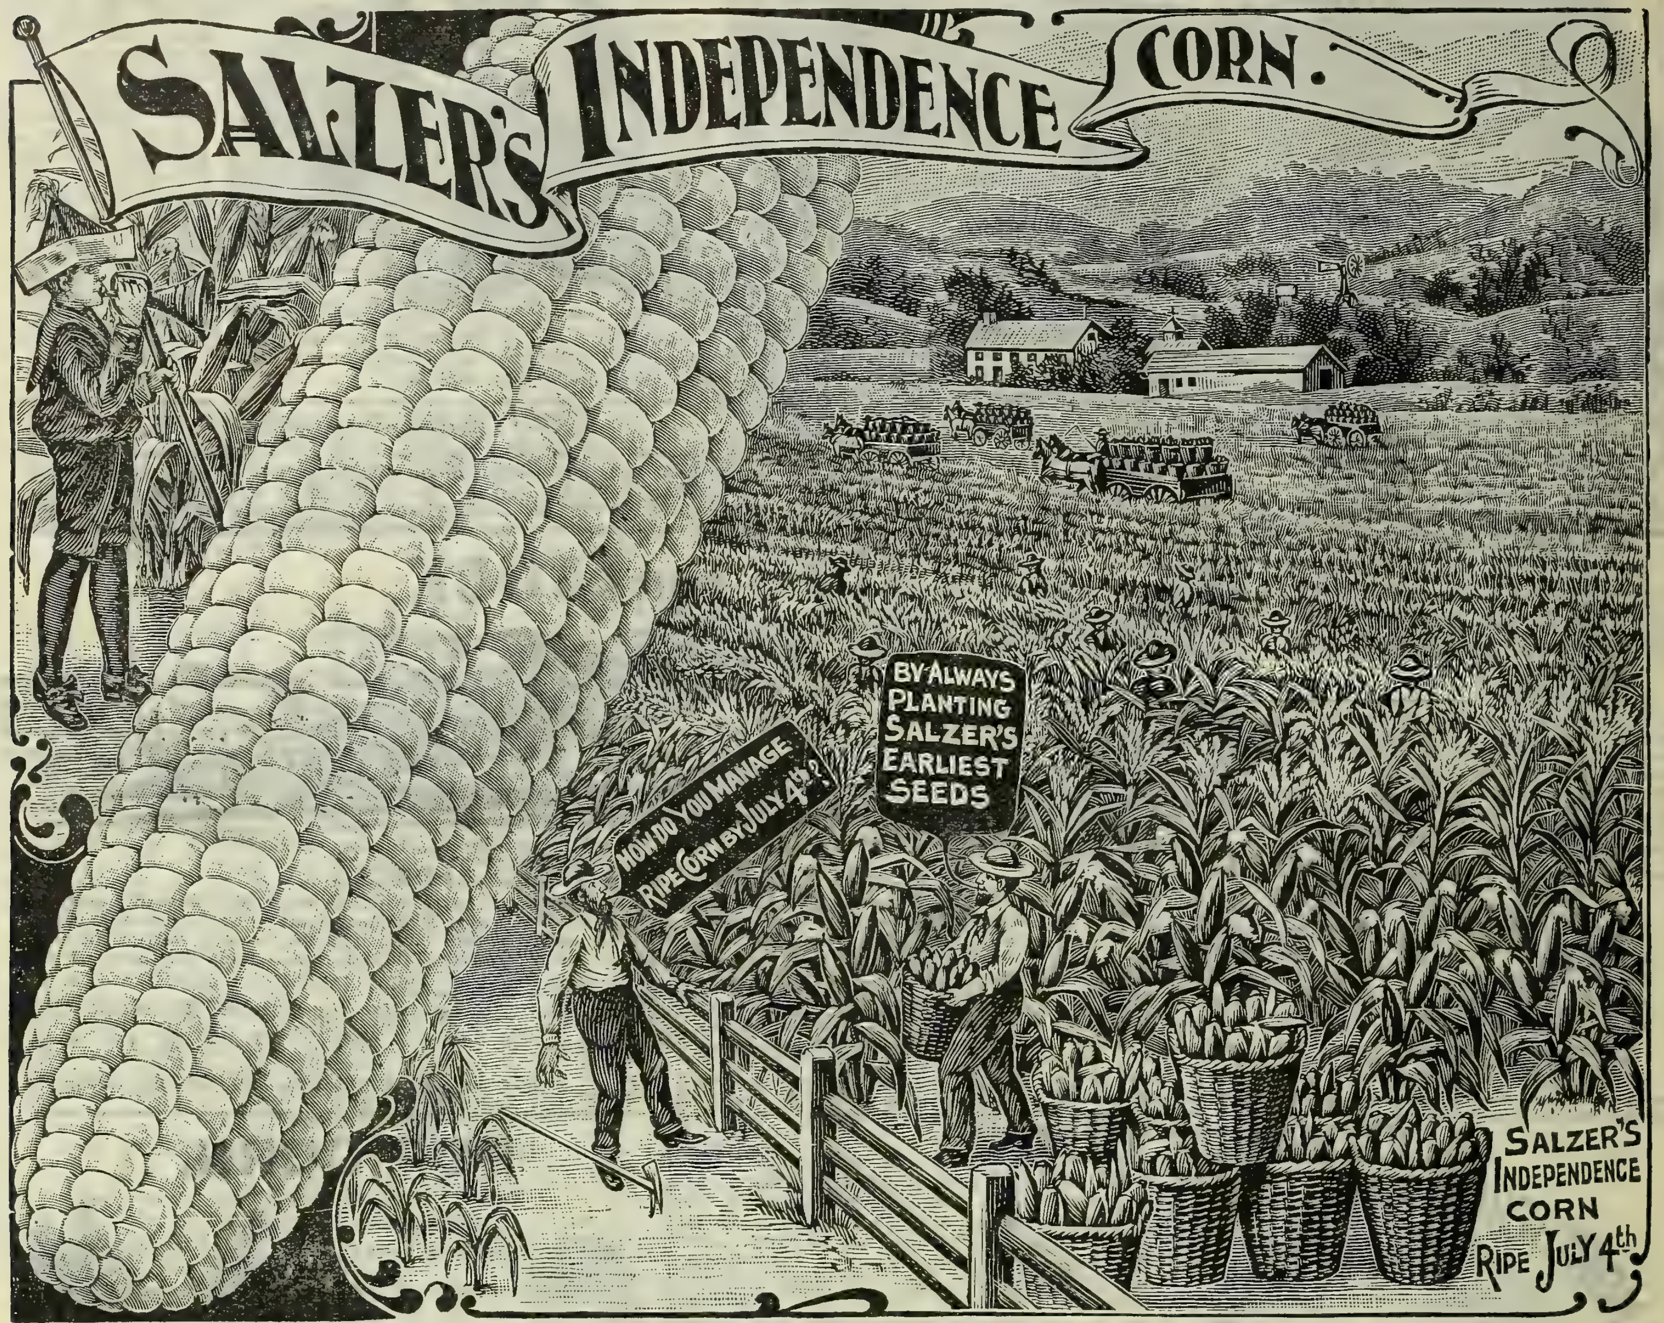
AMBER-COLORED POP-CORN.

A new, rare, exquisitely beautiful Pop Corn, popping to perfection. Large, amber-colored ears. Pkg., 15c; ½ pt., 20c; pt., 35c, postpaid.

TOM THUMB.

A very, very dwarf-growing, fine Pop Corn. Pkg., 10c; pt., 30c; qt., 50c, postpaid.

Salzer's Independence or 4th of July Sweet Corn.



SALZER'S INDEPENDENCE CORN.
BY ALWAYS PLANTING SALZER'S EARLIEST SEEDS
HOW DO YOU MANAGE RIPE CORN BY JULY 4th?
SALZER'S INDEPENDENCE CORN RIPE JULY 4th

Eight years ago a Connecticut farmer sent us a sample of Sweet Corn with a request to test on our trial grounds. He remarked: "You will find it the sweetest and earliest early Sweet Corn you have ever seen. It has been in our family, on our farm near Hartford, for more than half a century, and I will tell you, Mr. Salzer, it is the earliest Sweet Corn in America to-day."

We acknowledged the seed, telling him if it were earlier than Salzer's First of All we would give him $100.00 for each week it was earlier than Salzer's First of All, and then buy all the seed that he could grow during the season of 1903, and gladly pay him $10.00 a bushel for same.

Well, now, that Connecticut Yankee caught us easily. Yes it proved two weeks earlier than Salzer's First of All, so he got on that score, $200.00. Then he sent 28 bushels of as fine seed Sweet Corn as we ever saw, that made $280.00 more, so in all, this bright farmer obtained from us $480.00 for this Earliest Fourth of July Sweet Corn.

He rejoices over his great luck, and we glory in the fact of our new acquisition.

EARLIEST, SWEETEST, BEST ON EARTH.

Sweet Corn usually is fit to use at La Crosse, that is, such early varieties as Salzer's First of All the 25th to 28th of July. Had the months of May and June been as warm as ordinarily (last year was very, very cool at La Crosse for the months of May and June), but had it been as warm as we usually have, we believe Salzer's Independence or 4th of July Sweet Corn would have been ready at La Crosse and fit for the table July 4th. As it was, several hundred customers in Iowa, Illinois, Nebraska, Missouri, Indiana, Ohio, Maryland, Tennessee, and other parts, report this corn fit for the table on our National Independence Day, July 4th.

Here is the test of this Corn at La Crosse during the past season. It was a revelation! If we had had a warm May and June this Corn would have been fit for the table July 4th at La Crosse! We wish you to particularly notice how much earlier it is.

Salzer's Independence, ready for use July 12th.
Salzer's First of All, ready for use July 24th.
Peep of Day, ready for use July 23d.
Premo, ready for use Aug. 2nd.
Henderson's White Cory, ready for use Aug. 5th.
Maule's First of All, ready for use Aug. 4th.

G. Schumacher, of Union Foundry Co., Anniston, Ala.: We had the first Salzer Independence Sweet Corn on our table May 22, 1909—sweetest Corn I ever ate! It proved six days earlier than Peep o' Day! (Write to him about it; enclosing 2c stamp.)

Now, that stamps Salzer's Independence or 4th of July Sweet Corn by all odds as the very earliest corn on earth.

Geo. W. Fields, an Illinois Gardener, writes:

I purchased from you ¾ bushel of your corn novelty, Independence, planting same on rich, sandy soil on a sunny slope. I made the greatest record for early corn in this part of the country. All was sold and the fodder removed before my adjoining neighbors' Early White Cory Corn began to ripen. I was just sixteen days ahead of my neighbors, because I used Salzer's seeds. I planted same in rows running north and south, dropping a kernel every ten inches and the rows three feet apart. I replanted the field so that nothing was missing, and had over 17,000 stalks, each one giving me on an average two ears, or in all a few over 2,800 dozen. I sold these averaging me a little over 10c a dozen.

$292.00 per Acre, as Follows:

400 dozen at 15c, $60.00; 1,000 dozen at 12c, $120.00; 1,400 at 8c, $112.00, or a total of $292.00.

After selling the corn I put the land into 5 lbs. of Salzer's Victoria Rape, and had abundant pasture all fall long until winter set in.

SUMMING UP!

Let's sum up the whole matter on Salzer's Independence Corn. Every market gardener, every citizen, everybody planting same, will find that he has absolutely **the earliest** Sweet Corn grown, and that it is from five to twenty days earlier than other seedsmen's earliest sorts. Then it is sweeter than the sweetest Sweet Corn known to the trade to-day. It is without question the very sweetest, earliest, finest Sweet Corn **offered**; the size of the ear is **just right,** not clumsy, but just right, and **in order** to introduce the same largely we have placed the price very low.

BOYS, LOOK HERE.

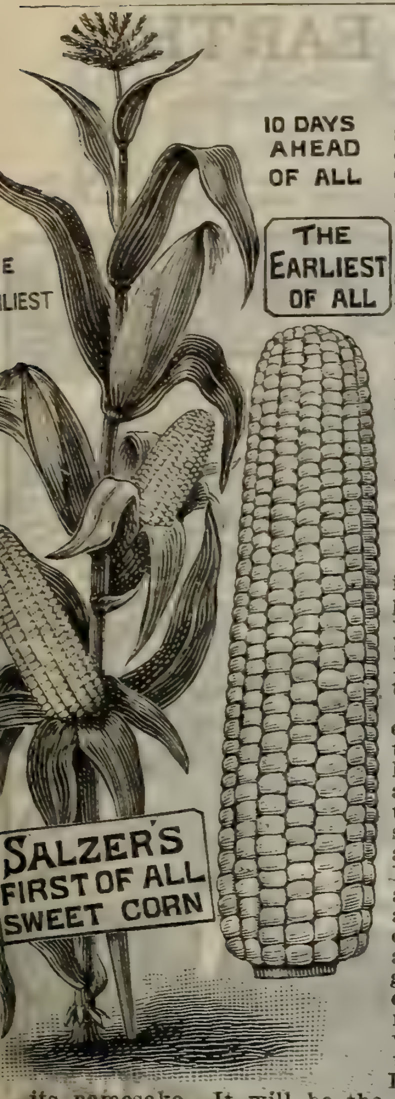
SUGAR CORN.



SALZER'S FIRST OF ALL.

(Only beaten by Salzer's Fourth of July in Earliness.)

For years Salzer's First of All led the world in earliest sweet corn. It takes a back seat now only for **Salzer's Fourth of July** which is earlier and finer, but it is right at the top of earliest sorts when compared with other seedmen's very earliest; it is extemely delicious; sure to please the most fastidious.

We have tested every sort known to man, but have found none so early, none so sweet, none so quick growing, none such a splendid money-maker for the market gardener on account of its extreme earliness. **First-of-All** has proven itself, in this test, **6 days, and in some cases 10 days, earlier than the Cory and other seedsmen's earliest sorts.** It will be found an especial boon to all market gardeners. Ears often 8 inches long, though the average length is but 5 to 6 inches. It is a magnificent Corn, and will be a great bonanza to all who plant it. Next to Salzer's Fourth of July Corn this is positively the earliest. It's ahead of Peep o' Day, Premo, and the like.

Price of First-of All Sweet Corn:
Big pkg., 10c; pt., 20c; qt., 40c, postpaid. By freight: Qt., 25c; pk., $1.00; ½ bu., $1.80; bu., $3.50.

EARLE'S EARLY EVERGREEN SWEET CORN.

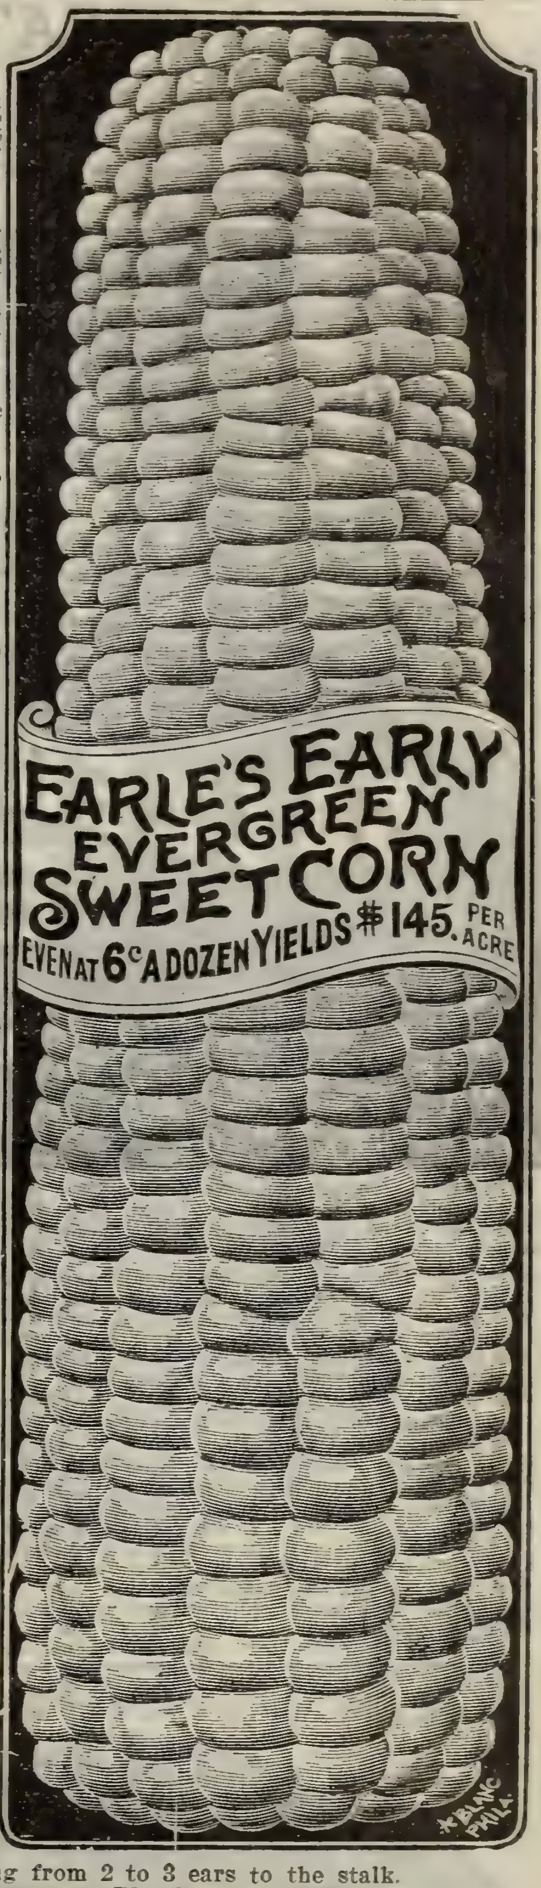
This sweet corn has fairly leaped into popularity and it is safe to say that there is more Earle's Early Evergreen corn planted today for 2nd earliest than any ten other 2nd earliest varieties put together and there is a reason for this. It ripens but a few days later than such varieties as Early Corey, Early Minnesota, Golden Bantam, First of All and varieties of this kind, while it is infinitely sweeter and much larger eared.

Gardeners are on the lookout for an extra early, extra fine, extra large, extra sweet, extra big-eared Sweet Corn. Well, in this Earle's Early Evergreen, we have just the Corn you are looking for, Mr. Gardener! I have been looking for just such a Corn for years, and I am frank to tell you so, and believe that careful tests of this new Sweet Corn convince me of its sterling merit, and I take pleasure in listing it in my catalog and offering it to the public. The ear measures 10 to 12 inches. In color the kernels are pure white, and are very sweet, tender and palatable. Earle's Early Evergreen is a prolific variety, and matures its ears in from 58 to 70 days, depending on location and character of soil. On warm, sandy land the ears are ready in 58 days, while on heavy clay land the period of growth is longer. The large, well-filled and highly palatable ears command a quick sale in any market where there is a demand for really choice early Sweet Corn, and I recommend this variety to market gardeners, as well as for use on the home table. Now, then, you will need to try this; is earlier than Early Champion; is finer than that sort and as big almost as its namesake. It will be the biggest money-maker (next to Salzer's Independence or Fourth of July and Salzer's First-of-All) you ever struck.

$145.00 PER ACRE AT 6 CENTS A DOZEN.

Plant 1 foot in the row, and the rows 3 feet apart, and you have 14,500 plants at 2 ears to the plant, and you get 29,000 ears; at 6 cents a dozen will make the snug sum of **$145.00**

Price of Earle's Early Evergreen Sweet Corn: Big package 10c; pt., 20c; qt., 35c, postpaid. By express: Qt., 25c; pk., 90c; ½ bu., $1.75; bu., $3.25.



EARLE'S EARLY EVERGREEN SWEET CORN
EVEN AT 6c A DOZEN YIELDS $145. PER ACRE
BLANC PHILA.

EARLIEST "GOLDEN BANTAM."

Of extreme hardiness, this can be planted earlier than any other true sweet corn, and will then produce the **earliest supply of ears for the table,**—always excepting Salzer's Famous Fourth of July Sugar Corn.

Planted later it does not develop quite so quickly as Cory, but is vastly superior in rich sweet flavor. The stalks grow from three and a half to four feet in height and produce one to two good ears on each stalk. The ears are five to six inches in length;—the grains, when ears are ready for use, are a bright golden yellow. The flavor is exceptionally rich and sugary, "the sweetest of all." **Per pkt. 10c; ½ pint, 15c; per pint, 25c; postpaid. By express: Per pint, 20c; quart, 35c; 4 quarts for 75c; per peck, $1.50.**

"Howling Mob" is ready for use only three to five days later than the extra early Cory when both are planted at the same time, but the ears are so much larger in size, while the grains are so much whiter and sweeter, that it should really be compared with the second-early Crosby's Twelve-Rowed and other varieties of a later season. **Per pkt., 10c; per pint, 25c, postpaid. By express or freight: Per pint 20c; quart, 30c; 4 quarts, $1.00; per peck, $1.75.**

Peep o' Day—See page 44.

EXTRA EARLY ADAMS.

This Corn is a splendid early variety, though not a regular Sweet Corn—fine for roasting ears! It's very early and a most profitable variety that can be grown on account of earliness and fine shape of ears. By mail: Pkg., 10c; pt., 20c; qt., 35c. By express: Pkg., 75c; ½ bu., $1.25; bu., $2.25.

BLACK MEXICAN SWEET CORN.

It is of excellent quality, medium late, and on account of its novel appearance is sure to be taking. Pkg., 10c; pt., 20c; qt, 35c, postpaid. By express, pk., $1.00.

BURPEE'S EVERGREEN.

Immensely popular, and well it may so be. A little later than Earle's Evergreen. It's very sweet, very early and very large. Pkg., 10c; pt., 20c, postpaid. By express, qt., 25c; pk., 90c; bu., $3.20.

NEW EARLY CHAMPION SWEET CORN.

Produces ears 12 inches long in 60 days. This new variety is without question the earliest **large Sweet Corn** yet introduced, being only a few days later than the first early small sorts. Ears nearly as large as the Evergreen; pure white kernels, with medium sized white cob; very sweet, tender and full of milk, yielding from 2 to 3 ears to the stalk.

1. **Perry's Hybrid (Ballard's Early)**—Also known under Chicago Market. It is a fine sort; very sweet, a good second early; large, fine ears.
2. **Early Minnesota**—One of the best varieties for second early; splendid.
3. **Early Marblehead**—Fine flavor and very sweet.
4. **Moore's Concord**—Largest and best second early.
5. **Cory**—A splendid, very early Sweet Corn, rich in flavor.
6. **Mammoth Sugar**—A large sort, very sweet; later than Evergreen.
7. **Egyptian Sweet**—Late, ears large, and flavor rich and sweet.
8. **Hicox Canner**—A superb sort for canning, ripening two weeks before Egyptian.

STOWELL'S EVERGREEN SWEET CORN.

There is more Stowell's Evergreen Sweet Corn planted for late than of all other late varieties put together. The reason for this is that Stowell's Evergren does so splendidly everywhere and seems to fill the bill to perfection. Now, our strain is vastly superior to the bulk offered. It has been carefully grown for seed, and is sure to give great satisfaction. The ears are very large—we have seen them 10 to 11 inches long; deliciously sweet, and will outsell the common varieties of late Sweet Corn two to one. Pkg., 10c; pt., 25c; qt., 40c, postpaid. COUNTRY GENTLEMEN.

One of the very sweetest of all sugar corns; ears extremely large and of delicious flavor.

This is used largely in the East, where it is called the finest of all Sweet Corn for private table. It is also known as **Zigzag Corn,** on account of the peculiar arrangement of its kernels. It is of a delicious quality, ripening 6 days before Evergreen Corn, and will delight the most fastidious epicure. By mail: Pkg., 10c; pt., 20c; qt., 35c. **By express: Pk., $1.00; bu., $3.60.**

THE 2 GREATEST CUCUMBERS ON EARTH.

We make the keen declarations that on this page are described the two very best Cucumbers on earth!—We take nothing back—saying this; and you my friend in trying these 2 great sorts will say: "absolutely the best fine grained sparkling white, refreshing, delightfully flavored Cucumbers I ever saw."

1. SALZER'S EARLIEST CUCUMBER.

SALZER'S EARLIEST CUCUMBER is universally acknowledged by seedsmen, by market gardeners, by private planters, whether for city gardens or acre cultivation, to be without a peer the earliest, finest table variety in the world. Over 100,000 customers planted this sort since 1896, when first introduced by us, and all pronounce it the earliest, finest Cucumber in existence.

Talk about Cucumbers! We are positive that there is nothing in America, and nothing in the wide world, in the Cucumber line, that will so quickly make money for the market gardener, citizen or farmer, as **Salzer's Earliest.**

Since we introduced this remarkable early variety, it has, judging from hundreds of reports, already leaped into popularity. And well it may, for it is the most magnificent early Cucumber we have ever seen. It is remarkably perfect and uniform in growth, with beautiful, nice-sized Cucumbers—just the size which will sell in all markets. We cannot too strongly recommend same. Although not so large as Salzer's Perfection or Improved Long Green, yet it is so **early**—way ahead of every other sort—that it cannot help but attract attention and pay the grower. It is A No. 1 in all stages and equally good for forcing or outdoor planting

It is certainly the earliest Cucumber in the world. A Cucumber especially adapted for the hot-bed or early garden culture, as it sets quickly and produces beautiful Cucumbers in the shortest possible time. It is a great money-maker for market gardeners, a single hot-bed often yielding from $25.00 to $50.00 worth, according to your market. We have time and time again received $1.20 and $1.50 a dozen for these great early beauties, and we know that every one who will carefully grow them in their hot-beds, or in some sheltered location outside, will make lots and lots of money out of them.

What Gardeners Who Use Salzer's Earliest Say:

Frank Clark, Milwaukee. "Your Earliest Cucumber is a bonanza to gardeners."

Wm. Goode, St. Paul: "I made more money out of 1 lb. Earliest Cucumber than out of anything else."

Henry Johns, Iowa: "It is the earliest Cucumber I ever tested. Mine were the first in the market and quickly sold at $1.00 per dozen."

$87.50 FROM 1/4 LB. SEED.

"I made $87.50 in six weeks on my SALZER'S EARLY CUCUMBERS—all from 1/4 lb. seed which cost me but 40c—sold in the St. Louis market. They were so early—many days ahead of all others."
Emerson Green, Granite City, Ill.

Mrs. Fred Heil, Evanston: "I bought one ounce for my own use. They proved so very early and so prolific that I sold my surplus for $17.00 to my neighbors, because mine were weeks ahead of theirs."

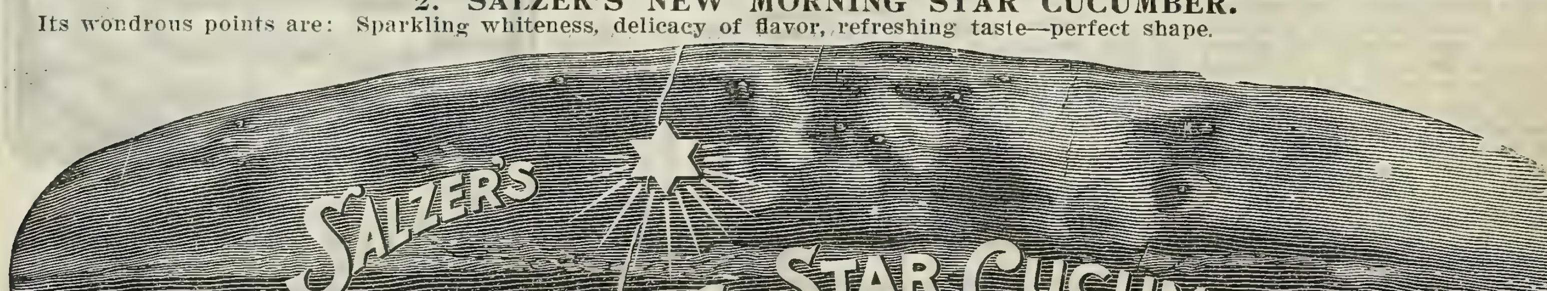
If we were to have three Cucumbers, they would be **Salzer's Earliest, Morning Star** and **Long Giant,** and then, of course, we would have a pickling Cucumber, and nothing in the wide, wide world equals **Salzer's Prolific Pickle** for this purpose.

If you have ever grown a finer Cucumber than Salzer's Earliest, that will make you more money and quicker money, and is of a finer quality, we would like to know it.

Price of Salzer's Earliest Cucumber: Big package, 10c; oz., 15c; 1/4 lb., 40c; 1/2 lb., 75c; lb., $1.25; 4 lb., $4.50, postpaid.

2. SALZER'S NEW MORNING STAR CUCUMBER.

Its wondrous points are: Sparkling whiteness, delicacy of flavor, refreshing taste—perfect shape.

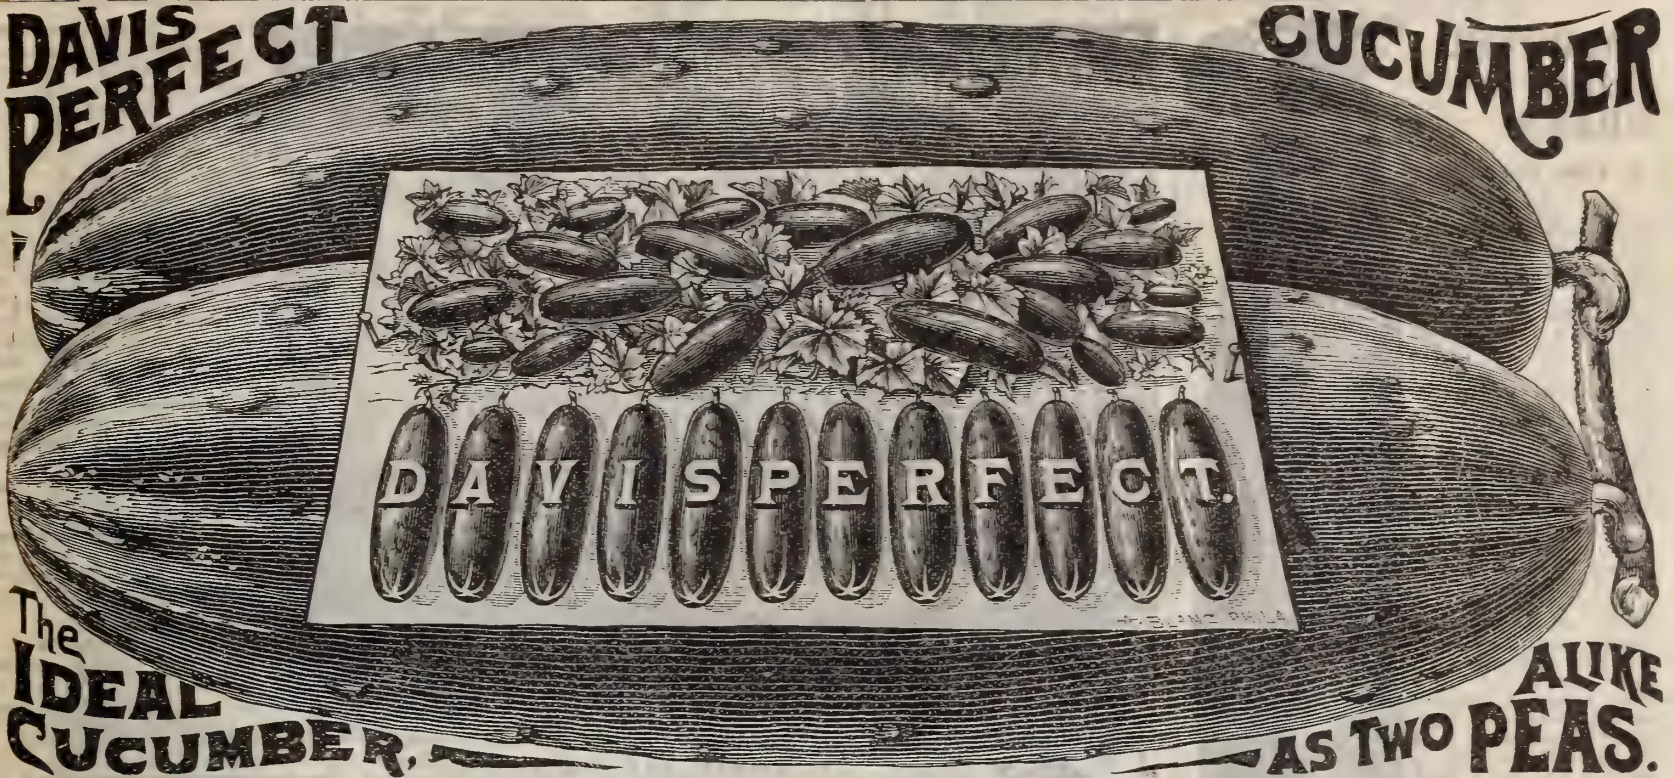


Pkg. 10c.
Oz. 15c.
1/4 lb., 50c.

Well, now, in Salzer's New Morning Star Cucumber we have a new Cucumber that's worth having, that brings joy to the grower and profit to the planter! Next to Salzer's Earliest, this is the most profitable to grow. It is very shapely, holding its rich green color throughout its entire long length, which is very straight, smooth and symmetrical. It is one of those rare Cucumbers, both in shape, size and quality, one so rarely finds, and we are confident if you once grow same you will never be without them. It is splendidly adapted for the market gardener's or kitchen planting.

PRICE OF SALZER'S NEW MORNING STAR CUCUMBER: Pkg., 10c; oz., 15c; 1/4 lb., 50c; 1/2 lb., 80c; lb., $1.25; 4 lbs., $4.50.

DAVIS PERFECT CUCUMBER



The IDEAL CUCUMBER, ALIKE AS TWO PEAS.

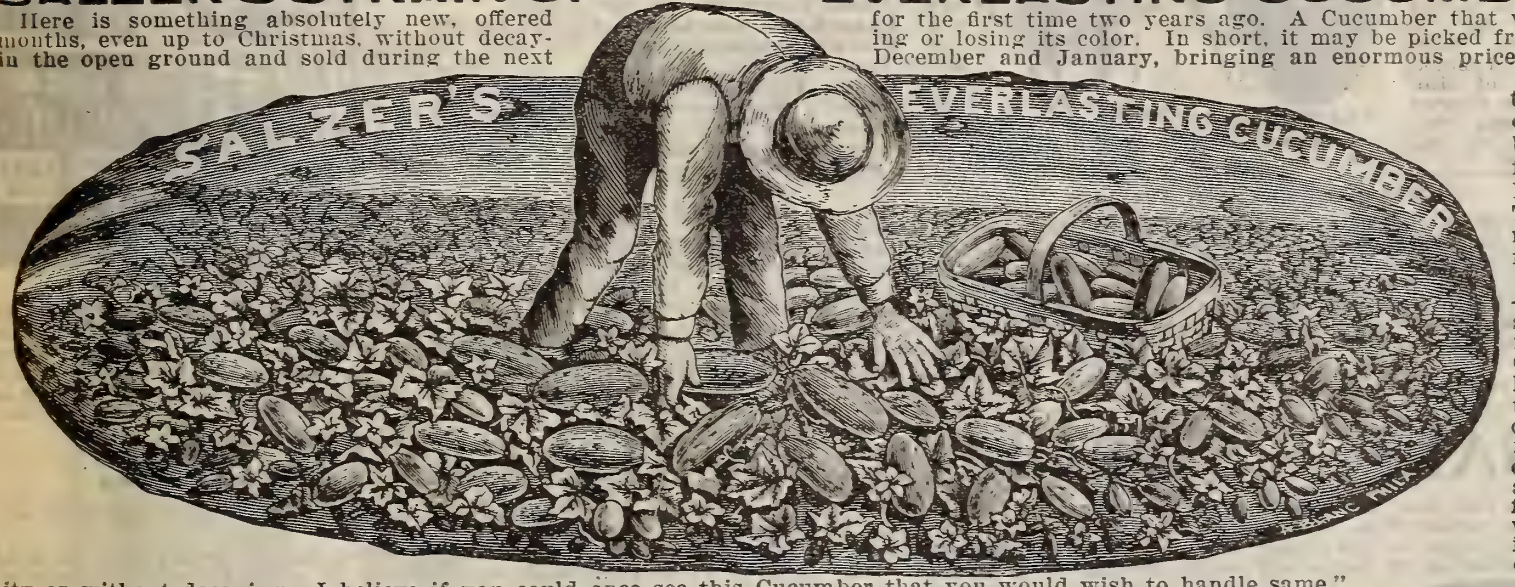
Plant the Davis Perfect, and you will raise in the open ground, cucumbers that will sell in any market at same price as the high priced hot house forcing cucumbers.

It is the most popular variety of its type today. The Davis Perfect has been most carefully selected by a veteran outdoor and greenhouse grower of Cucumbers—for length, slimness and its dark green color. In spite of length and size, it is a most vigorous grower, and prolific yielder, besides resisting blight longer than most varieties. Equally valuable for indoor, frame and outdoor planting.

Price of Davis Perfect Cucumber: Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.75; 3 lbs., $4.00.

SALZER'S STRAIN OF EVERLASTING CUCUMBER.

Here is something absolutely new, offered for the first time two years ago. A Cucumber that will keep for months, even up to Christmas, without decaying or losing its color. In short, it may be picked from the vines in the open ground and sold during the next December and January, bringing an enormous price.



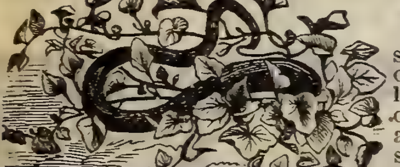
Our attention was first called to this by a letter from Mrs. C. K. Bell, of Toledo, Ohio, reading as follows: "Gentlemen:—I have something new in the Cucumber line. You can take a Cucumber, put it in a cool, dry cellar and keep it for months without losing the color or the quality or without decaying. I believe if you could once see this Cucumber that you would wish to handle same."

We immediately wrote Mrs. Bell to send us a sample Cucumber. This she kindly did, sending one-half dozen. We put them in a tight box surrounded by cotton in a cool, dry place. They were taken from the vine Sept. 1st. They remained sound and firm, retaining their color and quality until Christmas, when they furnished a Christmas delicacy. We are sure that we could have kept these Cucumbers along until February or March. Think of the fancy prices Cucumbers would bring in March!

Now our stock of this seed is very limited, indeed confined to but several pounds, hence we can sell but small quantities to each customer.

Price of Salzer's Everlasting Cucumber: Package of 20 seeds, 15c; ½ oz., 60c; oz., $1.00.

☞SNAKE CUCUMBER.



SNAKE, Pkg., 10c.

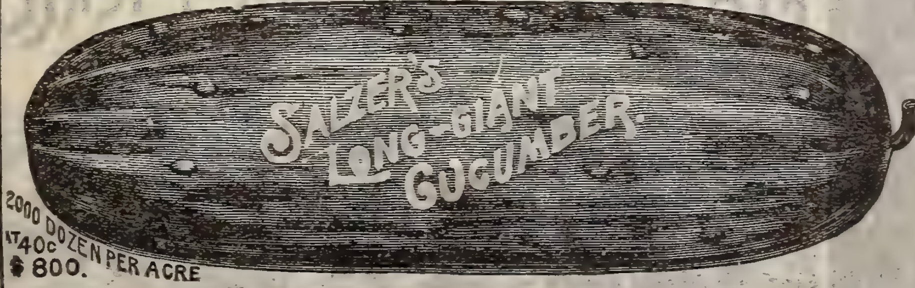
Have you seen this Cucumber as long as 6 feet, coiled up like a snake? A singular and remarkable curiosity. It is good for food, but is grown more on account of its oddity. Pkg., 10c: oz., 25c.

SALZER'S PERFECTION CUCUMBER.

For hotbed forcing, **for early in the open ground,** or, in fact, for any purpose whatever this Cucumber is peer of all. We have never seen a strain so uniform in size, color and evenness, so complete in all the requirements that go to make a good Cucumber as our Perfection. Mr. W. Oberst, a Cucumber grower, sold $107.00 worth of Cucumbers from ¼ lb. of seed. Don't that pay? **Pkg., 10c; oz., 15c; ¼ lb., 40c; lb., $1.00.**

MIXED CUCUMBERS.

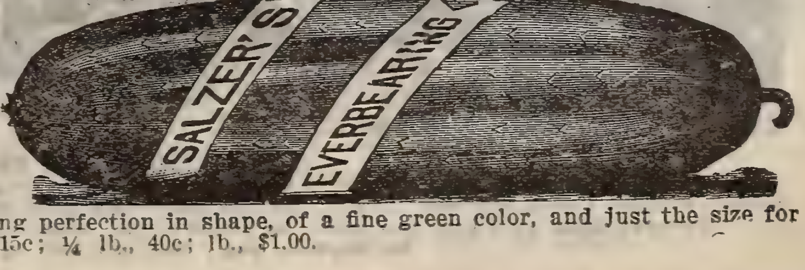
Our friends love this mixture, the way they order each year! and why not?—It gives you a dozen to twenty fine, tender, delicious Cucumber Sorts in a package—all different! Big pkg., 10c; oz., 15c; ¼ lb., 20c; lb., 60c, postpaid.



SALZER'S LONG GIANT CUCUMBER.

Surpasses all varieties in its giant length and great beauty. It is positively the handsomest green Cucumber that we have ever seen, often measuring 15 inches long; very uniform in size. It is extremely crisp, brittle and appetizing, with but few seeds, while its yield is something astonishing. A market gardener of our acquaintance reported 2,000 dozen per acre of fine, saleable Cucumbers. Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.50, postpaid.

SALZER'S NEW EVERBEARING CUCUMBER.



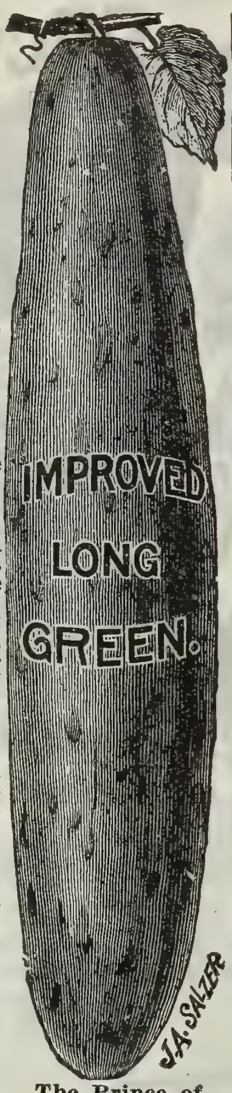
The peculiar merit of this novelty is that the **vines continue to flower and produce fruit in large quantities until killed by frost.** One vine exhibits at the same time Cucumbers in every stage of growth, the small one being perfection in shape, of a fine green color, and just the size for pickling. Pkg., 10c; oz., 15c; ¼ lb., 40c; lb., $1.00.

IMPROVED LONG GREEN.

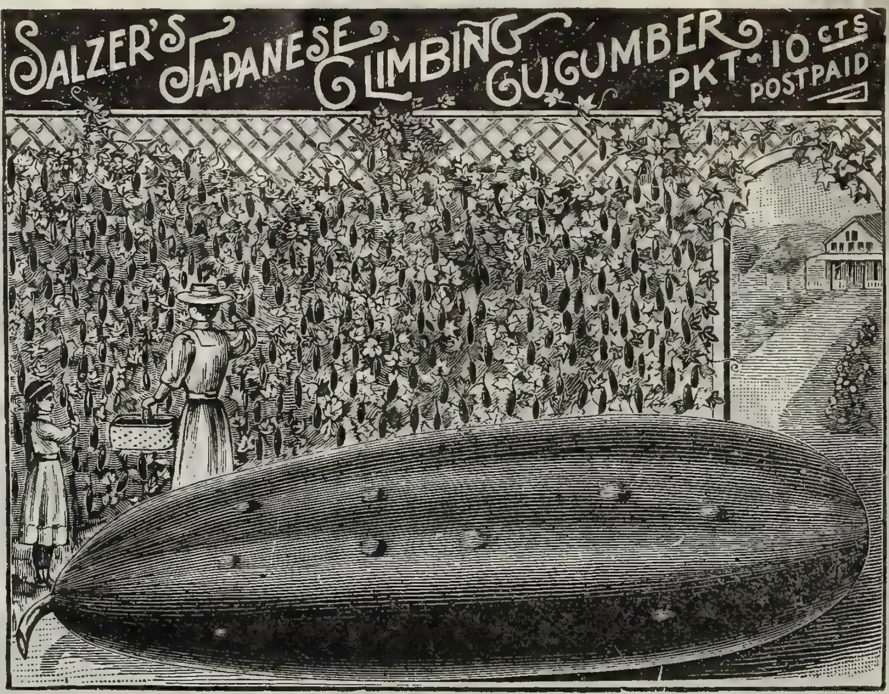
A Fine Cucumber.

You could travel ten thousand miles before finding a finer variety; as this variety seems to have taken the lead all through the world as the great variety to plant for a general crop. Is grown in every civilized country, and we know of no sort that we would more heartily recommend for general garden culture than this.

Our **Improved Long Green** seems to have captured the hearts of everybody. It is safe to say that more seed is planted of this sterling variety than of any five other standard sorts. Next to Salzer's Perfection and Morning Star, it is withal the very best to plant for all purposes. It is a splendid forcing Cucumber, as well as for general crop. One of the best selling Cucumbers in the Market. Long, smooth, fine flesh, but few seeds. Grows from 10 to 20 inches long. It is the Cucumber you want for house and market. **Price of Improved Long Green: Pkg., 5c; oz., 10c; ¼ lb., 25c; ½ lb., 45c; lb., 80c.**



The Prince of Long Cucumbers.



Salzer's Great Japanese Climbing Cucumber.

A wonderful Cucumber, climbing rapidly like a vine and bearing innumerable Cucumbers of delicious quality. The fruits are 8 to 10 inches in length, of a fine green color; the flesh is thick and firm, never bitter, and fine for pickling as well as slicing. It is very prolific, and the fruits, being raised well above the ground, **never suffer from wet weather or insects;** vines are proof against mildew, and continue bearing until late in the fall.

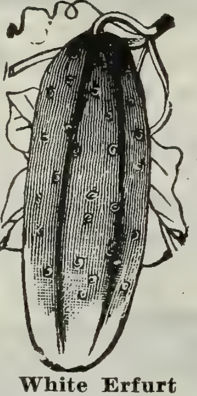
Pkg., 10c; oz., 20c; ¼ lb., 60c, postpaid.

West India Gherkins.

A novel little Cucumber, grown for show and pickles. Pkg., 5c; oz., 20c.

WHITE SNOW.

A new snow white Cucumber, very popular, as its pure, waxen white color makes it very attractive. Price: Pkg., 10c; oz., 20c; ¼ lb., 60c; lb., $2.00.



White Erfurt Spine.

11 CHEAP CUCUMBERS.

☞**Price of the following 11 sorts: Pkg., 4c; oz., 10c; ¼ lb., 25c; lb., 85c; by express, lb., 75c.**

1. **Early Market**—The very earliest of all Cucumbers, good for forcing; 3 to 5 inches long.
2. **White German**—This is one of the handsomest early varieties known; is large and very productive.
3. **White Perfection**—Fine white variety.
4. ☞ **White Erfurt Spine**—Wondrously prolific, early frame Cucumber. Largely used.
5. **Long Green Southgate**—A great beauty.
6. **Green's Prolific**—One of the best pickling sorts known; small, crisp.
7. **Boston Pickling**—Fine pickler.
8. **Nichol's Medium**—Fine pickler.
9. **Chicago Pickling.**
10. **Fordhook Pickling.**
11. **Milwaukee Pickle**—A famous pickler.

THE CUMBERLAND PICKLE.

This variety, of the hardy White Spine type, is a **rapid, strong grower and is very prolific in fruit.** The pickles differ from all other hardy sorts in being thickly set with fine spines, except on the extreme stem end. During the whole period of growth, from the time they first set until full grown, the form is exceptionally **straight and symmetrical,** making them as choice for a slicing variety as for pickles. The flesh is firm, very **crisp and tender at all stages. Price of The Cumberland Pickle: Big pkg., 10c; oz., 20c; ¼ lb., 35c; lb., $1.10.**

SALZER'S ELITE

SALZER'S ELITE PICKLING.

There is no pickling Cucumber in the United States today which enjoys so large a sale as Salzer's Prolific Pickle, but in Salzer's Elite we have something still a little better, still a little finer, choicer, rarer, just the pickling Cucumber you want for something real fancy. The housewife who wishes to put up a few bottles of extra fancy, extra fine, extra tender Pickling Cucumbers will want Salzer's Elite. **Price: Pkg., 15c; oz., 25c; ¼ lb., 75c; lb., $2.50.**

SALZER'S PROLIFIC PICKLE CUCUMBER.

My friend, you who relishes a rich, crisp pickle—a pickle just a little better than grandma used to make—here is the variety that will give you the pickles from which such rich, crisp, solid, delicious pickles can be made.

For several years we have made Cucumbers for pickles a study, testing and originating new sorts for this purpose, until today we think we have perfection in Salzer's Prolific Pickle. It is fine in form, solid and thick in texture, excellent in quality, and combines all the elements necessary to make a good pickle. It is enormously productive, cropping from 200 to 400 bushels per acre. The past summer we spent much time in selecting and greatly improving our Prolific Pickle, and we are sure our patrons will find it now by all odds the best offered in America. Indeed, as a large pickle grower, who saw our strain, says, **"Salzer, your Prolific Pickle is perfection; don't try to improve it, can't be done."**

Price of Salzer's Prolific Pickle.

Pkg., 10c; oz., 15c; ¼ lb., 30c; ½ lb., 50c; 1 lb., 90c; 6 lbs. (enough for 1 acre), $5.00. By express, ¼ lb., 25c; ½ lb., 45c; 1 lb., 80c; 6 lbs., $4.50.

SALZER
PICKLES 400 5 GAL. KEGS PER ACRE

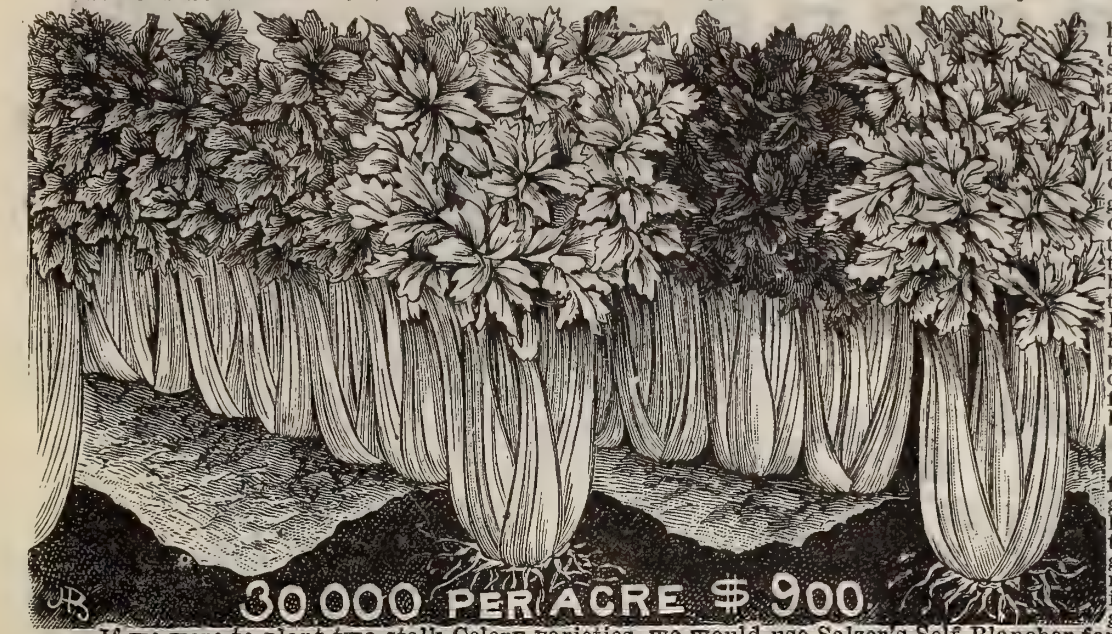
SALZER'S PROLIFIC PICKLE CUCUMBER is the grandest of all pickling Cucumbers—one that will delight and please every grower, no matter how critical he or she may be. The Salzer Prolific Cucumber will surely "fill the bill" and give great satisfaction.

We offer same at a very low price, as follows: By mail, big pkg., 10c; oz., 15c; ¼ lb., 30c; ½ lb., 50c; lb., 90c; 6 lbs., $5.00

By express, pkg., 10c; oz., 15c; ¼ lb., 25c; ½ lb., 45c; lb., 80c; 6 lbs., $4.50.

SALZER'S SELF-BLANCHER CELERY.

Come here, my friend, and let me tell you something about this great Celery. There is no Celery equaling it in taste, richness of color perfection in blanching, **and earliness.** In our home kitchen garden this variety produced tender, delicious, crisp, brittle Celery, **without any hoeing, completely blanching itself.** It is pre-eminently the sort to grow and use for home garden, for market or for shipping. The demand for this magnificent Celery has been marvelous. Almost every order seemed to want **Salzer's Self-Blancher,** until we sold almost every grain of seed, and everybody grew the finest Celery they had ever seen. Now, we are sure that there is no self-blanching Celery ahead of Salzer's Self-Blancher. You will like it. It is early, crisp, tender—absolutely the finest.



We introduced this Celery some years ago and have kept right on improving same, and we believe that it is now more largely grown than all other self-blanching varieties together. It has certainly attained the pinnacle of perfection for growth, earliness, beauty, flavor, quality and texture. The beauty about this is that those who have never been able to grow Celery before can grow this to perfection, and succeed with same as well as with any other vegetable; indeed, people find no trouble in growing Salzer's Self-Blancher Celery, for but little or no banking up is necessary. The peculiarity of this splendid variety is that the stalk, portions of the inner leaves and heart are entirely white, so that by simply tying the plants together or by drawing the soil firmer against them, pressing it with the hands or hoe and then repeating the operation to hold the soil already placed against the plants in position, is all that is needed to complete the work of blanching. It is necessary that the patch be kept free from weeds, as they will cause rust when blanching Celery.

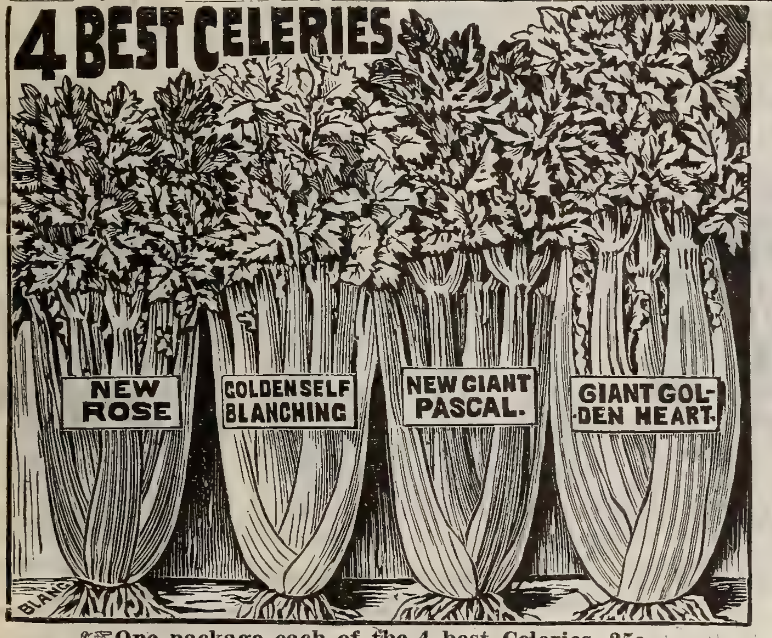
A PERFECT BLANCHER.

Salzer's Self-Blancher Celery is singularly free from the habit all blanching Celery varieties have of going back to the original green Celery; indeed, we have had fields of this in the past containing 10,000 to 20,000 plants, in which there were but a dozen of green stalks, so that we have rooted these out almost entirely. We do not know of a Celery blanching more perfectly, that is better or finer, or will give greater satisfaction.

If we were to plant two stalk Celery varieties, we would use Salzer's Self-Blancher for early, and Giant Golden Heart for late. One ounce of seed ought to furnish from 3,000 to 5,000 plants. There is nothing more profitable than Salzer's Self-Blancher Celery. If sold for early market, an acre readily brings from $250 to $500, as it is so extremely early and fine.

Where the market is near, no crop pays better than Celery, as it is in constant demand from early June throughout fall and winter. Salzer's "Self-Blancher is a variety that really should be called "All Seasons' Celery," from the fact that it is good in June, it is good in July, and good throughout the year. It keeps well, sells rapidly. It is handsome in the extreme being remarkably stocky and a wonderfully strong grower, is very heavy, perfectly solid, of a delicious, sweet flavor, **and with all these points is a wonderful keeper.** One would think that these would be a sufficient number of good qualities, but to all of these is added **THE WONDERFUL QUALITY OF SELF-BLANCHING** to a very remarkable extent. **Without much covering to speak of, even the outer ribs become of a yellowish-white color,** the heart being large, solid and of a beautifull golden yellow.

PRICE OF SALZER'S FAMOUS SELF-BLANCHER CELERY.
Big pkg., 10c; 3 pkgs., 25c; ½ oz., 25c; oz., 45c; ¼ lb., $1.25; lb, $4.00. Small pkg., 100 kernels, 6c.



☞**One package each of the 4 best Celeries, 25c.**

1. New Rose Celery.

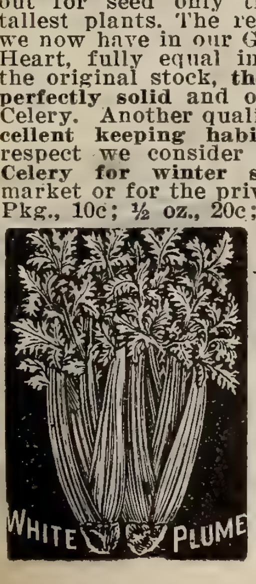
A magnificent new Celery. The color is a beautiful shade of rose, of exceptional fine flavor; solid, crisp and tender, and has proven itself entirely free from stringiness. It is a splendid variety for late use; it keeps well and blanches well. It is one of those varieties that will certainly please the private grower. Pkg., 10c; oz., 25c; ¼ lb., 75c; lb., $2.50.

2. Golden Self-Blanching.

The beautiful appearance of the plant, with its close habit, compact growth, and straight, vigorous stalks, is indescribable. The ribs are perfectly solid, crisp, brittle, and of delicious flavor, surpassed by no other variety, while it has the decided merit of being self-blanching. Without banking up or any covering whatever, even the outer ribs become of a handsome, fresh yellowish-white color. The heart is large, solid, and of a beautiful, rich golden yellow color, extremely early and of the richest flavor. Pkg., 10c; ½ oz., 20c; oz., 35c; ¼ lb., $1.00; lb., $3.50.

4. Giant Golden Heart.

Mr. Robert Purvis found in his Dwarf Golden Heart Celery a few plants of larger growth. These he carefully set aside and grew their product several seasons, planting out for seed only the thickest, tallest plants. The result of this we now have in our Giant Golden Heart, fully equal in quality to the original stock, **the stalks are perfectly solid** and of best, true Celery. Another quality is **its excellent keeping habit.** In this respect we consider it **the best Celery for winter storage,** for market or for the private planter. Pkg., 10c; ½ oz., 20c; oz., 30c; ¼ lb., 75c; lb., $2.50.



Golden Self-Blanching (Paris Strain.)

This golden self-blanching Celery originated near Paris and our Paris strain is grown by the introducer specially for us. It is par excellence.

Pkg., 12c; ½ oz., 25c; oz., 40c; ¼ lb., $1.50; lb., $4.50.

3. New Giant Pascal.

The height is about 2 feet; stalks are very large, thick, solid and not stringy, and unusually tender and crisp, snapping like glass, and when desired can be sliced lengthwise. When fully grown the outer stalks will average 2 inches in width and are fully as thick as a man's finger, which is well shown in the illustration of a stalk of a Giant Pascal reduced in size. It blanches very easily, and after a few days' earthing up, the outer stalks present a beautiful white appearance. Pkg., 10c; oz., 25c; ¼ lb., 60c; lb., $1.75.

WHITE PLUME CELERY.

The great objection to growing Celery for family use has been the trouble experienced in blanching it. Blanch by tying the plant and drawing up a little soil, when the work of blanching is accomplished. **Pkg., 5c; oz., 20c; ¼ lb., 65c; lb., $1.90.**

BOSTON MARKET.

The great favorite in the Boston markets. It is early, very solid, white, of mild, delicious flavor. Pkg., 5c; oz., 20c; ¼ lb., 60c; lb., $1 90.

WHITE WALNUT.

So called because of its rich, walnut-like flavor. The stalks are solid and heavy, of dwarf, compact growth. Pkg., 5c; oz., 20c; ¼ lb., 60c; lb., $1.90.

6 WELL-KNOWN CELERIES.

1. **Crawford's Half Dwarf**—One of the best. Pkg., 3c; oz., 15c.
2. **Dwarf White Solid**—Excellent variety. Pkg., 3c; oz., 20c; ¼ lb., 60c.
3. **Seymour's Superb White**—One of the finest large Celery sorts. Pkg., 5c; oz., 20c.
4. **Dwarf Golden Heart**—Heart waxy golden-yellow. Pkg., 10c; oz., 25c.
5. **Salzer's Giant Celery**—The largest Celery known. Pkg., 20c.
6. **Crimson Celery**—Beautiful red color. Pkg., 10c; oz., 35c.

TURNIP ROOTED CELERY.

Probably the most profitable crop in Celeries is to grow the Turnip-Rooted varieties. These grow well, bring in great crops and great money. We urge all to try a piece with Salzer's Turnip Celery. An ounce of seed will furnish a thousand plants or more, and at La Crosse 1,000 bulbs sell for $36.00, and are grown on a small strip and with but little care. Nothing is finer for salads, flavoring of soups, etc.

1. **Celeriac (Turnip Rooted)**—Well known. Pkg., 5c; oz., 15c; ¼ lb., 40c; lb., $1.40.

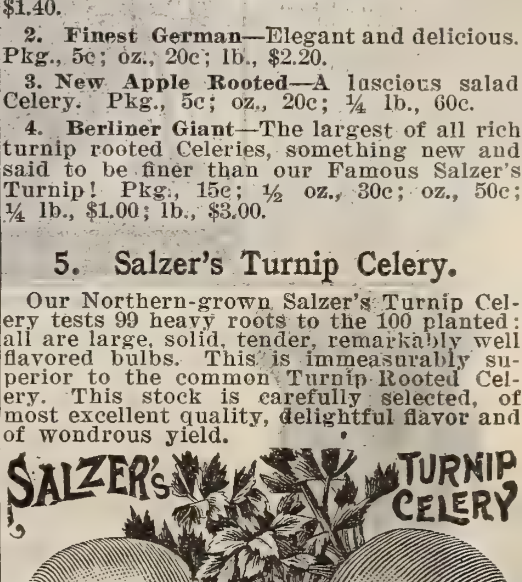
2. **Finest German**—Elegant and delicious. Pkg., 5c; oz., 20c; lb., $2.20.

3. **New Apple Rooted—A** luscious salad Celery. Pkg., 5c; oz., 20c; ¼ lb., 60c.

4. **Berliner Giant**—The largest of all rich turnip rooted Celeries, something new and said to be finer than our Famous Salzer's Turnip! Pkg., 15c; ½ oz., 30c; oz., 50c; ¼ lb., $1.00; lb., $3.00.

5. Salzer's Turnip Celery.

Our Northern-grown Salzer's Turnip Celery tests 99 heavy roots to the 100 planted; all are large, solid, tender, remarkably well flavored bulbs. This is immeasurably superior to the common Turnip-Rooted Celery. This stock is carefully selected, of most excellent quality, delightful flavor and of wondrous yield.



John Bene, Milwaukee: "I bought ¼ lb. Salzer's Turnip Celery, and sold $80.00 worth. All roots were very fine."

Now we know that there is lots of money to be made by growing Salzer's Turnip Celery. Just try it and be happy. There is no Celery better than Salzer's Turnip Rooted.

HERBS, ETC.

The following medicinal herbs are so well known that they need no special description. We urge all to plant same. What is more helpful to babes than Fennel tea? And just think of the good Sage tea, Anise and all the other sorts, too! You will want some, if not for medicinal purposes, then for flavoring. **The package of mixed Herbs for 10c is very popular.**

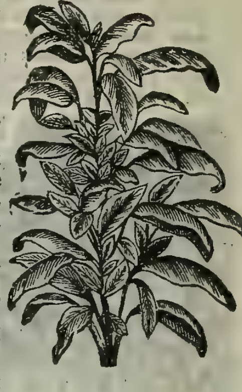
SAGE.



Salzer's Giant.

A few ounces of Sage will plant enough for 300 bunches of dry leaves. At La Crosse it retails at 5c a bunch. This is a splendid thing for the school boy or school girl to plant in a corner of the garden, taking good care of same, and in fall tie in bunches and sell to their neighbors for flavoring or tea. An ounce of seed will furnish enough plants to sell $10 or $15 worth of dried leaves in your market.

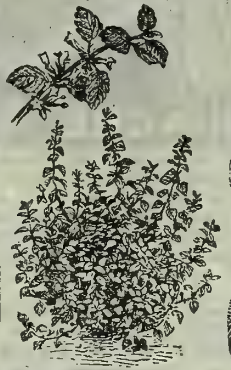
Common Sage—Pkg., 5c; oz., 20c; lb., $1.25.

Salzer's Giant—Very large and fine. Pkg., 10c; oz., 30c; ¼ lb., 75c; lb., $2.00.

MIXED HERBS.

Pkg., 10c; oz., 30c; ¼ lb., $1.00.

No other mixture of seeds that we have for sale has given such tremendous satisfaction as our **mixed herbs** and mixed peppers. Indeed, our mixture of herbs is immensely popular as you get seeds of all sorts carefully mixed at but 10c a package. There are just thousands upon thousands of our lady friends and gardeners using the mixed herbs for their kitchen garden. A package usually will produce enough plants of any one variety desired for flavoring or medicinal purposes. Price Mixed Herbs: Pkg., 10c; oz., 30c; ¼ lb., $1.00; lb., $3.00.



Summer Savory.

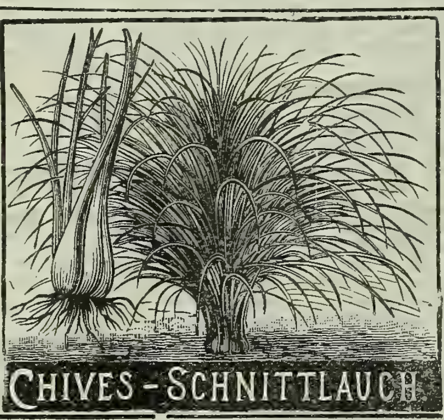
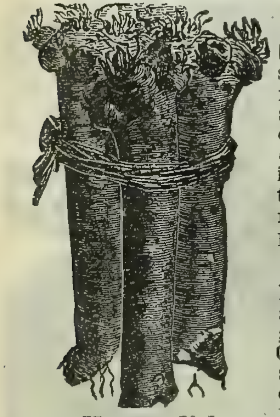
Caraway, Common—Pkg., 5c; oz., 15c; ¼ lb., 25c; lb., 60c.

Caraway, Paris Market—Largely grown about Paris, very popular. Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.25.

CHIVES.

We cannot too strongly recommend the growing of a few dozen Chives; when once planted they live forever. A few plants taken in the house and placed in the cellar during winter will, as soon as brought to light, sprout and bear an abundance of greens for salads, of strong onion flavor. Per 12, 20c; per 25, 35c; per 100, $1.00.





Horseradish.

HORSERADISH.

This splendid appetizer cannot be overestimated. 25 plants are sufficient for a small family. The roots grow and increase rapidly in size, and bear abundantly with each succeeding year. Plant in a corner of the yard where you wish it to grow, you can begin digging the next year. **6 roots for 20c; 12 for 35c; 25 for 70c; 100 for $2.75, postpaid.**

BOHEMIAN HORSERADISH.

It's the finest, richest, largest of all—worth its weight in gold to get a start with! Grows to double the size of the old variety. 6 roots 35c; 12 for 50c; 50 for $2.00, postpaid.

Maliner-Kren—New, very fine, grows large. Price: 6 roots, 35c; 50 for $2.25.

PIEPLANT (RHUBARB) ROOTS.☞

Nearly everybody is fond of Pieplant pie, or prepared in almost any way, as sauce, etc. Well a dozen of two plants planted in a corner of your garden next to your Chives and Horseradish will give you a great abundance of this delicious, healthful, an excellent appetizer, a great tonic. 3 roots for 30c; 6 for 50c; 12 for 75c, postpaid. 100, by express, $5.00.

SALZER'S EARLIEST
THE EARLIEST IN THE WORLD

SALZER'S EARLIEST LETTUCE.

At the head of our long Lettuce list stands by superlative merit, by sheer force of its extreme earliness and quality—**Salzer's Earliest Lettuce.** Now, then, we have learned a thing or two about Lettuce in the 36 years of our gardening experience, and we think we are perfectly safe when we say that **Salzer's Earliest** Lettuce is the **earliest in the world,** and that we are saying something no man can contradict. It is indeed a remarkable Lettuce, grows quickly, of beautiful color and shape, and will make more money for the market gardener, whether he sows seed in a hotbed or any sheltered position outside, than any other Lettuce we know of. We have unlimited numbers of testimonials from market gardeners, from citizens and farmers, praising the merits of this **Earliest Lettuce.** It is the Lettuce for early; and it is the Lettuce for all summer long.

64,752 LETTUCE PLANTERS SOW IT.

This variety we obtained from one of our customers in Germany, who pronounced it the earliest Lettuce grown in that empire. Then we sent it to the market gardeners in Boston, who reported: **"Earliest ever seen here."** We then distributed it in Philadelphia, New York and other centers, and all united in calling it the "earliest of all." It is earlier than the Early Simpson or Tennis Ball, or any Lettuce known to us. We believe that there is no Lettuce anywhere that will equal it in earliness, in quality, in color, in shape, and above all in its rich, nutty flavor It is a Lettuce that has won its place and is to-day planted by every market gardener and planter desiring a Lettuce for earliness—earlier than any other variety on the globe. We are so positive that you will be pleased with this variety that we have unhesitatingly reccommended same. If you once plant it you will never get along without it. It is so fine, so rich, so nutty, so profitable.

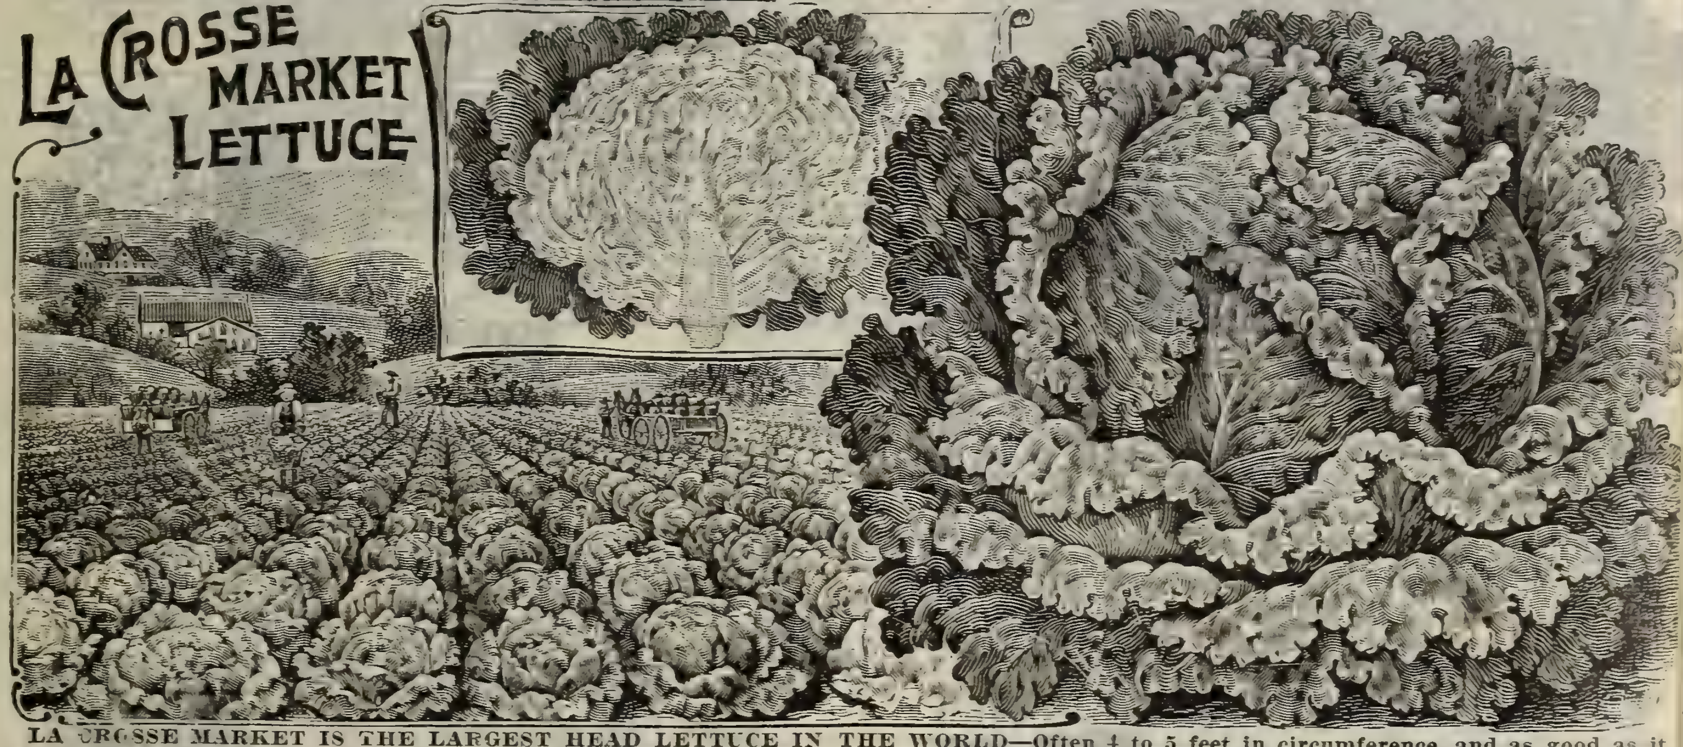
Price of Salzer's Earliest Lettuce: Big pkg., 10c; oz., 20c; ¼ lb., 40c; lb., $1.50.

MAY KING LETTUCE.

The Sensational Lettuce of Germany. The Most Popular Lettuce Today in the Markets of Berlin, Leipsic, Frankfort, etc.

It has solid round heads, and will bear transportation better than almost any other variety. For early spring planting in the open ground or under glass it is unequalled. The plants grow 6 to 7 inches in diameter; the outer leaves are so closely folded, the plant is practically all head. It is hardy as well as very early, and a quick grower.

Packet, 10c; oz., 20c; ¼ lb., 50c; lb., $1.75.



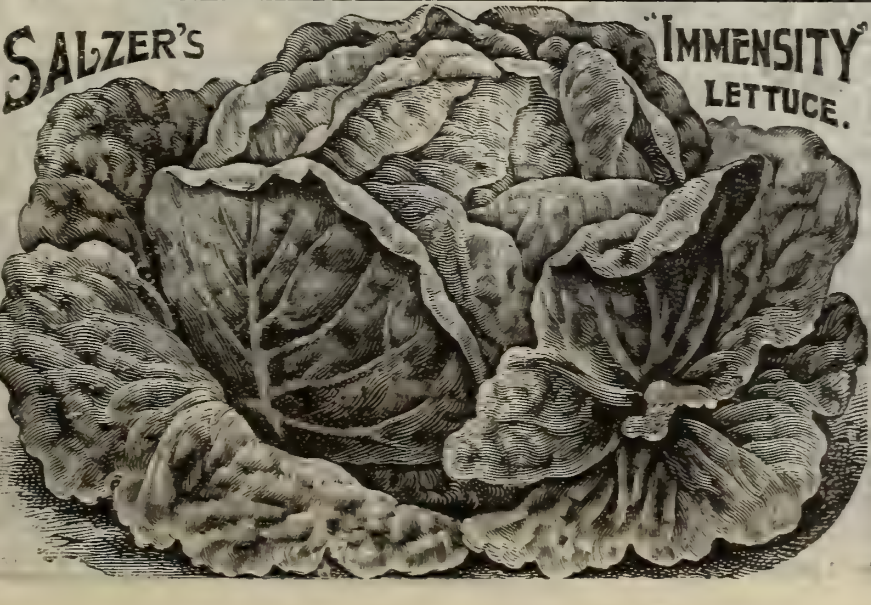
LA CROSSE MARKET IS THE LARGEST HEAD LETTUCE IN THE WORLD—Often 4 to 5 feet in circumference, and as good as it is large, consequently tender, sweet and crisp. It produces immense heads, often 15 and 16 inches across, and weighing enormously. The interior is beautifully blanched, creamy-white, crisp, tender and delicious, being absolutely free from any trace of bitterness. It is a very large, robust-growing variety, rooting deeply, resisting hot, dry weather, very slow to run to seed and a sure header under most trying conditions. The outer color is of a distinct apple-green. As a standard main summer crop, hot weather Lettuce, it is in every way desirable.

Price: Pkg., 10c; oz., 25c; ¼ lb., 65c; lb., $2.00.

SALZER'S IMMENSITY LETTUCE.

Is a gigantic Lettuce, with enormous solid heads. The plant and head not only attain phenomenal dimensions, but it is also of the finest quality, even the outer leaves being tender. The plant is fully 18 inches in diameter, while the head proper is proportionately large. It is one of the slowest to run to seed that we have ever seen, and maintains that crispness of texture and sweetness of flavor. It is well named—it's immensity itself!

Price: Big pkg., 10c; oz., 30c; ¼ lb., 75c., lb., $2.50.



SALZER'S "IMMENSITY" LETTUCE.

Salzer's Perfect Blanching Celery Coss.

The Coss Lettuce blanches perfectly and has a rich celery flavor. It is the delight of the epicurean, and we know that every one testing same will be pleased in the extreme with this rich novelty.

Price, pkg., 10c; oz., 30c; ¼ lb., $1.00; 1 lb., $3.00; postpaid.

EARLY SIMPSON.

Greatly improved, one of the ırliest of all Lettuce sorts, es- ecially good for hotbed or cold- ame forcing, or for extremely ırly in the garden. Very crisp, ellow and tender. This and ılzer's Earliest we use for very ırly. Delicious flavor, rich and ıtty. Pkg., 10c; oz., 15c; ¼ lb., c; lb., $1.00.

IMPROVED HANSON LETTUCE.

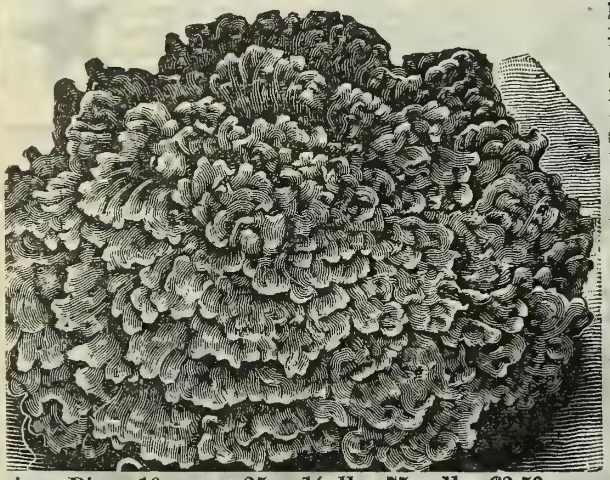
Unquestionably the very best medium late, hard-head Lettuce grown; we do not know of a superior in any respect. It forms a very large head, **weight as high as 6 pounds,** solid to the core, tender, crisp, and of the most delicious flavor imaginable. It resists summer drouths and heat to a wonderful degree, and is at all times ready for the table, with a nutty flavor, agreeable and pleasant to the taste. Pkg., 10c; oz., 15c; ¼ lb., 30c; lb., $1.00.

PEER OF ALL SUMMER LETTUCE.

This is a California novelty. The color of outer leaves is a beautiful semi-crimson. The head is enormous in size, and of excellent flavor. **It withstands all sorts of dry and hot weather** and seems to flourish and produce big heads even under unfavorable circumstances. It is a grand novelty; when once tried will become a standard, as it is the "Peer of All" Summer Lettuces. Pkg., 10c; oz., 25c; ¼ lb., 60c; lb., $2.00.

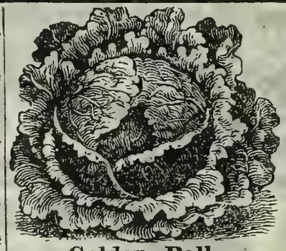
☞1 PACKAGE EACH OF ABOVE—EARLY, MEDIUM AND LATE LETTUCES—FOR ONLY 20c; 1 ounce of each, 50c.

MERICAN BEAUTY LETTUCE.



rice: Pkg., 10c; oz., 25c; ¼ lb., 75c; lb., $2.50.

American Beauty is the latest Lettuce novelty asking for your favor, and we believe, is the finest, choicest, rarest novelty offered for many a year. It is a decided, distinct sort, somewhat of the Simpson type, but grows larger and stronger and more rapidly, and its leaves are broader, and thicker, and richer, and darker, although somewhat slightly less curled and frilled at the edge, yet it's beautiful in the extreme and does full credit to the proud name it bears. It is more of a large, loose head, branches well and is of excellent quality indeed. It has a rich, nutty flavor, crisp, juicy, and fine in the extreme.

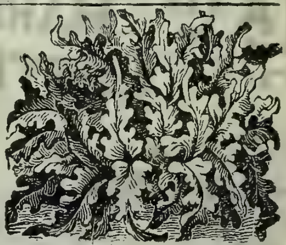


Golden Ball.

GOLDEN BALL LETTUCE.

This novelty was obtained in Russia. It is of distinct color, a delicate golden yellow, retaining the same beautiful color to the center, which enhances its value. It is very crisp, tender, of excellent flavor, and is recommended for forcing an early spring crop. It is long standing, remaining fit for eating a long time. Pkg., 10c; oz., 20c; ¼ lb., 35c; lb., $1.00, postpaid.

OAK-LEAVED LETTUCE.



It is decidedly the most ornamental Lettuce grown, and is particularly adapted to house use, as a few plants supply a family all season, one being able to pick and use the leaves all summer, being oily, crisp, sweet and tender. Pkg., 10c; oz., 30c; ¼ lb., 75c.

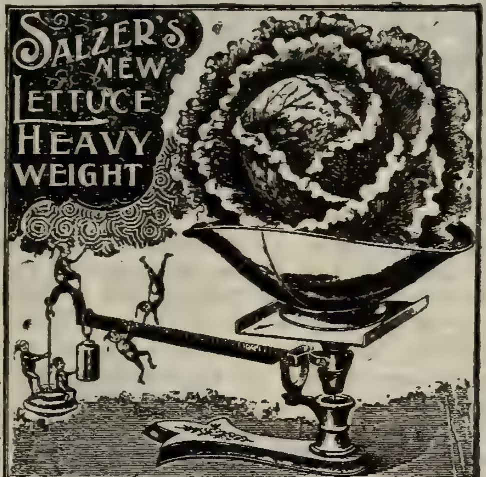
Salzer's All Cream Lettuce
Buy Salzer's Northern Grown Seeds

All Cream Lettuce.

This remarkable Lettuce does not head, but makes a loose bunch of leaves **of superlatively fine quality.** It should be in every garden. We have received hundreds of testimonials, all uniting in pronouncing it of extra flavor and remarkable for maintaining its high quality for an unusual length of time. It forms a beautiful plant, 10 to 12 inches high by 9 to 10 inches across; the leaves grow upright, the upper part of the outer leaves turning outward very gracefully, and are handsomely wrinkled. The edges of the outer leaves are of a glossy, reddish bronze, very ornamental and fresh in appearance; within the leaves are almost white and wonderfully crisp and tender. It grows very quickly; is ready to cut early, and remains for weeks. It is the **cream of all sorts.** Big pkg., 10c; oz., 20c; ¼ lb., 40c; lb., $1.50.

NEW LETTUCE, HEAVY WEIGHT



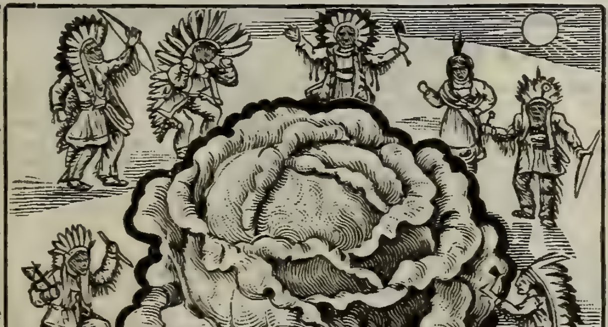
Salzer's New Lettuce Heavy Weight

Our New Heavy-Weight Lettuce is of unusual size and solidity of head. We have had it time and again 18 inches in diameter, with heads almost as solid as an early Summer Cabbage; is crisp, tender, and of excellent flavor. The outside color is distinct in shade, the inside is yellowish white. Pkg., 15c; oz., 25c; ¼ lb., 75c; lb., $2.50.

NEW ICEBERG LETTUCE.

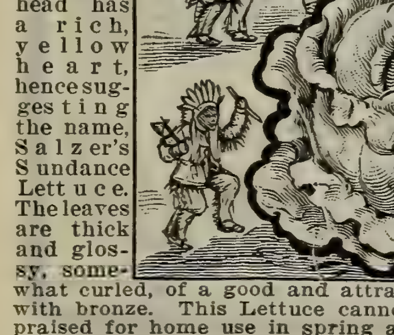
This is a quick-growing, hard-head, handsome, early new Lettuce variety, producing solid heads 8 inches in diameter, very crisp and sweet. Pkg., 10c; oz., 15c., ¼ lb., 40c; lb., $1.40.

SUNDANCE LETTUCE.



Sundance lettuce heads are of great size, and the leaves are tender and brittle. The head has a rich, yellow heart, hence suggesting the name, Salzer's Sundance Lettuce. The leaves are thick and glossy, somewhat curled, of a good and attractive green color, variegated with bronze. This Lettuce cannot be overestimated or overpraised for home use in spring and summer, but it is rather too brittle for market. This sounds like saying that it is too good for market, for brittleness or crispness is a virtue rather than a fault. It must have plenty of room in the row, on account of its size. **Pkg., 10c; oz., 20c; ¼ lb., 60c; lb., $2.00.**

GRAND RAPIDS FORCING. The Best Sort for Shipping.

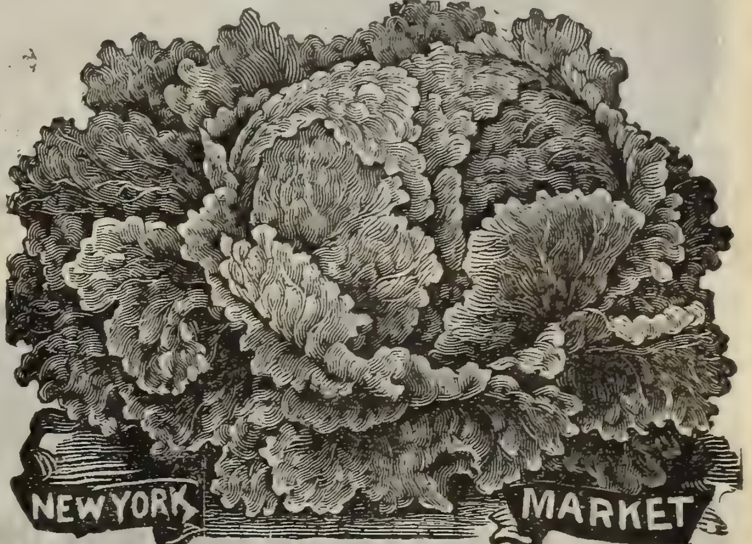


This grand new forcing variety stands more neglect in the way of watering and ventilation, will grow greater weight on the same ground **and will stand longer after matured** than the Black Seeded Simpson. It is of handsome appearance and not apt to rot, and will keep from wilting longer while exposed for sale than any other sort. Pkg., 5c; oz., 15c; ¼ lb., 35c; lb., $1.10.

Mixed Lettuce Seed, very popular. Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.25, postpaid.

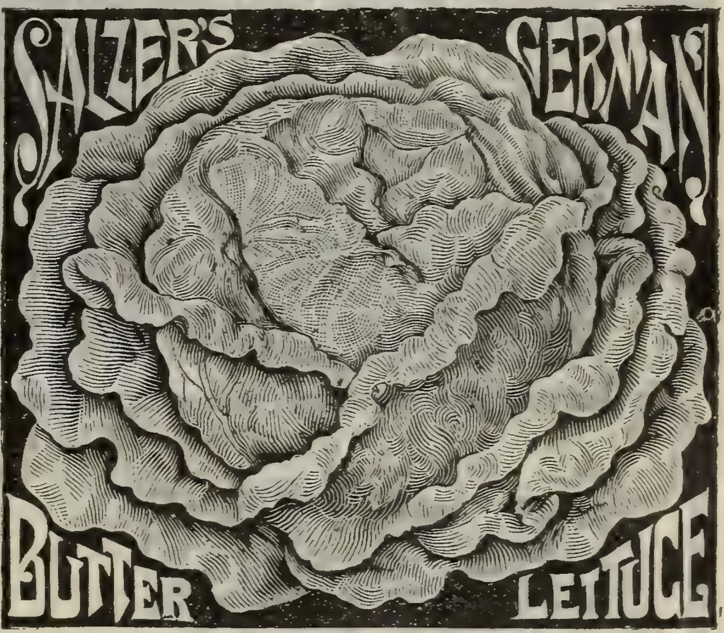
3 BIG HEAD LETTUCES FOR 20 CENTS.

1. New York Market Lettuce.



Is a new and remarkable variety, one which is also unusual for size and solidity of head, often **measuring 16 inches in diameter, weighing 5 lbs.** It bleaches itself naturally, is crisp, very rich, oily, tender, of excellent flavor and entirely free from bitterness. Pkg., 10c; 3 pkgs., 25c, oz., 20c; ¼ lb., 40c; lb., $1.25.

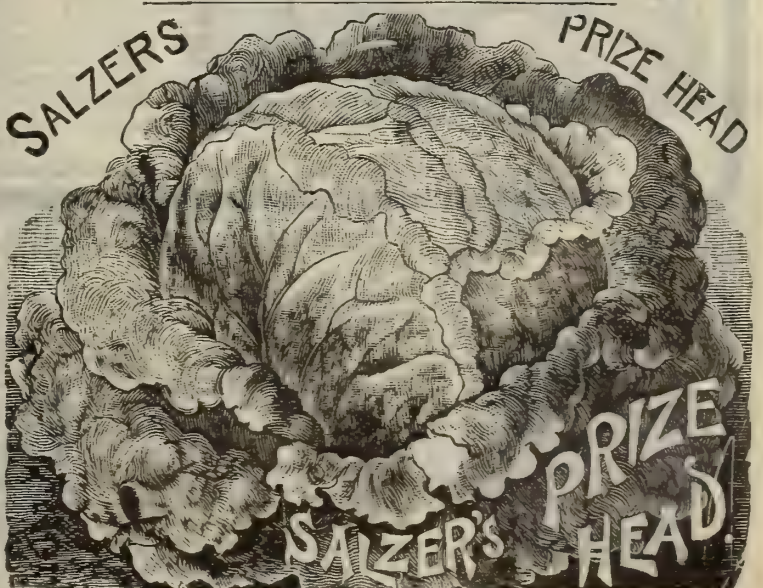
2. Salzer's German Butter.



Giant Head Lettuce Novelty—German Butter.

We obtained this strain while in Europe and it must not be compared with that offered by other dealers as German Butter. It is Lettuce that we relished and received in almost all restaurants and hotels throughout Germany, and is served there never less than twice a day during the season, which seemed to last all summer. It is indeed a fine, buttery, green Lettuce, and we are sure that everybody growing same will be delighted therewith. Pkg., 10c; oz., 20c; ¼ lb., 40c; lb., $1.25.

3. Salzer's Prize Head.



Salzer's Prize Head. A Grand Lettuce for all Purposes. Pkg., 5c; oz., 15c.

This is one of the finest Head Lettuce for all-year-round use in cultivation; is splendid for family. MUSKMELON—EARLIEST RIPE.

Earliest of All! Our attention was called to this Melon by a market gardener at La Crosse, who for the past years, has always had Muskmelons from 8 to 15 days ahead of his neighbors. These Melons were of uniform size, of fine shape and appearance, green-flesh, extremely delicious, and sold readily in our market at from $1.25 to $2.00 per dozen, the profit on an acre being something enormous, as all the Melons were usually sold before other sorts came into the market.

THIS IS THE EARLIEST GREEN-FLESHED MUSKMELON that we know of, and it will be sure to create a sensation everywhere.

It is nearly round, as may be seen by the cut, of good size, frequently weighing 9 to 11 pounds each. Of a dark green color outside, heavily netted, while inside they are of a rich green color, and, we venture to say, with thicker flesh than any other variety in cultivation, there being **scarcely room for the seeds. As to flavor, they take the lead of all, and are** far ahead of everything else at present cultivated.

It surpasses all others in delicious flavor and unusual productiveness, beauty of form and desirable shipping qualities. It has positively demonstrated itself

AS THE EARLIEST MELON IN THE WORLD.

We sold upwards of 50,000 packages of this earliest Melon, and we know we have just that many thousand pleased, delighted, happy Melon growers, and each and every one who has grown this earliest of all early Muskmelons praised it ahead of other sorts. We know that this Earliest Ripe will please everybody growing same, whether growing one or two hills or whether growing 20 or 30 or 50 acres.

If you want to make money on earliest Melons, there is nothing in the wide world that you can plant that will give quicker returns than Salzer's Earliest Ripe Muskmelon.

PRICE OF SALZER'S EARLIEST RIPE MUSKMELON.

Big pkg., 10c; oz., 20c; ¼ lb., 40c; lb., $1.25; 3 lbs. (sufficient for 1 acre), $3.00.

PAUL ROSE (PETOSKEY.)

This is a slight improvement on our Queen of All. It is a cross between the Osage Orange and Netted Gem, and combines the sweetness of the former with the fine netting of the Gem. It is a magnificent Melon for shipping; is a long keeper, and has an unusually small seed cavity; is very firm, of delicious quality; a Melon that sells readily at a fancy price. It is, indeed, one of the most delicious, richest Melons offered. You can bank on this Melon. It will surely please you!

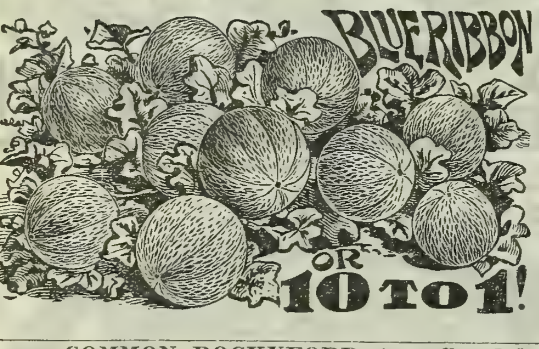
Bowman's New Gold Coin Muskmelon.

Gold Coin was offered in 1906 for the first time, and was first called to my attention by Mr. T. Greiner, the Garden Editor of The Practical Farmer. Mr. Bowman first discovered this Melon 10 years ago, in a patch of Emerald Gem, on his grounds in Niagara Co., N. Y. It is supposed to be a cross between that variety and Anne Arundel or Acme. Careful selection of seed has brought it to its present perfection. The following is Mr. Bowman's description of it: "My Melon is earlier than the Paul Rose by 10 days. It is two or three times as large, a great deal more netted, of lighter skin, wider ribbed, of deeper flesh and better quality. It also yields twice as many bushels to the acre. The specimens run from round to oblong, often both on the same vine, some of the specimens weighing 6 to 7 pounds. Paul Rose, Miller's Cream, or any other melon I ever saw, is not to be compared with it in quality or general value."

In Gold Coin I consider I have found what we have all along been looking for, a Melon equal to the Emerald Gem in quality, and a better shipper.

Price: Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., $1.75.

SALZER'S BLUE RIBBON ROCKYFORD.



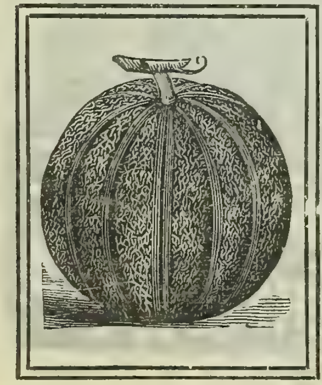
The Rockyford is without question the finest Muskmelon of the century. It is found on the bills of fare in all of the leading hotels and restaurants of America. It takes its name from Rockyford, Colo., which has become as **famous for its Rockyford Melons as Baltimore for its oysters.** The soil and the climate there are peculiarly adapted for the growing of this splendid Melon. Its immense popularity is best attested by the fact that about 1,000 carloads of them are annually shipped from the Rockyford district to all parts of the United States, to say nothing of the hundreds of carloads that are grown and shipped in other states.

ENORMOUS, YES, WONDROUSLY PRODUCTIVE.

Salzer's strain of this celebrated Melon produced ten well developed Melons to the vine. An acre easily holds 1,000 hills, planted 6 feet by 7 feet, three kernels to the hill, will easily produce 20,000 splendid Melons, at 5c each equals $1,000! You can do just as well on your land! The flesh is green and so sweet and melting as to be eaten close to the rind. The seed cavity is extremely small. The average weight of the Melon is about one to one and one-half pounds, just the size so largely in demand by hotels and restaurants. The Melon when ripe has a silver color lace-like veining.

Price, pkg., 10c; oz., 20c; ¼ lb., 35c; lb., $1.25; 4 lbs., $4.00, postpaid.

COMMON ROCKYFORD (as offered by other seedsmen). Pkg., 5c; oz., 8c; ¼ lb., 15c; lb., 50c; 5 lbs., $2.00, postpaid.

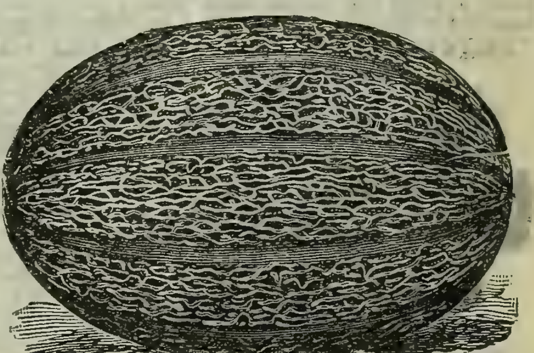


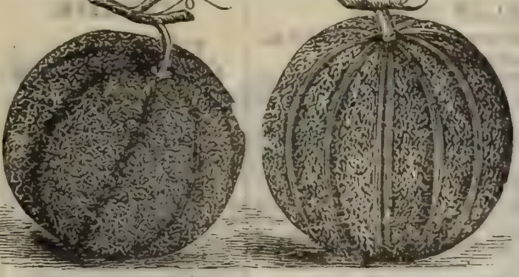
NEW FORDHOOK MUSKMELON.

(Orange flesh.) This new Melon is a cross between Emerald Gem and the Jenny Lind. The vine is a strong vigorous grower branching freely and frequently setting five to nine Melons close to the hill. The Melons grow very even and regular in size and attractive in appearance. The shape is shown in the illustration. They are roughly netted, the skin showing between the nettings being emerald green. The flesh is very thick, color an attractive deep orange and of a delicious flavor. Remarkably early and a good shipper. A good medium sized Melon for both home and market garden. **Pkg., 10c; oz., 30c; ¼ lb., 90c; lb., $2.50.**

FERRY'S NEW DEFENDER MUSKMELON.

One of the best of the yellow-fleshed sorts. Of medium size, somewhat elongated, well netted and of pleasing appearance. The flesh is edible almost to the rind. The inside color is a little darker than Osage, and is richer in flavor. The flesh is fine-grained and firm, and the melon bears transportation well. **Pkg., 5c; oz., 15c; ¼ lb., 40c; lb., $1.25.**





Burrell's Gem Muskmelon.

BURRELL'S GEM.

A wonderful Melon, originated at Rockyford. Cross between Defender, Osage and Rockyford. Reddish orange flesh, rich rare, racy! Pkg., 5c; oz., 20c; ¼ lb., 30c; lb., $1.00.

SALZER'S QUEEN OF ALL.

We pronounce Queen of All by all odds the sweetest, most delicious, luscious, richly flavored, delicate but strongly scented Muskmelon we have ever eaten. The rich, aromatic flavor, its deep, golden salmon flesh, solid but juicy, and general beauty and quality of this Queen of All Melons is simply indescribable. The rind is strong, deep green, slightly netted, while its deep, thick, rich, salmon-colored flesh is luscious, melting and delicious in the extreme. **Price of Queen of All: Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.25.**

OSAGE THE WONDER OF '86.!

3 RARE MUSKMELONS, 15c.

1. **EARLY HACKENSACK MUSK**—Delicious in flavor, unrivaled in quality, splendid for market, wonderful in yield; perfection in all. Hard to beat for eating, shipping and selling qualities. **Extremely early, large and prolific.** Pkg., 5c; oz., 10c; ¼ lb., 20c; lb., 60.

2. **ACME**—This is a splendid Melon, especially for shipping purposes; growing to large size; of excellent flavor; good keeping qualities. Splendid for all purposes. Pkg., 5c; oz., 10c; ¼ lb., 20c; lb., postpaid, 60c.

3. **THE OSAGE MELON**—In 1886 simultaneously appeared in our Western cities a Melon branded "Osage" of a peculiar delicious flavor. Its origin was unknown, its arrival shrouded in mystery, its sale rapid. Men would come and sample a Melon, buy one and return within an hour for more, when the supply was found to have mysteriously disappeared. It's the greatest selling Melon on earth; salmon fleshed. Pkg., 10c; oz., 15c; ¼ lb., 30c; lb., $1.00.

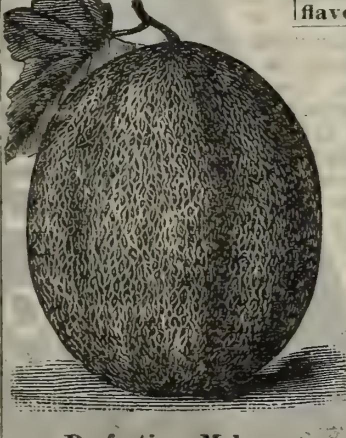
One package of each, EARLY HACKENSACK, ACME and the OSAGE MELON for only 15c.

PERFECTION MUSKMELON.

Equally desirable and profitable to the planter of a dozen hills or the planter of tens of thousands. **Pkg., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.**

NEW MUSKMELON. NECTAR OF ANGELS.

It is the most remarkable, earliest big Muskmelon of the age. Its quality is superlative, its earliness remarkable, its size enormous for its extreme earliness. It is the sort for everybody to plant. Its rich quality, great beauty and wonderful earliness will place it at once in the front ranks as the best big early Muskmelon of the age. For 1910 the demand for this earliest big Melon will be enormous. Price: Pkg., 10c; oz., 25c; ¼ lb., 50c; lb., $1.75.



Perfection Melon.

MONTREAL MARKET.

A giant among Muskmelon sorts and at the same time producing one of the most deliciously flavored, old fashioned flavor, the flavor that our fathers and mothers used to tell us about.

Montreal Market is one of those Melons to grow for exhibition purposes; great giants.

The fruit is very deeply and regularly ribbed; skin green, densely netted; flesh remarkably thick, light green melting, and of a delicious flavor. In every way one of the most desirable of all. Adam F. Subenthaler, Dodge City, Kan., says:

"Melons as big as half a bushel, just like big pumpkins—with meat thick, of the most delicious musk flavor; sweet and juicy."

Pkg., 10c; oz., 25c; ¼ lb., 60c; lb., $2.00.

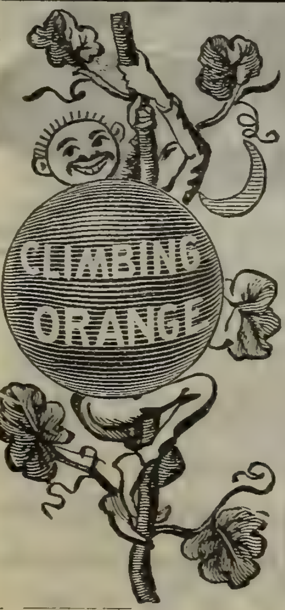
Pineapple Muskmelon.

(A Winter Muskmelon.) The quality is delicious, having a rich, spicy flavor that is not possessed by any other fruit. This and Salzer's Johnson's Christmas Watermelon cannot be excelled. Pkg., 10c; oz., 35c; ¼ lb., $1.00; lb., $3.00.



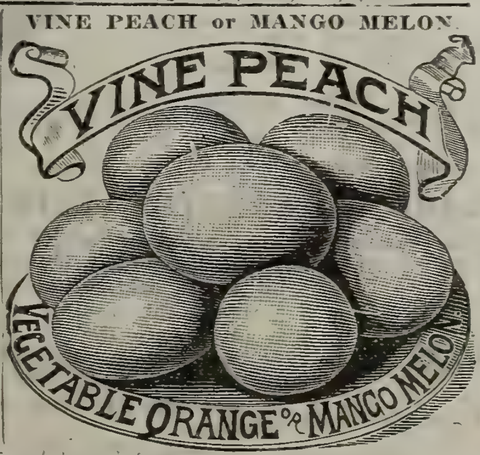
CLIMBING ORANGE.

The fruit is of the size, color and shape of an orange, of delicious scent. Pared and sliced and fried in butter they are delicious, being superior to Parsnips. For preserves and pies they are splendid and for Mangoes are considered superior to Peppers. Directions with each package. Pkg., 10c; oz., 30c; ¼ lb., $1.00.

POMEGRANATE.

Similar to Vegetable Orange; of delicious flavor. Fine for pickling. Pkg. 10c

VINE PEACH or MANGO MELON.

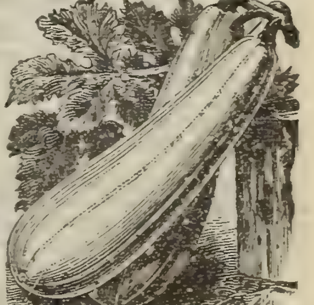


VINE PEACH
VEGETABLE ORANGE OR MANGO MELON

The Vine Peach, Vegetable Orange or Mango Melon resembles the Climbing Orange in taste and quality. Pkg., 10c; oz., 30c; ¼ lb., $1.00.

MELON—SALZER'S MEXICAN BANANA.

This is a Banana Melon of a banana shape, banana flavor, banana color and banana quality; it resembles the banana in many respects, only that it is very much larger. Everybody who is fond of bananas will hail this Melon with delight, particularly so your little boy or girl. Give them the pleasure of growing it. Pkg., 15c; oz., 20c; ¼ lb., 50c; lb., $1.50.



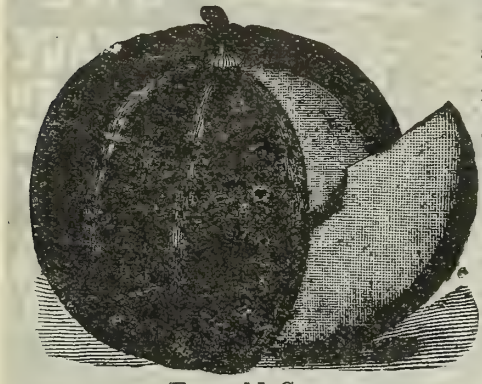
Mexican Banana Melon.

THE STRAWBERRY MUSKMELON.

Has a decided Strawberry flavor, hence the name. The originator is confident the bees carried strawberry pollen to the Melon blossoms, and thus introduced the taste of the Melon from which this new variety is descended. It is large ribbed, netted; fine in every respect.

Pkg., 15c; oz., 30c; ¼ lb., 70c; lb., $2.00, postpaid.

EMERALD GEM MUSKMELON.



Emerald Gem.

A very early and prolific variety, with a skin which, while it is ribbed, is perfectly smooth and of deep, emerald-green color. The flesh, which is thicker than in most other Melons is of a suffused salmon color, exceedingly sweet and delicious. Pkg., 10c; oz., 15c; ¼ lb., 25c; lb., 80c.

Persian Monarch.

A grand Melon; very large; of delicious quality; flesh almost salmon colored; meat juicy, thick and sweet. Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.50.

MIXED MUSKMELON SEEDS.

We are sure that we have hit upon a popular method of distributing every known variety of Muskmelon seed. We grew last year a great many varieties and have mixed same, and are offering them at a ridiculously low price, in order to give everybody an opportunity to grow dozens upon dozens of varieties.

Big Package, 10c; oz., 15c; ¼ lb., 20c; lb., 48c; 5 lbs., $2.00.

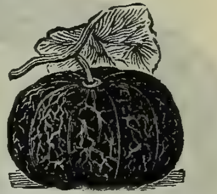
Of round shape, cream colored skin, of fair size, quite early, and a good bearer, flesh salmon color, thick, and of fine flavor; a good sort for family use. Oz., 10c; ¼ lb., 20c; lb., 70c.



No. 12. Jenny Lind.

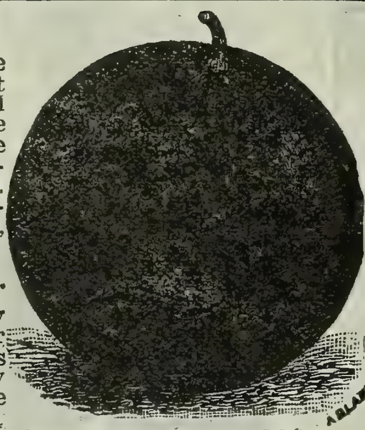
MIXED WATERMELON SEED.

Immensely popular. In it are contained every variety known to us and there are a great many. In it are early and medium and late. Long and round and short, crimson fleshed, and yellow fleshed and white fleshed. All of them of such a quality to entitle to each sort a place among the long list of watermelon seeds. It is just the mixture to plant in the city garden or by the farmer boy or girl who wants a great number of varieties of either watermelon or muskmelon.

Price of Salzer's Watermelon Mixture: Big pkg., 10c; oz., 15c; ¼ lb., 20c; lb., 48c; 5 lbs., $2.00; 100 lbs., $35.00.

HUNGARIAN HONEY.

This sweet-flavored Melon came originally from Hungary. Weight from 10 to 15 pounds each, and are almost round. Color of the skin is medium dark green, while the flesh is of a brilliant red color, and absolutely stringless. They ripen early; very productive. Pkg., 5c; oz., 10c; ¼ lb., 25c; lb., 75c.



Hungarian Honey Melon.

SALZER'S WHITE RIND GEM.

Here's a secret—don't tell any one. This is the finest Melon for family use extant! Sweet as honey, solid to the core, very juicy; flesh crimson red. A rare novelty. Pkg., 10c; oz., 20c; ¼ lb., 40c; lb., $1.50.

THE KLECKLEY SWEETS.

This high bred, delicious Melon was originated in the South, by Mr. W. A. Kleckley. It is especially celebrated for its fine flavor. It is a long, oval shaped Watermelon, with a dark green rind. The flesh is scarlet, very firm, and of luscious quality and crisp texture. It is yearly becoming more widely popular. It is a good family garden Melon, but the rind is rather too tender for distant shipping. I can recommend it for use both North and South. **Pkg., 10c; oz., 15c; ¼ lb., 30c; lb., $1.00.**

COLE'S EARLY WATERMELON.

Ripens delicious Melons in northern states. Just as valuable for middle and southern states. **Cole's Early,** next to Salzer's Earliest and Fourth of July, are the finest early Watermelons for the family garden. People, particularly in our northern states, can now enjoy, from the beginning to the close of the season, most delicious Watermelons, for above three are the earliest. **Pkg., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; by express, 5 lbs., $3.00; 10 lbs., $5.50.**

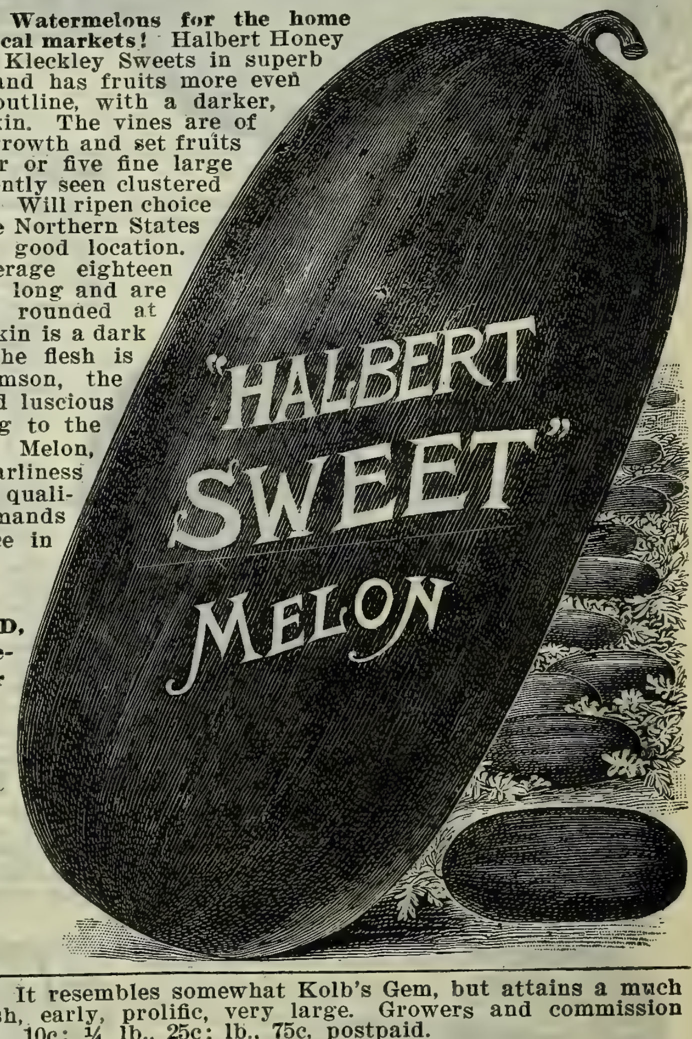
SWEETHEART WATERMELON.

Vine vigorous and productive, ripening early. Fruit large, oval, very heavy, uniformly mottled light and dark green. Flesh bright red, solid, and very sweet. Immensely popular in hotels, restaurants, and for private table. It is entirely distinct, very sweet, solid, large and early. Pkg., 5c; **oz., 10c; ¼ lb., 20c; lb., 75c, postpaid.**

HALBERT SWEET HONEY MELON.

The finest of Watermelons for the home garden and for local markets! Halbert Honey fully equals the Kleckley Sweets in superb luscious flavor, and has fruits more even and regular in outline, with a darker, richer colored skin. The vines are of strong vigorous growth and set fruits very freely,—four or five fine large Melons are frequently seen clustered closely together. Will ripen choice fruits even in the Northern States if planted in a good location. The Melons average eighteen to twenty inches long and are full or bluntly rounded at both ends. The skin is a dark glossy green. The flesh is a beautiful crimson, the rich coloring and luscious quality extending to the thin rind. This Melon, owing to its earliness and superlative qualities, always commands an advance price in all markets.

OUR OWN SEED, of the choicest selected stock. Per pkg., 10c; oz., 15c; ¼ lb., 40c; per lb., $1.25.



DUKE JONES.

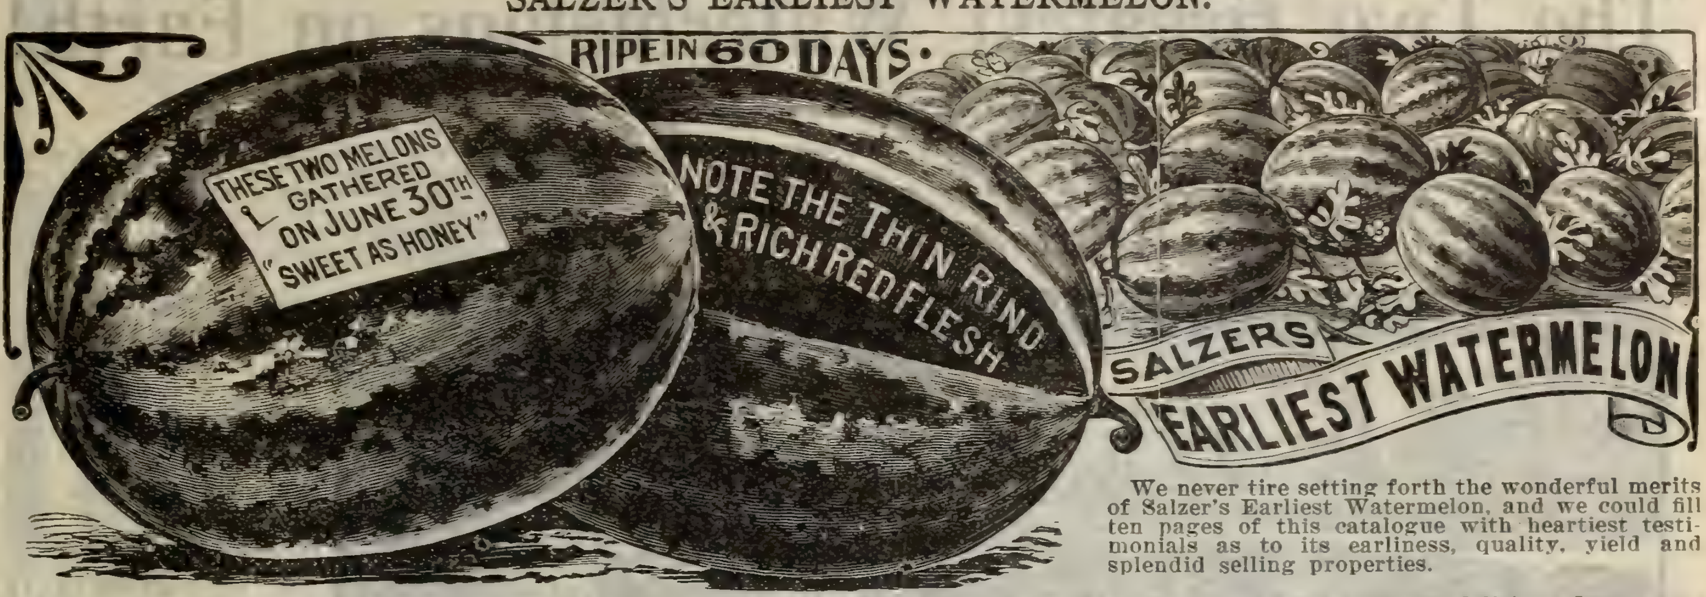
This is the latest introduction of Mr. Girardeau, the **"Melon King"** of Florida. It resembles somewhat Kolb's Gem, but attains a much larger size and is a favorite wherever grown. Dark green rind, bright red flesh, early, prolific, very large. Growers and commission men unite in pronouncing **Duke Jones a perfect, very large Melon.** Pkg., 5c; oz., 10c; ¼ lb., 25c; lb., 75c, postpaid.

STANDARD WATERMELON SEEDS.

Our Standard Watermelon Seed has no superior at any price, anywhere on earth! Do you hear!!
Price of the following sorts: Pkg., 3c; oz., 7c; ¼ lb., 15c; lb., 55c, postpaid.

Phinney's Early—Early, productive, medium size.
Gypsia—Very large, long striped.
Peerless, or Ice Cream—Very sweet and delicious.
Mountain Sweet—The old standard, one of the best.
Black Spanish—An old, well-known variety.
Citron—For preserves.
Kentucky Wonder—This is a Melon of quality. Early and sure to please.
The Dixie—A new Melon, very large, early.
Kolb's Gem—A splendid shipping Melon; fine quality.
Iron Clad—A great shipper.
Pride of Georgia—This stands among Watermelons as did Saul among the children of Israel—head and shoulders above them.
Egyptian Red—Flesh rich, red and sweet.
Scaly Bark—A splendid shipping Melon. Possesses an unusually firm and tough rind.
Seminole—Oblong shape, very productive; extra large; extra quality.
Florida's Favorite—New; measuring two feet in length and growing very large. Rind thin; delicious, sweet, very fine.
Black Diamond—A grand Melon. Pkg., 5c; oz., 10c; lb., 75c.

SALZER'S EARLIEST WATERMELON.



RIPE IN 60 DAYS.
THESE TWO MELONS GATHERED ON JUNE 30TH "SWEET AS HONEY"
NOTE THE THIN RIND & RICH RED FLESH
SALZERS EARLIEST WATERMELON

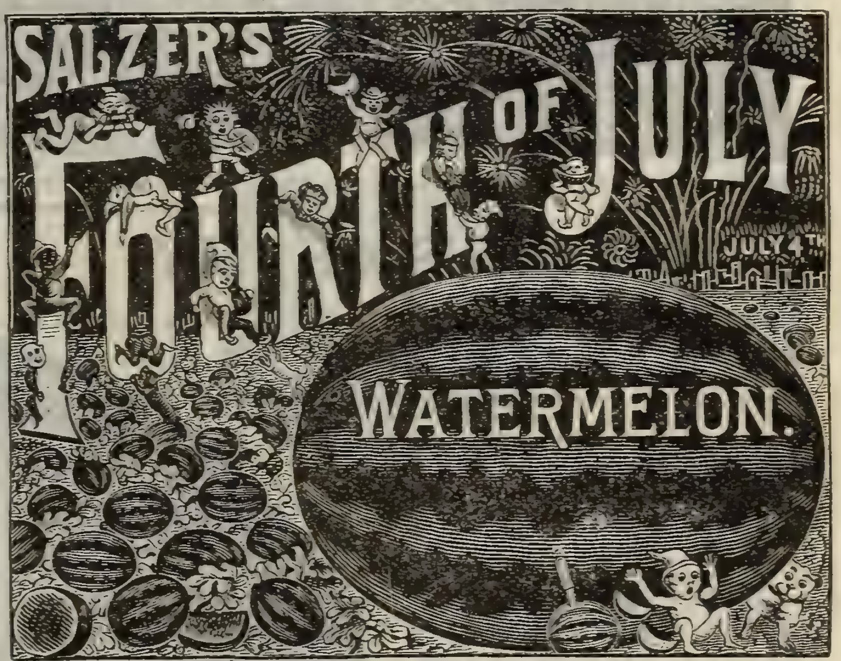
We never tire setting forth the wonderful merits of Salzer's Earliest Watermelon, and we could fill ten pages of this catalogue with heartiest testimonials as to its earliness, quality, yield and splendid selling properties.

Salzer's Earliest is Absolutely the Earliest Watermelon known. Sure to be first in the market. It is of the most delicious flavor, very juicy and sweet. It is pronounced by all who use it "**absolutely the earliest**," and very salable in the market. It is fit for market ordinarily in 60 days, though customers report some ripe in half the time. Everybody should try this superb Melon. Splendid for family use, as a few vines will give you many early Melons. This is the Melon to plant when you are not sure of ripening. We always plant largely of this on that account. They have never failed us. Earliest on earth!

Now, then, we have nothing to take back from the above, only to add that Salzer's Earliest still holds the proud, enviable, solitary distinction of being absolutely the earliest Watermelon in the world, and its bigger brother, our matchless Fourth of July, is crowding it to the quick, coming in for second prize. We have increased the size of Salzer's Earliest fully one-half, so that it now bears just the size wanted for market—weighing 14 to 20 lbs. Nothing on the wide, wide, wide earth quite so early as Salzer's Earliest, the peer of all earliest Melons!

Price of Salzer's Earliest Watermelon: Big pkg., 10c; oz., 15c; ¼ lb., 35c; lb., $1.00; 3 lbs., $2.75; 5 lbs., $4.00.

SALZER'S NEW FOURTH OF JULY WATERMELON.



"There has been a great deal of speculation among seedsmen and especially among market gardeners, as to whether a Watermelon could be produced that would ripen earlier and at the same time be larger than Salzer's Earliest, as Salzer's Earliest has had the enviable distinction for the past years of being the earliest Watermelon in cultivation. Now, we think that in our new Fourth of July Melon we have solved this problem, and we are giving lovers of Watermelons a Melon as large again, of the most exquisite flavor and taste imaginable, which ripens nearly as quick as our Earliest. This is a Melon that is bound to be popular at once.

First—On account of its extreme earliness, ripening with Salzer's Earliest.

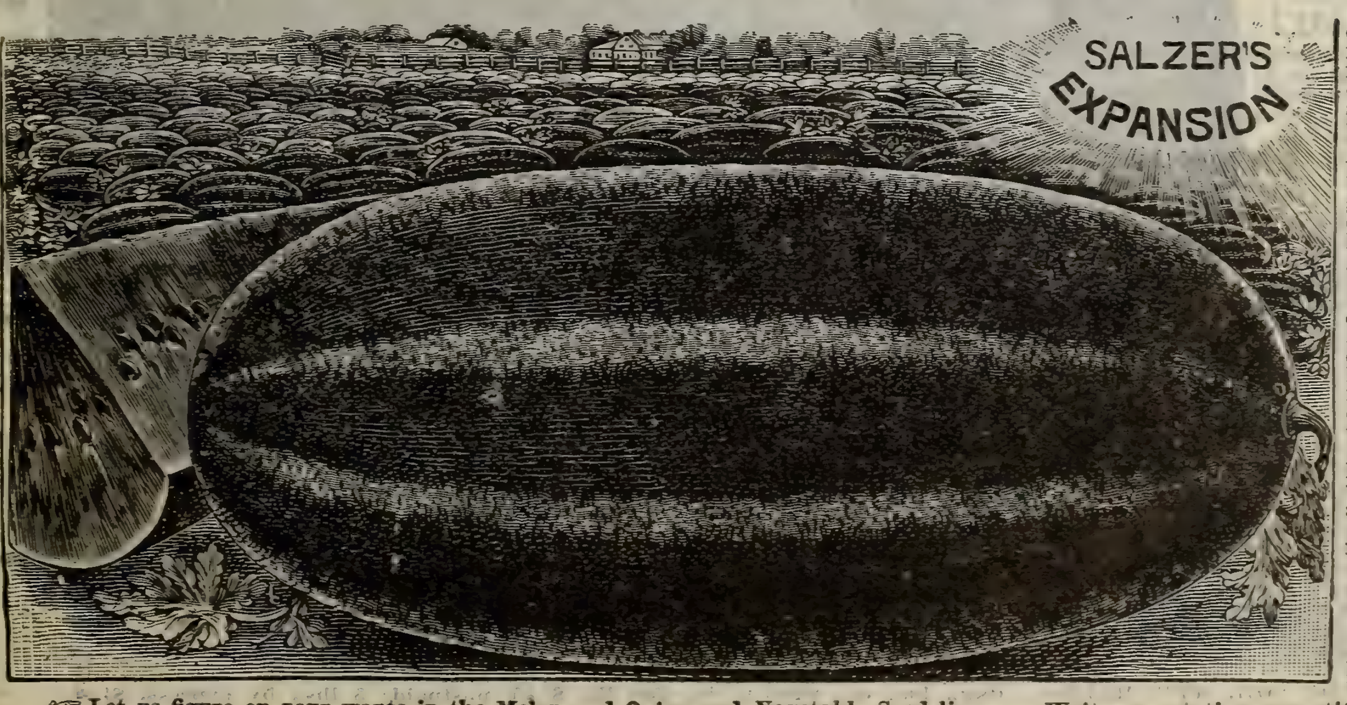
Second—On account of its magnificent quality. There is no Melon, not even the Wisconsin Hybrid, that is superior to it in quality.

Third—On account of its size. It is just the size that will sell readily and quickly at fancy prices during the early season of the Watermelon market."

When we sent forth this Melon under above description in 1895, we did so believing that we had the very best thing in early large Watermelons extant, and the many excellent reports which came in on same during the past seasons fully verify our belief. Just think of large, fine, luscious Melons, weighing all the way from 20 to 30 lbs., being raised in 44, 50, 53, 55 56, 58, etc., days. That shows that this is one of the grandest and positively the best early large Melons grown. We have paid the past three years $300.00 in gold prizes on these two Melons, Salzer's Earliest always being a couple of days earlier, but Fourth of July coming in as big, big second, with large, luscious Melons. We are sure where once planted, no gardener or planter will try to get along without Salzer's Fourth of July and Salzer's Earliest Watermelons!

Price of Fourth of July Melon: Big pkg., 10c; oz., 15c; ¼ lb., 35c; lb., $1.00; 3 lbs., $2.75; 5 lbs. (for 1 acre), $4.00.

SALZER'S EXPANSION WATERMELON.



We are living in the age of expansion. Our country is rapidly moving to the front as the greatest power on earth; but there are two sides to this question, while there is only one side to Salzer's Expansion Melon, that is, when it comes to debate its quality. We are not going to say much about it, only this, that there is no Melon on earth that can begin to equal it in quality, in richness of flavor, in lusciousness, in deep, juicy, rich core, in fine outward appearance, large giant size and extreme earliness for so large a Melon. We say there is no Melon on earth that can approach it in quality that really goes to make a superb Melon. We really have never seen its equal and we know a thing or two about Melons. Salzer's Expansion will grow Melons from 20 to 90 lbs., and every one of them is sweet and rich and luscious and tender as same can be.

Price: Big pkg., 10; oz., 20c; ¼ lb., 50c; ½ lb., 85c; lb., $1.50, postpaid; 5 lbs., by express $7.00.

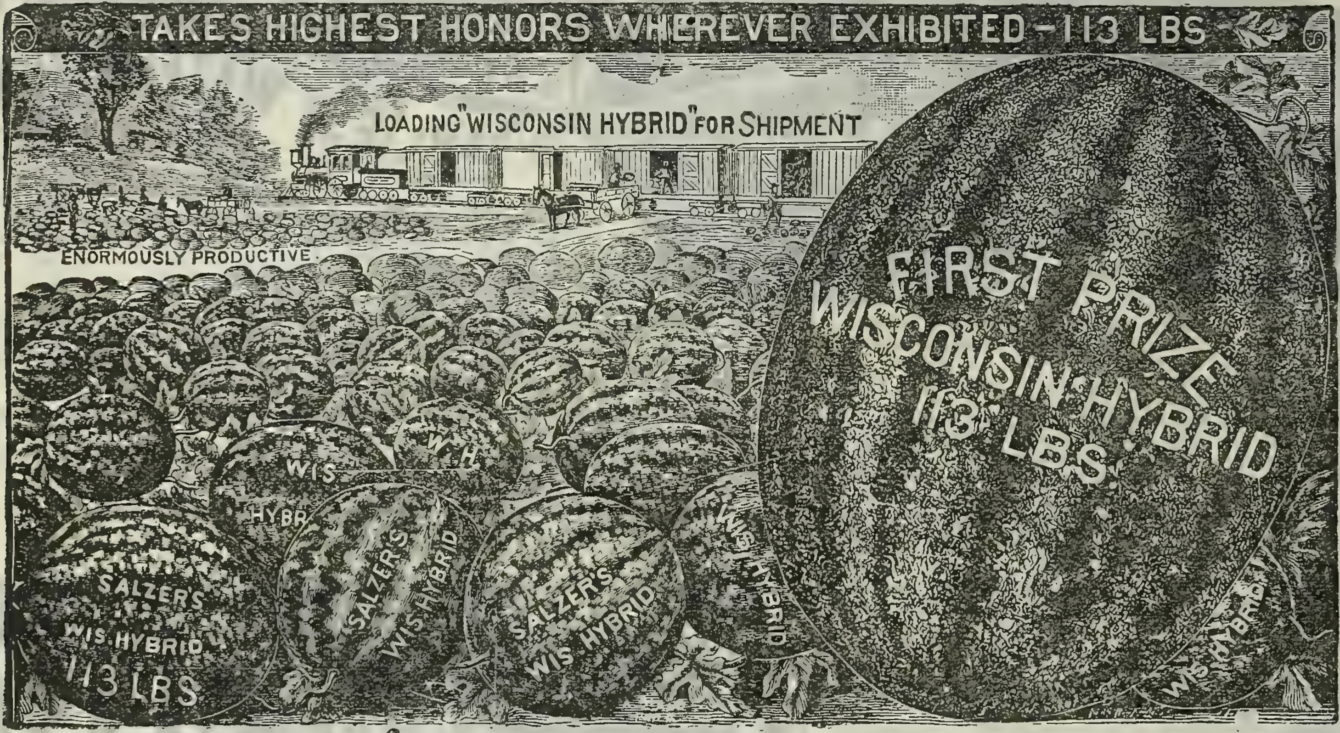
The Two Greatest Watermelons on Earth!

1. WISCONSIN HYBRID MELON.

It is safe to say that 3,000,000 people tasted this grandest of all Watermelons during the past season, for we sold enough seed of same to the great Melon growers for the largest markets of America to raise at least 2,000,000 Melons. In addition to this, over 70,000 of our regular customers are ready to attest that this is perfection in Watermelons. Our Wisconsin Hybrid is without a peer in the Watermelon field. It is the finest Melon we have ever grown—delicious flavor, splendid keeper, **PEERLESS.** It grows uniform in size, very heavy and solid, and is without doubt the best shipping Melon known. It brings 40 per cent. higher price in our market than any other sort sold here. We have sampled and grown **OVER 100 SORTS** of Watermelons, but Wisconsin Hybrid stands immeasurably ahead of them in all qualities that go to make up a **GOOD MELON.**



WE WANT TO TELL YOU A SECRET.

Lend us your ears, that is, the ear of the careful, shrewd, wideawake, sharp, money-making Melon growers. The secret is this, that the Wisconsin Hybrid Melon, for quality, for richness of flavor, for fine appearance, for uniform big size, leads all other Melons in the market.

H. H. JACOBS, a La Crosse county gardener, brought one into our seed house in the early part of August weighing over 40 pounds, and it was posititvely the most luscious Melon we have ever eaten, and he said he had 5 acres more of just such giants. Just figure the profit Mr. Jacobs made at 20c apiece. An acre will produce at least 3,000 of such giants. Now, then, be in the swim. While Salzer's Earliest and Fourth of July will pay you big money for earliest, Wisconsin Hybrid will pay you big money for a general crop.

PRICE OF SALZER'S WISCONSIN HYBRID: Pkg., 10c; 3 pkgs., 25c; oz., 20c; ¼ lb., 35c; lb., $1.00; by express, lb., 90c; 5 lbs., $4.00.

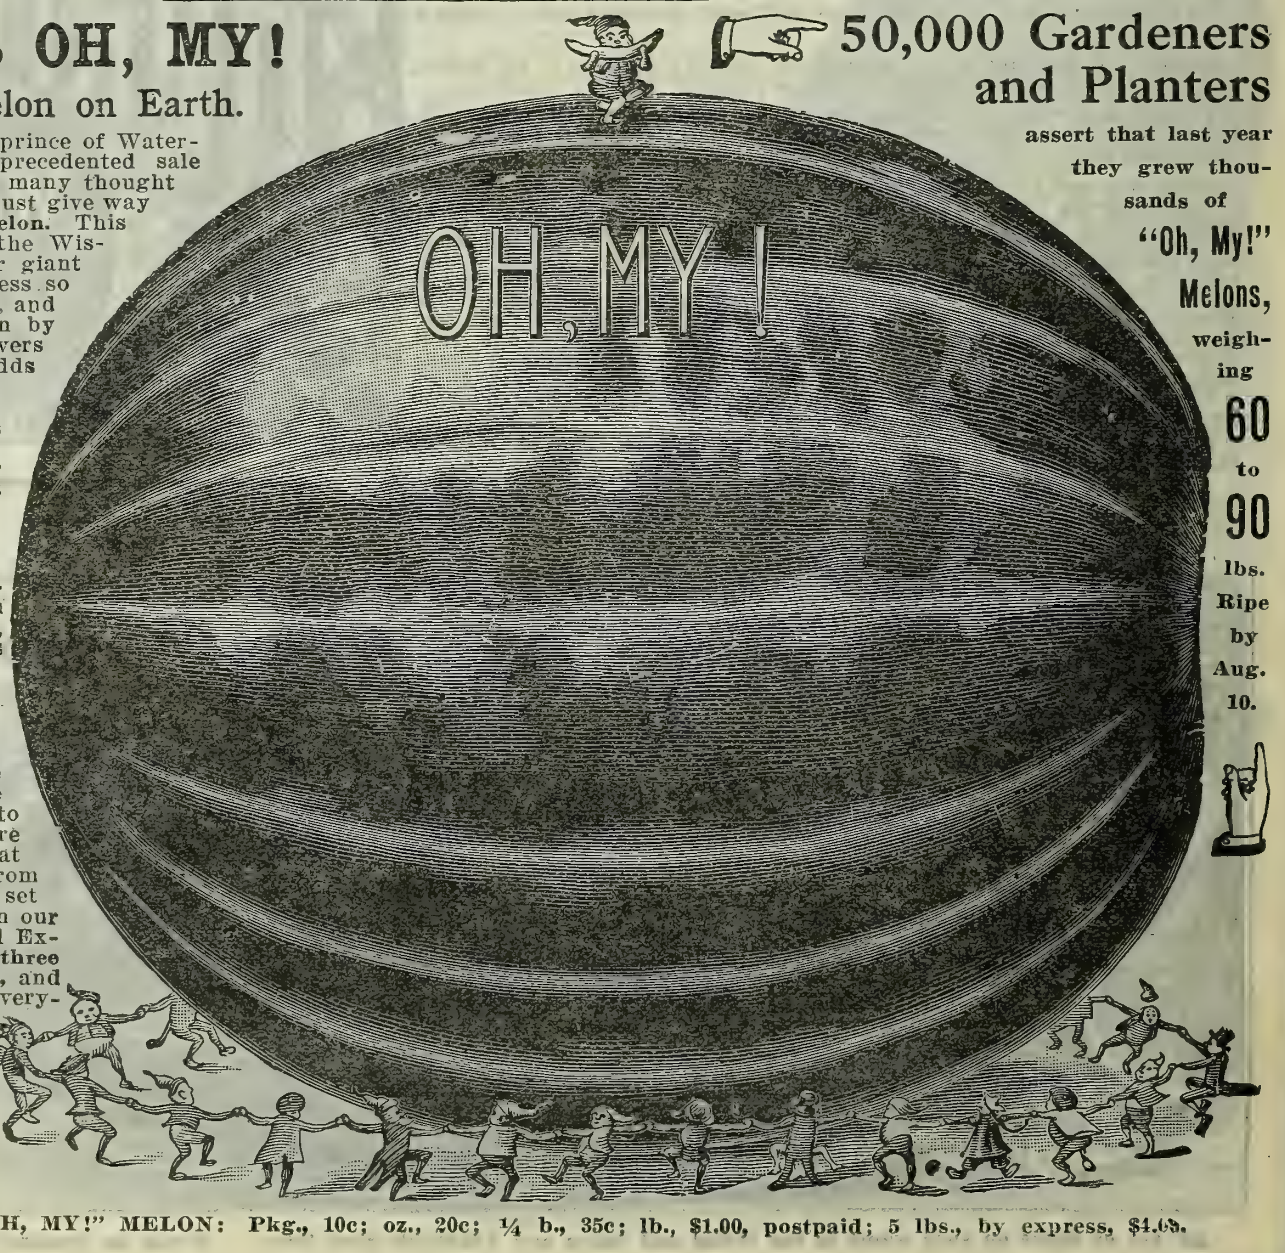
2. SALZER'S OH, MY!

The Greatest Watermelon on Earth.

Salzer's Wisconsin Hybrid, that prince of Watermelons, which has had an unprecedented sale the past years, and whose equal many thought never could again be produced, must give way to our **"Salzer's "Oh, My!" Melon.** This new Melon is a cross between the Wisconsin Hybrid and several other giant sorts, and attains the deliciousness so peculiar to the Wisconsin Hybrid, and which has been commented upon by thousand and thousands of growers of the Wisconsin Hybrid and adds to same stronger shipping qualities and larger size. The color of the rind is one peculiar of its own—a very dark brownish green, but its great point of merit for the market garden trade **is its** uniform extreme size

On Earth To-Day!

We believe it to be the uniformly largest early Watermelon in existence to-day. In our latitude, by September 1st, Melons of this variety have attained the enormous weight of 50 to 95 lbs., and of a quality so rich that it seems to combine every good quality desirable in a Watermelon. It is extremely prolific; indeed, there is no other Melon, excepting the Wisconsin Hybrid, that begins to approach it in prolificness. An acre will bear several thousand great Melons, weighing all the way from 30 to 90 lbs., and each fit to be set before a king. We believe that in our "Oh, My!" Wisconsin Hybrid and Expansion Melon we have the **three greatest Watermelons of the age,** and we heartily recommend same to everybody wishing the best that there is in Watermelons for market or shipping trade. These three sorts are simply immense. They are unexcellable, of giant size, of richest quality, while the vines will remain green longer than any other variety known to us.



☞ 50,000 Gardeners and Planters

assert that last year they grew thousands of "Oh, My!" Melons, weighing 60 to 90 lbs. Ripe by Aug. 10.

PRICES OF "OH, MY!" MELON: Pkg., 10c; oz., 20c; ¼ b., 35c; lb., $1.00, postpaid; 5 lbs., by express, $4.00.

ONION SEED.

The Onion is the most important of all crops. If Onions bear well, the profits of the farmer and gardener, as a rule, are assured. We insure your profits, Sir! Our Onion seed grows. It does not lie in the ground until judgment day, as some of our **cheap competitors'** Onion seed seems to. Ours acts differently. You sow, it sprouts. You cultivate, it grows. You harvest, and it makes you glad with a rousing, prodigal, unheard-of-before, big, big yield. That's the way Salzer's Onion seeds act! Page 62 shows our new four great big cropping specialties.

Onion Seed is very, very scarce this year—crop being about 40 per cent of what is usually grown. We caution the public to get the best—**Salzer's Northern Grown Onion Seed** is the very best on earth. You will notice our prices are right; **if not to your way of thinking, write us before you buy and we will try and get together.**

Now and then a customer writes us that he can get Onion seed cheaper in Chicago, Minneapolis, St. Paul, Milwaukee, Rockford, Philadelphia and other places, often from seedsmen who are not growers, and who buy their seeds in Europe or California, and wants to know whether we can meet these prices. For these we offer the following Bargain Onion Seeds at a very low price, because we are the largest Onion seed growers. But, of course, they are not equal to our Northern-grown Pedigree Stock.

BARGAIN ONION SEED.

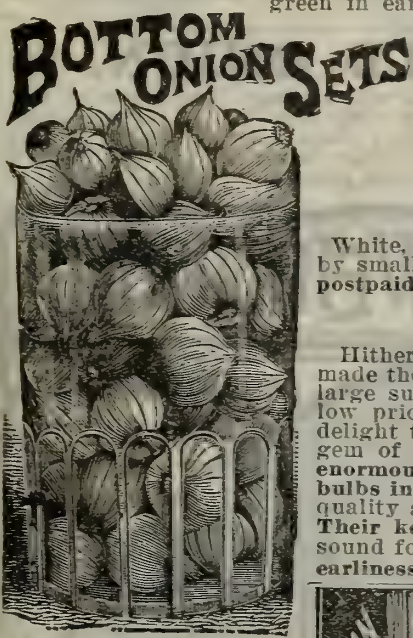
ONION SETS.



The cheapest way to raise onions is from seed, but thousands of our customers plant only for green in early spring. To these we say buy a few sets. A quart or two is sufficient for a small family. Bottom sets are the best. Gardeners make from $150 to $400 per acre from Bunch Onions, raised from bottom sets. When one variety is exhausted, unless otherwise ordered, we ship another. Thus, if yellow were all gone, we would fill an order with white or red, etc.

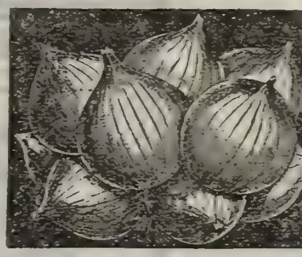
WHITE MULTIPLIER BOTTOM SETS.



Hitherto the price of White Multiplier Onion Sets has almost made the purchase of same prohibitory. We have grown a very large supply this year and are offering them at an extremely low price. We really know of no onion that will please and delight the housewife more than the White Multiplier. It is a gem of the first water. They are a pure, silver white color, **enormously productive,** frequently producing as many as **20 bulbs in a single cluster** from a single bulb planted; of excellent quality and size for bunching green. Sets always rather large. **Their keeping qualities are remarkable,** having kept perfectly sound for a year; but—their most important quality is **extreme earliness,** being **ready for market from 1 to 3 weeks ahead of other Onion Sets. Price, by mail, pt., 20c; qt., 35c; by freight or express, qt., 20c; ½ pk., 60c; pk., $1.00; bu., $3.75.**

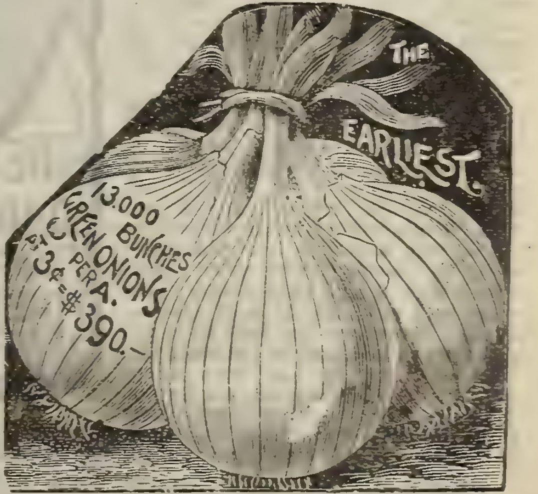
NEW ONION—"EARLIEST GREEN EATING."

There has been for years an inquiry for an Onion seed that will produce an extremely early Onion to be sold in the green state as Onion sets, producing green Onions for bunching. Now in our Earliest Green Eating Onion, we have an Onion that fills the bill completely. There is no Onion seed known that will produce an Onion, say 1 inch in diameter or more, just the size you want for green bunching, as quickly as this variety. And the great beauty about it is that, if you do not wish it for green Onions it will keep on growing until they reach the size of an ordinary Onion, when they will sell quickly in any market.

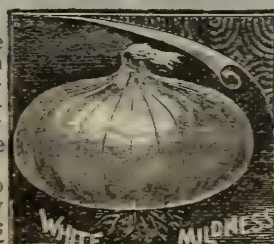


It is Early.—A Heavy Producer.

Urge every market-gardener, every farmer and every planter of Onions to thoroughly test this magnificent sort and we will warrant same to please and to be a great money-maker. We know you will like it. Its extreme earliness, its beautiful shape, its fine grain, its great keeping qualities all commend it, and then, in addition to this, we have placed the price so low, in order to introduce it everywhere. It is of medium size and good quality, very early, rather flattened in shape, and wonderfully hard and solid. It begins to form a bulb at an early period of its growth, when only a few inches high, and quickly reaches maturity.

PRICE OF SALZER'S EARLIEST GREEN EATING ONION SEED: Pkg., 10c; oz., 15c; ¼ lb., 40c; ½ lb., 70c; 1 lb., $1.35, postpaid. By express: Pkg., 10c; oz., 15c; ¼ lb., 35c; ½ lb., 65c; 1 lb., $1.25.

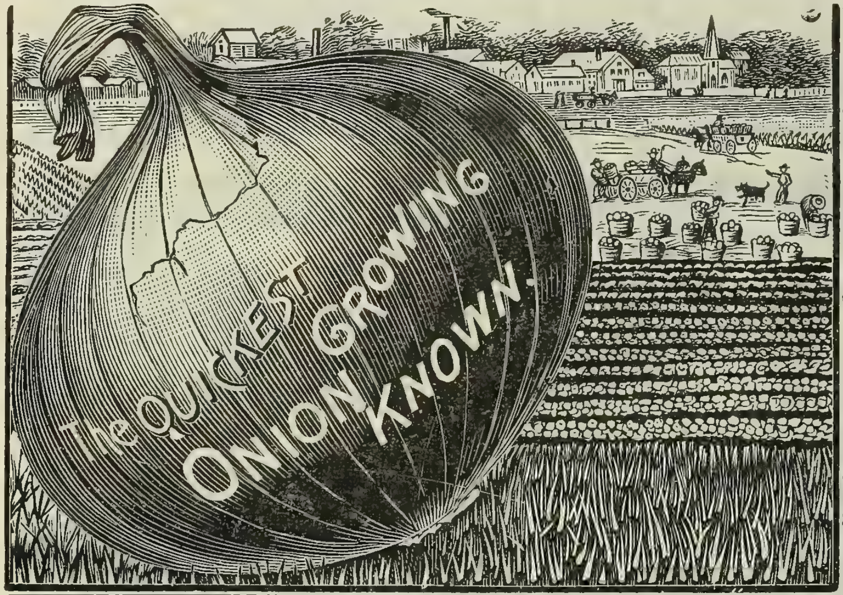
WHITE MILDNESS.



It's an Onion for the epicure; its fine, rich quality commends itself to every one desiring a rare, deliciously flavored Onion. Its fine shape, snowy color and delightful flavor stamp it as one of the very best. **Pkg., 10c; oz., 25c; ¼ lb., 50c; lb., $1.90; 5 lbs., $9.00, postpaid.**

SALZER'S KING OF THE EARLIEST ONION.

We never tire in chanting the praises of this Onion. We believe we do a kindness to every patron and everybody whom we induce to purchase and plant this Onion, and put them on the track of making money. It was but yesterday that a good, bright gardener walked into our office and sincerely thanked us for advising and inducing him to sow **Salzer's King of the Earliest Onion** last spring, as also for the instruction and advice we gave him. After repeated and impartial trials this Onion has proved superior to all in **earliness and excellent qualities**, which stamps it absolutely the very earliest fine grade, fine quality, large red Onion grown. In our latitude it has frequently been ripe to sell by July 1st, when Onions invariably bring from $1.00 to $2.00 per bushel, and that pays. The Onion matures quickly from seed, is of fine shape, beautiful rich red color, varying from globe to round flat, is of mild flavor, and ripens at a time when Onions command a high price. It is the most profitable Onion in the world to grow. **If any Seedsman or Merchant or anybody offers you an Onion** just as early as **Salzer's King of the Earliest**, you can put him down as trifling with the truth. Now, this is strong language indeed, but it is the truth. There is no Onion offered in the world as early, and no seedsman has this type and cannot get it from us for love or money, because we must keep the best in the world for our own customers.



The QUICKEST GROWING ONION KNOWN.

$400 FROM A SMALL PATCH.

I bought of you last April, 2 lbs. Salzer's King of the Earliest Onion Seed. I put it in good clean ground and "my me," when I looked at my day book, I found I sold over $400.00 worth fine onions and have some left.—Russel Barber.

Mrs. Edward C. Dodd of Webb Co., Texas, is reported to have made $54,000.00 clear profit on 135 acres, and this is to be excelled. Onions **always pay!**

Edward Green, San Marcos, in the Onion Belt. Texas, reaped $75,000 on but 200 acres of Onions!

Price of King of the Earliest: Pkg., 10c; oz., 20c; ¼ lb., 45c; lb., $1.60; 5 lbs., $7.50, postpaid. By express, Pkg., 10c; oz., 20c; ¼ lb., 40c; lb., $1.50; 5 lbs., $7.00.

SALZER'S GREAT RED WETHERSFIELD ONION.

Now, then, we can do some talking on this Onion. We are not afraid to. It's one of those things that will do more than the most enthusiastic can claim for it. You see this Onion is our great specialty. It is the grandest red Onion for general crop grown. There is no sort equal to it in yield, in keeping qualities, in fine flavor and for market. From every section of America come glowing letters of the success our customers had with this splendid Onion, sweeping every state and county fair before them. One raised 16 bushels from 1 ounce; another 200 bushels from 1 pound; a third, over 1,000 bushels per acre. Salzer's seeds produce these glorious yields that gladden **the heart, and fill the purse.**

THE ONION THAT FILLS THE FARMER'S PURSE.
THE GREATEST CROPPING RED ONION IN AMERICA

NOW, THEN! This is the Onion for the farmer, the citizen and the gardener to grow, to put in their cellars for the winter. Why? Because Salzer's Improved Red Wethersfield is one of the easiest to grow, is certainly one of the best keeping Onions, and is always of excellent quality.

1,213 BUSHELS SALZER'S RED WETHERSFIELD ONIONS PER ACRE.

☞ With each one ounce order or more is sent "How I grew 1,213 bushels per acre," worth $1,000 to each and every Onion grower in America. ☜

It is without question that Salzer's Red Wethersfield Onion strain is the greatest cropping red Onion in America today, and we urge everybody to give it a test. The price is so low, and so much money can be made, that we look forward to the largest trade in this variety of Onion that we have ever had. The Onion is sure to please, sure to grow, sure to return a big yield, sure to sell quickly in any market, and sure to keep long. When a seedsman tells you his strain is "just as good," our experience shows that it can be doubted just 50 per cent. Our Wisconson grown strain beats the world! It would be cheap at three times the price.

IT'S THE GREAT MONEY-MAKING ONION.

No Onion that we know will make you more money and do it easier than Salzer's Great Wethersfield. It's the great money-maker because it is so heavy a yielder, and all Onions are so fine that they sell at good prices in all markets.

Thos. H. McCulloch, of Mason City, Iowa, under date of March 27th, writes: "Last season I sowed an acre of Onions with seed I purchased of you—2 lbs. Yellow Globe Danvers and 2 lbs. Red Wethersfield—and although the spring was late, wet and cold, still the seed germinated well and I had a fine stand and good crop, and sold the crop in Chicago in November for $420.00 net."

INTENSIVE ONION GROWING.

Right here in our own state one of our Onion Growers had a ¼-acre lot highly cultivated, rich and free from weeds—He used our new method—planting **Salzer's Great Red Wethersfield**, averaging 5 plants to a square foot—54,000 to the ¼ acre and harvested by weight, 18,831 pounds=313 bushels from ¼ acre—or at the rate of 1,242 bushels to the acre.

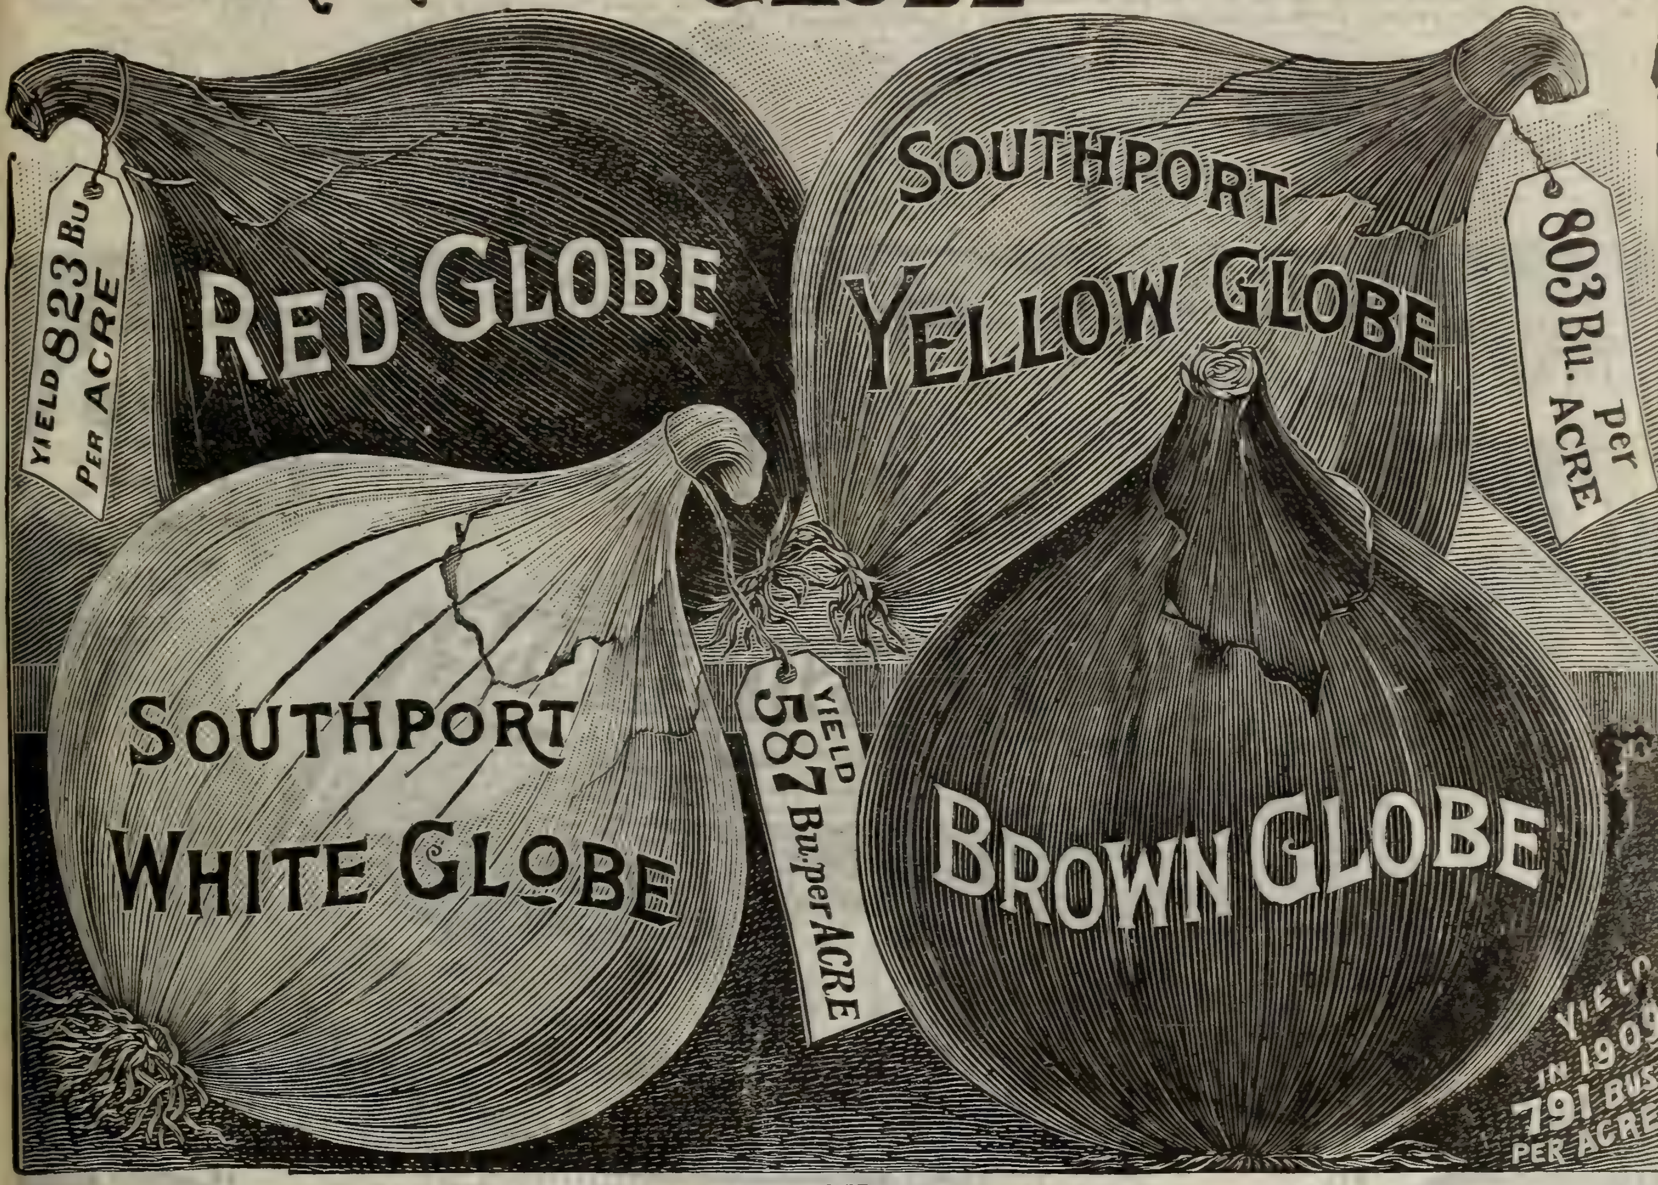
PRICE OF SALZER'S GREAT RED WETHERSFIELD ONION:— Price by mail: Pkg., 10c; oz., 20c; ¼ lb., 45c; ½ lb., 85c; lb., $1.60; 5 lbs., $7.50. By express: Pkg., 10c; oz., 20c; ¼ lb., 40c; ½ lb., 80c; lb., $1.50; 5 lbs., $7.00.

THE FOUR GREAT GLOBE ONIONS.

Within the past years there has been a great inquiry for Globe Onions. They seem to sell better and keep better and bring a higher price than any other sort. We have now grown the four choicest varieties known to the seed trade, and we are sure that they will be great money-makers to everybody planting same. By our New Method of Onion Culture the average yield of these sorts was 751 bushels per acre. Just imagine yourself, Mr. Farmer or Market Gardener, being the possessor of ten such acres this fall, what a magnificent fortune that would make. 7,500 bushels would mean at 60c, $4,500! We have always urged to plant plenty of Onions. It always pays. When we were market gardeners, no matter what the price of Onions was the year before, we would never dream of planting less than five to ten acres.

☞Our Onion prices, we aim to have them low; if you think otherwise, write us and we will get together.

THE FOUR GREATEST GLOBE ONIONS ON EARTH!



1. SALZER'S RED GLOBE ONION (SOUTHPORT STRAIN.)

We are proud of our strain of blood red Globe Onion. There is none on earth better, highly bred, critically selected—immeasurably superior in shape, size, solidity and yield to **ordinary Connecticut and California stocks.** It is a perfect globe shape, with thin neck and clear skin. We have increased our sales of this Red Globe Onion the past three years over **500 per cent**, which shows that a really good Onion advertises itself. Now, if you want a Red Globe Onion, we cordially recommend Salzer's Red Globe (Southport Strain), knowing that there is no better one in the wide, wide world, no richer, no better keeper, nothing that will sell quicker and at an advanced price than this. The yield last year, using Salzer's New Onion Culture, was 823 bushels per acre. You can increase this for 1910 if you will try.

Price by mail: Pkg., 10c; oz., 20c; ¼ lb., 45c; lb., $1.60; 5 lbs., $7.50, postpaid. By express: ¼ lb., 40c; lb., $1.50; 5 lbs., $7.00.

2. SOUTHPORT YELLOW GLOBE.

Our Globe Onions are great beauties, and cannot be beaten anywhere on earth. We are positive in this statement, and we know whereof we speak, for we have tried every seedsman's Globe Onion, and not one of them can approach our peerless varieties. Now, in our Southport Yellow Globe we have a strain of yellow Onions that takes the cake, or, in the phrase of a Western Onion grower, "Beats the Band." It is a magnificent Onion, large, noble-shaped, almost round, with flesh white and mild and juicy, while the outward appearance is extremely handsome and pleasing to the eye. It is a tremendous cropper. By using Salzer's New Method, which is described on each package, 803 bushels per acre were raised last year, and we know that you, Mr. Gardener, Mr. Trucker or Mr. Farmer, can beat that. Southport Yellow Globe will please you; it is bound to do this on account of its beauty.

Price by mail: Pkg., 10c; oz., 20c; ¼ lb., 45c; lb., $1.50; 5 lbs., $7.25. By express: ¼ lb., 40c; lb., $1.40; 5 lbs., $6.75.

3. SOUTHPORT WHITE GLOBE.

Henderson last year asked $3.25 a pound for this Onion—not one whit better, not one particle finer, indeed, we think our strain more highly bred and critically selected as to size, color, solidity, beauty, form, quality and yield! Here is a beauty of the first water, a regular diamond, clear white, with a pleasing appearance, of a delightful globular shape, and of a quality so mild, yet rich, with flesh firm and fine grained and pleasing to the taste. It is very large in size, and very fine appearance, and yielded last year 587 bushels per acre, which is something remarkable for a white Onion, because, as a rule, they are not as heavy yielders as **their colored brethren.** Now, we can heartily endorse the Southport White Globe. Our strain is grown with such great care and is so superlative in quality that no one will miss it if they plant heavily therefrom. The white Onion is a very quick seller, a good keeper and good yielder.

Price by mail: Pkg., 10c; oz., 25c; ¼ lb., 60c; lb., $2.00; 5 lbs., $9.50. By express: Pkg., 10c; oz. 25c; ¼ lb., 55c; lb., $1.90; 5 lbs., $9.00.

4. SALZER'S GREAT BROWN GLOBE.

Here is an Onion you have been looking for, Mr. Trucker and Mr. Gardener. It is a large, brown, globular-shaped Onion, a selection of the Australian Brown, but it is larger in size, fine in shape, better in color, a longer keeper and a far bigger yielder. Its fair size, wonderfully hard and solid flesh, most attractive and beautiful form and appearance make it an extremely desirable variety to plant for early market. It is extremely early in ripening and never makes any stiff necks or scullions. Every seed seems to produce a good-sized, hard, solid Onion, and the bulbs begin to form very quickly, on account of its firmness it will keep in good condition longer than any Onion known. The color of the skin is a clear amber brown.

791 BUSHELS PER ACRE.

It's as easy "as falling off a log" as the saying goes, to grow 791 bushels **Salzer's Brown Globe** per acre by following our new method of Onion growing.

It is an Onion of unusual merit. The flesh is firm, finely grained, very rich, yet mild, and will please the most fastidious. Last year, by using our New Method of Onion Culture, it yielded 791 bushels. You can beat this for 1910 and we urge you to give this Onion a trial. You will be delighted therewith.

Price: Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.80, postpaid. By express: ¼ lb., 45c; 1 lb., $1.70; 5 lbs., $8.00.

☞1 Package each above 4 Great Globe Onions, 25 cents. 1 ounce of each, 60 cents.☜

SALZER'S GIANT SILVER KING ONION.

The Onion marvel, the uncrowned queen of the Onion field! Each succeeding year the popularity of this Onion increases, gardeners, farmers and truckers grow more enthusiastic in its praise, and well they may, for this great Onion deserves every word of praise that can be spoken. Although we offered Silver King for the first time in 1884, we do not believe any other variety of vegetable, excepting possibly our Giant Flat Dutch and Lightning Cabbage, has since been more unanimously indorsed by one and all everywhere. We received thousands of letters and postals the past seasons, all containing words **of the highest praise AS TO THE WONDERFUL SIZE, EARLY MATURITY AND QUALITY OF THIS FAMOUS ONION. It grows larger than any other white Onion in cultivation.** Bulbs are of attractive shape, flattened, but thick through, as shown in illustration. Average diameter of Onions 4 to 7½ inches; bulbs often attain weights of 2½ to 4 lbs. each. **No other white Onion attains such mammoth size, nor will any other white variety grow uniformly so large.** Skin a beautiful silvery white; flesh of particularly mild and pleasant flavor, so sweet and tender that it can be eaten raw, like an apple. Every one desiring the **largest and handsomest Onions** of the **finest flavor,** will be more than satisfied with the **Silver King.** Cannot be too highly recommended either for family use, exhibition at fairs or restaurants, or for sale in market, where its size and beauty will prove very striking. **It's the Onion for everybody, but especially for the private and market garden. An ounce of Onion Seed with our new method of planting and caring for same would give you 50 bushels Giant Silver King Onions. It's a splendid Onion! A wonderful Onion!**

TESTIMONIALS.

"I cannot speak too highly of the Giant Silver King. From one ounce of seed I grew 10 bushels of Onions, the largest measuring 20 inches around." M. G. Garrett, Michigan.

"Bought 1 pound of Giant Silver King seed. From it I grew 203 bushels. Took 5 bushels to the fair. Won the prize. B. H Hart, Illinois.

"The 1 pound Giant Silver King yielded 135 bushels; average was 1 pound. Many of them grew much larger. L. H. Good, Ohio.

"If I could grow but one Onion it would be Silver King. The one-half pound yielded 95 bushels and it was a bad Onion year. Nothing less than 4 inches in diameter. Received $1.50 a bushel for same." Frank Barteldes, Mo.

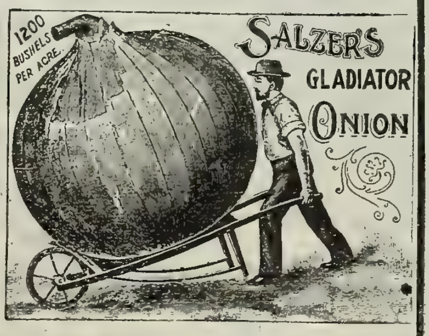
SALZER'S GLADIATOR ONION.

It possesses the **large size, mild flavor, excellent keeping** and all other good qualities of the celebrated **Prizetaker,** but differs from that variety in its **handsome skin,** which in contrast with its pure white, fine-grained flesh, attracts decided attention in market. We believe there is a great future here for this Onion, as, instead of the tops dying down or running to seed, as is the case with American varieties, **it keeps on growing** the entire season, thus attaining **enormous weight and dimensions.** Some specimens sent us by customers had attained a weight of 6 lbs. Price: Pkg., 10c; oz., 25c; ¼ lb., 50c; lb., $1.60; 2 lbs., $3.00; 4 lbs., $5.75.



ITALIAN ONIONS.

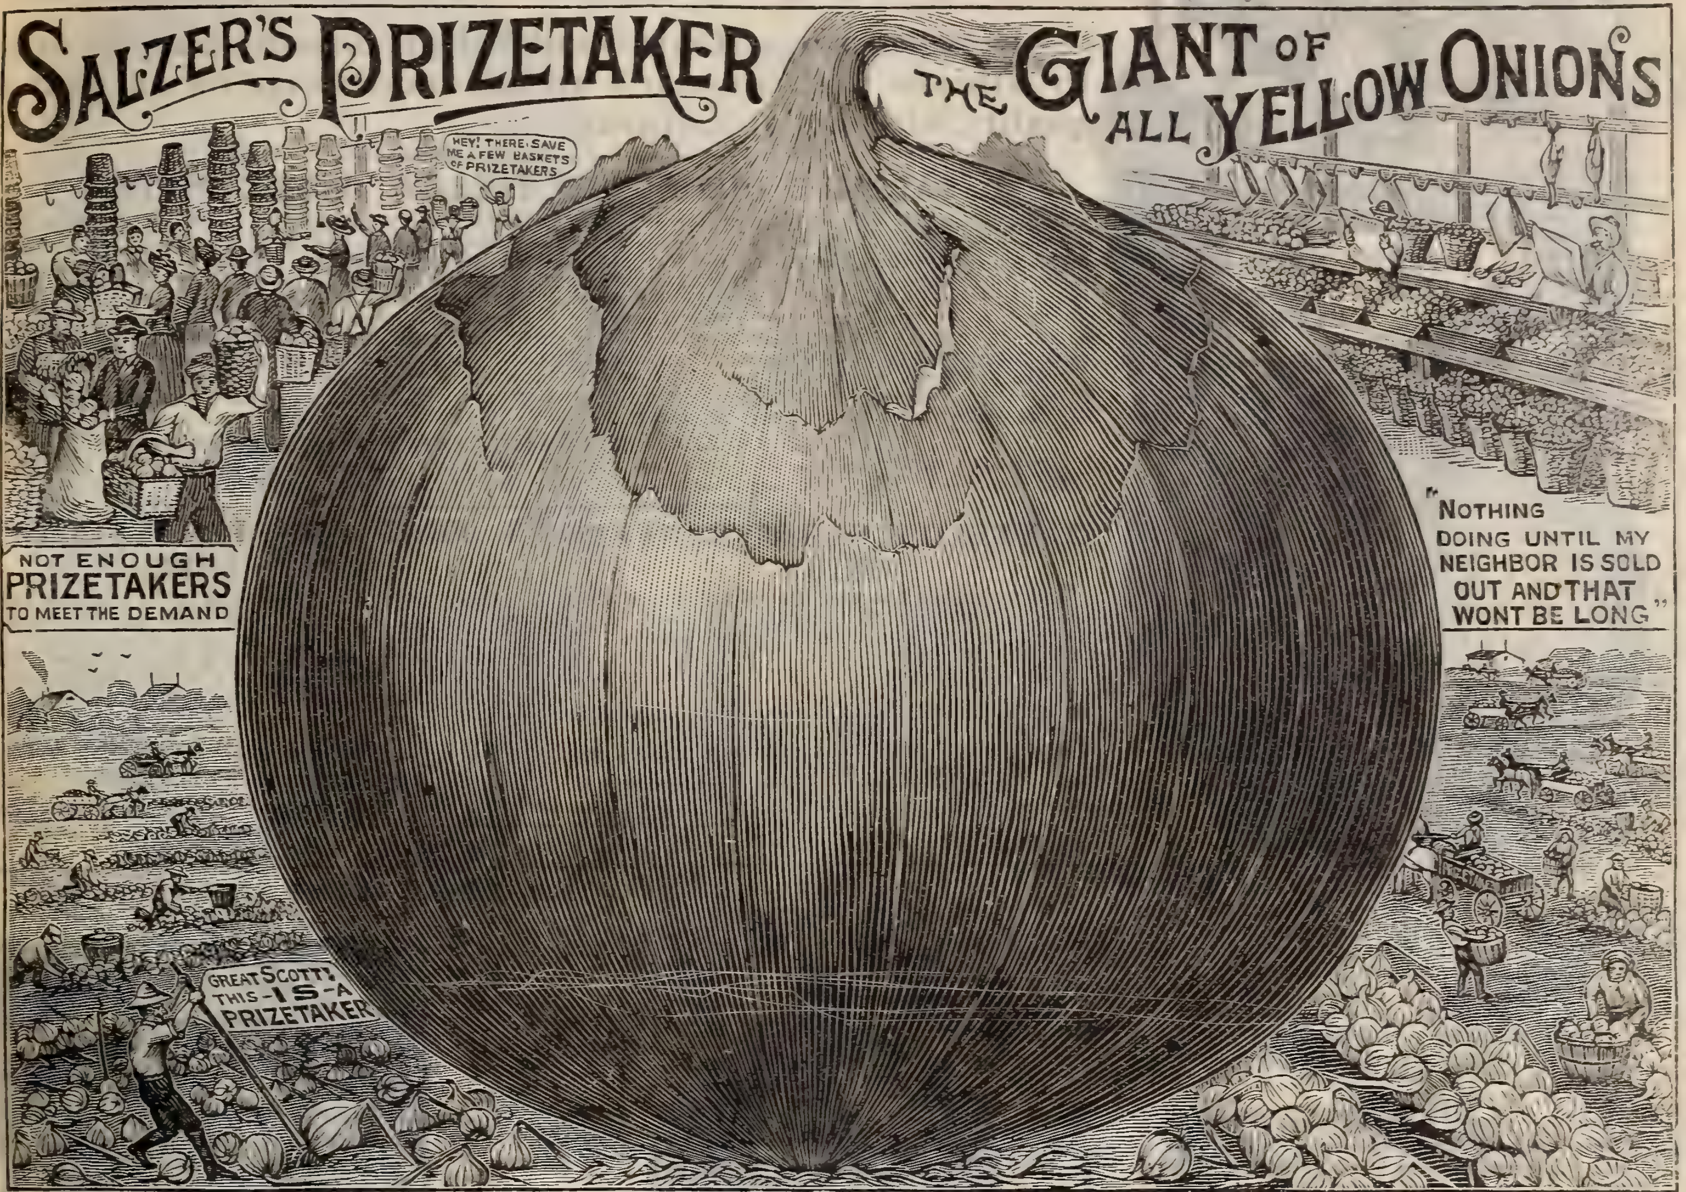
SALZER'S GREAT PRIZETAKER ONION.

Most wonderful yellow Onion on earth. I have, personally, looked in various parts of Europe and America for an Onion surpassing Prizetaker in beauty, productiveness and general merit, and believe there is nothing better in the whole world, unless it be the Salzer Giant Silver King, that King of White Onions. It is unexcelled either for home kitchen use or as a money maker.



SALZER'S PRIZETAKER
THE GIANT OF ALL YELLOW ONIONS
HEY! THERE, SAVE ME A FEW BASKETS OF PRIZETAKERS
NOT ENOUGH PRIZETAKERS TO MEET THE DEMAND
"NOTHING DOING UNTIL MY NEIGHBOR IS SOLD OUT AND THAT WONT BE LONG"
GREAT SCOTT! THIS -IS- A PRIZETAKER

The largest, handsomest, finest flavored, most superior Yellow Globe Onion ever introduced. There has never been an Onion in the United States that could equal it, and we believe it **will supplant all other Yellow Globe Onions now in cultivation, as soon as its sterling qualities are known,** for it is certainly perfection. Of a clear, bright, straw color, it always grows to a uniform shape, which is a perfect globe. It has a very small neck and always ripens up hard and fine, without any stiff necks. In market it attracts decided attention, and although only offered to a limited extent, has always been picked out and selected at three times the price of any other sort on sale, either red, white or yellow. Produces 1,000 and more bushels per acre; keeping qualities are excellent, in spring the bulbs being apparently as firm and solid as when put away in the fall.

YOU CAN GROW ONIONS WEIGHING 5 LBS. 13 OZ.!

Can anything beat that? Farm and Fireside contained the following notice written by Joseph: "The King of all Onions. The greatest novelty in years, and the King of all Yellow Globe Onions. It is ahead of any domestic Onion I have ever seen, and finer than anything I ever expected to grow. If you want to see what the Onion looks like, go to the nearest fruit store and behold the Spanish Onion on sale at 5c or more a pound. There is no reason why the 'Prizetaker' should not take the place of the imported bulb, and be sold at a high price. The two varieties cannot be told apart. Here is a chance for the progressive Onion grower that he cannot afford to neglect, for there is money in it. The name 'Prizetaker,' although not very elegant, is, nevertheless, quite appropriately selected. Any fair, average specimen will take the prize at an exhibition against the finest specimens of other sorts. It is seldom, very seldom, that we come across a novelty that marks such a long step in advance in the culture of vegetables.

1,800 BUSHELS PER ACRE.

You ask how many Salzer's Prizetaker Onions I can grow on an acre. You saw my land and the way I plant and cultivate my Onions and then on my big field, there is not a single plant missing! My Onion Land is the best ever, clean as a parlor floor. It will hold 5 Onions to a square foot, or over 216,000 Onion Plants to the acre, (using Salzer's New Method of Onion Culture). Each Onion should weigh ½ lb., or at the rate of 108,000 lbs. to the acre, at 60 lbs. to the bushel, would make 1,800 bushels. This is easily possible, using Salzer's Prizetaker Seed, the giant of all Yellow Onions. Easy,—try an ounce or ¼ lb., for 1910 and you will beat that record.

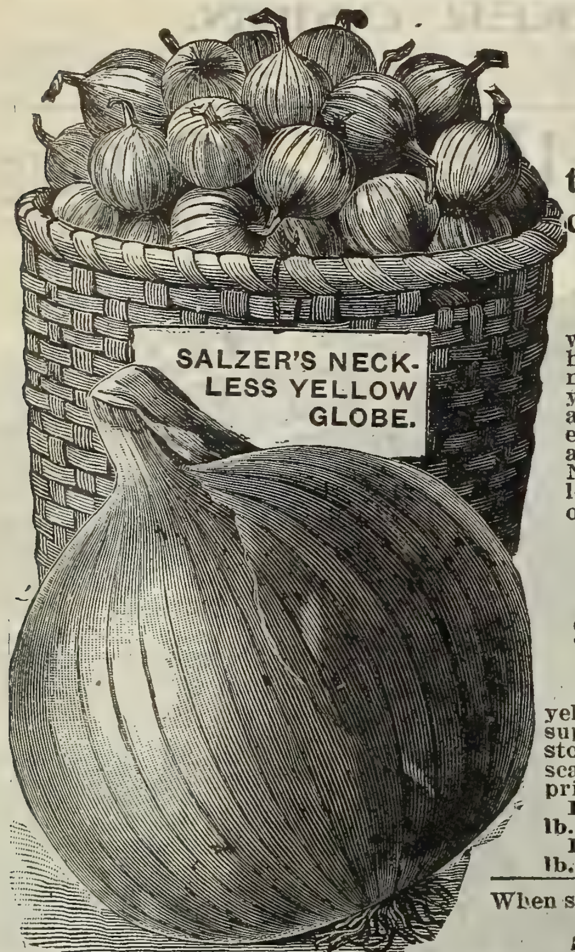
YELLOW ONIONS.



SALZER'S NECKLESS YELLOW GLOBE.

Here are three Magnificent Yellow Onions—Onions to tie to—Onions that command an advanced price on account of quality, size and appearance.

1. SALZER'S (NECKLESS) YELLOW GLOBE ONION.

The Yellow Globe has been one of our specialties for many, many years. We are partial to it, we have cared for it, we have watched it, we have improved it, we have increased its yield, we have made it more beautiful, we have succeeded in a remarkable measure to work off its neck qualities, so that now we have in our Neckless Yellow Globe Onion, the queen of all yellow globular Onions on earth, and we are not going to take back one single word of above. It is true that our Prize-Taker is a larger Onion, is a finer flavored Onion for raw eating, but for all that goes to make up a good round globular yellow Onion, fine appearance, fine quality, fine shape, fine yield, there is nothing that approaches our matchless Neckless Yellow Globe Onion. This is an Onion that we bank on, it is an Onion that we love. Our Neckless Yellow Globe Onion is a great cropper, a splendid keeper, and is one of the finest yellow Onions on earth.

By express: Pkg., 10c; oz., 15c; ¼ lb., 35c; lb., $1.25; 5 lbs., $6.00.

2. YELLOW GLOBE DANVERS ONION.

This is known the world over as the standard yellow globe and considered by many to be superior to the Southport Yellow Globe. Our stock is unusually fine. There is a great scarcity of this seed this year, hence the high price.

Price by mail: Pkg., 5c; oz., 20c; ¼ lb., 65c; lb., $2.40; 5 lbs., $11.50.

By express: Pkg., 5c; oz., 20c; ¼ lb., 60c; lb., $2.30; 5 lbs., $11.00.

3. FLAT DANVERS YELLOW ONION SEED.

Many growers prefer this to the Globe Danvers, as ordinarily it is a very heavy cropper. It is a fine Onion, one you are sure to be pleased with, and the price is very low. Well known, a heavy yielder, a splendid keeper of beautiful appearance, and sells readily in all markets.

Pkg., 5c; oz., 15c; ¼ lb., 35c; lb., $1.25; 5 lbs., $5.75, postpaid.

When stock of Onion seed varieties is exhausted, we will fill orders at lowest La Crosse market prices.

☞Write for special prices on Onion seed, stating quantity and varieties desired.

LARGE RED GLOBE ONION.

Many planters prefer this Onion to all others grown. It's globular in form, fine in quality, elegant in appearance, and is known through the United States as the Standard Red Globe Onion. Yield is often 800 bushels per acre. There is no Onion grown where the seed is always more scarce than this. There seems to be a constant shortage, but this year we have a fine stock of seed that will surely please you. Pkg., 10c; oz., 20c; ¼ lb., 45c; lb., $1.50; 5 lbs., $7.50, postpaid.

EXTRA EARLY RED GLOBE.

This variety matures early. It yields abundantly, is of mild flavor and a good keeper, of medium size, deep red in color; very close grained, solid and heavy. Pkg., 10c; oz., 20c; ¼ lb., 45c; lb., $1.50, postpaid.

BERMUDA ONIONS.

The Bermuda Onions have fairly leaped into popularity in the South and are grown in enormous quantities in Texas, Louisiana, Mississippi, Florida and other southern states.

RED BERMUDA ONION.

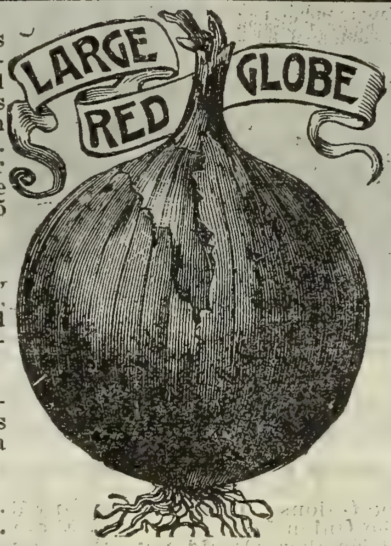
Strong grower, fine shaped, splendid shipper. **Pkg., 10c; oz., 20c; ¼ lb., 45c; lb., $1.50, postpaid.**

WHITE BERMUDA ONION.

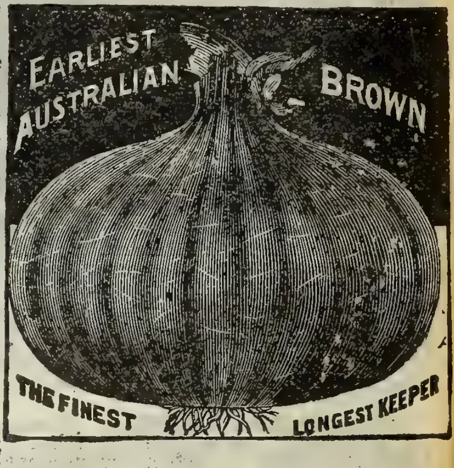
A very rare Onion, delicate flavor, beautiful color, fine shape, splendid shipper. **Pkg., 10c; oz., 20c; ¼ lb., 45c; lb., $1.50, postpaid.**

CRYSTAL WAX ONION.

The very rarest and finest of the Bermuda type of Onions. Our seeds is imported and is very choice. **Pkg., 10c; oz., 25c; ¼ lb., 60c; lb., $2.25, postpaid.**



EARLIEST AUSTRALIAN BROWN.



Next to Salzer's King of the Earliest, this is the earliest Onion grown, and will sell at a fancy price in the market during the latter part of July and early part of August, but its tremendous merits come into full play as a keeping Onion. Indeed, there is no Onion that we know of that will beat this for keeping qualities, for fine appearance, for ready sale, for a good eater and a long keeper. Indeed, the longest keeping Onion we know. **Price: Pkg., 10c; oz., 20c; ¼ lb., 45c; lb., $1.50; 5 lbs., $7.50, postpaid. By express, lb., $1.40; 5 lbs., $6.75.**

ONION MIXTURE.

Turn back in thought to the days of your youth, when Grandpa and Grandma planted the vegetable garden. There was always a large corner in which a mixture of different kind of Onion seeds were planted on the theory that if one sort did not do well the other sort would, and in that way it happened always that there never was a shortage of Onions. If the good housewife wished a mild white for salads, it was always found therein; if she wished a more pungent one, that was taken If she wished a brown or yellow or red, or no matter what color, there they were, and with this in view we have arranged **"Grandpa's Conglomeration Onion Mixture."** It contains every known sort, and we are sure will be immensely popular at once. A package of seed is sufficient to grow one or two bushels, an ounce from three to five bushels, and ¼ pound from ten to twenty bushels. A pound is safe for 60 to 100 bushels or more. Now, another advantage is that many do not care to plant four or five different varieties of Onions. When they sow ¼ pound or a pound of Conglomeration Mixture and find that the white Onion is in demand in their market, or that the red or yellow or brown bring better prices, they can sell that variety and keep the others for home use.

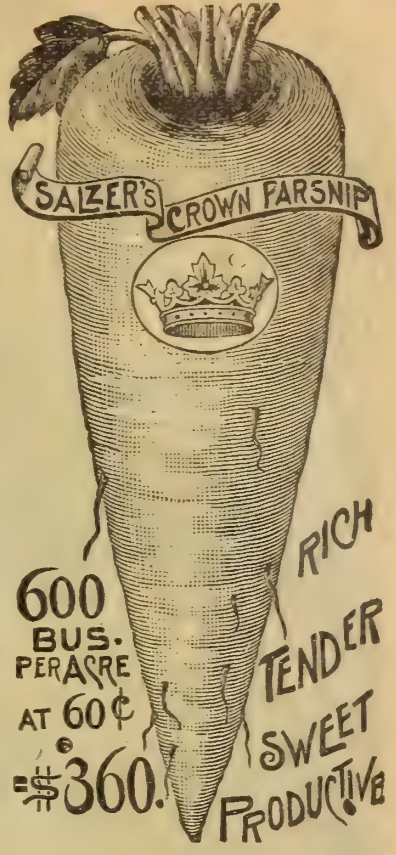
Salzer's Delmonico Parsnip—The finest, richest, tenderest Parsnip known to the American people. Price: Pkg., 10c; oz., 20c; ¼ lb., 35c, postpaid.



SALZER'S DELMONICO.

For many years the trade wished for a stump-rooted or half-long variety of Parsnip. We are pleased that our efforts have been crowned with success, and we offer this year our Delmonico Parsnip, believing it will be the most enormous, prolific and most profitable variety to grow. It is in a large measure stump-rooted—just the thing the market gardener desires. It has very large roots, not long, while the flavor is all that can be wished for. They are easily watered, the root being smooth, flesh of very fine grade and excellent flavor. We are sure they will give great satisfaction to everybody who will try same. They are enormously productive, and just the sort to give satisfaction.

HOW THEY LIKE DELMONICO.

Fred Kaepler, Cook Co., Ill.—"Chicago is a great market for Parsnips. I supply it with the earliest and best always. I use only your Delmonico, that takes the cake everywhere. I frequently get $1 a bushel or at the rate of $500 per acre. Delmonico Parsnip is the best paying crop I grow."

James Corge, Hancock Co., Ill.—"I planted 5 lbs. Salzer's Delmonico Parsnip. I must have sold over $200.00 worth—they were so exceptionally fine."

Wm. H. Horne, Onondaga Co., N. Y.—"I made a little fortune out of those 4 lbs. Delmonico Parsnip seed purchased from you. I sold $160.00 worth, and the care was but little."

George Davis, Webster Co., W. Va.—"I bought 10 lbs. of your Delmonico Parsnip and shipped two carloads to New York City, netting me $300.00. That's the best I ever did, but your Delmonico was the very best Parsnip I ever saw."

There is no doubt about it, Parsnips pay; especially Delmonico and Salzer's Crown. Try them. **PRICE OF DELMONICO PARSNIP.**

STUDENT PARSNIP.

SALZER'S CROWN PARSNIP.

This is without doubt the finest, heaviest yielding, best flavored long Parsnip grown. It grows to a large size, is sugary, and is a relished article of food. The yield is from 300 to 600 bu. per acre. Salzer's Crown Parsnip is, next to Delmonico, the best Parsnip in America today. It positively pays to plant Salzer's Crown. Sells quickly on account of quality and great beauty. Sow 4 to 5 lbs. of this sort per acre.

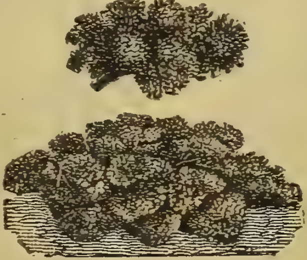
PARSLEY.

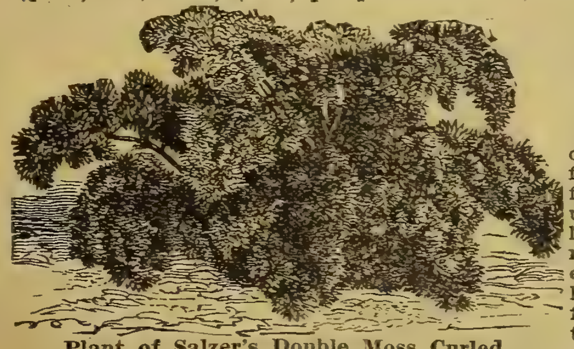
A package of seeds will give enough plants to use all summer for soups, and garnishing for winter. Used in tremendous quantities for garnishing. No dish is quite perfect and artistic unless it contains a few sprigs of Parsley.

Parsley, Dark Green, Triple Curled.☞

Introduced last year and so enormous has been the inquiry that long before the season closed our stock had become exhausted. Letters received thus far from pleased patrons indicate an enormous demand for 1910 of this distinct and very attractive dwarf Parsley, valuable alike for garnishing and culinary purposes. The leaves are of a bright emerald green color, often used instead of ferns to decorate the dinner table; one of the best varieties for general cultivation. Pkg., 15c; oz., 25c; ¼ lb., 60c; 1 lb., $2.25, postpaid.



TRIPLE CURLED.



Plant of Salzer's Double Moss Curled.

Salzer's Double Moss Curled.

The handsomest of all finely curled sorts. The Parsley for family use on account of its finely curled leaves and luxuriant growth. You will surely like it. It is used in enormous quantities and nearly every order received from a lady customer is sure to call for one or more packages of this peerless Parsley. It is always found in Mrs. Salzer's kitchen garden. It is unrivaled. Pkg., 10c; oz., 25c; ¼ lb., 50c; lb., $1.75.

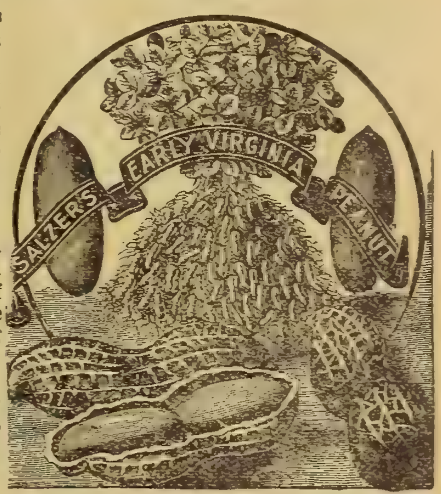
EARLY VIRGINIA PEANUTS.



Its extreme earliness makes it a paying crop on sandy soils in the North. It ripened for us at La-Crosse to perfection, yielding enormously. Now, it's the thing to let the dear boys and girls try. It will give them peanuts for the long winter months, and lots of fun besides, and an interest in the garden and the farm. A pint of seed should produce one bushel of fine eating peanuts.

New Spanish Peanut.

This is a splendid Peanut, especially for the far North. The pod is not so large, but it is extremely early. A new, very early and desirable variety, with upright foliage; planted by the end of April they ripen before September 1st. It will pay you to try them everywhere. Plant 2 inches deep, 12 inches in the row.

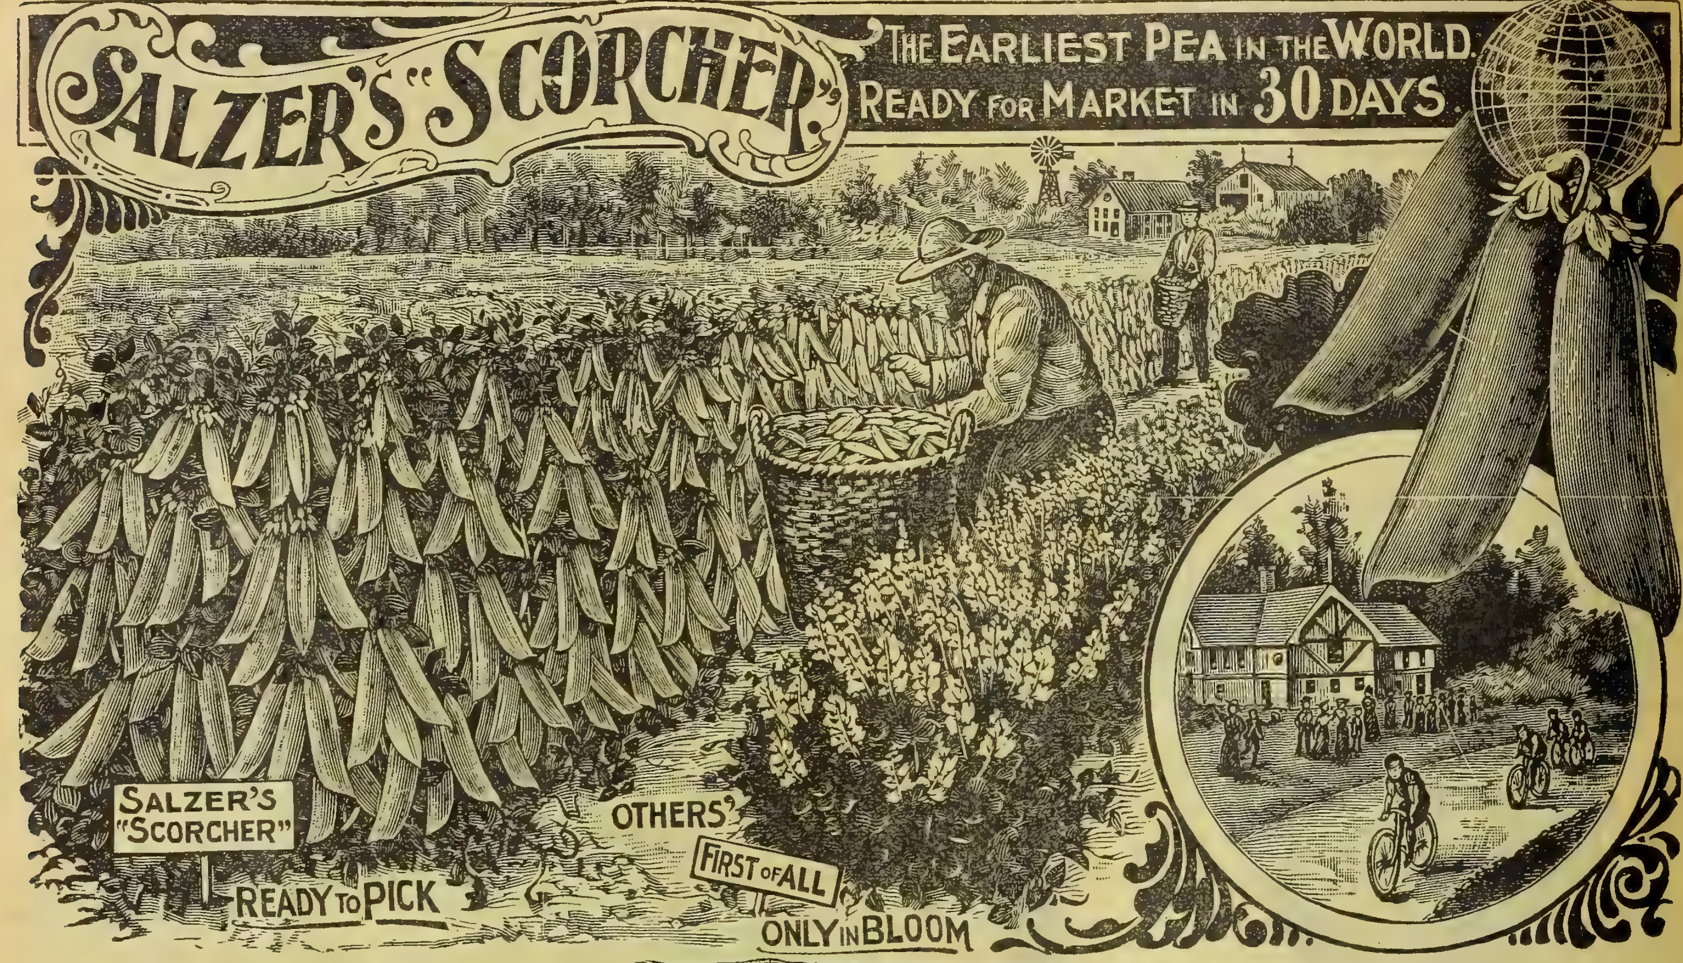
SALZER'S SPLENDID PEAS.

The best paying crop for the Market Gardener is early Peas, Salzer's Peas are grown with unusual care on soil adapted to **produce the best of Peas,** and the result is, there is no earlier Pea in America than Salzer's Scorcher, Salzer's Earliest and Best, and Early May. There is more money in fine early Peas—by early Peas we mean Peas ripe and in the market just 6 to 10 days ahead of your neighbor's—we say there is more money in such early Peas than in any other early vegetable grown on open land. Why, we have a gardener **right here** who made $400.00 last year from 1 acre of our Earliest and Best Peas—because they were just 6 days ahead of **every other early sort.**

☞ When stock of Peas is exhausted, we will fill at market prices. ☜



Away! Stand aside! Clear the track for the earliest Pea in the world! This is what the John A. Salzer Seed Co. have been after for years and with this in view every earliest sort obtainable was tested and every improvement through hybridization and crossing was made in order to attain these results, and today we are proud and happy to state that

Salzer's Scorcher is One of the Very Earliest Peas in the World.

Now, if you will just stop to think what it really means to plant Peas to-day and have them ready and fit for eating in but 600 to 750 hours, or 25 to 35 days, you will quickly see the tremendous importance of this great improvement. Why, it is not more than ten years ago when it took Peas from 60 to 75 days to be fit for market. Now, we challenge the world, we challenge any and every seedsman in America, we challenge every market gardener or private gardener in America to produce a Pea as early as Salzer's Scorcher. We are positive that there is no Pea like it in America to-day. Its companion in Earliness is Salzer's Earliest and Best—the wonderful 12 Podded Pea. The ripening time of the first and best sorts, such as are offered by Philadelphia, New York, Chicago, St. Paul and Rockford seedsmen, is about 52 days. The average ripening time of Salzer's Scorcher Pea, tested by upward of 500 customers, was a trifle over 40 days, or fully 10 days ahead of the earlest Peas that other seedsmen offer. Now, this is not a dream of fancy, but a fact, a fact that you can demonstrate for yourself by planting a package or more of Salzer's Scorcher Pea.

Now, when you plant Peas for the early market, you want the earliest, the heaviest yielding and biggest podded variety. That is **Salzer's Scorcher.** It is the earliest big-podded, quickly ripening, earliest Pea on earth, and will make you more money than any other Pea known.

Salzer's Scorcher. Pods fit in 40 days.

Salzer's Earliest and Best. Pods fit for use in 41 days.

Now, this Pea is one of the earliest in the world. The pod is large, of extremely beautiful appearance, full of fine, large Peas, ripening quickly.

A. N. Enos of Centralia, Wash., has this to say: "Salzer's Scorcher Peas are wonderful. My neighbors planted their early peas before I did Salzer's Scorcher. My wife and I were calling there a short time afterwards and my neighbor told Mrs. E. on the quiet that he would have early peas ahead of mine. The substance of the matter was, Mr. Salzer, our peas were in the market getting good prices before my neighbor's were in bloom. Tell it to everyone that Salzer's Scorcher Pea is the earliest known."

THE BIG FOUR PODS.

Look at them! Are they not handsome? Do they not appeal to you with all their wonderful productiveness? Salzer's Scorcher, the "Big Four" Pea, is borne so often in clusters of four and we guarantee that this splendid Pea, this big four podded, this earliest of early, will fill a bushel basket quicker than any of the other seedsmen's Extra Early, First of All, Earliest of All and any other named earliest varieties. Salzer's Peas are the earliest in the world, and Salzer's Scorcher will bear out what we say about them every time. Nothing will fill a bushel basket quicker for extreme early Peas.

THE PRICE OF SALZER'S SCORCHER PEAS.

The crop this year is an almost entire failure, hence the high price. As our stock of Salzer's Earliest and Best is large, thousands of customers will plant them, as the price is so much lower and the quality and earliness of Salzer's Earliest and Best Pea is nearly the same!

SALZER'S EARLIEST AND BEST PEA.

This Pea is the **EARLIEST** White Pea on Earth, and Salzer says so, weighing each word— and he repeats it—"it is the Earliest Pea on Earth." It is the Pea for you, Mr. Gardener and Citizen, to plant, whether by the package or by the bushel. It's the greatest Earliest Profit Pea. It's the Pea, combined with Salzer's Scorcher, that everybody who wants the **"very earliest"** on earth, should plant. Plant largely of it and it will make you rich! Pods large, full, sweet and extremely prolific. It will net $300 an acre easily. We do not remember, during 25 years, one instance when earlier Peas were ever brought into La Crosse market than ours. We always offered the **first**, from the fact that our variety was fully 6 to 10 days ahead of other **earliest**. We have tried Landreth's Extra Early, Burpee's "Best" Extra Early, Henderson's First of All, etc., but all were behind our Earliest and Best. This Pea is early, growing from 18 to 30 inches high, a fine cropper and of excellent flavor, and all who have tried it are emphatic in pronouncing it the very earliest.

Of Course, Every Seedsman

Claims to have the earliest Pea—but the wide-awake gardener can't be thus fooled. For over 25 years this Pea was the earliest in the La Crosse market, and we keep right on improving it, and we challenge the world to produce an earlier, finer, more productive white sort.

Our Great Seed Trade

Was won and built up on lines of furnishing the earliest and absolutely the best seeds in the world. When we were market gardeners we found that a pea 10 days earlier ripe than that of the neighboring gardeners meant for us hundreds of dollars. For that reason we have always worked to increase the earliness of Peas, and we positively have the earliest Pea on earth today. Our Salzer's Scorcher, and Earliest and Best, and Dwarf Jumbo, and Early May are noble specimens of the earliest, early ripening Peas.

640 Bus. per Acre.

This is no idle talk, no dream of fancy, no flight of vision, but a stern, glad, earnest, happy

FACT!

You can grow 640 bus. of green peas **per acre, providing** you use Salzer's Earliest and Best, known as the Great **Twelve Podder.**

Just look at this: One pint of Peas has 2,500 kernels. 2,500 kernels or plants at twelve pods to the plant equals 30,000 pods. A bushel holding about 3,000 pods, so that a single pint of peas should produce from 8 to 12 bus., or at the rate of 640 bu. per acre.

$640.00 per Acre.

That should be easy, **providing you** sow Salzer's Earliest and Best, the great twelve podder pea.

This pea has a record for being extremely early, extremely fine, extremely rich flavored and which for earliness and get-there-quick-to-market seeks an equal.

It is Not Unusual, Mr. Gardener

To take in from $250 to $600 from one acre of Salzer's Earliest and Best Peas. The pods are large and fine and are deliciously sweet and sell quickly in any and every market. In the La Crosse market, alongside of Peas shipped in from Southern States, **Salzer's Earliest and Best** brought $3.50 a bu., while Southern Peas fetched only $2.50 a bu. Every citizen, every hotel, everybody fond of good Peas, will take and pay double the price for Salzer's Earliest and Best than for the common run of seedmen's earliest sorts.

Twenty-four Carloads Seed Peas.

We grow great quantities of Salzer's Earliest and Best Peas, and handle them in carload lots, so also Salzer's Scorcher, Early May, and other varieties; indeed, we believe that we grow more Peas and Beans, and sell more Earliest Peas and Beans than any other five large seedsmen put together. We have won this great trade on account of the superior excellence and extreme earliness and prodigal yield of our Peas. We have pedigree stock, bred right up to earliness and yield.

We are shipping this Pea to market gardeners in Philadelphia, New York, Chicago, Cleveland, Boston, St. Louis, St. Paul, Minneapolis, Omaha, Kansas City, Detroit, Milwaukee, London, Liverpool, Paris, Berlin, and other large cities, and when once used is grown to the exclusion of all other "earliest" sorts by all market farmers and gardeners.

Market gardeners have told us that they have secured from 250 to 600 bushels of green Peas per acre of this variety, selling them from $2.00 to $2.25 per bushel, as they are always earlier than their neighbors'. We know it is the **Pea you want, if you want to make money.**

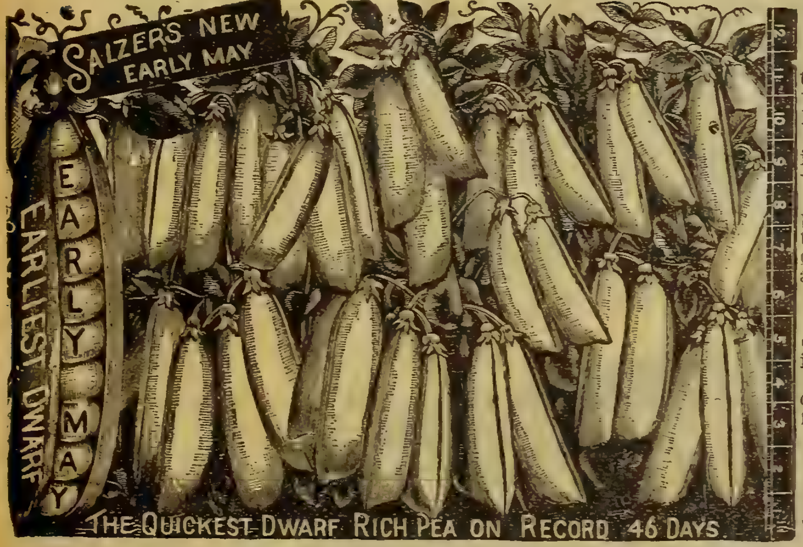
SALZER'S DWARF EARLY MAY PEA.



If you want a Dwarf Pea, something growing less than 1½ feet tall, that covers itself with big, large pods of delicious rich and tenderly flavored Peas, then try Salzer's Early May, the **Prince of Extra Early Dwarf Peas.**

It is extremely dwarf, growing from 10 to 17 inches, and literally fills itself with large pods, ripening evenly and of excellent flavor. It is very early, testing in 46 days.

We know that all who try this Pea will agree with the words of a pleased patron by saying, "I do not exaggerate when I say that this is the very best dwarf Pea to grow in a family garden for the table that I ever saw. I congratulate you in placing a Pea of its remarkable character before the American people."

1,000 Bushels.

Now, that's a great many, but our market gardeners and private planters require **Early May Peas.** They say there is no other Pea just like it, hence its great demand. It's early, too, and of delicious quality.

The distinct merits of this Pea over any other variety are its extreme earliness combined with its abundant production of fine Peas of delicious flavor. It is extremely early and while the pods are not as large as Salzer's Jumbo, they are of great richness and give splendid satisfaction.

Its strong points are its delicious richness of flavor, **its extreme** earliness, its dwarf habit, needing no brushing, and its large-sized pod. One of its distinctive features is its unusually regular habit of growth. It is of uniform height, so smooth and level in its growth that a row resembles a well-kept hedge. It is also a magnificent variety for market gardeners to grow; as the pods are large, it fills up a bushel quickly, and brings a very fine price in the market.

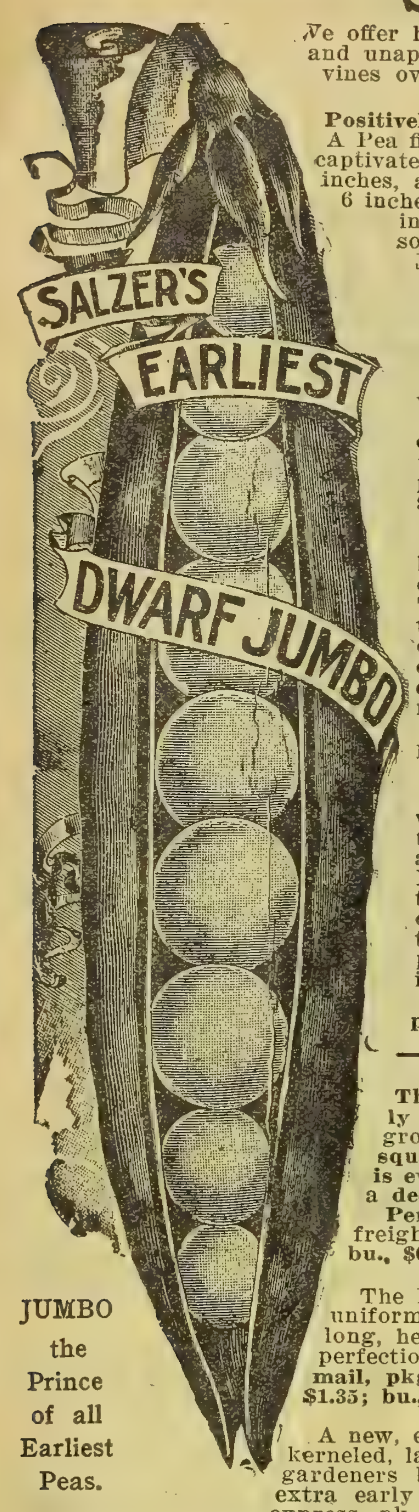
SALZER'S JUMBO PEAS.

We offer here an entirely new race of Peas, startling and colossal in size, rich and unapproachable in quality, strong, vigorous and healthy in growth, with vines overfilled and overloaded with great, rich looking pods.



JUMBO the Prince of all Earliest Peas.

1. SALZER'S EARLIEST DWARF JUMBO PEA.

Positively the greatest, sweetest, biggest podded, earliest Pea on earth!

A Pea fit for the gods. Nothing that we have ever grown has so completely captivated us as our Earliest Dwarf Jumbo Pea. Vines run from 16 to 26 inches, and are literally loaded with great, glorious, rich heavy pods, often 6 inches long, with large, sweet, well-developed Peas, crowding each other in the giant pod. It is earliness itself; indeed, it is remarkable how a so giant-podded variety can produce a crop so quickly as this Dwarf Jumbo. It is vastly superior to the Gradus or Prosperity Pea, outyielding same by almost one-third, is only a few days later than Salzer's Earliest and Best and Scorcher, which pods are smaller. If you wish a great supply of delicious, large, wrinkled pods, pods that will quickly fill a bushel basket, this is the Pea to buy.

IT'S THE GREATEST PEA ON EARTH,

and that means much. Now, do try this. You will be delighted with them surely. A London seedsman who tested this variety said: "It is positively the grandest large giant-podded Pea on earth." **Sales of this magnificent sort double each year, so popular it has become. Price: Big Pkg., 10c; pt., 30c; qt., 50c, postpaid; by freight, pt., 25c; qt., 40c; ½ pk., $1.00; pk., $1.90; bu., $7.40.**

2. SALZER'S DWARF TELEPHONE PEA.

These pods are large, noble and handsome, with vines dwarf, being filled from bottom up with great pods of Peas of the richest quality. This Pea has all the excellent qualities of the old Telephone, but is dwarf in habit, bears stronger pods, more of them and we believe are far richer in quality. The height under ordinary culture is from 24 to 28 inches, requiring no brush. It comes into full play after the Jumbo has been picked and marketed. The pods are giants, often containing 10 large Peas, thick. meaty and rich.

Price: Big Package, 10c; pt., 30c; qt., 50c, postpaid; by freight, pt., 25c; qt., 40c; ½ pk., $1.00; pk., $1.90; bu., $7.40.

3. SALZER'S ROUGH RIDER PEA.

A new race, a new creation. As the heroes of the late Spanish war in their race up the hills of San Juan carried everything before them, so will this Pea capture the hearts of everybody and ride on a wave of prosperity into the popular esteem of every grower of Peas in the world. It grows but 2½ feet high, while the pods are tremendous in size; much larger than an ordinary Pea, filled full of large, deliciously sweet Peas. So thick and full are the vines that one often fails to see the leaves, but instead finds great, heavy pods, filled almost to bursting with rich, luscious, meaty, exquisitely flavored Peas.

Price: Big Package, 10c; pt., 30c; qt., 45c, postpaid; by freight, pt., 20c; qt., 35c; ½ pk., 90c; pk., $1.70; ½ bu., $3.25; bu., $5.50.

THOS. LAXTON PEA.

The only rival to the famous Gradus,—as a long-podded, extremely early, wrinkled Pea,—and in some respects even better! The growth is identical, but the pods are a deeper, richer green and **square at the end.** In the judgment of experts, **Thos. Laxton is even sweeter and finer in flavor,** while the large peas are of **a deeper green.**

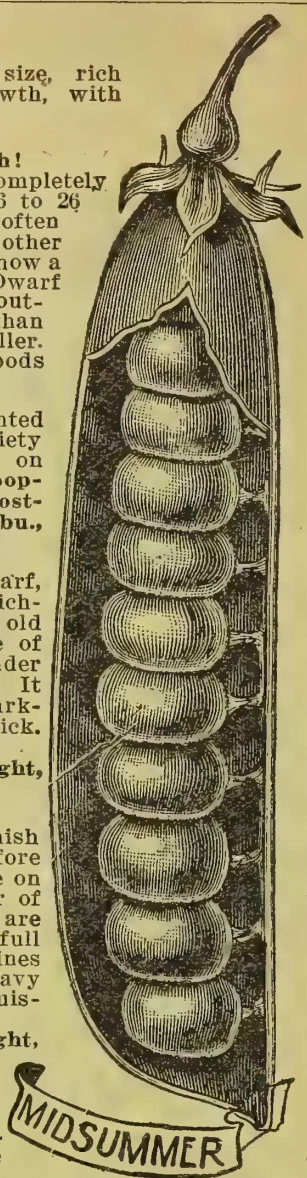
HENDERSON'S HEROINE PEA.

The Heroine is a medium early green, wrinkled Pea, grows uniformly about 2½ feet high, and is literally covered with its long, heavy pointed pods. The quality of this Pea is simply perfection—that rich, buttery, marrow-like flavor. **Price, by mail, pkg., 10c; pt., 25c; qt., 40c; by express, qt., 30c; pk., $1.35; bu., $4.90.**

NOTT'S EXCELSIOR.

A new, extra early, extra dwarf, extra finely flavored, sweet kerneled, large podded Pea, which has fairly taken the market gardeners by storm; it captivates everybody; it's a grand, extra early Pea! Pkg., 10c; pt., 25c; qt., 35c, postpaid; by express. pk., $1.40; bu., $4.90.



MIDSUMMER.

Everybody, everybody, everybody wants them! Why? because over 24,000 planters tested them last year, and their neighbors saw them, their friends saw them, their customers ate them, and their richness, their vigor, their splendid prolificness set everybody, we say it again, set everybody a-talking about. It is one ripening at times when Peas are scarce. It is a Pea attaining a height of fully 3 feet, with long, well-filled pods of delicious, excellent quality. It is a very healthy variety. Its vines grow robust quickly and are filled with magnificent pods. The beauty about these pods is that they are filled to the end with large Peas and fill a bushel basket remarkably quickly.

Price: Pkg., 10c; pt., 25c; qt., 50c; postpaid. By express: Pt., 15c; qt., 30c; ½ pk., 75c; pk., $1.40; bu., $4.90.

NEW CHINESE GIANT PEPPER.

The Finest, Largest and Handsomest Pepper of All.

A magnificent new variety, the largest and finest Pepper in cultivation. The plant is about two feet high, of strong, vigorous growth, stocky in habit, very productive, and ripens its fruit earlier than the Ruby King. The fruit averages four inches in diameter, and is of a bright glossy scarlet when ripe. The flesh is unusually thick and very mild, having none of the pungency of most of the older varieties. The immense size of the fruit and its brilliant color render it very attractive, and will cause it to sell readily in the market.

Wm. Yost, near East St. Louis, grew a Salzer Chinese Giant Pepper weighing 21¾ ounces—a regular giant.

Now, I doubt if this size can be exceeded this year, and yet, why not?

Chinese Giant, is certainly a wonder. The plants are of strong, stocky growth, of bushy, erect habit, growing 18 inches to 2 feet in height, with abundant foliage. The compact plants are very prolific, setting 3 to 4 extra large fruits at the base quite early in the season, which ripen while a second crop is setting on the branches. The fruit is well shown in the illustration herewith, being quite square in appearance, while the flesh is thick and very mild, being entirely free from any fiery flavor.

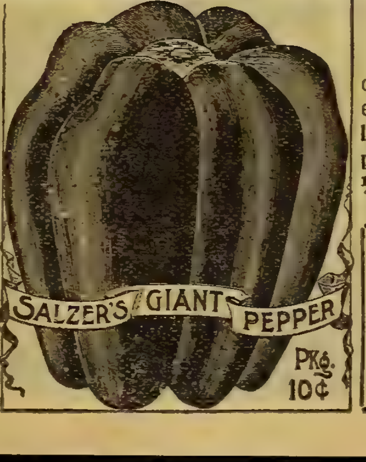
PRICE: Pkg., 10c; ½ oz., 50c; oz., 75c; ¼ lb., $2.00; lb., $7.00.

Chinese Giant—Pkg., 10c; ½ oz., 50c; oz., 75c; ¼ lb., $2.00; lb., $7.00.

SALZER'S GIANT PEPPER.

A fine Pepper of colossal size and delightful appetizing flavor. It's one of those great Peppers which once planted or used will always remain in your collection.

Pkg., 10c; ½ oz., 20c; oz., 35c; ¼ lb., $1.00; lb., $3.00.



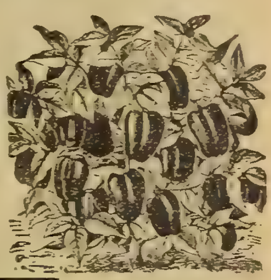
NEW GOLDEN DAWN.☞

In shape it resembles the Bull Nose, except that it is a little more pointed on the end; in color, it is a beautiful golden yellow. It is very sweet, not the slightest suspicion of a fiery flavor. **Pkg., 10c; oz., 40c; ¼ lb., $1.00.**

MIXED PEPPER SEED.

All sorts carefully mixed. This gives you an opportunity of growing all varieties at a small expense. This mixture is **par excellence**. You will like it. Is immensely popular, as thousands of our customers are ready to attest. **Pkg., 15c; oz., 40c; ¼ lb., $1.00; lb., $3.00.**

RUBY KING PEPPER.



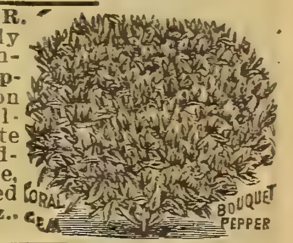
We recommend same heartily as the most profitable to grow for all purposes. It is unequaled, remarkably mild and pleasant to the taste, enormously productive, all its fruit handsome, frequently 6 inches long, producing from 15 to 25 large Peppers. Color, bright ruby red. **Pkg., 10c; oz., 35c; ¼ lb., $1.00; lb., $3.00.**

PROCOPP'S GIANT—A great Pepper. Almost as large as Ruby King, but not so large as Salzer's Giant. **Pkg., 10c; ½ oz., 25c; oz., 40c; ¼ lb., $1.00.**

TOBASCO—A new Pepper novelty of transcendent quality, richness and pungency. **Pkg., 10c; oz., 50c; ¼ lb., $1.25.**

NEW CELESTIAL PEPPER.

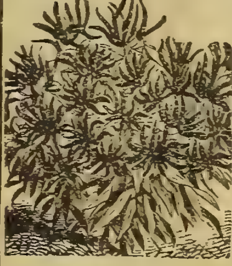
From China. Extremely ornamental. It is wondrously productive, **40 Peppers having been counted on a single branch.** Until fully ripe they are of a delicate creamy yellow, then suddenly change to an intense, vivid scarlet. All carried upright. **Pkg., 10c; ½ oz., 25c; oz., 40c; ¼ lb., $1.00.**



CORAL GEM. (The Bouquet Pepper.)

The finest of all ornamental Peppers of sharp, pungent taste; 1,500 cute little Peppers have been counted on one plant. Fine for pickling. **Pkg., 10c; ½ oz., 35c.**

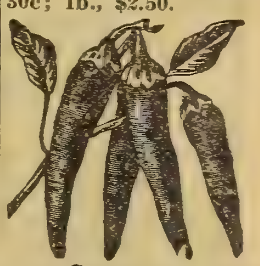
RED CLUSTER PEPPER.



A single plant will bear hundreds of coral red colored, handsome little Peppers, which are very hot and pungent in flavor.

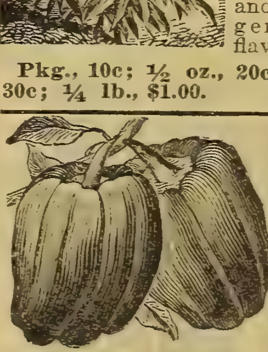
Pkg., 10c; ½ oz., 20c; oz., 30c; ¼ lb., $1.00.

CAYENNE–Long, fine. **Pkg., 5c; oz., 30c; lb., $2.50.**

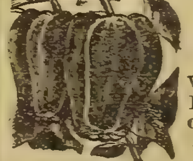


Cayenne.

LONG YELLOW. good size and yield. **Pkg., 5c; oz., 30c; ¼ lb., 75c.**

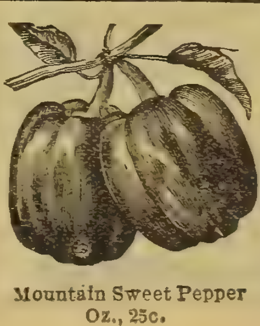


New Golden Dawn.



LARGE BELL.

One of the very best. **Pkg., 5c; oz, 30c; lb, $2.00.**



Mountain Sweet Pepper
Oz., 25c.

Long Red—Similar to the yellow, only bright red in color. **Pkg., 5c; oz., 25c; ¼ lb., 75c.**

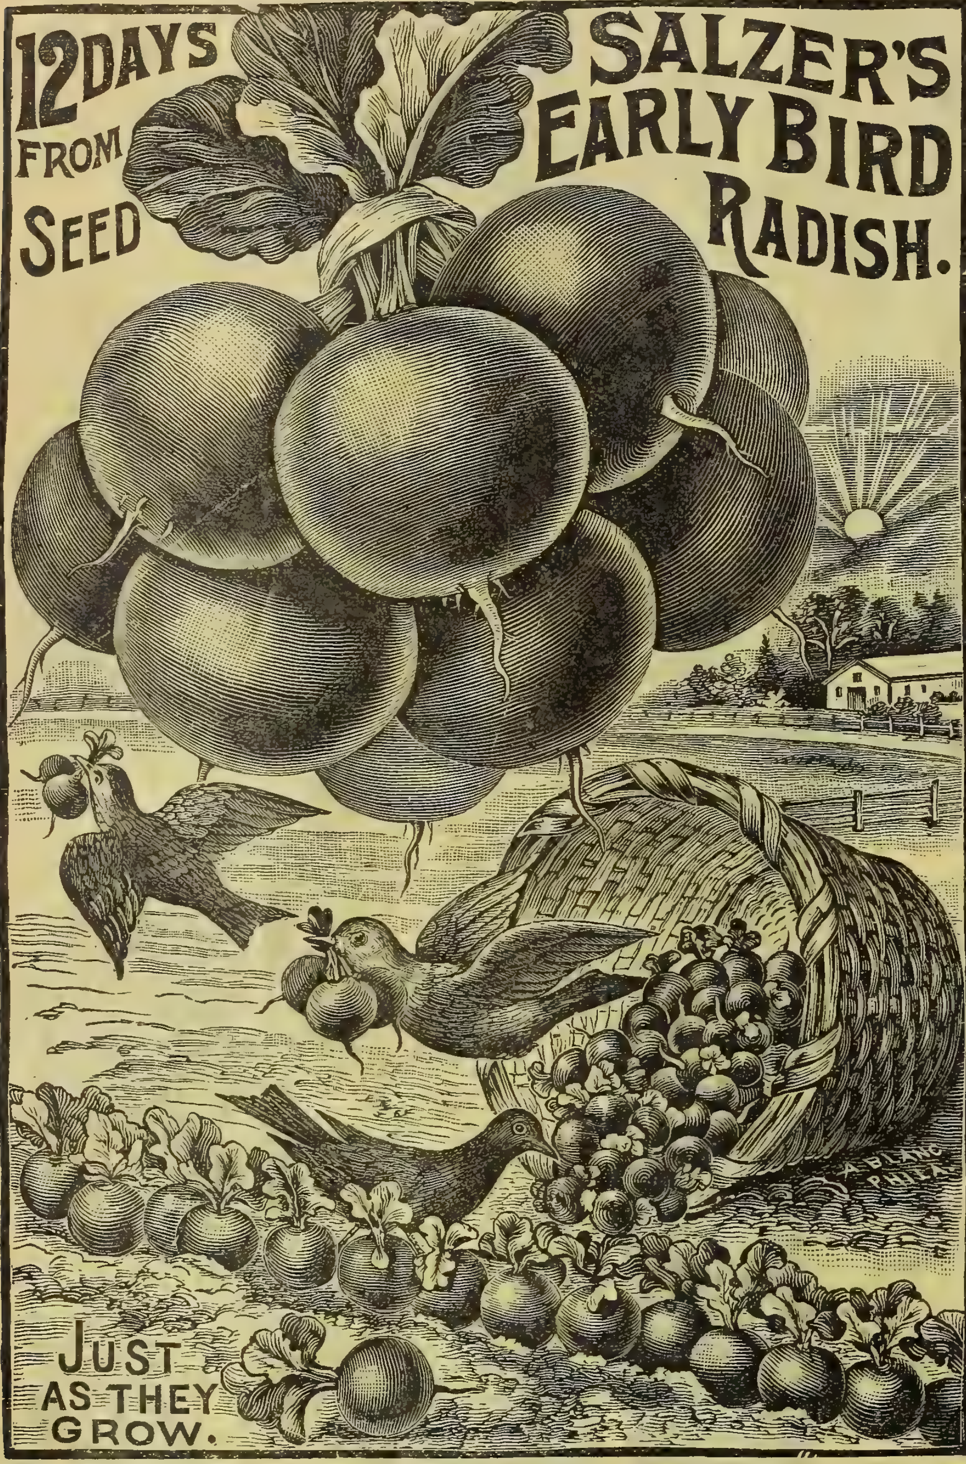
Red Chili.—For pickling; small. **Pkg., 5c; oz., 25c; lb., $2.00.**

Mountain Sweet.—Like above, only much larger. **Pkg., 5c; oz., 25c; lb., $2.50.**

Sweet Spanish.—Mild flesh, early. **Pkg., 5c; oz., 25c; lb., $3.00.**

RADISHES.

One of the most profitable crops to grow for the market gardener and market farmer, as also for the private garden, is Radishes. There is no vegetable that is a better appetizer for breakfast than a fine, juicy Radish. In Europe these are served in restaurants with every meal, and enormous quantities are thus used. All that is required to bring them into constant demand in America is to furnish an early good Radish. Our Northern-grown stock always produces the finest, best eating Radishes.



12 DAYS FROM SEED
SALZER'S EARLY BIRD RADISH.
A. BLANC PHILA.
JUST AS THEY GROW.

1. SALZER'S EARLY BIRD RADISH.

"It is the Early Bird that catches the Worm," goes the saying, and it is the market gardener who brings in the **early vegetables** to the market who catches the most money, or in other words, makes the best profit out of his investment. For years in our market gardener trade this was one of the main sources of income to us. In this our Radish, Salzer's Early Bird, we are sure we have the earliest Scarlet Globe Radish grown. The shape is regular, of rich scarlet color. The fruit is unusually tender, crisp and delicious, never becoming hollow or pithy. It is very desirable for forcing, being fit to pull in less time from sowing than any other turnip variety. It is alike valuable for outdoor planting for spring or in autumn, and will always command a good price throughout the year. It will not dissappoint a single market gardener who sows it, but will be a source of genuine pleasure and profit. We know of none of our vegetables that will pay the market gardener better, and for the kitchen garden, than Salzer's Early Bird Radish. This is the earliest, the finest, the handsomest in shape of any early turnip Radish known to the trade at present.

WARNING.

If a seedsman or dealer offers you ***Early Bird Radish*** *put him out!*

No soul on earth has the genuine seed but Salzer.

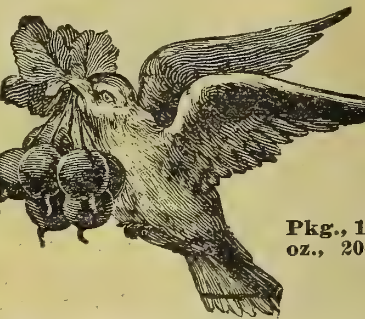
READ EXTRACTS FROM LETTERS.

"From all my customers comes but one cry—'More Salzer's Early Bird Radishes!'"—R. P., Pittsburg, Pa.

"Ate fine Early Birds in 14 days after planting. That's good enough."—Mrs C. G. E.. Evanston.

"My wife says the fine Radishes we are now using are Early Birds, fit for use in 16 days!" F. A. H., Nashville.

"Made more money on the 20 lbs. Early Bird Radish than on all others together, as I grow mainly for New York market."—Geo. W., Long Island.



Early Bird—Earliest of all Scarlet Radishes.

Pkg., 10c; oz., 20c.

HERE'S A RED-HOT LETTER.

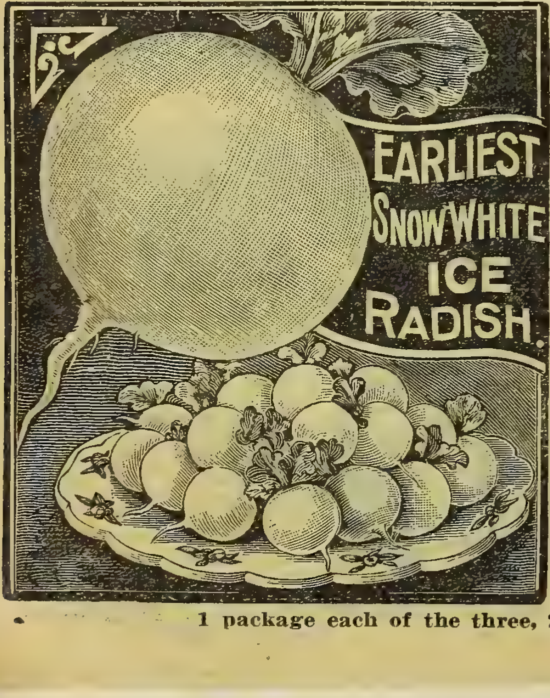
"To John A. Salzer Seed Co., Dear Sirs: That rascal of a seedsman, '——' in Illinois, advertises that his Radish was as early as your Early Bird. He is a liar! I get excited every time I think of it. The swindler! It is 12 days behind in earliness and 10 years behind in quality of your Early Bird. I bought 5 lbs., because he was so cheap, John, but I lost lots by it. His Radish was no good."—D. T. Wise.

On our grounds at La Crosse we had fine Radishes fit for the table (outdoor grown) **in 12 days from planting.**

Large, tender, delicious! Why, they are actually larger than Radishes used to grow in hotbeds, 10 years ago, in 20 days! Such wonderful improvements have been made in Radishes. We are sure none will be ahead of Salzer's Early Bird.

Now, the substance of the whole matter is this: If you are at all anxious, either as a market gardener or as a grower of Radishes for your own private table, to have Radishes from 6 to 12 days ahead of your neighbor, and if you are anxious to have the finest Radish that seed can produce, even under the most adverse circumstances, then by all means plant Salzer's Early Bird. Its crisp, brittle flavor, as well as its remarkable good growth and fine color, alike recommend it. The color of the skin is a rich scarlet, while the flesh is pure white, of such mild flavor, always crisp, juicy, tender and delicious. As it has a very small, short top, it is equally valuable for forcing or open ground, in favorable weather maturing Radishes in about 16 days, and if we ate our Radishes in America as small as they do in France this variety would produce Radishes fit for the table in 10 days.

Price of Salzer's Early Bird Radish: Big Package, 10c; 3 for 25c; oz., 20c; ¼ lb., 50c; lb., $1.25; 3 lbs., $3.00; 10 lbs., $9.00.



EARLIEST SNOWWHITE ICE RADISH.

2. EARLIEST SNOW WHITE ICE.

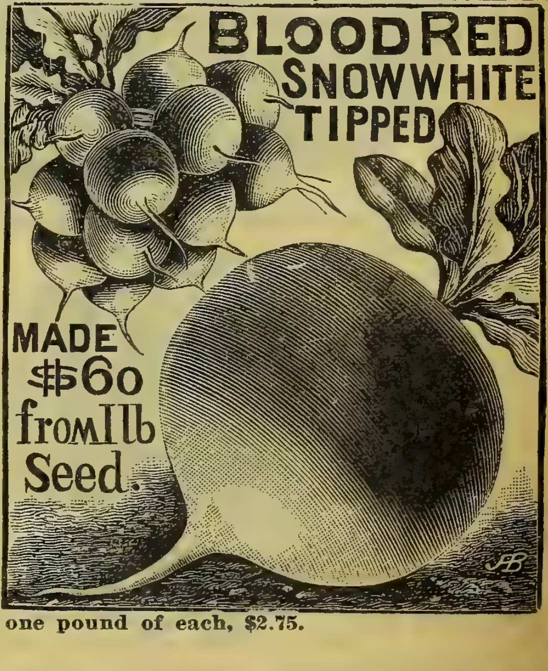
Here is the Radish that will bring you joy. It's **par excellence** in each and every respect. Its color is **pure white,** almost crystal, so clear and transparent. Its quality is superlative! It cannot be excelled except, perhaps, by Salzer's far-famed Early Bird Radish. It has a short top, is very rapid growing, fit for use in but 14 days, and sells at sight at an advanced price in all markets when once known.

Price: Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.25.

3. Blood Red; Snow White Tipped.

The Radish of your dreams. It is beautiful in the extreme. Its lively scarlet color points off to a pure white at the tip, giving it a delightful appearance. It's perfection itself when judged by quality and earliness. It's a producer. Each seed produces a fine, large, tender, juicy, delicious, very early Radish! These two new Radishes added to Salzer's famed Early Bird Radishes—are three sorts hard to beat!

Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.25.



PRICE OF ABOVE SALZER'S 3 GREAT EARLIEST RADISHES.

1 package each of the three, 20c; one ounce each, 40c; ¼ pound each, $1.00; one pound of each, $2.75.

SALZER'S EARLIEST WHITE RADISH.

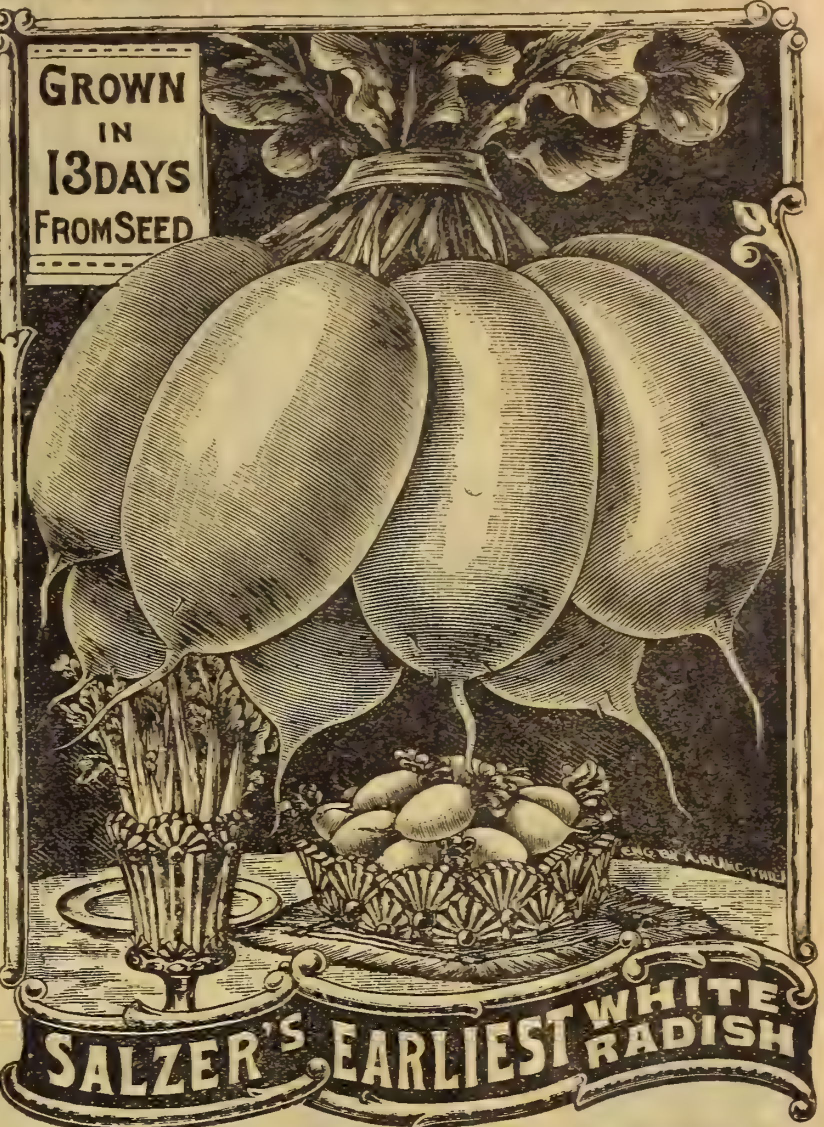
When we offered this new, extra early, extra fine, extra tender, extra juicy, extra quick growing White Radish, we had no idea it would so quickly capture the hearts and make fat the pocketbooks of the market gardener. We knew it was a fine Radish, a quick growing Radish, a quick selling Radish, but we did not dream of its taking hold of the people with such furor, as it is by all odds the finest, sweetest and tenderest of White Radishes.

It is an exceedingly quick growing, pure white in color. olive to round in form, yes, white as the new fallen snow. It is well adapted to all soils, and market gardeners who have tested same for the markets of Boston, Chicago, Philadelphia, San Francisco, St. Louis, New Orleans, Milwaukee, St. Paul, and, in fact, all the large markets of the United States praise it without stint, claiming that for an extra early, extra fine Radish, there is none that approaches Salzer's Earliest White. Indeed, this new Radish is finding its way into England, Scotland. Germany, and France, in fact, into all the markets of the world, and it has won its way simply on its own merits. It proves itself everywhere as the finest White, and absolutely the very earliest White Radish grown.

It is positively earlier than any other Radish grown, with the exception of Salzer's Flashlight and Salzer's Early Bird. These two varieties are of the same earliness. It is, as a market gardener of Philadelphia has well written, ten days earlier than the earliest Radish that he was able to obtain from New York or Philadelphia seedsmen, and that is the song of all of them. There is not a market gardener in America who has tested Salzer's Earliest White Radish, but what is free to say that it is from 5 to 15 days earlier than other seedsmen's earliest sorts. **YOU SEE**

For many years our work has been along the line of improving the quality of vegetables and shortening the number of days to make them fit for market. Thus we now have a Radish that is fit for market in **13 days** from the day the seed is sown. We have a Cabbage which ripens perfect heads in 55 days. Our **4th of July Corn** will produce splendid roasting ears inside of 60 days. Our Scorcher Pea is fit for use in less than 40 days, and we believe that the **John A. Salzer Seed Co.**, has quickened the ripening of Radishes, Peas, Lettuce, Beans, Tomatoes, etc., etc., from 5 to 25 days.

Price: Pkg., 10c; oz., 30c; ¼ lb., 50c; 1 lb., $1.25; 5 lbs., $5, postp'd.



Crimson Giant Globe Radish.

This is a new early turnip-shaped Radish, double the size of any of the early turnip-shaped type, and equally suitable for forcing or early planting out of doors. It is a rapid growing sort, developing roots of a beautiful deep crimson color, which vary in shape from round to almost oval, and often measure from 6 to 7 inches in circumference, weighing up to 1½ ounce per bulb, or about four times the weight of similar sorts; but nothwithstanding its immense size, does not get hollow or pithy, the flesh remaining sparklingly white, solid. crisp and juicy, and of the mildest flavor. The shape of the roots varies between round and almost oval, but the bright, deep crimson color of the skin remains quite constant.

80,000 RADISHES FROM ¼ ACRE.

This is the quickest selling Radish there is. It is particularly desirable at lunch counters, hotels and for family use on account of its giant size and delicious tender qualities and sells readily at 5c a dozen Radishes, as a dozen of these Radishes will go farther than 25 or 30 of any other varieties.

Of course, this Crimson Giant is not so early as Salzer's Early Bird or Salzer's Flashlight, but it is a magnificent Radish in every respect; splendidly adapted for the home garden and market. The flesh is the purest white, mild in flavor, firm and crisp, and entirely free from the hollow or pithy center. Good for market gardeners, for forcing or open ground culture. **Pkg., 10c; oz., 15c; ¼ lb., 40c; lb., $1.25, postp'd.**

NEW RADISH.☞

SALZER'S JUICY "FOOT LONG."

A great acquisition. A decidedly distinct, long, bright scarlet Radish of unusual juicy quality and length. The brightest and handsomest scarlet Radish grown. It makes roots fit for use in twenty-five days from time of sowing and remains in good condition until full grown, when it is large and crisp, yes, a foot long. Tops small.
Pkg., 10c; oz., 20c; ¼ lb., 35c; lb., $1.00.

YANKEE "WAY BACK" RADISH.

A hundred years ago in Connecticut and ever since there was grown in some of the best families, a long scarlet Radish with shading towards white at the tip that was always juicy, tender, delicious and free from pith and sharpness so much found in long Radishes today. This Radish we have called Yankee Way Back and we believe that everybody trying same will be delighted and pleased therewith. We know it, otherwise we would not offer same.
Price: Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.25, postpaid.

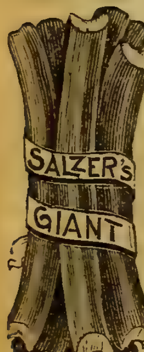
FLASHLIGHT RADISH.

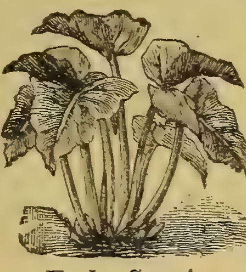
We think that Salzer's Earliest Radishes contain the cream of all sorts. There has certainly never any Radish been offered better than Salzer's Early Bird, but in our Flashlight we have a Radish of a different shape and form. Quick to ripen, quick to grow, tender, juicy, par excellence in every respect. We know that you will thank us for introducing Flashlight, the first, best of all Radishes of this class. The illustration gives an excellent idea of this splendid new Radish. A dish composed of same, prepared for the table, presents a most attractive appearance, and we advise every lover of this vegetable to grow same. In addition to their bright appearance, it is necessary to state that it is absolutely the earliest variety grown, next to Salzer's famous Early Bird and **Earliest White.** This variety has a very small top, which permits close planting—a great advantage when grown under glass or in the garden. It is quite smooth, deep scarlet in color, with a very small root. The flesh is crisp and of good flavor. (See cut.)

Big pkg., 10c; oz., 20c; ¼ lb., 40c; 1 lb., $1.20; 5 lbs., $5.00, postpaid.

PIEPLANT—Earliest Sweet.



Rhubarb.



Early Sweet.

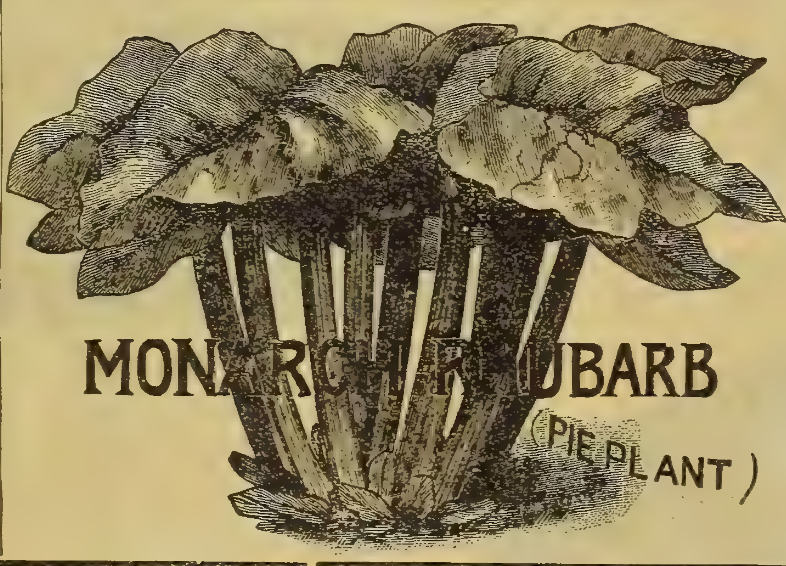
A novelty, red stems. very juicy and very sweet, much sweeter than the common kinds. It's a great novelty and the demand for same is very large. Pkg., 10c; oz., 35c; ¼ lb., $1.25; lb., $3.75.

Salzer's Giant—Very large, produces Pieplant the second year after sowing. Pkg., 10c; oz., 25c; ¼ lb., 75c; lb., $2.50.

Lineas Rhubarb—A variety of Rhubarb that is in great demand, and is largely sold in the East. Pkg., 5c; oz., 15c; ¼ lb., 50c; lb., $1.50, postpaid.

RHUBARB ROOTS—See also Page 51.
3 for 30c; 6 for 50c; 12 for 75c, postpaid.

RHUBARB.



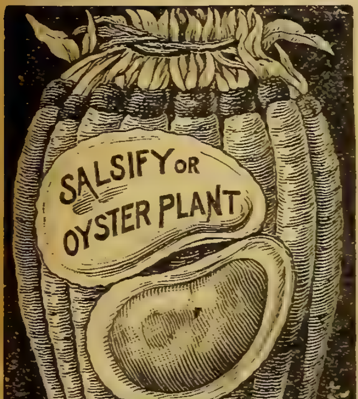
Salzer's Royal Monarch.

Colossal stalks frequently three to four feet long and three inches in diameter, and of a superlative quality. No other Rhubarb or Pieplant can equal this Royal Monarch in quality, in yield, in richness and earliness for so giant a sort. It's the greatest Rhubarb we have ever seen, and by all odds the best to grow for home or market use. It's very rich, spicy, juicy and of magnificent quality. The money maker **FOR THE MARKET GARDENER!** We have gardeners selling $100.00 worth from less than a quarter of an acre. The stems are so juicy, so heavy, so fine. They are in great demand everywhere.

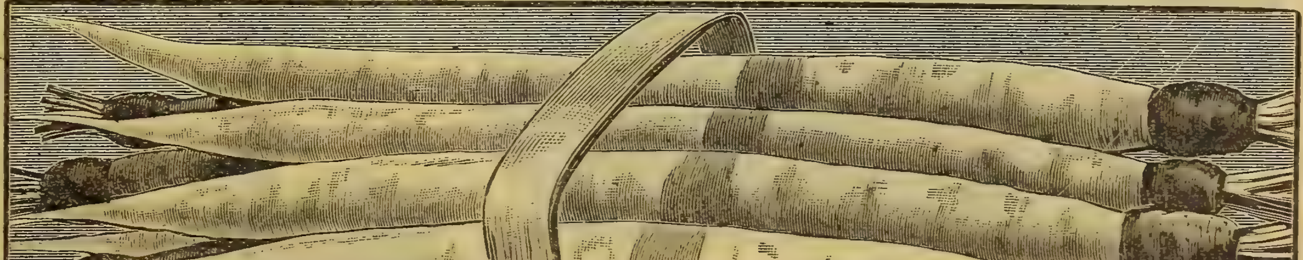
Price: Pkg., 15c; ½ oz., 25c; oz., 40c; ¼ lb., $1.50; lb., $4.00.

SALSIFY, OR VEGETABLE OYSTER.

"Thou Vegetable fit for the gods," and truly no vegetable is more rich and delicious than Salsify, the Oyster Plant. The soup and salad made therefrom have a delicious oyster flavor. No vegetable excels this for soups; that is, if you are fond of oysters. Of all sorts Salzer's Early and Salzer's Giant easily take the lead.



Salzer's Early.



SALZER'S GIANT SALSIFY.

Salzer's Early—Extremely early, rich flavored and large. Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.60.

Scorzonera or Black Oyster—Pkg., 10c; oz., 25c; ¼ lb., 70c; lb., $2.25.

Sandwich Island—Very large. growing double the size of other sorts. Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.60.

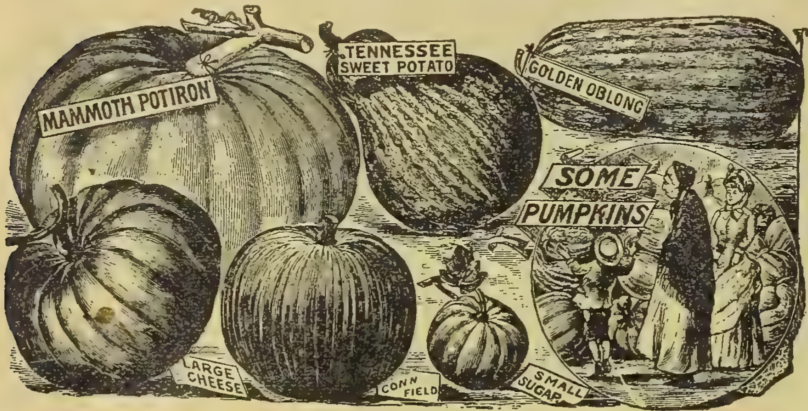
SALZER'S GIANT SALSIFY.

This is what we have been looking for—a real large, finely oyster flavored Giant Salsify. Here you have it. You will like it. "Fit for the gods." Rich and rarely flavored, of easiest possible growth and extremely heavy in yield. Price: Pkg., 10c; oz., 25c; ¼ lb., 60c; lb., $1.75; 2 lbs., $3.00.

PUMPKINS AND SQUASH.

It is a fact well known to market gardeners, that Northern grown Pumpkin, Squash, Melon, Cucumber, Cabbage and Onion Seed are worth 50 per cent. more for large yields and for earliness than Eastern stock.

Sweet Potato Pumpkin—Dry-grained, white and brittle, and of delicious Sweet Potato taste. Pkg., 10c; oz., 20c; ¼ lb., 30c; lb., $1.00.



Large Cheese—This is a magnificent Pumpkin and is a tremendous yielder. It will surely please you. Pkg., 5c; oz., 10c; ¼ lb., 20c; lb., 60c, postpaid; 5 lbs., or more by express, 40c per lb.

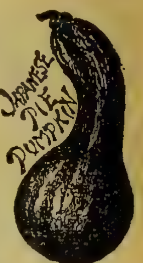
Mammoth Potiron—A giant Pumpkin. Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.50.

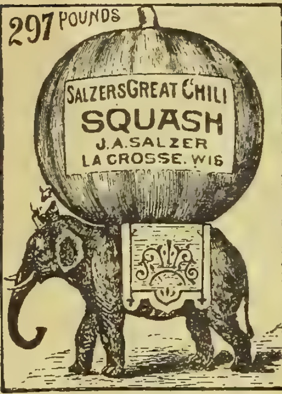
Golden Oblong—A well-known sort. Pkg., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.

Mixed Sorts of Pumpkins—All sorts mixed. Very fine. Pkg., 5c; oz., 10c; ¼ lb., 20c; lb., 45c; 10 lbs., by Exp., $3.50.

NEW JAPANESE PIE PUMPKIN.

The flesh is very thick, and of a rich salmon color, nearly solid, the seed cavity being very small in one end of the pumpkin; unusually **fine grained, dry and sweet,** having much the same taste and appearance as sweet potatoes, making pies as rich without eggs as other varieties do with. Pkg., 10c; oz., 15c; ¼ lb., 40c; lb., $1.25.





Great Chili Squash.
Pkg., 10c; oz., 20c.

WINTER LUXURY.

This we recommend as one of the best pie Pumpkins; an excellent keeper and enormously productive. It is very finely netted, and in color is a golden russet. Pkg., 10c; oz., 25c; ¼ lb., 50c; lb., $1.50.

A "PRIZE CONTEST."

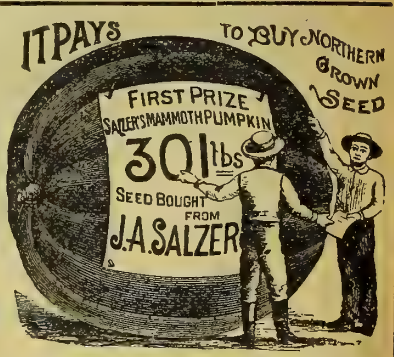
Here we have a Squash and a Pumpkin that for giant size can't be beat. We would like to see a Squash grown "bigger" than a Pumpkin. Which of the boys will do it and win the prize? $10.00 to the person growing the largest Pumpkin and $10.00 to the person growing the largest Squash. That is $20.00 you can make by growing a big Squash and Pumpkin.

SQUASH—Great Chili.

This is the Squash that is to beat the Pumpkin and where is the boy who will raise the biggest Squash known? The largest in 1909 weighed but 294 lbs. Boys and girls alike compete for the prizes. **Pkg., 10c; oz., 20c; ¼ lb., 75c; lb., $2.25.**

SALZER'S MAMMOTH PUMPKIN.

The heaviest in 1909 weighed 248 lbs. Just think of a field of these giants! It is the great prize-taker at fairs, etc. Give the boys and girls a chance growing them. $10.00 to the one growing the largest pumpkin. **Pkg., 10c; oz., 20c; ¼ lb., 60c; lb., $2.00.**



Salzer's Mammouth Pumpkin.
Pkg., 10c; oz., 20c; lb., $2.00.

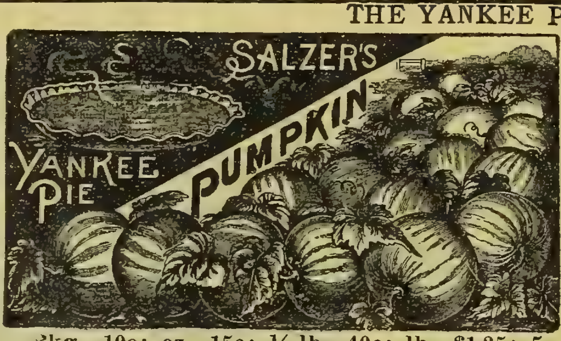
MIXED SQUASH SEED.

Here we have hit it! All of our Squash varieties and many more sorts we have mixed and put up in large packages. We find this mixture very popular, and after you see the great many sorts in all shapes, varieties, styles, oblong or round, flat or long, green, yellow, creamy, dark—yes, in endless colors and sorts, growing, you can from these select the sorts best adapted to your soil and climate. Large pkg., 10c; oz., 15c; ¼ lb., 25c; lb., 80c; 5 lbs., $3.50.

MIXED PUMPKIN SEED.

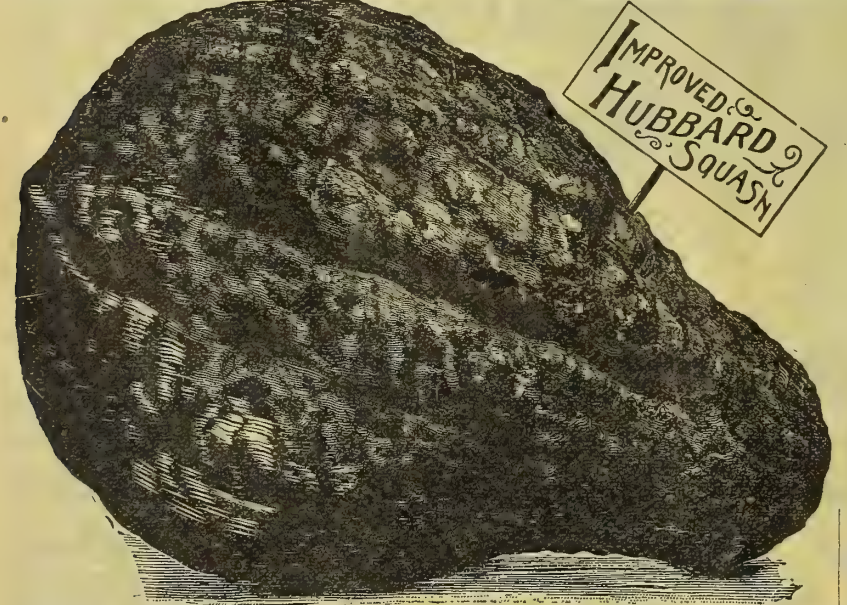
Lots and lots of Pumpkin seed. Mixed, all sorts and kinds. **Pkg., 5c; oz., 10c; ¼ lb., 20c; lb., 45c; 10 lbs., $3.50.**

THE YANKEE PIE PUMPKIN.



A splendid Pumpkin. We are sure that no Pumpkin ever introduced has given more genuine pleasure to our customers than this Yankee Pie. The Pumpkin is not large but it is of a delightful quality; just the quality to make excellent pies, such good old-fashioned Pumpkin pies as "mother used to make." We know you will like them, and know this variety will give you great satisfaction. It is remarkably prolific, yielding 6 to 12 medium-sized Pumpkins to a vine, of great excellence; flesh very thick; fine-grained, sweet, sugary, and of splendid quality for pies. It is the earliest pie Pumpkin we know of, and the best.

Pkg., 10c; oz., 15c; ¼ lb., 40c; lb., $1.25; 5 lbs., $5.00.



Salzer's Great Improved Hubbard Squash. Pkg., 10c; oz., 15c; lb., 95c.

SALZER'S IMPROVED HUBBARD SQUASH.

Clear the track! Here is the winner of every Squash raised for profit and quality. Our Improved Hubbard Squash is the great Winter Squash of the century. It is the Squash that has made several Market Gardeners rich to our knowledge. There is fabulous money in 10 to 20 acres of this grand Squash. Our Improved Hubbard is a careful selection of only the finest, most perfect fruit, and the result is uniform shape and size. The Hubbard is unquestionably the very best Winter Squash grown. Upward of 16,000 lbs., have been grown on an acre. The fruit is large, dry, fine-grained; flesh of excellent quality, and among all Squash the best keeper. A package furnishes enough for family use. Pkg., 10c; oz., 15c; ¼ lb., 25c; lb., 95c; 5 lbs. (sufficient for one acre), postpaid, $4.25.

Warted Hubbard Squash—Pkg., 5c; oz., 15c; ¼ lb., 35c; lb., $1.00.

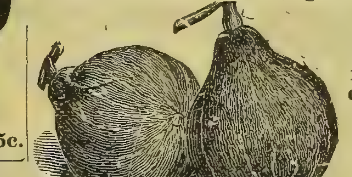
Golden Hubbard—A grand new Hubbard Squash of reddish, yellow rind. Pkg., 10c; oz., 15c; ¼ lb., 40c; lb., $1.00.

Price of the following 4 Squash sorts: Pkg., 5c; oz., 10c; ¼ lb., 25c; lb., 90c.

1. **White Bush**—Scalloped, early summer. The earliest.
2. **Yellow Bush**—Scalloped, early summer.
3. **Yellow Crook Neck**—Standard early.
4. **Pineapple**—This new variety has both skin and flesh of a pure creamy-white color, good quality, flesh very thick.

DUNLAP'S EARLY PROLIFIC.

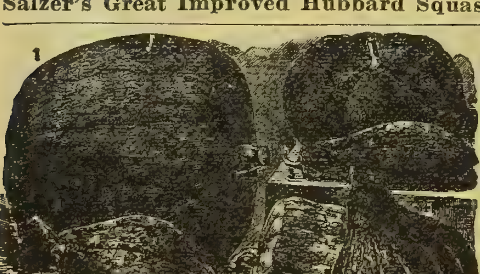
No variety can compete with it for earliness. Its color is a brilliant orange red, quality excellent; a good keeper. Pkg., 10c; oz., 15c; ¼ lb., 30c; lb., 95c.



The Faxon.

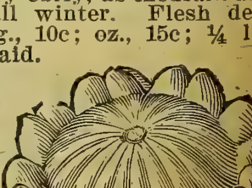
THE FAXON SQUASH.

Can be used as very early, as medium and late, as it keeps all winter. Flesh deep orange yellow. Pkg., 10c; oz., 15c; ¼ lb., 40c; lb., $1.10, postpaid.



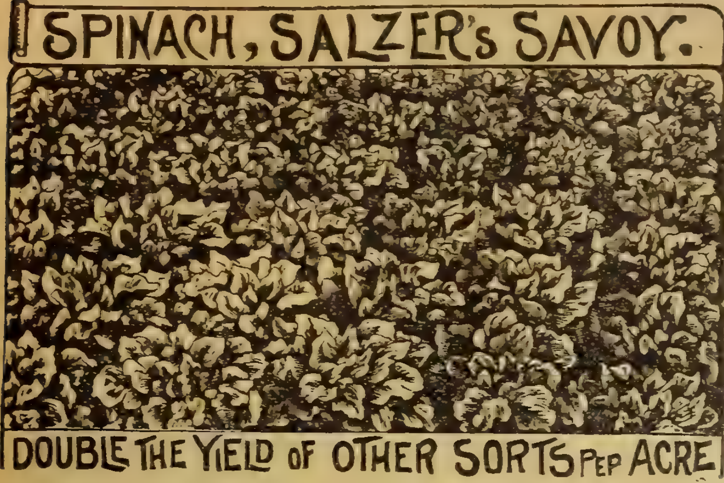
Price of the following nine Squash Sorts: Pkg., 5c; oz., 10c; ¼ lb., 30c; lb., $1.

1. **Bay State**—Color of skin blue-green; flesh deep, bright golden yellow.
2. **Mammoth Bush**—An excellent large strain. Creamy white and average double size; a prolific bearer. A splendid variety for southern shippers.
3. **Fordhook**—A bright yellow winter variety. The flesh is dry and sweet. Keeps sound until spring. Rapid, strong grower. Thick meat.
4. **Marble Head**—Flesh of lighter color than the Hubbard, while its combinations of sweetness, dryness and delicious flavor are really remarkable.
5. **Essex Hybrid**—A fine-grained, sweet, rich-flavored, best-keeping sort.
6. **Boston Marrow**—Fine, yellow, for fall use.
7. **Golden Custard**—Makes pies richer than common custard.
8. **Pike's Peak**—Splendid keeper. Its flesh is solid, thick, sweet.
9. **Perfect Gem**—Fine for summer and winter. Creamy white color, with fine-grained flesh.



Golden Custard.

SPINACH.



SPINACH, SALZER's SAVOY.
DOUBLE THE YIELD OF OTHER SORTS PER ACRE

SALZER'S SAVOY SPINACH.

This is the best spring, summer and fall Spinach we know of. It is very hardy, grows quickly and refuses to seed to a remarkable degree. It is grown now by thousands of Spinach growers.

$140.60 FROM ONE ACRE.

Last September I planted an acre to your Salzer's Savoy Spinach. I covered with coarse straw and this spring sold $140.60 worth of the finest spinach you ever saw.

June 24. E. G. Clugas, Kansas City, Mo.

Price by mail: Pkg., 10c; oz., 15c; ¼ lb., 25c; lb., 65c. By express: Lb., 50c; 10 lbs., $4.00.

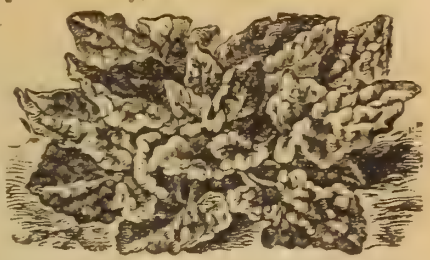
NEW VICTORIA SPINACH.

This new variety is distinguished for its exceedingly dark green color, and also for its very long standing qualities, being from two to three weeks later than the ordinary "long standing." The leaves are thick and spread out flat upon the ground. Pkg., 5c; oz., 10c; ¼ lb., 15c; lb., 35c; by express, lb., 25c.



New Victoria.

Round Summer—The finest round summer variety, tender and sweet, largely grown. Pkg., 5c; oz., 10c; ¼ lb., 12c; lb., 30c; by express, 10 lbs., $2.75.

Winter Prickly—A splendid fall and winter sort. Pkg., 5c; oz., 10c; ¼ lb., 12c; lb., 30c.

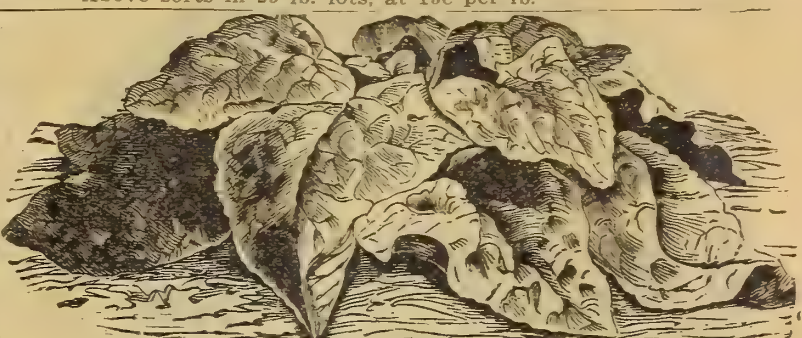
Long Standing—Stands long before running to seed, valuable on this account. Tender and sweet. Pkg., 5c; oz., 10c; ¼ lb., 12c., lb., 30c; by express, 10 lbs., $2.75.

Above sorts in 25 lb. lots, at 15c per lb.

NEW ZEALAND.

(Tetragonia expansa.)

This is **not** a Spinach of the ordinary type, but a plant of branching growth. The stems and leaves are soft, thick, fleshy and of a crystalline appearance. Started early in the spring, the plants will resist heat and make a strong growth during the summer. The young branches and leaves can be gathered at any time and prepared like Spinach. **Pkg., 10c; oz., 15c; ¼ lb., 30c; lb., $1.00. By express: Lb., 90c.**



New Zealand.

MOUNTAIN SPINACH. (Ozark.)

When once sown, this reseeds itself for years and furnishes tremendous qualities of a rich green spinach-like vegetable. Immensely popular in Europe. In Germany it is known as **Melden.** It is extremely early and very fine. Pkg., 7c; oz., 10c; ¼ lb., 20c; lb., 60c, postpaid.

SALZER'S NORTHERN GROWN JUMBO SUNFLOWER
SALZER'S NORTHERN GROWN JUMBO SUNFLOWER
FILLED WITH 10 TON SUNFLOWER COAL
20 CORDS SUNFLOWER WOOD PER ACRE.

SALZER'S JUMBO SUNFLOWER.

There is absolutely no waste of the crop. Every portion can be utilized. The seed is eagerly eaten by fowls, and they fatten thereon and lay more eggs than on any other food. It is relished by horses, and enables them to stand more work with less fatigue than if not fed therewith. Cattle, sheep, swine, etc., thrive and fatten thereon. The oil burns well, and 20 barrels can be made per acre. Outside of the feeding and health-giving properties of the Sunflowers, comes their great value as fuel; indeed, for treeless districts. nothing can excel it. A correspondent of the **Dakota Farmer,** says: "Having tried turf, coal, wood and sunflowers, I have settled upon the last named as the cheapest and best fuel for treeless Dakota. I grow one acre of them every year, and have plenty of fuel for one stove the year round. I plant in hills. the same as corn (only three seeds to the hill). and cultivate the same as corn. I cut them when the leader, or top flower, is ripe, and let them lie on the ground two or three days. In that time I cut off all the seed heads, which are put into an open shed with a floor in it, the same as a corncrib. The stalks are then hauled home and packed in a shed with a good roof on it."

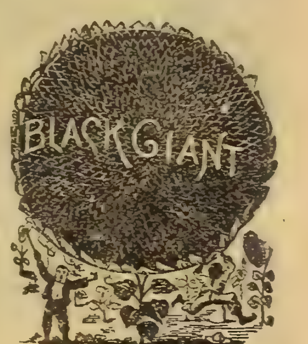
MAMMOTH RUSSIAN—Fine, large sort. Oz., 10c; lb., 35c; 10 lbs., by express, $1.50.

AFRICAN BLACK GIANT SUNFLOWER NOVELTY.

Specimens measure 9 feet in circumference. It is something wonderful. An acre is good to let hogs and cattle run in during summer for shade and nourishment, if not wanted for feed. If you have a dozen chickens you will find it profitable to plant a package; if you have more, plant an ounce or a pound, as it is the **healthiest** food in the world for fowls! One grower in Nebraska writes: "We are all right. Have 10 acres of your sunflower. This furnishes fuel and food for lots of chickens, cattle, swine, horses and sheep." Color of seed not regular, running black and white streaked with black. Pkg., 10c; oz., 15c; ¼ lb., 25c; lb., 50c; 5 lbs. (for 1 acre), $2.25.



WHITE BEAUTY SUNFLOWER.

After years of careful selection we are rewarded with a purely-bred Mammoth Single-head Sunflower with white seeds, which, on account of the deficiency of strong coloring matter in the outer covering of their hulls, are much superior to the darker sorts for stock and poultry food. **Pkg., 10c; oz., 15c; lb., 65c, postpaid.**

TOBACCO.

Wisconsin is taking the lead as a grower of fine Tobacco. Indeed, tobacconists from all over America buy here and pay fancy prices. The following 6 sorts find great sale in Wisconsin:

1. **Zwicken**—A rare popular variety. Pkg., 10c; oz., 50c; ¼ lb., $1.75.
2. **Spanish**—Used in enormous quantities. Pkg., 10c; oz., 40c; ¼ lb., $1.50.
3. **Wisconsin Hybrid**—Is extremely early and of fine leaf. This tobacco has taken many first prizes. It is very fine, early, and the leaf is much sought. Pkg., 10c; oz., 40c; ¼ lb., $1.00; lb., $3.00.
4. **Wisconsin Comstock Spanish**—It's a fact acknowledged by all Tobacco experts, that Wisconsin Tobacco is the equal, if not superior, to many Cuba growths! Surrounding La Crosse millions of pounds are grown annually. Our Wisconsin Spanish takes the cake, beats the band, is superior to many of the Cuba grown sorts, and brings higher prices. Pkg., 10c; ½ oz., 30c; oz., 50c; ¼ lb., $1.50; lb., $5.00.
5. **Salzer's Improved Havana**—Our importation. **Very fine, early. Pkg,10c; oz,30c; ¼lb,75c; lb,$2.60**
6. **Sumatra Wrapper**—The great tobacco for wrappers. Grows to perfection. Pkg., 10c; oz., 35c; ¼ lb., $1.00.

PRINCE BISMARCK. (See Cut.)

While in Germany we obtained Tobacco which was the favorite variety smoked by the great Chancellor. It is early and of excellent quality. (Stock scarce.) This sort did splendidly during the past summer in Wisconsin, Indiana, Illinois and the great West. It cures easily and is very fine. Pkg., 15c; ½ oz., 65c; oz., $1.00.

GENERAL GRANT. The earliest of all tobacco sorts. Pkg., 10c; oz., 30c; ¼ lb., 75c; lb., $2.75.

Cinnamon Scented—A fine Tobacco having the delightful cinnamon flavor. Pkg.. 10c; oz., 35c; ¼lb 85c; lb., $3.00.

Connecticut Seed Leaf—Pkg., 5c; oz., 20c; ¼ lb., 75c; lb., $2.00.

Missouri Leaf—Pkg., 5c; oz., 20c; ¼ lb., 50c; lb., $1.75.

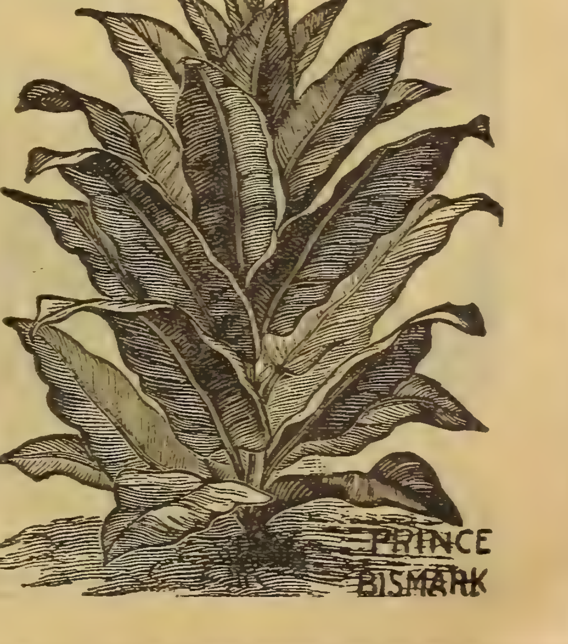
Yellow Orinoco—A splendid leaf Tobacco. Pkg., 10c; oz., 30c, ¼ lb., 75c; lb., $2.50.

Yellow Pryor—A sterling sort; early. Pkg., 10c; oz., 30c; ¼ lb., 75c; lb., $2.50.

White Burley—Greatly sought; early; large leaf. Pkg., 10c; oz., 40c; ¼ lb., $1.25; lb., $4.00.

Hyco—Has a great sale in the East. Pkg., 10c; oz., 30c; ¼ lb., 75c; lb., $2.50.

TOBACCO MIXTURE—It's unusually popular. Thousands of customers select their variety from this mixture, as it contains all of our splendid Tobacco sorts. Everybody praises this mixture. **Pkg., 10c; oz., 30c; ¼ lb., 75c; lb., $2.50.**



RUTABAGAS.

Salzer's Rutabaga and Turnip seeds enjoy an enormous sale on account of the sweet, juicy product of their crops. It will pay you to pay 20c to 50c a pound more for our seed than such as you buy in stores. Our seeds produce big crops of fine, sweet, juicy, rich Rutabagas.

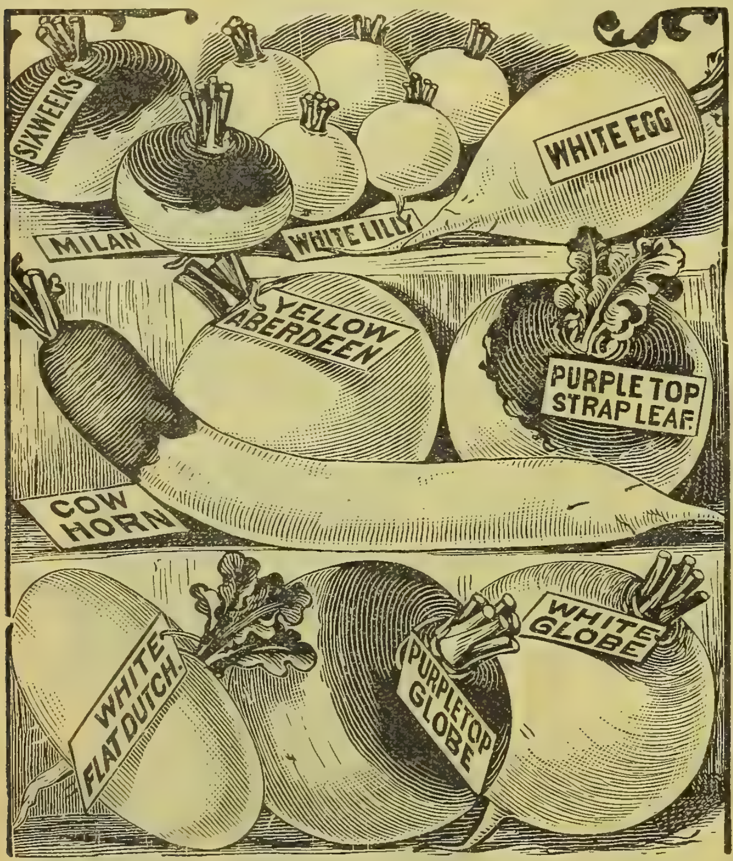
4. **Carter's Imperial**—A magnificent Rutabaga; largely used.
5. **American Purple Top**—Well known; largely used.
6. **Sweet German Rutabaga**—A splendid sort; well worth a trial.

MIXED RUTABAGA SEED.

There is a demand for mixed seeds, and especially so for Rutabagas. We have therefore gathered together our sorts, and several others we do not list, and made a great mixture. These many sorts give you an opportunity to test each kind and select the best for your next year's use. They are fine and of richest quality. Pkg., 10c; oz., 15c; ¼ lb., 20c; 1 lb., 45c; postpaid; by express, 1 lb., 35c; 10 lbs., $2.25.

TURNIPS.

A most profitable crop is the Turnip. A few ounces of early, medium and late sorts sown will give you several hundred bushels for food, feed and the market.



COW HORN TURNIP.

Let me tell you something, Mr. Farmer! In Cow Horn Turnip you have the best **"plougher," best deep cultivator** on the farm! It's better than a 12-inch deep plow! Cow Horn tunnels into the soil, often 24 inches deep, and brings up the good qualities and mixes it with the surface! It's a splendid turnip for house use, for the barn, as also as a fertilizer.

RED LIL

New White Egg Turnip.

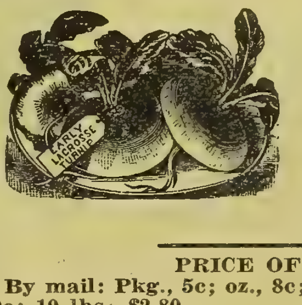
Our seed has been grown with great pains, and we believe it will satisfy the most critical market gardener. The White Egg is one of the best for a private garden, and meets with a ready sale in all large markets. In our estimation it falls a little short of the White Lily in quality. All in all, it is one of the most useful Turnips on the list. Pkg., 5c; oz., 10c; ¼ lb., 20c; lb., 75c.

White Lily Turnip.

White Lily—A beautiful, medium large round to oblong, pure white, tender, juicy, sweet, **very early** turnip. One of the finest early table varieties known. Pkg., 10c; oz., 20c; ¼ lb., 50c; lb., $1.25.

Red Lily Turnip.

An intensely red Turnip, of delicious flesh and splendid table quality. Pkg., 10c; oz., 15c; ¼ lb., 35c; lb., $1.25.



Early La Crosse.

Unquestionably the very earliest Turnip grown; a fine, pure white sort; purplish top, few leaves, of excellent flavor. This sort has taken every prize where exhibited for **very early.** Our Early La Crosse is justly popular. It has won its place by sheer merit. Its quality is superb, its earliness remarkable. 1. **Early Six Weeks**—About a week later than Early La Crosse. It is a very popular variety.
2. **Early Flat White Dutch**—Of rapid growth, tender and sweet.
3. **Purple Top Strap Leaf**—This is the standard purple top Turnip, growing to good size, excellent quality, sweet, juicy and tender; good for the kitchen or for stock.
4. **Purple Top Globe**—A superior variety much grown. It's splendid for stock and kitchen use.
5. **YELLOW ABERDEEN—A sweet yellow Turnip, being particularly adapted to table use. It is in many places used in place of a Rutabaga, and sells quickly when its excellent qualities are known.**
6. **Large White Globe**—The standard large Globe for house or stock. More seed is sold of this variety than any other sort except Salzer's Milk Globe. It's a great turnip and is in demand everywhere; sure to give satisfaction.
7. **White Stone**—A superior early sort; very fine.
8. **Orange Sweet**—Excellent variety.
9. **Yellow Stone**—Much prized, fine appearance and sweet.
10. **"Green Tops"** (for Greens)—Usually sown for lots and lots and lots of rich greens.

SALZER'S MILK TURNIP.

Well, there are upward of 50,000 people who have grown this great Globe Turnip the past ten years, and never a complaint and nothing but words of praise. You surely will join the procession if you but try this grand, juicy, tender Turnip.

In Salzer's Milk Globe you have the best white Turnip for winter use grown. It is globe-shaped, grows very large, of delicious flavor, sweet, juicy, white flesh, solid texture—in a word, **it is perfection.** Just the Turnip to grow for stock and to store for your kitchen. It is an enormous cropper, and sells well in the market.

TESTIMONIAL.

Geo. W. Phelps, Netarts, Ore., says:—"I sowed a half pound of **Salzer's Milk Globe Turnip** seed July 1, and gathered 560 bushels from the half pound of seed. One turnip weighed 20 pounds and measured 44 inches in circumference. I can recommend Salzer's Milk Turnip as being by far the best Turnip I have ever grown."

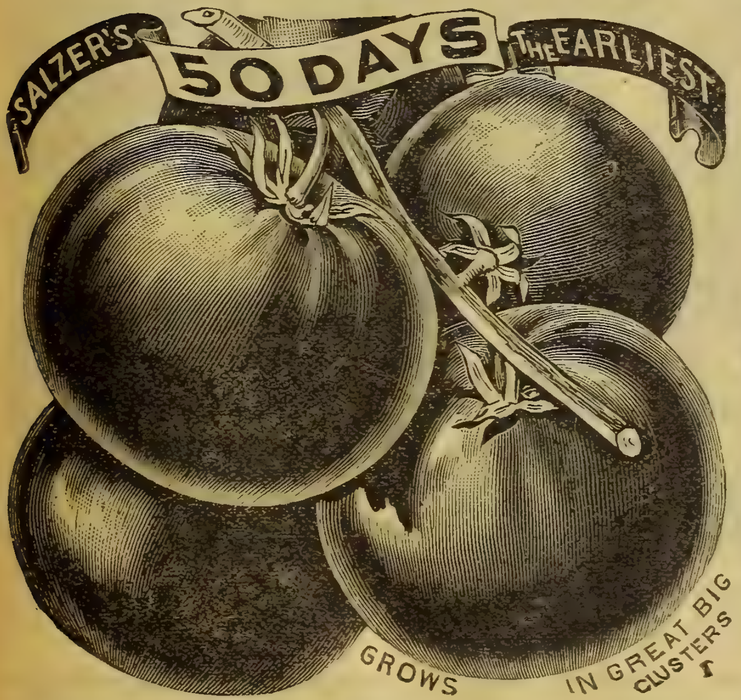
TOMATOES.



"50-DAY THE EARLIEST TOMATO."

As long as we can remember, there has never appeared a home-grown Tomato in our market earlier than Salzer's. Indeed, our Tomatoes have always been from 10 to 25 days ahead of other growers', excepting, of course, when they used Salzer's earliest varieties. When market gardening, we always made our money on earliest Tomatoes, Cabbage, Radishes, Onions, Melons, Peas and Corn. Now in this 50-Day the Earliest Tomato, we have something that is even ahead of Earliest of All, and that is saying a great deal. It was purchased from a gardener who demonstrated that his Tomato was earlier than our Earliest of All. **Think of paying $1.00 per kernel for 500 kernels.** We distributed a few of these kernels to our customers, who took great delight in same, and without exception praised them as the very earliest known. Our Earliest of All must take a back seat, for this 50-Day the Earliest is really earlier; indeed, it's the earliest Tomato on earth.

Nor is its extreme earliness its only virtue, for it is of large size, good color and delicious flavor. It does not crack and has no hard core. Color is a bright red, and though a little irregular in shape, the fruit is not rough.

It is safe to say it beats earliest sorts as Earliana, Peep o' Day, Chalk's Jewel—"Bonny Best" and the like from 4 to 15 days.

You all remember what a cold, backward April, May and June we had in our latitude, with scarcely a drop of rain for six weeks, and yet our gardener laid upon our table 50 Day, the earliest ripe tomatoes—July 5th—two weeks ahead of our trial tests of such splendid sorts as June Pink, Earliana, Chalk's Early Jewel! All were sown the same day, and planted the same day—all growing under identically the same conditions. The next quickest ripe was Salzer's Earliest of All, described on Page 79.

Price of Salzer's 50-Day the Earliest Tomato: Pkg., 25c; ½ oz., 60c; oz. $1.00; ¼ lb., $3.00.

TOMATOES, EARLIEST PEEP O'DAY.

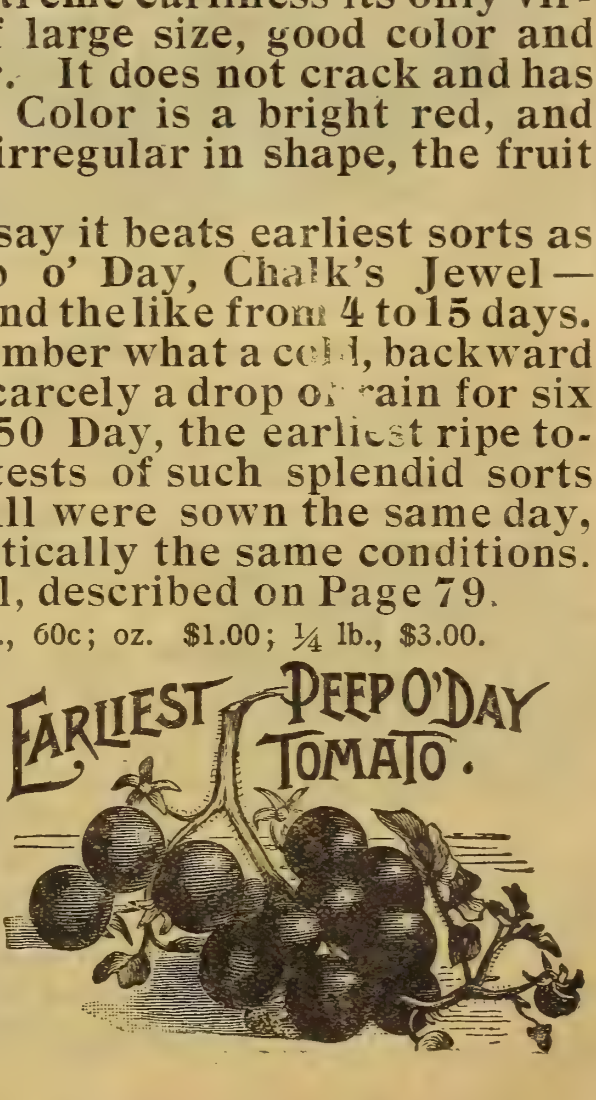
Next to our "50 Days," this is the earliest Tomato on earth. Yes, even earlier than Salzer's Earliest of All. Some of our growers, however, claim that there is only a few seconds difference in ripening, but for its uniform size, for beauty of shape, for abundance and richness of fruit, for its meaty, beefy quality, for its delightful color and extreme earliness we know of no Tomato that will compare with it. The nearest approach that we have in earliness (excepting our "50 Days" variety), is Salzer's Earliest of All, but we believe Peep O'Day ahead of everything else in earliness and in quality. We know that everybody giving same a trial this year will be more than pleased with the results. You cannot find its like anywhere on earth.

Pkg., 20c; ¼ oz., 50c; ½ oz., 90c; 1 oz., $1.75.

SPARK'S EARLIANA.

This Tomato is not only remarkable for its earliness but also for its very large size, handsome shape and bright red color. Its solidity and fine quality are quite equal to the best medium and late sorts. From less than 4,000 hills the originator realized from his first pickings $725.00 clear of freight and commission, being in the market fully a week before all others.

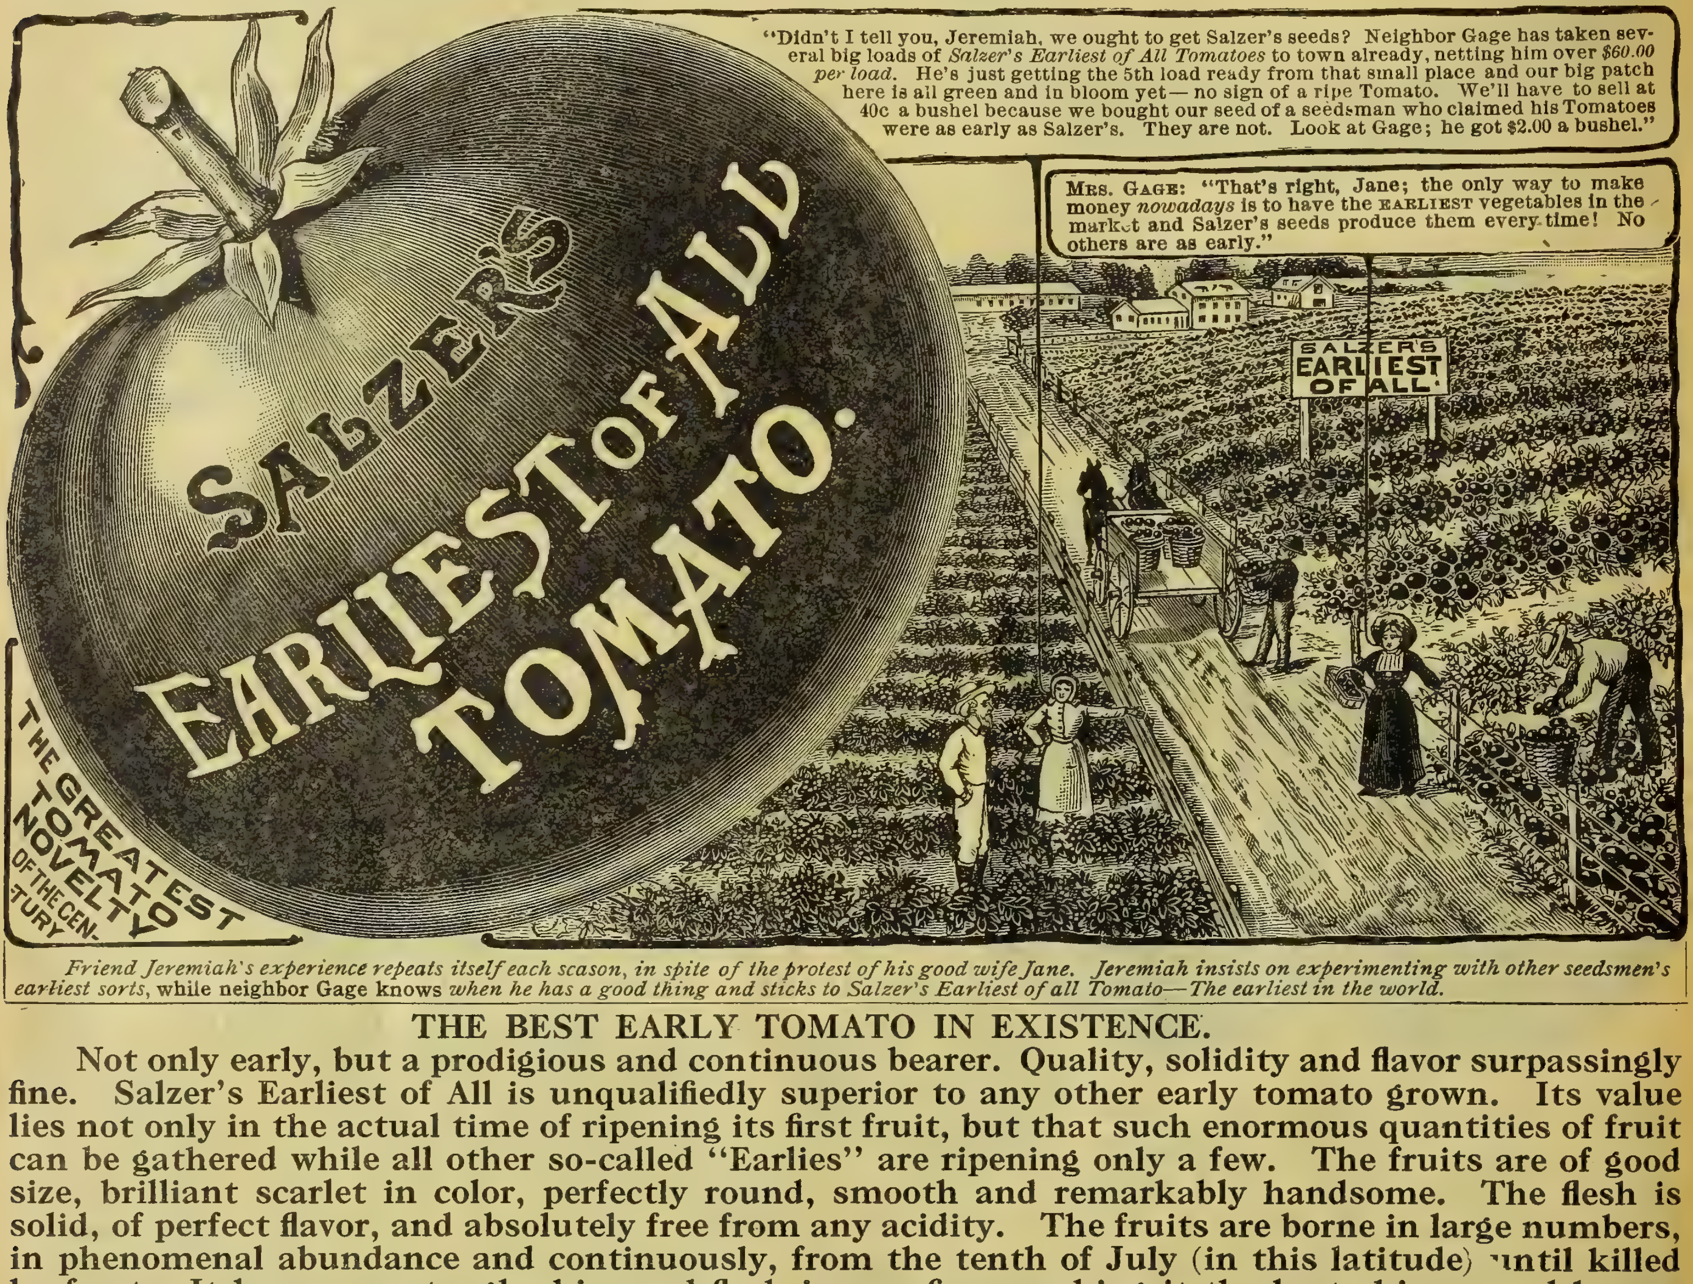
Pkg., 10c; ½ oz., 35c; oz., 60c; 2 oz., $1.00; ¼ lb., $1.40; lb., $4.00.



EARLIEST PEEP O'DAY TOMATO.

SALZER'S EARLIEST OF ALL TOMATO.

Today, 20 years after its first introduction to the American public, it is still the leading extra early tomato, and all its name implies: Earliest of All! The War is on! Salzer's Earliest of All--that great earliest (65 days) Scarlet Conqueror is met on the field of quickness and earliness by Salzer's New Crimson Robe---the earliest CRIMSON PURPLE colored, lightning ripener (Page 82). Each succeeding season adds thousands of warm friends to Salzer's Earliest; this wonderful novelty has stood the test of thousands of market gardeners and in private gardens the past seasons, and in each case carried off the palm of being absolutely the earliest. With us in the far North it has always been a study to produce extremely early vegetables, such as will ripen and produce perfect fruit in a short time. In our Earliest of All, a beautifully colored, finely flavored Tomato, we have one ripe in 78 days under general conditions, and in 65 days under special care, stamping it the earliest of all sorts known. The size is medium, perfectly smooth, and of delightful color and quality. We could fill ten pages with testimonials on this Earliest of All Tomato. Everybody who has tried it speaks of it only in highest praise. It cannot be excelled for earliness. It is ripe and sold at a high price in the market long before other sorts begin to ripen. This fact alone makes it extremely valuable to market gardeners and private families.



"Didn't I tell you, Jeremiah, we ought to get Salzer's seeds? Neighbor Gage has taken several big loads of *Salzer's Earliest of All Tomatoes* to town already, netting him over *$60.00 per load.* He's just getting the 5th load ready from that small place and our big patch here is all green and in bloom yet—no sign of a ripe Tomato. We'll have to sell at 40c a bushel because we bought our seed of a seedsman who claimed his Tomatoes were as early as Salzer's. They are not. Look at Gage; he got $2.00 a bushel."
MRS. GAGE: "That's right, Jane; the only way to make money *nowadays* is to have the EARLIEST vegetables in the market and Salzer's seeds produce them every time! No others are as early."
SALZER'S EARLIEST OF ALL TOMATO.
SALZER'S EARLIEST OF ALL
THE GREATEST TOMATO NOVELTY OF THE CENTURY

Friend Jeremiah's experience repeats itself each season, in spite of the protest of his good wife Jane. Jeremiah insists on experimenting with other seedsmen's earliest sorts, while neighbor Gage knows *when he has a good thing and sticks to Salzer's Earliest of all Tomato—The earliest in the world.*

THE BEST EARLY TOMATO IN EXISTENCE.

Not only early, but a prodigious and continuous bearer. Quality, solidity and flavor surpassingly fine. Salzer's Earliest of All is unqualifiedly superior to any other early tomato grown. Its value lies not only in the actual time of ripening its first fruit, but that such enormous quantities of fruit can be gathered while all other so-called "Earlies" are ripening only a few. The fruits are of good size, brilliant scarlet in color, perfectly round, smooth and remarkably handsome. The flesh is solid, of perfect flavor, and absolutely free from any acidity. The fruits are borne in large numbers, in phenomenal abundance and continuously, from the tenth of July (in this latitude) until killed by frost. It has a very tough skin, and flesh is very firm, making it the best shipper and keeper of the early varieties.

☞ Salzer's Earliest of all is Positively the Greatest Tomato Novelty of the Century. ☜

It is the only really first-class **scarlet earliest** Tomato in America to-day—by earliest we mean 6 to 18 days ahead of any and all other sorts! (We of course except the Fifty Days the Earliest, because that is earlier). We have so wonderfully improved **Salzer's Earliest of All Tomato,** that it is way ahead in earliness and quality as when first offered. Consequently it is with great pleasure that we offer our customers now a Tomato **of such superlative merit in that one feature, viz., earliness** (which is really the most important quality of all, not alone to the market gardener, but the home gardener as well). We, of course, anticipate an enormous demand for seed of Salzer's Earliest of All and Crimson Robe, so would advise all of our friends to favor us with early orders.

We have greatly improved it now, both in shape, yield, earliness and quality.

Salzer's Earliest of All is all its name implies, namely: THE EARLIEST TOMATO IN EXISTENCE, notwithstanding the claims made for Peep o' Day, June Pink, Earliana, Early Jewel, Early Richmond, etc., etc. It is positively the greatest of all earliest tomatoes, taking its proud place as the "Earliest of All," and what is more, it intends to hold this position if constant care and selection and improvement can make it! It will stay at the top---as the Earliest of All!

SALZER'S GREAT $5,000,000 TOMATO.

We are living in times of great things. Colossal fortunes are made and lost in a day; gigantic undertakings assume proportions in a night, and are carried out before the set ofsun. Huge ship canals and ocean greyhounds spring up apparently like mushrooms to carry out the great ends of present human advancement.

Mergers of railroads and industries are daily occurring, and it seems now as easy for the great financiers to raise a million dollars as it was in the days of our boyhood to raise $10,000. We feel not like moralizing today, but the present condition gives food for much thinking. Right along the line of colossal undertakings and gigantic combinations comes one in the vegetable kingdom that will startle, surprise and wonder you. It is

OUR FIVE MILLION DOLLAR TOMATO.

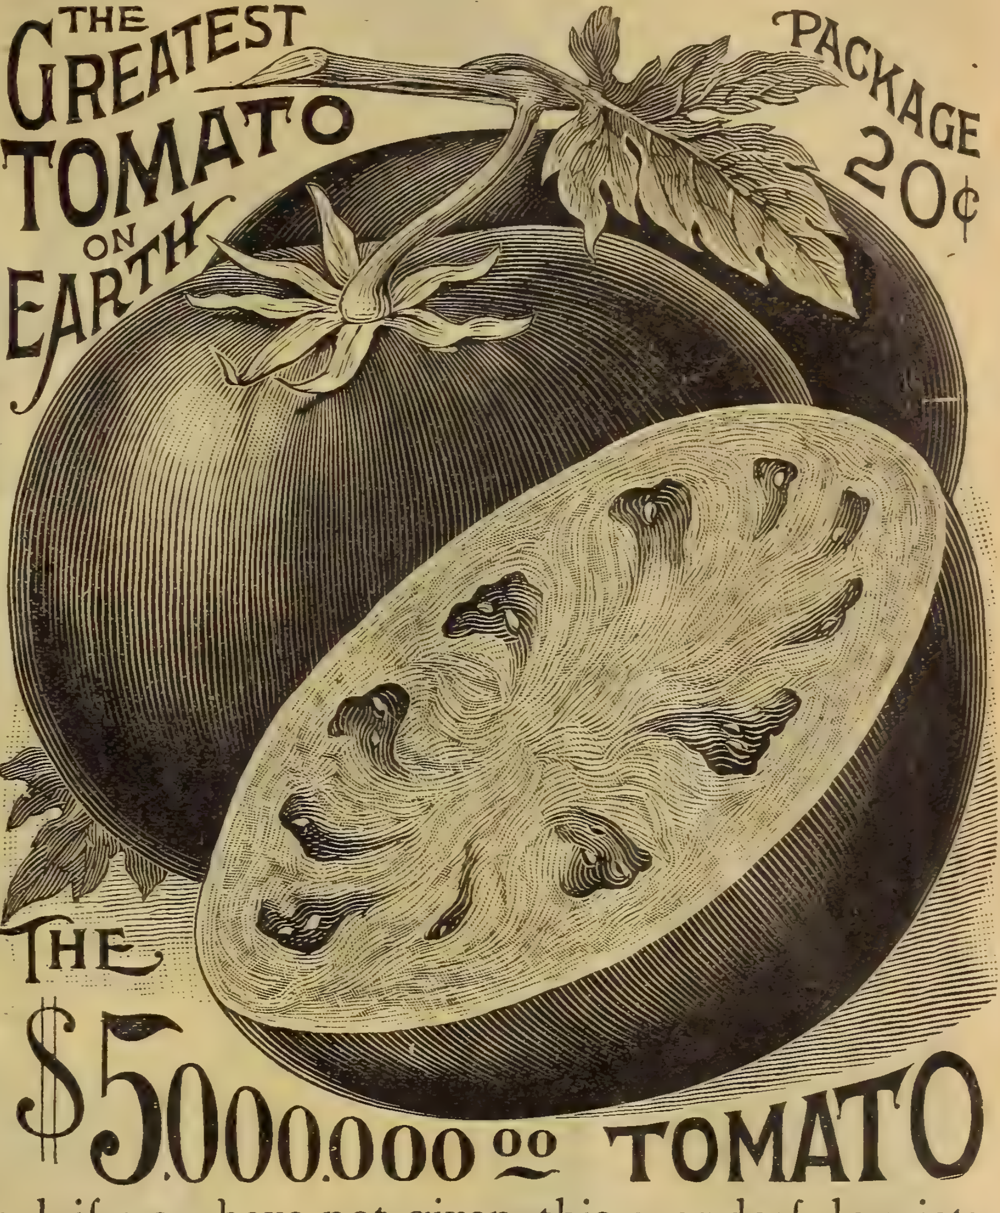
How is this? Hear the story as given by the introducer: "Come up and see my new Tomato. It's **colossal in yield, colossal in vigor, colossal in growth, colossal in size, colossal in earliness, colossal in flavor, colossal in quality**, colossal in price. If you want the seed it will cost you $50.00 a kernel. I have only a few kernels. It's a giant in size, sir; giant in earliness, giant in flavor and giant in price." We went, we saw, we bought.

Let's do some figuring. A pound of tomato seed has 100,000 kernels, which, at $50.00 a kernel, would mean $5,000,000—$5,000,000 a reason for the name, but here is another reason—a better one, that appeals more to the grower, more to the gardener, the private individual, the party who plants for his table or for market. There are $10,000,000 worth of canned and ripe fruit of the Tomato sold annually. They are today sent to every clime and country, and everywhere the demand for same is increasing. There are really only three or four good Tomatoes in the trade in use today (Salzer's Crimson Whirlwind and Salzer's Earliest of All are two of these four), and when we come with Salzer's New Five Million Dollar Tomato and rap at the door of public favor, we come without fear, knowing that this new sort is so immeasurably superior, so infinitely far in advance of any of the other varieties known to the trade of today, that we do not hesitate to offer same as absolutely the peer, the superior of all, yea, any and every sort or kind of Tomato known or grown to-day.

LAUGHS AT DROUGHTS.

This peerless Tomato, that contains more superior richness and flavor and excellence than any new sort introduced for years, has also the tremendous advantage of laughing at droughts and snapping its finger, so to say, at inclement weather. No matter how dry or hot or wet the weather is, this Tomato seems to grow and flourish and produce large, beautiful, thick, juicy-fleshed fruit.

Why, sir, if every Tomato planter and every canning factory would grow exclusively Salzer's $5,000,000 Tomato, they would grow from one-half to two-thirds more fruit—a finer fruit, a better fruit, a more richly flavored fruit—that thick, juicy fruit, that reminds you of a thick juicy porterhouse steak—that is the kind of fruit produced by Salzer's $5,000,000 Tomato; and this Tomato would add to the sales and income of the Tomato growers fully $5,000,000 annually. That is another reason for naming same the $5,000,000 Tomato.



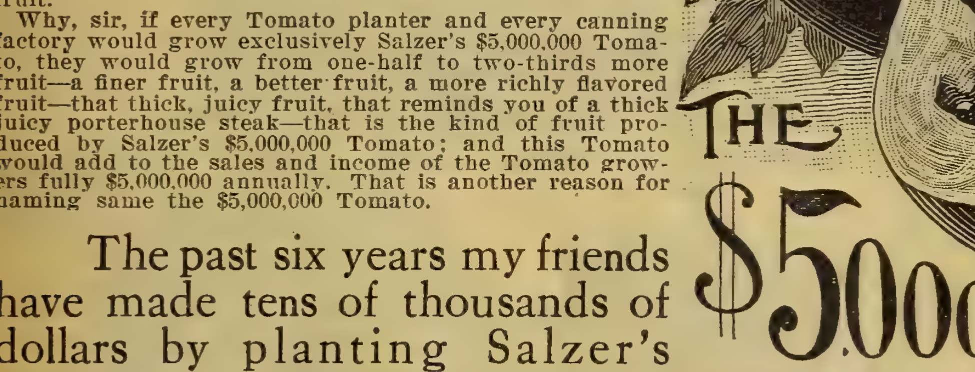
The past six years my friends have made tens of thousands of dollars by planting Salzer's Wonderful $5,000,000 Tomato, and if you have not given this wonderful variety a trial, you will neglect your own interests if you do not include it in your order for 1910. Salzer's $5,000,000 Tomato stands at the top as absolutely the very best tomato in America for truckers, market gardeners and money makers.

PRICE OF SALZER'S $5,000,000 TOMATO.

Pkg., 20c; 3 pkgs., 50c; ¼oz., seed, 35c; ½ oz., 65c; 1 oz., $1.10; ¼ lb., $4.00.

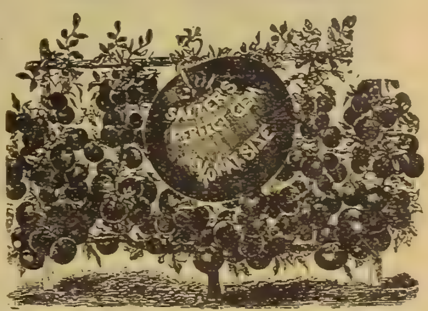
NEW JUNE PINK TOMATO.

The originator claims: "June Pink ripens as early as Spark's Earliana. Foliage closely resembles the Spark's Earliana, and many, not observing the fruit, would naturally think it was that variety. The fruit somewhat resembles Spark's Earliana in shape, but instead of being red in color, is a handsome, deep pink. It commands the very highest prices in the market, and the past season, when red varieties were bringing $1.25 to $1.50, June Pink was selling at $2.25 to $2.50 per crate." This Tomato, first offered in 1906, promises to be in great demand this season, especially with all those who prefer a pink tomato. I take pleasure in offering direct headquarters' stock. **Stock grown by Introducer: Packet, 10c; ½ oz., 35c; oz., 50c; ¼ lb., $1.25; lb., $4.00.**



Right here in La Crosse June Pink came nearly beating Salzer's Earliest of All.

PERFECT GEM TOMATO.



Thousands upon thousands of pleased patrons pronounce this the finest and best Tomato ever grown. Color, rich dark red. Remarkably solid, smooth and ripens evenly. It is almost an ever-bearing Tomato, bearing until killed by frost. It is a good shipper, does not crack, **an enormous yielder (80 lbs. from one vine)** and of the most delicious flavor. **Pkg., 10c; ½ oz., 25c; oz., 40c; ¼ lb., $1.25; lb., $3.**

CRIMSON WHIRLWIND TOMATO.

A Drouth Resister.

A very remarkable fact regarding this Tomato, in which it differs from any other variety that we know of, is, that it withstands drouth and dry weather in a remarkable degree. It does not seem to care and is indifferent as to rain, as it sinks its roots deeply and draws its nourishment and moisture from below. For this reason, if for no other, it should have a tremendous planting all over the United States, as there are many sections where Tomatoes, on account of the extreme drouth, do not do well, but the 1900 will be a boon to such planters, as drouth does not seem to affect it whatsoever. Thousands of customers praise it without stint. Thousands of planters say that they made five times more money out of this sort than of any other sort planted.

READ

this splendid testimonial from O. G. Bishop, Pontiac, Mich.—"As regards the extreme earliness of the Tomato, on April 13th, last, my Dwarf Champion and Improved Stone Tomato Plants had already been transplanted when the seed of your 1900 Tomato reached me. I planted same in flats at once and every seed came. Their growth from the first was astonishing. It was so rapid that they were ready to be transplanted in season and received the same care that other varieties did, but with the remarkable result that they fruited 4 days ahead of the dwarf Champion and 12 days ahead of the Improved Stone. Please bear in mind that these latter were large transplanted plants on the day when the seed of the 1900 was planted. The fruit of the 1900 is of fine color, very large and regular, in fact, all that could be desired. Another quality I wish to mention, which increases its yield, is its ability to resist drouth and not rot. The Improved Stone are now already rotting, but the 1900 is giving me fine, large, delicious fruit. I shall plant it very largely next year."

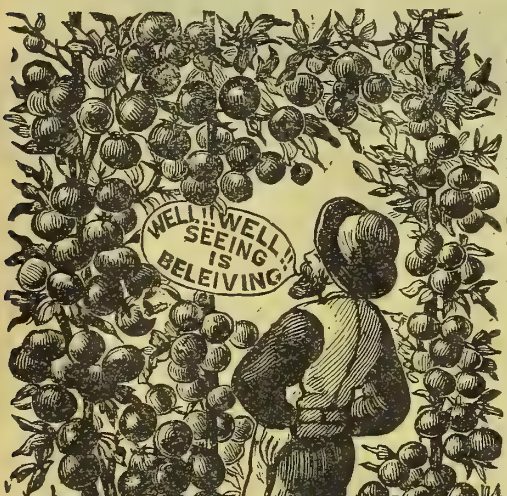
Salzer's Giant Tree Tomato.



WELL!! WELL!! SEEING IS BELEIVING
SALZER'S GREAT TREE TOMATO

Well, sir, we have seen the Salzer Giant Tree Tomato, grown for exhibition purposes, 15 feet tall! Regular climbing trees. It is really a remarkable Tomato, remarkable in size, remarkable for its excellent quality and remarkable that it should grow like a tree. We have seen fruit on a plant 8 feet tall, way out of reach of chickens, ducks, dogs, wet, soft weather, etc., etc., **weighing 3½ pounds,** of a most delightful quality, round, rich, luscious. Why, sir, fruit of Salzer's Giant Tree Tomato six inches in diameter and weighing 3½ lbs., is not uncommon, and such Tomatoes! Fit for kings. Luscious, meaty in the extreme.

Read this clipping from the Florida Telegraph.

Editor Telegraph:—I have a wonder in the shape of Tomatoes of the Salzer Giant Tree variety. They grew in my garden seven feet high, and a tree has tomatoes not yet ripe that are four and one-half inches in diameter. These trees have stood the drouth of this season well and did not have their growth checked; neither dry nor wet weather hurts this Tomato. I believe it will grow ten feet high and have fruit six inches in diameter. **This variety can be planted four feet apart each way, which will give 2725 plants to the acre, and they will produce one bushel to the plant. Just think of gathering 2725 bushels of Tomatoes off of one acre of land.** I think you will agree with me when I say it is a wonder. I have no seed to sell or any money to make, but I have the Tomato in my garden for all to see. I have the interest of the farmers of the county at heart when I get anything that will benefit them, and I let them know this to that they can profit thereby.

Lake Butler, Fla., June 27. Yours truly, D. C. CHASE, JR.

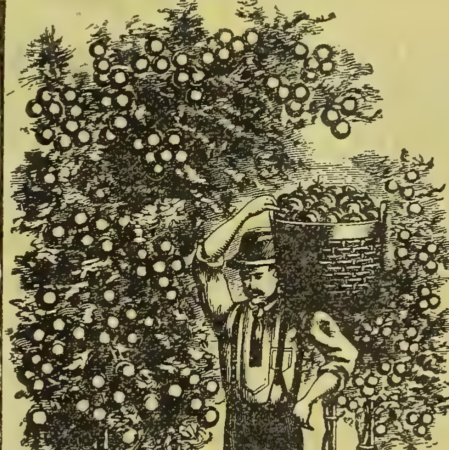
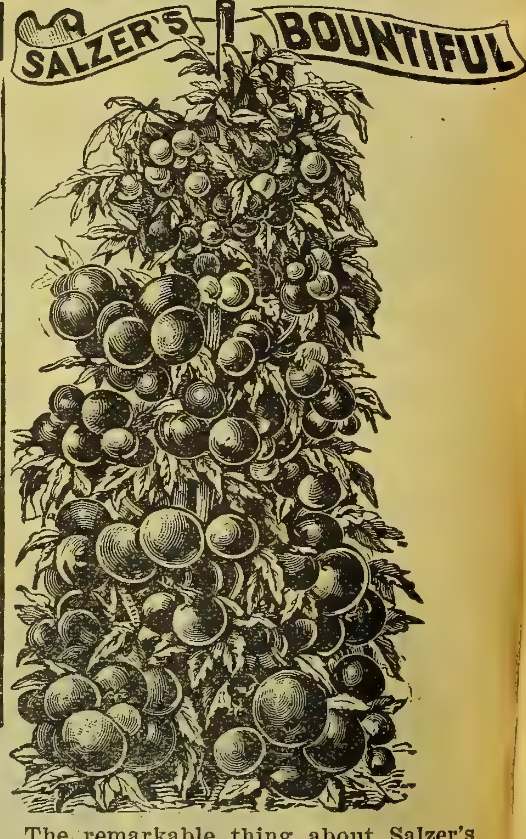
MANSFIELD'S TREE TOMATO.



Mansfield's Improved Tree Tomato.

The first Tree Tomato was introduced by Mr. Mansfield. Since then he has kept on improving and so have other seedsmen, and to-day we offer the best in the line of Mansfield's Improved Tree Tomato. We have seen this Tomato grow 13 feet high supported by trellises, and bear 150 lbs. of fruit per vine. The fruit is large, meaty, juicy, with but few kernels of seed. It is one of the greatest rarities ever offered.

Price: Pkg., 20c; 3 pkgs., 50c; ½ oz., $1.00; 1 oz., $2.00.

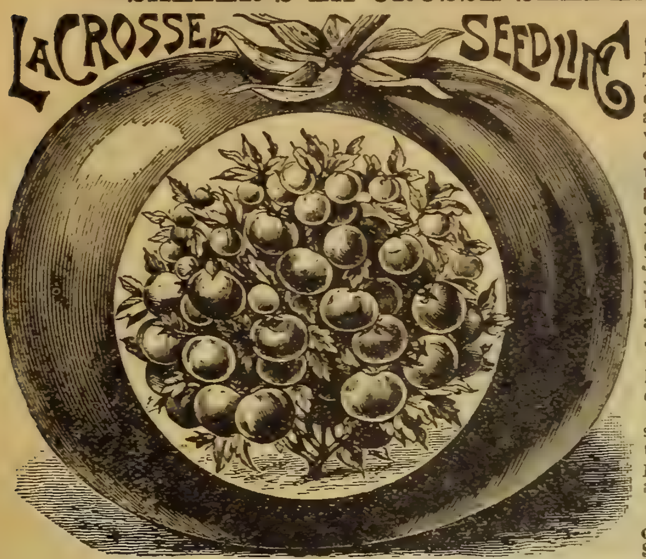


The remarkable thing about Salzer's Bountiful Tomato is its astonishing yield. Mr. Getnau produced by carefully tying up the plants to stakes 1,837 bushels of tomatoes from one acre. That was in Florida, the land of long days. The curious nature of this tomato is, it will ripen even if picked quite green and so you can ship same for a long distance. It's a splendid tomato. We have only 15 lbs. of this seed and you have to speak early to be sure of getting your supply. **Price: Pkg., 20c; ¼ oz., 40c; ½ oz., 75c; 1 oz., $1.40; ¼ lb., $5.00.**

MIXED TOMATO SEED.

A big package of all Tomato sorts known to us mixed in fine sorts, colors, shapes, etc. Splendid way to try dozens of different kinds. Price: Pkg., 15c; ½ oz., 50c.

SALZER'S LA CROSSE SEEDLING TOMATO.



In 1889, on trial grounds (where the year before we had tested many different Tomato Seeds), we discovered standing alone, upright and strong, heavily laden with rich, round reddish tinted fruit, a Tomato hill of unusual appearance and low-growing habit. As it was a chance seedling we thought nothing of it that its luscious fruit should ripen by July 25th. But the following year, when on a patch of over two acres the ripening fruit appeared the first week in July, of unusual size, very handsome appearance and delicious flavor, fit for a king, our surprise and pleasure were great. On its extra strong stalks the fruit hangs thickly and closely, and 4,000 plants can be placed to the acre.

NEW TOMATO—SALZER'S GOLDEN GLORY.

For many years there has been an inquiry for a first-class yellow Tomato, in every respect an equal to the many splendid red varieties that are grown, and in our efforts to produce same we have tested every possible variety known. We now offer in Golden Glory what we believe to be by all odds the finest yellow Tomato grown. We know that its excellent quality, its fine grain, its lusciousness, its large yield, and its power to withstand rot, will give it a place at once in every market gardener's field and in every city garden.

SALZER'S CRIMSON ROBE TOMATO.

There is a war in the Tomato camp. Salzer's Earliest of All and Salzer's New Crimson Robe are at war. They are rivals. One is bright, shiny, scarlet red: the other deep, **crimson purple.** One is ready for use, it says, in 65 days, the other is crowding it in 68 days. There are thousands upon thousands of market gardeners who will try these two sorts side by side, this year, and there will be war to the knife between the two as to which will ripen the quickest, produce the most salable and highest priced fruit. **Salzer's Crimson Robe** is ready for the fray. It has got stuff in it. The Tomato is meaty, beefy and solid, of excellent flavor, splendid shipping qualities, and besides this it is of a magnificent color, **crimson purple.** Salzer's Earliest of All is equally ready for the battle and believes that it can produce its bright scarlet, round, rich fruit in a shorter space of time. **Crimson Robe** is surely the **earliest of all crimson, purple colored varieties. Price of Crimson Robe Tomato: Pkg., 20c; ½ oz., 35c; 1 oz., 60c; ¼ lb., $2.00. 1 pkg. each of these two rivals, 35c; ½ oz., each, 60c; 1 oz., each, $1.00.**

CRIMSON CUSHION TOMATO.

A new race of Tomatoes of very large, uniform size, smooth as an apple, very prolific, very long bearing, an excellent keeper and of the finest quality. SALZER'S NEW IMPROVED PEACH TOMATO.

We are safe in saying that no second Tomato has attracted more attention, or won more first prizes at country and state and district fairs than Salzer's Improved Peach Tomato and there is a reason for this. Imagine a Tomato that at first glance reminds you more of a fine, good sized Peach than anything else, and you have Improved Peach Tomato. The Improved Peach Tomato has a beautiful Peach-like color that resembles the delicate bloom of a Peach; it is twice as large as the old sort. Skin is remarkably thin, and can be peeled like the skin of a Peach. We know of nothing that will attract the attention of visitors to your garden to so great an extent as a few vines of this Improved Peach Tomato, as it is astonishing how few people know that they are Tomatoes at first glance. **Pkg., 15c; ½ oz., 25c; oz., 40c; ¼ lb., $1.00.**

YELLOW PEAR TOMATO.

If we had but one Tomato for pickling purposes or preserves we believe we would select our Yellow Pear. 4 Giants.

LOGAN'S GIANT SEEDLING
THE LARGEST TOMATO
EVER GROWN!
WEIGHS OVER 5 TONS! TO THE ACRE
ADMISSION 20 CTS PER PACKET
ON EXHIBITION AUGUST 1ST EVERY YEAR.

1. LOGAN'S GIANT TOMATO

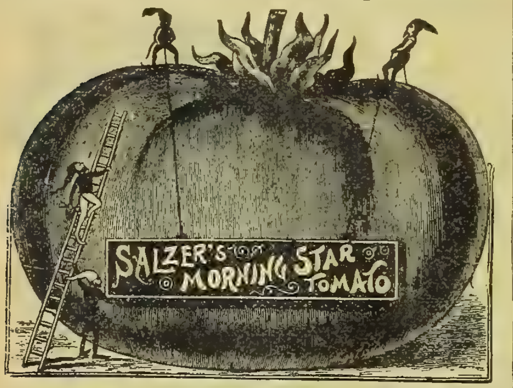
Logan's Giant is without question one of the great Tomatoes of to-day. Of it a grower says:

The Largest, Most Solid, Most Productive, Best Quality Tomato.

These few words describe this great Tomato. Others claim wonderful properties, offer prizes to induce big reports, but our **Logan Giant Seedling** comes out victorious every time. If you think you have tried the largest Tomato, try this one now, and you will see that you did not have the largest and best heretofore. It is not only a new variety, but we claim for it in point of productiveness, size of fruit, exquisite quality and flavor, as well as early ripening, **the best Tomato extant.** They grow to weigh over 3 pounds **each** and attain the enormous circumference of 2 feet. This Tomato is not like many others, one-third seeds and water. They are a great solid ball of tender, delicious meat, **with very few seeds.** They have frequently sold at 15c each in competition with other kinds at 35c per bushel. If the vines are trained on a support they will grow 5 to 10 feet high and be loaded with the finest fruit you ever placed your eyes on.

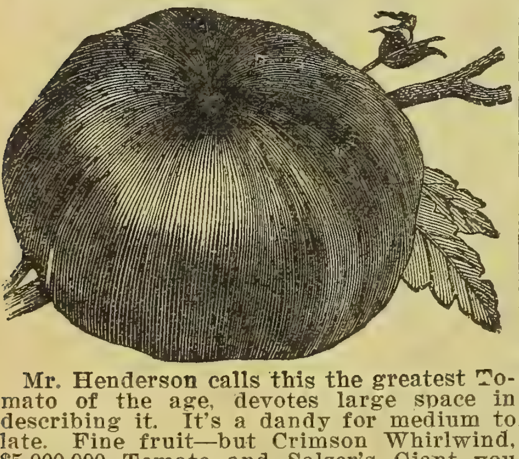
Price: Pkg., 20c; 3 pkgs., 50c; ½ oz., 75c; oz., $1.25; ¼ lb., $3.50.

3. THE MORNING STAR.



Thousands say this is the largest Tomato they have ever seen. They praise the quality, which is delicious in the extreme; they marvel at their size, their perfection of form, and their enormous productiveness. Specimen Tomatoes weighed as high as 4½ lbs., while the average weight reported was more than 13 ounces. The fruit ripens evenly, color is brilliant red, with very solid flesh of delicious flavor. **Pkg., 20c; 2 pkgs., 30c; ½ oz., 40c; oz., 75c; ¼ lb., $2.00; lb., $7.50.**

4. HENDERSON'S PONDEROSA.



Mr. Henderson calls this the greatest Tomato of the age, devotes large space in describing it. It's a dandy for medium to late. Fine fruit—but Crimson Whirlwind, $5,000,000 Tomato and Salzer's Giant you will say beat it two to one! Pkg., 10c; oz., 40c; ¼ lb., $1.50; lb., $4.00.

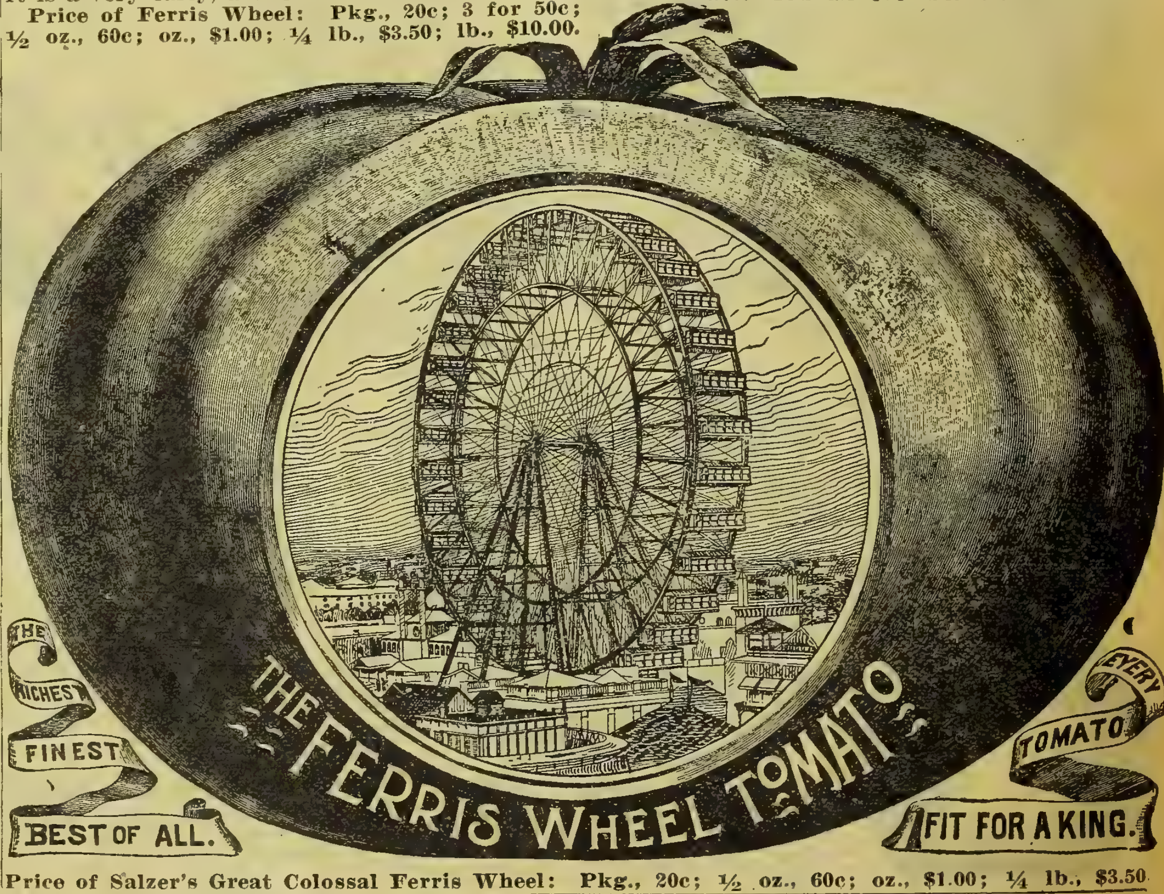
2. SALZER'S FERRIS WHEEL TOMATO.

Tomatoes of this monster, this leviathan, this giant, have been **grown** weighing **5 lbs.,** and measuring almost **2 feet in circumference.** We studied for an appropriate name and finally concluded to name it Ferris Wheel Tomato, in honor of one of the greatest inventions of the age. This Tomato possesses every good quality to be found in a Tomato. The vines are strong and vigorous and easily bear their enormous weight of fruit, and when we come to giant size, weight, solidity, no other Tomato begins to approach it.

I. J. Schaeffer, New Mahoning, Pa., says: "Salzer's Ferris Wheel Tomatoes are immense. I raised them weighing 3¾ lbs. I sold them at 40c a basket; other farmers sold their kinds at 20c a basket. Salzer's Tomatoes brought 100 per cent more.

W. W. Locher, New Castle, Pa., says: "For the past eight years I have been a Tomato specialist. I have tried every known variety, and I want to say that I unhesitatingly and unqualifiedly pronounce **Salzer's Ferris Wheel** in all particulars the finest Tomato I have ever grown or tested. It is the most prolific, the finest flavored, the most solid and beautiful of them all. It is a very early, a fine medium and a splendid late Tomato. It's an ever-bearer."

Price of Ferris Wheel: Pkg., 20c; 3 for 50c; ½ oz., 60c; oz., $1.00; ¼ lb., $3.50; lb., $10.00.



Price of Salzer's Great Colossal Ferris Wheel: Pkg., 20c; ½ oz., 60c; oz., $1.00; ¼ lb., $3.50

MIXED TOMATO SEED.

A big package of all Tomato sorts known to us mixed in fine sorts, colors, shapes, etc. **Price: Pkg., 15c; ½ oz., 50c.**

Salzer's Superior Northern-Grown Farm Seeds.

We are American Headquarters for Farm Seeds, growing more Barley, Buckwheat, Corn, Oats, Wheat, Flax, Potatoes, Grass and Clover Seeds, etc., than all Western seedsmen combined. This we do in the extreme North owning and controlling large farms in Wisconsin, the Dakotas and other Northern points.

We have, by actual test, learned that our Seed Wheat, Barley, Corn, Grasses and Clovers, Oats and Potatoes, etc., taken from our farms and removed to Iowa, Ohio, New York, Nebraska, Kansas, Illinois and other states, increased the yield fully 50 per cent—yes, ofttimes more than doubled the yields!

With the liberal support and hearty co-operation of the farmer, we shall in the future, as in the past, urge onward in the fields of new seed tests and experiments, believing that if we can get a new sort to produce two bushels where one formerly grew, we are doing the farmer a great good. Our success in this line has been **signal, and the farmer stands by us, for our seeds are recognized for their superior quality the world over.** We have introduced new Oats, Barley, Corn, Potatoes, Buckwheat, Rutabagas, etc., that have increased the average **yield** largely; yes, often doubled it!

PREMIUMS ON FARM SEEDS, See Page 139.

FREIGHT RATES FROM LA CROSSE, WIS., DEC. 1, 1909.

Per 100 lbs., in sacks, barrels or boxes, less than carload lots.

3d Class: Clovers and Grass Seeds, Garden Seeds, Potatoes and Tools usually go as third class.
4th Class: Corn, Oats, Wheat, Barley as fourth class.

With this table it is easy to ascertain approximately your freight rate. Thus, if you lived in Iowa, anywhere within a radius of 80 miles of Le Mars, rate should be the same as the Le Mars rate, or, if you resided anywhere near Galesburg, Ill., you should take the Galesburg rate, or, if you lived within 80 miles of Lincoln, Neb., the rate should be no more than the Lincoln rate, etc., etc.

The railroad companies reserve the right to change these rates without notice, though changes are rarely made.

Salzer's Great Seed Elevator at La Crosse, Wis.

OUR NEW SEED ELEVATOR.

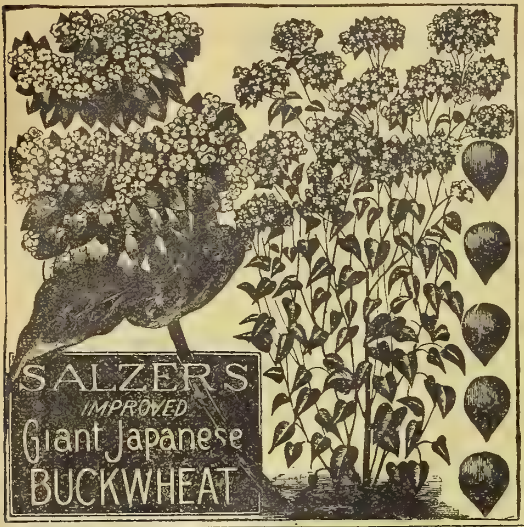
We think our customers will be interested in the illustration herewith of our new Grass, Clover and Grain elevator. This elevator is the only one of its kind in America. It has a cleaning and storing and sorting and carrying capacity of

3,600,000 BUSHELS ANNUALLY.

Its internal arrangements and doings are almost human and we consider it the only one of its kind in America. Here we receive our Grasses and Clovers and Cereals and sort and clean and care for same and put them in perfect shape for our trade. In this elevator are found cleaning and drying and sorting machinery, many of them are our own methods and ideas and others the best machinery that are found in any seed establishment in the world.

It is the aim of the John A. Salzer Seed Co. always to deliver the purest and cleanest seed that can be grown and hence we not only take great care of our farms to have the seed free from dirt and weeds, but also in our sorting and cleaning machines we endeavor to take out the last vestige of a foreign seed.

When you pass through La Crosse we shall be glad to have you inspect our Seed Houses, Warehouses, Elevators, etc.



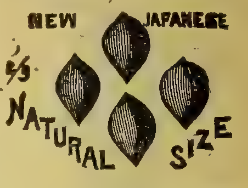
BUCKWHEAT.

Prof. Moore of the Madison Agricultural College urges and begs farmers to plant more Buckwheat. It pays, it pays handsomely. Buckwheat will even do well on lands low in nitrogen. Buckwheat pays, try it for this summer.

NEW CALCUTTA BUCKWHEAT.

This variety comes from India, and rivals the celebrated Japanese Buckwheat in productiveness, yielding 74 bushels per acre. Its kernels are smooth and fine, and it is in great demand as a milling Buckwheat. **Pkg., 5c; lb., postpaid, 30c; by freight, pk., 50c; bu., $1.50; 2½ bu., $3.60.**

NEW JAPANESE BUCKWHEAT.



This is the most wondrously prolific, hardy Buckwheat known. A yield of 60 bushels per acre is common, while it frequently yields as high as 80 and even 100 bushels. It is a long bloomer, the kernel more than double the size of other varieties; splendid for Buckwheat flour. **Pkg., 5c; lb., postpaid, 30c; by freight, pk., 50c; bu., $1.35; 2½ bus., $3.20.**

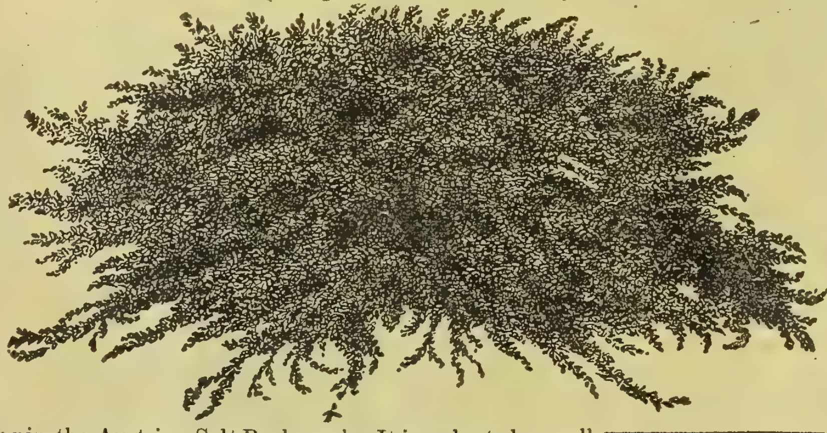
Silver Hull Buckwheat—Blooms longer, matures sooner. Grain of a beautiful light gray color, while hull is thin. Exceptionally fine for bees. Flour of unusual richness. **Pkg., 5c; lb., 25c; by freight, pk., 40c; bu., $1.40; 2½ bu., $3.35.**

ICELAND BUCKWHEAT.

Great novelty, claimed to be **three weeks** earlier and **three times** as productive as other Buckwheats. A rare Buckwheat, and those of our customers who planted same in a small way during the past summer, are much pleased at the big results attained. Sow ½ bu. per acre. **Pkg., 10c; lb., 35c, postpaid. By freight, pk., $1.25; ½ bu., $2.20; bu., $4.00.**

AUSTRALIAN SALT BUSH.

(Atriplex Semibaccatum.)



Come here, my friend, you who live in Montana, Idaho, Wyoming, Nebraska, Colorado, Minnesota, Kansas, in fact in every state in the Union, but particularly in those first named, and listen, while I tell you of the tremendous possibilities that lie slumbering in the Austrian Salt Bush seed. It is a plant above all other plants for alkali soils as it seems to eat out of the soil that salty substance which is so detrimental to the growth of vegetation.

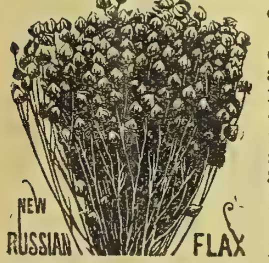
The plants have a diffuse habit of growth, each one, when fully developed, covering an area of 3 to 4 feet in diameter. It is much relished by stock, and supplies the salt so necessary to their wellbeing. Its greatest recommendation is the fact that it will thrive better on alkali land than on any other. It is proved by analysis to be very nutritious and contains, when dried, from 8 to 10 per cent of salty matter. The yield is about 20 tons of green fodder per acre, which will make 5 tons of hay. The plant is perennial; if intended for a grazing pasture, it is better not to cut it the first year, but let the seed fall and thus form a sod. **Price: Pkg., 10c; oz., 20c; 4 oz., 50c; ½ lb., 90c; 1 lb., sufficient for one acre, $1.50; 10 lbs., $13.50, postpaid.**

FLAX.

SALZER'S RUSSIAN FLAX.

This seed came from Russia, the home of tremendous Flax yields, the land of strong, hardy, vigorous, prolific Flax fields, the place where Flax produces all the way from 40 to 75 per cent more per acre than here in America.

Our seed is 4 years from Russia, that is, it has been grown in this country 4 years. It is thoroughly acclimated and is ready to show you what it can do.



Growing Flax pays. It pays big, even, if you plant but 1 or 5 or 10 acres. Our Russian Flax is immense. It beats anything we have ever tried; beating Primost Flax nearly 10 bushels per acre in 1909 and going No. 155 or North Dakota 8 bushels better! and that **on a** pretty large area.

It is singularly free from disease and shows its Russian vigor right from the start.

Price: Pkg., 5c; lb., 25c, postpaid. By freight. pk., 70c; bu., $2.40; 2½ bu., $5.90; 10 bu., $23.00; 50 bu., $110.00 net. Sacks 22c for each 2½ bushels.

MINNESOTA NO. 25 OR PRIMOST FLAX.

Hats off for this Flax! It is as rich as Jersey cream is to the common grade of Flax. **Originated by the Minnesota Agricultural School.**

Minnesota No. 25 Compared With Three Other Varieties.

Average yield of Minnesota No. 25 for 3 years was..19.3 bu.
Av'ge yield of 3 commercial varieties for 3 yrs. was.15.9 bu.
Increase in favor of Minnesota No. 25.............. 3.4 bu.

It is a strong resister of the elements, insects and troubles that the Flax plant is addicted to.

Price: Pkg., 5c; 20c a lb., postpaid. By freight: Pk., 60c; bu., $2.20; 2½ bu., $5.40; 10 bu., $21.00.

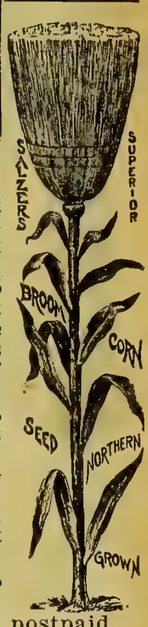
NORTH DAKOTA NO. 155 FLAX,

North Dakota No. 155 Flax takes high rank as one of the very finest, best, heaviest yielding varieties of Flax ever introduced. Its average yield per acre for five years in North Dakota was over 20 bu. per acre, while the common variety yields a trifle over 18 bu.

Our stock is selected from the North Dakota Agricultural College.

Price: Pkg., 5c; 20 a lb., postpaid. By freight: Pk., 60c; bu., $2.20; 2½ bu., $3.40; 10 bu., $21.00.

BROOM CORN.



There is a great demand for Broom Corn Straw, and we heartily recommend farmers to plant some, even if no more than one acre. It is a paying crop, as big prices are paid for straw. Plant in drills.

Wisconsin Evergreen—Produces heads 20 to 25 inches long. Broom makers claim it's the finest they ever saw. One farmer of our acquaintance sold $1,500 worth of Broom Corn from 10 acres planted. Get the book, "Broom Corn and Brooms," only 50c postpaid.

Pkg., 5c; oz., 10c; lb., by mail, 25c; by express, lb., 15c; 10 lbs., 75c; 25 lbs., $1.60; 50 lbs., $2.75; 100 lbs., $4.50.

California Golden—Pkg., 5c; lb., 35c; by express, lb., 25c; 10 lbs., $2.00.

Early Japanese—This is a novelty, earlier than Evergreen, while the straw is strong and of great value as a market sort. **Price by mail, pkg., 5c; oz., 10c; lb., 35c; by express, lb., 25c; 10 lbs., $1.50; 100 lbs., $10.00.**

Broom Corn and Brooms—A good booklet, 50c, postpaid.

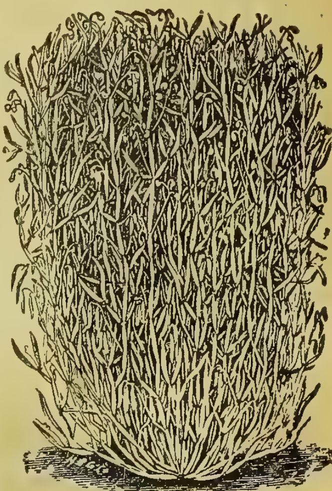
LATHYRUS SYLVESTRIS WAGNERI (Flat Pea.)

This plant is creating great excitement as a forage plant, especially in sandy, dry, soils, as it sinks its roots 30 feet, and furnishes a great quantity of fodder; yielding as high as 16,000 lbs., per acre. It is a variety of Pea, found wild in Europe, and carefully cultivated and crossed.

PLEASE READ THIS LETTER ON LATHYRUS.

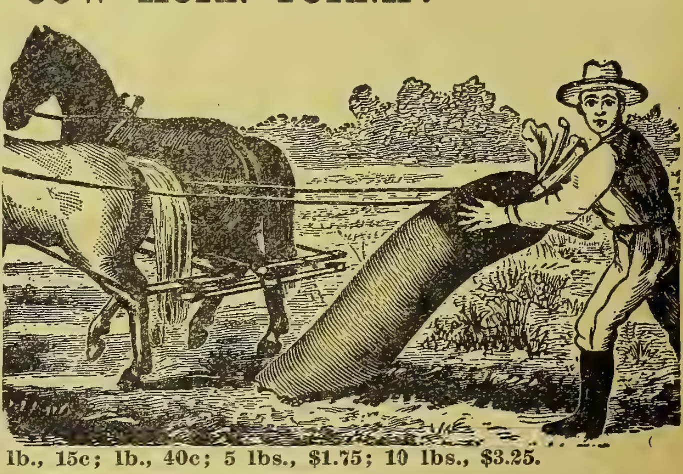
Regarding Lathyrus, Conrad Doering, Cowlitz County, Washington, who has given it a thorough test here in America, says: "The Lathyrus is the earliest forage plant in spring, earlier than any grass we have, and all cattle eat it with great eagerness as soon as it springs from the ground. In the fall of the year, when all other fodder is dead, Lathyrus is green and keeps on sending forth new shoots. Cattle cannot be driven from the patch. They hate to leave the strength-giving, nourishing Lathyrus. It grows from 3½ to 4 feet tall, and does well on any kind of soil, even on very poor, sandy soil."

Pkg., 10c; oz., 20c; ¼ lb., 50c; ½ lb., 80c; lb., $1.50; 10 lbs., $14.00.



Lathyrus Sylvestris.

COW HORN TURNIP.



Let me tell you something, Mr. Farmer! In Cow Horn Turnip you have the best **"plougher,"** best **deep cultivator** on the farm! It's better than a 12-inch deep plow! Cow Horn tunnels into the soil, often 24 inches deep, and brings up the good qualities and mixes it with the surface! It's a splendid turnip for house use, for stock food, as also as a fertilizer.

By mail, pkg., 5c; oz., 10c; ¼ lb., 20c; lb., 50c. By express, pkg., 5c; oz., 10c; ¼ lb., 15c; lb., 40c; 5 lbs., $1.75; 10 lbs., $3.25.

TURNIPS AND RUTABAGAS AS A FERTILIZER.

Have you a piece of poor, sandy, worn-out soil that you would like to enrich? Or Oats, Wheat, Rye and Barley stubble? Just try an acre or two of this by sowing at the rate of only 1½ lbs. of the Rutabaga and Turnip mixture thereon. These 1½ lbs. will give you a tremendous amount of roots, which, plowed under, will be a revelation, a surprise to you. Not only can the Turnips and Rutabagas be used as stock food while growing if you are short of food, but as a green fertilizer, to be plowed under, it forms one of the greatest foods for your soil known. **Price, postpaid, 28c per lb; 1½ lbs., 40c. By express or freight, lb., 20c; 10 lbs., $1.75.**

SALZER'S TEOSINTE.

Come here, my friend of rich, quickly produced fodder, and listen with me: "Shades of Egypt!" we hear some one ejaculating while he is looking at the illustration of this most marvelous plant, and magnificent it is in every respect. It comes to us from the rich, fertile plains of the Nile, where travelers tell us the enormous yield of 300 tons of green fodder per acre is not uncommon. This is what it does in Egypt. What does it do in America? Almost equally as well. Give it a rich, warm, balmy soil, and it will yield from 100 to 150 tons of green fodder per acre. It is simply marvelous. Down in Georgia, in Florida and North Carolina its yield is all the way from 100 to 200 tons of green fodder per acre. It grows to a height in those states of 18 feet, while a single kernel will produce from 60 to 100 stalks of the most nourishing green fodder imaginable. Our test in the North gives it an average yield of about 50 tons of green fodder per acre. On our own grounds at La Crosse where the soil is sandy and warm, it yielded at the rate of fully 60 tons per acre, sending forth from 20 to 60 shoots from one kernel of seed. It was the most magnificent thing we had ever seen. We will call up a few farmers as witnesses:

"Your annual Teosinte is an extra fodder producer. It grew 11 feet tall, and is splendid feed."—L. E. Cordum, Gillepsie, Ill.

Barbara Frye, Millersburg, Ohio: "All my seed that I got from you last year did splendidly. The Teosinte is excellent. It grew from 10 to 12 ft. high, and from 40 to 50 sprouts from 1 kernel of seed."

Joe A. Noble, Caddo, Ky., says: "I am well pleased with Teosinte as a fodder plant. I grew from one kernel of seed 113 stalks, 14 feet high. That is immense."

J. Roppel, Montgomery Co., Mo.: "Salzer's Teosinte is a great fodder plant, and am wonderfully well pleased with it. 40 tons of magnificent fodder to the acre is my yield."

Merritt Daniels, Arborville, Neb.: "Your Teosinte is grand. It has a great growth, 30 to 50 stalks from 1 kernel. Some hills planted to 2 kernels have 50 to 100 stalks. Horses, cattle and hogs eat it greedily and will leave any other green fodder for it."

11 INCHES IN 36 HOURS.

John Urhin, Coesfield, Tex., says:

"Your Teosinte is simply immense. It did not seem to care whether the drought struck it or not and kept right on growing. It did not have any **rain for ten weeks**, but the 26th of July we had a good rain. Now, you think it is not growing, but it is. One stalk of it grew **11 inches in 36 hours.** On one plant raised from 1 kernel of seed, I got **64 strong**, bushy stalks."

John B. Simmons, of Turkey River, Iowa, states that his Teosinte yielded at the rate of 80 tons per acre, one cutting, and that on poor soil.

RICH PASTURE IN FOUR WEEKS.

"JOHN A. SALZER SEED CO., La Crosse, Wis.—Gentlemen: The 15th of May I noticed that I would be short on fodder, and I looked about anxiously what to do. I came across one of your catalogues. I read your description of Salzer's Teosinte and Billion Dollar Grass. I felt that in these two I saw the solution of my fodder question. I immediately ordered 6 lbs. of Teosinte, sufficient for three acres, and enough Billion Dollar Grass for seven acres. I sowed the 6 lbs. of Teosinte June 4th on a piece of thoroughly cultivated, warm, rich, sandy land. My surprise knows no bounds, and my pleasure at that fodder cannot be expressed. In less than four weeks, I had more fodder than I could possibly use. Each kernel came up and seemed to produce 50 heads of the richest, most succulent food I ever saw, and no matter how I would cut it or the cattle would pasture it, it would come, and come, and come again. It has given me endless pleasure this year.

"The seven acres of Billion Dollar Grass I simply let go to hay, as I got sufficient fodder on the three acres of Teosinte.

"Long live Salzer and his splendid Fodder Plants!"—Joseph Merten, Alexander Co., Ill.

SIXTY-FOUR STRONG BUSHY STALKS.

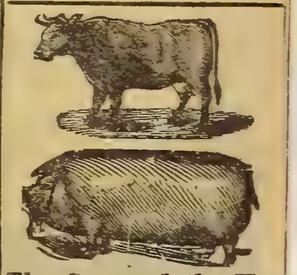
Just read the testimonials from Mr. John Uhrin, of Texas, found above. That is the secret of Teosinte. Despite the dry weather his Teosinte grew at the rate of eleven inches in thirty-six hours and gave him a tremendous crop.

IN 26 DAYS.

"I read your description of the marvelous Teosinte, so on June 20th, I ordered ¼ lb., seed. In just 26 days from the sowing it was **16 inches tall.** Hereafter I'll believe anything your catalog says."—G. O. Ousey, Hamilton County, Ohio.

Our heart yearns for some power to influence you, Mr. Farmer, in trying Teosinte this year. What can we say that will induce you to do so? It is a winner. There is nothing in the wide, wide world that will give you more profit and pleasure than an acre of Teosinte. Now, sir, it will pay you big, not small pay, but great big pay. If you would measure off twenty acres of your poorest soil and plant it to Teosinte, Giant Spurry, Sand Vetch, Victoria Rape, Billion Dollar Grass, Bromus Inermis and Speltz, these articles would surely bring you lots and lots of Money.

Thus we could keep on citing testimonials by the thousands, but will close with **Carl Dippel**, written under date of Nov. 12, from Muscatine, Iowa: "I want to report on your wonderful Teosinte. It is simply magnificent, its luxuriance exceeding my fondest expectations. We planted in May, and the first of July we begin cutting the Teosinte for the hogs. It grew so rapidly that we cut three times, and in addition to this all fall long, until snow started in, we had an abundant, rich, nutritious fodder for the cattle, and all that from but 1 lb. of seed, which cost us 80c. Truly, Teosinte is wonderful."



The Cow and the Hog chant the praises of the farmer who plants Teosinte.

CULTURE OF TEOSINTE.

We would advise sowing same in rows 2 feet apart, and the hills far enough apart to work. It wants plenty of sunshine and cultivation and then it will grow so rapidly that it will soon cover a whole acre and look like a dense forest. It can be cut with a reape and fed in the green state, or it can be dried and makes a magnificent fodder for cattle during the long winter months. There are unlimited possibilities for our annual fodder plant, Teosinte, and we know if you will give it a trial, that it will more than pay you anothe year. Just try and grow this for your cattle and hogs. You will be surprised how they will relish it, and what a tremendous amoun of fodder and food you will get out of an acre for them.

SAINFOIN OR ESPARSETTE, FOR SANDY, SUNNY SOILS.

THE BEST GREEN FOOD FOR HORSES
ESPARSETTE OR SAINFOIN
ONE SEEDING STANDS FOR SEVERAL YEARS

We cannot speak in too strong words of praise in favor of Esparsette or Sainfoin Clover, as this plant produces such a superabundance of herbage such a large quantity of excellent hay, and so good a quality of pasture that we heartily indorse same. It is sown and planted in tremendous quantities throughout Europe. We are sure that if once cultivated on your lands, you will not wish to get along without it. Much used in Europe where there are many parts in which a farmer could not pay his rent without the use of this Clover, as it makes the poorest, sandiest land yiel heavily the second year.

Geo. Wilde, Mo. "I bought 100 lbs. Esparsette of you and cut 8 tons magnificent hay."

FOR SANDY SOILS.

Herman Schroeder, Ohio: "From the 100 lbs. I croppe 9 tons of elegant hay. Splendid for cows."

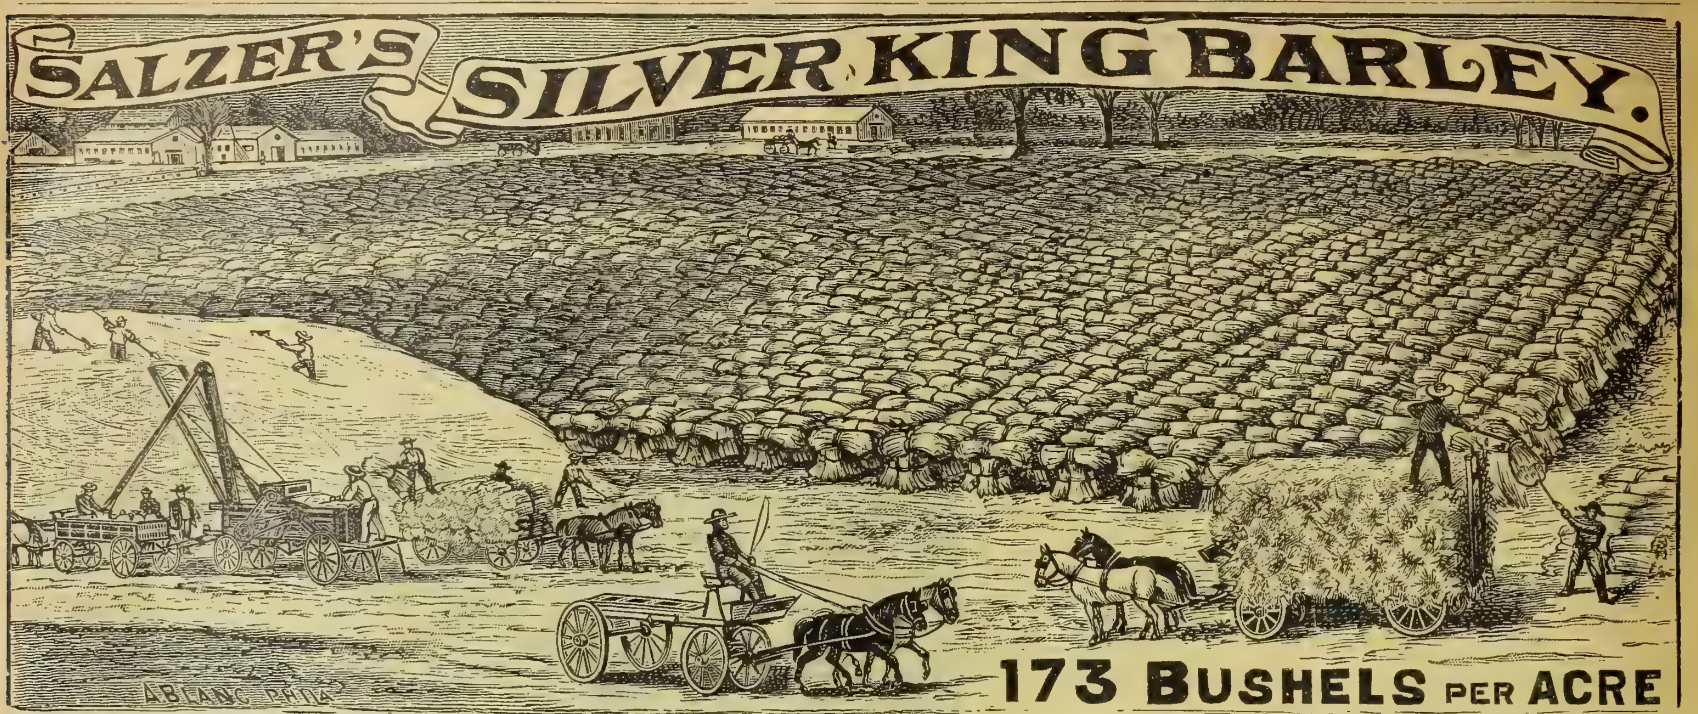
A New York agricultural writer says: "On the whole, it has done better with me than any of the Clovers I have sown this spring. It' analysis shows that either in a green or dried state, it compares favorably with any of the Clovers in flesh-forming principles and from the long period of its cultivation in Great Britain, and the high estimation it is held in for cultivation on the inferior soil already stated, its value as a hay crop (and no grass requires so little pains in curing as Sainfoin) cannot be overestimated. It is wel worthy of more extended trial than has yet been given it in this country."

Pkg., 5c; lb., postpaid, 25c; by express or freight, lb., 15c; 10 lbs., $1.00; 50 lbs., $4.50; 100 lbs., $7.75. Sow 20 to 40 lbs. per acre.

SERADELLA.

In Europe this is considered one of the most important hay plants for good, light soils. **Its nutritive value is considered equal t** that of Red Clover, while its produce is larger. It gives good results, except on land that is too heavy or too poor. On very light land i is considered best to sow it with Sheep's Fescue. Cattle like it, either as hay or greeen fodder. It is usually sown in spring—sometime alone and sometimes under cover of Oats, Wheat or Rye, and furnishes, after the removal of the crop, a good cutting or pasturage Sow 20 to 30 lbs. per acre, the latter seeding is preferable. **Pkg., 5c; lb., by mail, 25c; by freight, 10 lbs., $1.00; 100 lbs., $9.50.**

SALZER'S SILVER KING BARLEY.



Look here, Mr. Farmer; here is a bold word. It is this: Salzer's Silver King Barley is the greatest, heaviest, finest appearing, biggest stooling, longest eared, **bearded,** tremendously healthy, remarkably prolific, wondrously heavy-threshing out **six-rowed** Barley on earth today. Do you hear? On earth today! We have skirmished through Russia, the mysterious land, we have scoured Japan and China, we have sought Egypt, we have culled from Europe, we have investigated Australia, Scotland and other great Barley regions, but all stand aghast, are startled, astonished, amazed when we tell them of **Salzer's Silver King Barley producing 173 bushels, of 50 lbs. each, from one acre.** Since 1898 the yield of Silver King Barley throughout America was simply astonishing — almost fabulous.

Wm. Powell, Linton, Ind.: "Your new Barley is very fine. It will yield 100 bushels per acre."

P. A. Stiver Eaton, Ohio: "Your Barley is a hummer; 150 bushels per acre can be raised from same."

W. E. Peterson, Boscobel, Wis.: "Your Barley did splendidly. It is all right. It will yield 90 bushels per acre."

Nick Kutcheit, Arcadia, Wis.: " I raised 118 bushels and 3 pecks from one acre of your Silver King Barley the past season. It is the finest Barley I ever saw."

173 BUSHELS, OF 50 LBS. PER ACRE.

Can anything be more startling, more wonderful, more marvelous in Barley growing than to get 173 bushels of 50 lbs. from one single acre of ground but just read the sworn statement of Mr. Breider, a wide-awake Manitowoc Co., Wisconsin, Farmer.

READ THIS SWORN STATEMENT OF MR. JOHN BREIDER.

John Breider, Peter Wenner, Mike Casper and Christian Casper do each and severally solemnly swear that John Breider, living at Mishicott, Manitowoc County, Wisconsin, grew on one measured acre, containing 43,560 square feet, 173 bushels, of 50 lbs. per bushel, of Salzer's Silver King Barley the past season; that same was threshed by Princel & Roniller, whose oath as to the correctness of above is hereunto appended. Subscribed and sworn to by John Breider, Christian Casper, Mike Casper, Peter Wenner.

"We, Mathias Princel, Frank Roniller, owners of the threshing machine, do solemnly swear that we threshed for John Breider, of Mishicott, Manitowoc County, Wisconsin, 173 bushels of 50 pounds to the bushel of Salzer's Silver King Barley, grown from one acre.—Mathias Princel, Frank Roniller. Subscribed and sworn to before me this 19th day of October, A. D. 1896—Bruno Miller, J. P."

EXPERIMENTS WITH BARLEY.

Sixty-four varieties of Barley were compared at the Wisconsin station last season, and a co-operative test of Oderbrucker Barley, was carried on by members of the Wisconsin Experiment Association. At the station the beardless, hulless, and two rowed Barleys showed weakness of straw and did not fill out well. The best yields of grain were produced by **Salzer's Silver King**, Manshury and Oderbrucker, the yields being 61.3, 60.6 and 60.1 bushels per acre respectively. These three varieties matured in 98 days.

R. A. Moore and A. L. Stone. (Wisconsin State Report, 1906.)

Let us tell you this, Mr. Farmer, Salzer's Silver King is the greatest Barley known on earth today. If there was a better sort we would know it, for Salzer "scours the earth" for novelties. We have agricultural detectives out constantly. No Barley is so heavy and plump as ordinarily this year, on account of bad weather.

Wisconsin Agricultural College's Great Achievement—Oderbrucker Barley.

ODERBRUCKER BARLEY (Wis., No. 55).

This splendid Barley was introduced by the Wisconsin Agricultural College, and anything this College introduces can be relied upon as A No. 1.

Oderbrucker is a stiff-strawed, heavy-yielding, six-rowed. bearded variety. It is about the same as Mandscheuri in season, manner of growth and general appearance, but has a plumper kernel and is heavier. Many of the Experiment Association members speak of these qualities as well as others. Prof. Moore says that for **"stiffness of straw and rust resistance it is superior to any variety on test."** It has a protein content of 15 per cent, or **nearly double the amount of protein found in other varieties.** This makes it an exceptionally valuable feeding barley, a very important point when it is considered that leading farmers and stockmen, especially here in Wisconsin, are appreciating more and more the value of barley as a feed for all kinds of stock, horses as well as cattle.

MANDSCHEURI BARLEY

This new barley was introduced by the Wisconsin Experimental Station.

Mandscheuri is an improved strain of Manshury, but makes a stronger growth, has a plumper berry, and usually **yields 10 to 15 bushels more per acre.** The original seed was procured by the Wisconsin Ex. Station from Russia, and was first sent out by the Station in 1895. In the yield record at the Station farm it stands first out of 37 varieties for a term of years, and it has **doubled the yield of many common varieties.** The professors at the Ex. Station, and Agricultural leaders of Wisconsin generally have done all that they could to induce farmers everywhere to sow this barley and have all the time recommended it unhesitatingly. It is perhaps not too much to say that this variety of barley has been **worth millions of dollars to the farmers of Wisconsin alone.** Prof. Zavitz, of the Ontario Agl. College, says Mandscheuri gave an average of 70 bushels and Manshury an average of 59 bushels per acre during a period of 16 years, a difference of 11 bushels per acre in favor of Mandscheuri.

MORAVIAN BARLEY. [Hanna Barley.]

INTRODUCED BY THE U. S. DEPARTMENT OF AGRICULTURE, WASHINGTON, D. C.

The United States Department of Agriculture, in bringing forth this Barley, further says: "Owing to its heavy yielding capacity, earliness, and high grade as a brewing grain, this variety is driving out all other sorts in Austria, and every year large quantities of seed grain are imported into Hungary. So far as we can ascertain, this is the first importation of this variety ever made into America."

Ordinarily the kernels of this great Barley are from one-third to one-half larger than shown in this illustration.—Salzer.

SEVENTY-FIVE BUSHELS PER ACRE.

On dry, hot land in Montana, it yielded at the rate of 60 bushels per acre. In Idaho, with but one rain, it yielded 62 bushels per acre. In Utah, with but little moisture, 56 bushels per acre. In North Dakota and South Dakota it yielded from 40 to 60 bushels per acre.

We are sure that this new Barley will please and delight and satisfy every farmer testing same. On our own farms our test yield was 72 bushels per acre, and we believe that, as soon as it has become acclimated to our soil, it will produce 75 bushels per acre.

FOR DRY, BURNT, HOT SOILS AND CLIMES.

No cereals pay better than Moravian Barley, Salzer's Speltz, Salzer's National Oats, Macaroni Wheat, Earliest Cane and Bromus Inermis Grass on soils and in climes like above described.

PRICE OF SALZER'S MORAVIAN OR HANNA BARLEY.

HIGHLAND CHIEF BARLEY.

A splendid, healthy, two-rowed sort, yielding 60 bushels per acre. Pkg., 10c; pk., 50c; bu., $1.50; 2½ bu., $3.25.

SALZER'S MANSHURY.

It's immensely prolific, and sells well everywhere. Our biggest yield was 69 bushels per acre. Prof. Henry of the Wisconsin State Agricultural College is a great admirer of this Barley. Price: Pkg., 10c; pk., 50c; bu., $1.40; 2½ bu., $3.40; 10 bu., $13.00.

SUCCESS BEARDLESS BARLEY.

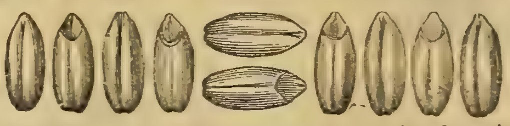
A beardless variety offered by quite a number of firms. It is fine in every respect, but we do not consider it so strong, healthy and prolific as our Salzer's Beardless Barley. Pkg., 10c; pk., 50c; bu., $1.60; 2½ bu., $3.90; 10 bu., $14.90.

NEW BARLEY, UNIVERSITY

No. 105.

For several years the Minnesota State Experiment Station has been breeding and testing many varieties of Barley. The result is: **University No. 105.** In comparative tests covering a period of several years and made side by side with the best known and most popular varieties of barleys, has proven this variety to be the heaviest yielder, and from any standpoint, a most valuable acquisition. It is early, uniform in maturing and pure. Quantity limited. **Price: Pk., 50c; bu., $1.50; 2½ bu., $3.50; 10 bu., $13.90.**

SALZER'S GIANT WHITE HULLESS BARLEY.



Great is the feeding merit and wondrous is the yield of Giant White Hulless Barley. It makes the growing of hogs possible in the extreme North, in Dakota, Montana and other states, where corn growing is not profitable. Indeed, to grow this Barley and feed them alongside of Corn, is one of the greatest things the farmer can do, for the nutritious and feeding value of Barley is simply immense, and we urge every farmer having hogs or cattle to sow a few acres for stock feeding purposes. The yield averages ordinarily

40 TO 60 BUSHELS PER ACRE.

Now, we like this Barley; although it is apt to run back to its parent; yet it is a rousing cropper and feeder.

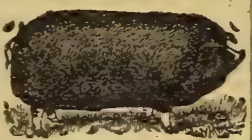
Price of Giant White Hulless Barley: Pkg., 10c; lb., 30c, postpaid; by freight, pk., 75c; bu., $2.00; 2½ bu., $4.50.

Salzer's Great Beardless Barley.

SALZER'S
BEARDLESS
BARLEY

SALZER'S
BEARDLESS
BARLEY

Now, while Salzer's Silver King Barley has the proud distinction of being the greatest yielder, the finest, plumpest six-rowed Bearded Barley on earth, we claim for Salzer's Beardless Barley the same distinction under the beardless varieties. When we first introduced the Beardless Barley, it was quickly taken up by a number of seedsmen and sent out under high-sounding names. We did not then push this Barley because we had it not perfected; but to-day in our Salzer's Beardless Barley we have positively the greatest Beardless Barley on earth. It is just the Barley that you have been looking for, Mr. Farmer. We know it because we have farmed for so many years, and how often were we annoyed and vexed in harvesting the common varieties of Barley that were covered with long, sharp, sticky beards! Now, this is all done away with, and thousands of farmers who tried Salzer's Beardless Barley for the first time were more than delighted and pleased with the results. Not only were they astonished at the great yields and fine quality, but also—the best of all—the nuisance of "the sticky old beards" was done away with entirely. Now, that is just what you have been looking for, Mr. Farmer, and that is one reason you have not been growing Barley the past years. Now, honor bright, is it not? In Salzer's New Beardless Barley you have a heavy yielding, strong, stiff straw, healthy, stooling variety, a variety that will yield all the way from 35 to 65 bushels per acre. Now when you can grow from 35 to 60 bushels per acre of Barley, there is no cereal that you can grow that will pay better. It originated from a six-rowed bearded variety, and in fields, occasionally plants are found with beards, showing it runs back to its parent. Even if bearded plants occasionally appear it is no serious detriment, especially not in yield. Indeed, there is no finer Barley in the country than this Beardless Barley, especially for feeding value. We feed it to our horses, cattle, hogs, and sheep, and they flourish, grow fat and keep healthy and happy. It is a positive fact that your horses and cattle will thrive faster and better on a change of food than on corn only, and we know of nothing that will make a better change than Salzer's Beardless Barley.



Hogs Fatten and are Healthy and Happy on Beardless Barley.

IN 1900, 01, 02, 03, 04, 05, 06, 07, 1908 AND 1909.

Salzer's Great Beardless Barley again covered itself with glory! On every farm where planted, in every state where tried, Salzer's Beardless was not found wanting and returned a yield large enough to astonish the natives, as the saying goes. We introduce only one testimonial on the bottom of this description, which shows how the wind blows. It tells you what you may expect of Beardless Barley. There is Mr. Wells. He has grown same two years, and just read his happy tale, the first year **121 bushels**, the second year but 109 bushels per acre. Now, then, when you remember that the average yield of Barley throughout America is about 23 bushels per acre, and you can get of this Barley 100 bushels per acre, you can easily figure the profits. It is a Barley that pays to grow; it is easily heavested, it is vigorous in growth, it is wonderful in yield, it is marvelous in health qualities. Now, despite the bad weather, it yielded on thousands upon thousands of farms at from 40 to 100 bushels per acre, which is good enough for a year as the past was.

121 AND 109 BUSHELS PER ACRE.

Here is just one testimonial: J. E. Wells, Orleans County, N. Y., says:

"Your Beardless Barley beats anything I ever saw. People came from far and near to see it. It grew 3½ feet high and yielded 121 BUSHELS Barley per acre. That is good enough for me."

THE SECOND SEASON HE SAYS:

"Don't you want some fine Salzer's Beardless Barley? It is wet this year here, and I only got 109 bushels per acre, but I think I will have to stand that. It's fine, the best barley I ever had."

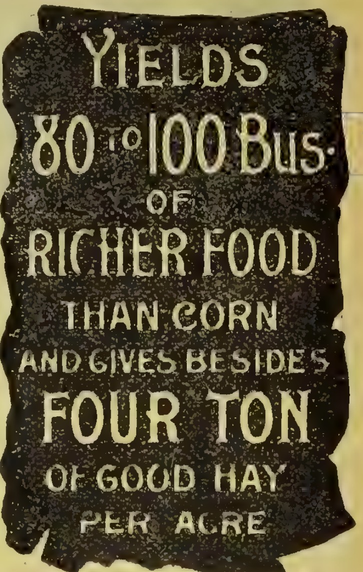
EMMER OR SPELTZ.

Greatest food of the century and well may ye Sons of Man lend me your ears while I relate a narrative of thrilling interest. In a little province in Austria, there are found fat cattle, fat poultry, geese, horses, sheep, pigs, yes, every animal seems fat, happy and healthy. Over in Germany, in one of the biggest farming districts, we found the same thing. So conspicuous did this appear that we sought the cause. **What is it? we queried.**

SPELTZ OR EMMER.

That funny cereal; no, that grand, glorious, magnificent cereal. It is not oats nor wheat, nor barley, nor rye, nor corn, nor spurry, nor hog peas, nor timothy hay, but a golden combination of all of them. How we wish at this moment we had the eloquence of a Henry Clay, the matchless word-painting of Carlyle, the brilliancy of Chauncey Depew, to depict to you, Mr. Farmer, the untold value of Speltz, this great combination of food.



A. E. Steen, S. Dak.—"God bless Salzer Seed Co. The 40 acres Speltz I sowed on your urgent request has saved me from ruin! The drought ruined everything here, but I have enough Speltz food to keep all my cattle, hogs, horses, etc., until another year. Salzer, I thank you from the bottom of my heart."

Jacob Pfiugfelder, Maple Park, Ill., says: "What is It (Speltz) grew enormously. I never saw anything like it. It yielded at the rate of **90 bushels of seed** and nearly 8 tons of hay per acre.."

Blanchard Brothers, Chaffee Co., Colo.—These boys are bright farmers, and they write under date of Oct. 7: "We have just threshed 182 bushels of Salzer's Speltz from the 100 lbs. of seed you sent us last spring. We are highly pleased with it. The neighbors all think it marvelously wonderful. Nearly all of the 182 bushels sold at $2.00 for seed. Speltz and Alfalfa are our money-makers. We expect to order several barrels of potatoes from you."

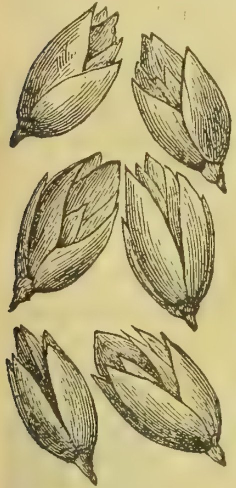
Frank A. Woodfill, Jefferson Co., Ind., says: "I grew on ordinary soil 55 bushels of Speltz to the acre."

Fred Wolf, Chadsworth, Ill.: "Speltz has been the wonderment of the neighborhood, as well as the farmers who passed our place, as I planted the seed right along the fence. It is enormously prolific."

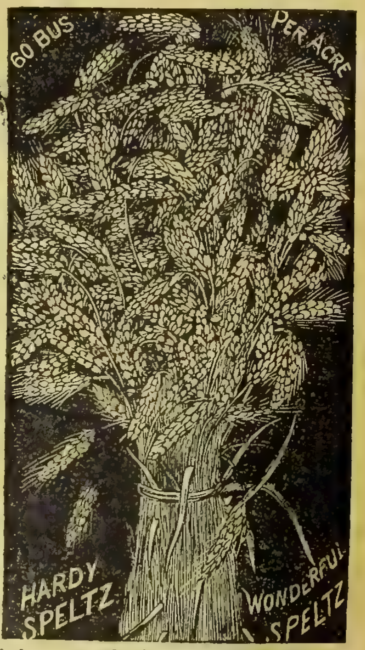
Hon. H. F. Hunter, S. D.: "Speltz, Salzer, is Speltz, and Speltz, Salzer, beats the band; in other words, Speltz, to my mind, is the most profitable hay and grain food combined on earth. Your Bromus is immense, your Victoria Rape is marvelous as a green food, but Speltz, Salzer, beats them all.

"TEN THOUSAND POINTS!

"Why? you ask. I'll tell you. Speltz is good for pasture; Speltz fattens in the green state; Speltz, as a green grass hay food, gives often 100 leafy stalks from one seed, so heavy a stooler; but that is not all; Speltz as a hay—dry—is immense. First, you thresh 50 to 80 bushels of grain, equal to corn, or barley, or oats, or rye, or peas, or wheat as a food; and then comes four to six tons of straw, equal to timothy. Speltz, Salzer, beats the band. It's the perfection of food for cattle, hogs yell for the food, cows jump a six-foot fence to get at the straw hay, horses fight for it, sheep delight and fatten on it, poultry relish the grain—I tell you, Salzer, Speltz is the greatest dry food on earth! I shall sow 100 acres next year for my stock. If I sow Speltz for two years I can wear diamonds and silk underwear!" (He's wearing them now on one year's Speltz and Bromus crop!—Salzer.)



How Speltz looks!



JOHN A. SALZER SEED CO. SAYS:

We endorse Speltz without qualifications. When we tell the farmer it's safe to sow Speltz anywhere in the United States, he believes it. We never fool the farmer. We know whereof we talk. We farm in five different states ourselves. To make farming pay one must be alert and awake. We try every seed under the sun. Speltz surprised us in Europe. It astonished us. We brought it to America. Here it completely captured us. Now, if you have an acre of land upon which you wish to grow 40 to 80 bushels of rich cereal food and four tons of rich straw hay then plant 62½ lbs. Speltz.

IT'S THE RICHEST FOOD THAT'S OUT.

How Nature takes care of man! Just look at it! Several years ago the fattening of hogs in Dakotas, Montana and the North was thought impossible. Then came Salzer's Beardless Barley, Hog Pea and Speltz and Earliest Corns! these are things which make it possible to fatten hogs anywhere on earth, and do it as cheaply, if not cheaper, and better than with corn alone! Speltz is a richer food than corn. For fattening cattle and swine it is unapproachable. It cannot be beat. **It fattens.** It does this easily and well, and makes the best kind of pork and beef, and so cheaply! You can grow it anywhere, where wheat or oats grow, Speltz will also thrive. Try it this year, Mr. Farmer, and be happy. Everything eats it and grows strong and healthy and fat. Try it this season. It will surprise and please you. Try Speltz, Rape, Bromus, Billion Dollar Grass and Amber Cane, and you have the greatest foods on earth!

CULTURE OF SPELTZ (EMMER).

The culture of Speltz is simplicity itself. It's just as easy as the growing of oats or corn. Prepare your land as you would for wheat or oats, and sow at the rate of 50 to 62½ lb. per acre. In the green state it makes an excellent pasture. Cut when grain is past the middle stages of milk, when it will make splendid grain and lots of straw hay of excellent quality. Thresh like wheat, only not so closely. The hull and kernel can then be fed or first ground. It is a grain to sow for profit. Your chickens and geese, your horses and colts, your cows and calves, your sheep and swine, all will eat it eagerly and flourish. It's as easily grown as Oats. The hull and all can be ground into food so rich, so nourishing, so appetizing, that your stock will fight for it. Every state in the Union will raise it during this year. Speltz is one of those things we love to endorse, delight in urging you to plant, because we know it will satisfy you fully and completely. Have you noticed the price of Speltz? Only $3.50 for 125 lbs., sufficient to fully sow two acres. That's the way we do. We place the price so low that you can afford to try it abundantly. We know trying it will make you a steady planter of Speltz and you will, like happy Harry Hunter "wear diamonds and silk underwear," because Speltz will bring your stock into fine, fat, healthy condition.

SALZER'S PROLIFIC SPRING RYE.

This magnificent Rye is of recent introduction, and it has proven to many of our farmer customers a better money-maker, a surer money-maker, a bigger money-maker, and an easier money-maker than any other cereal planted, as good Spring Rye brought as good a price as Wheat and yielded from 10 to 30 bushels per acre more. It is a magnificent sort. It can be used as a catch crop in case other crops fail. The price is seldom below 60c per bushel, while the yield rarely falls below 40 bushels per acre. We have but 3,800 bushels of this Rye, and we request all our farmer customers who want the best thing in the cereal line to be had, to order early, as it is the early bird that catches the Rye, as later on in the season it will surely be sold, and you cannot get any unless you order early. Some of our stock was grown on oat stubble, and a few oats are occasionally seen in the seed. This is no detriment to the yield. We are sure it will please you. It can be sown at the same time when Spring Wheat is sown, at the rate of about one and one-half bushels per acre.

AS A CATCH CROP.

We sowed some of our Sure-Cropping Prolific Spring Rye on Winter Wheat that had died out, waiting until almost May, and found it did splendidly. It gave us a yield of over 40 bushels per acre. It is one of the very best things to sow for a catch crop, as it always gives good yields. When Rye is cut we sow either 2 lbs. Victoria Rape or 1½ lbs. Turnip Rutabaga seed per acre, or Thousand Headed Kale, and run a harrow over it. That pays 50 fold. **PRICE OF OUR PROLIFIC SPRING RYE: Pkg., 10c; lb., postpaid, 30c; by express or freight, pk., 60c; bu., $1.50; 2½ bu., $3.65.**

ST. JOHN'S RYE.

In Germany this is a spring Rye, sown in April: soon it stools and produces a great crop of magnificent Rye, often yielding as high as 60 bushels per acre. Sown in the fall of the year it quickly stools out, furnishing fall pasturage, and then again as soon as the snow leaves in the spring it comes into fine play as a pasture, and after that it would be ashamed with anything less than 40 bushels fine Rye per acre!

Price of St. John's Rye: Pk., 65c; bu., $2.25; 2½ bu., $5.00.

AGRICULTURAL COLLEGE SEEDS.

Hats off for the Western Agricultural Colleges and the patient toilers there! To them is due the splendid enthusiasm with which the younger generation of farmers are taking hold of the farms in Wisconsin, Minnesota, South Dakota, Iowa, North Dakota and the great West. They have taught by precept and practice, and where they lead it is an honor to follow.

We have grouped on this page a number of the great specialties that these different Agricultural Colleges are recommending and urging the farmers in their respective and adjoining states to test and plant, and the farmer who follows their lead is sure to profit thereby.

BARLEY.

Wisconsin is the great Barley state, and hence it is gratifying to know that the efforts made by Prof. Moore and others at Madison to improve the Barleys grown in their borders have met with signal success.

ODERBRUCKER, WISCONSIN No. 55.

Oderbrucker Barley was first offered to the public last year, and to Prof. R. A. Moore of the Wisconsin Agricultural College belongs the distinction of its introduction. See page 87 of this catalog for full description.

Price: Peck, 40c; ½ bu., 65; bu., $1.10; 2½ bu., $2.65; 5 bu., $5.15; 10 bu., $10.00; 50 bu., 95c a bushel.

BARLEY, IMPROVED MANDSCHEURI, WISCONSIN NO. 62.

See page 87 for full description.

Price: Pk., 40c; ½ bu., 65c; bu., $1.20; 2½ bu., $2.90; 5 bu., $5.65; 10 bu., $11.00; 50 bu. or more @ 95c a bushel.

UNIVERSITY NO. 105, MINNESOTA.

For several years the Minnesota State Experimental Station has been breeding and testing many varieties of Barley with a view of producing and improving sorts especially adapted for its state. This laudible ambitious station's consideration has been fully realized in this new Six Rowed Barley offered under the name of University No. 105.

Price: Pk., 60c; ½ bu., $1.00; bu., $1.50; 2½ bu., $3.50; 10 bu., $13.90.

HANNA BARLEY, U. S. DEPT. OF A.

This is the Barley introduced by the U. S. Department of Agriculture and is an extremely popular two rowed variety, splendiddidly adapted to the stockman and for fattening purposes.

Price: Pk., 50c; ½ bu., 80c; bu., $1.40; 2½ bu., $3.40; 5 bu., $6.75; 10 bu., $13.25.

NEW BLUE RIBBON BARLEY.

Introduced by Capt. Pabst of the celebrated Pabst Brewery among the farmers in the immediate vicinity of Milwaukee. It is a dandy barley for brewing purposes.

Price: Large pkg., 10c; peck, 40c; 1 bu., $1.35; 2 bu., $2.60; 10 bu., $1.25 a bu., each.

REED'S TRIUMPH BARLEY (Vermont).

This comes from Vermont, where the breeding of Barley has been a specialty for many years. It is a six rowed variety selling two years ago at $21.00 per bu.

Price: Pkg., 10c; lb., 40c, postpaid. By express: Pk., 75c; ½ bu., $1.25; bu., $2.25.

MINNESOTA BARLEY NO. 6.

This is another production of the Minnesota Agricultural College and they may well be proud of its introduction.

Price: Pkg., 10c; lb., 40c, postpaid.

By Express: Lb., 10c; pk., 60c; ½ bu., $1.00; bu., $1.50; 2½ bu., $3.65; 5 bu., $7.25; 10 bu., $14.00.

WHEAT.

NEW SPRING WHEAT. MINNESOTA No. 163.

For twelve years Professor Hayes of the Minnesota Experimental Station has been engaged in the scientific breeding of Wheat, the object being to secure a perfectly healthy variety that would give an increased yield. Of the many crosses obtained within the past twelve years, the one sent out by the Station as **Minnesota No. 163**, takes high rank.

	Average for six years.
Haynes' Blue Stem	24.4
Minnesota No. 163	29.2

By freight or express at purchaser's expense: **Peck, 50c; bu., $1.75; 2 bu., $3.25; 10 bu., $15.00**

NEW SPRING WHEAT. "MINNESOTA No. 169."

In this we offer the second new Wheat originated at the Experimental Station. It is a progeny of Haynes' Blue Stem. Its yield, as compared with the parent variety, is:

	Average for four years.
Haynes' Blue Stem	22.5
Minnesota No. 169	28.3

This comparison with its parent, which is a superior variety, tells the whole story as to yield. In quality it proved in milling tests equal to the best. **Pk., 50c; bu., $1.60; 2 bu., $3.00; 10 bu., $14.50; sacks, each 22c extra.**

PURE MACARONI DURUM WHEAT, U. S. DEPARTMENT OF AGRICULTURE.

See page 104.

SOUTH DAKOTA BEARDED RED WHEAT.

This strain cannot be traced back to a single plant as Minnesota No. 163, No. 169 and No. 188, but in every way it appears pure. It is a bearded variety. It has been raised in South Dakota at the Experimental Stations at Brookings and Highmore for some years, yielding almost a third more than any other variety.

Price: Bu., $1.75; 2½ bu., $4.00; 10 bu., $15.00.

FLAX.

MINNESOTA NO. 25 OR PRIMOST FLAX.

Hats off for this Flax! It is as rich as Jersey cream is to the common grade of Flax. It has increased the yield of Flax in Minnesota fully 20 per cent. It is a strong resister of the elements, insects and troubles that the Flax plant is addicted to.

Price: 20c a lb., postpaid.

By freight: Pk., 60c; bu., $2.20; 2½ bu., $5.40; 10 bu., $21.00.

FLAX. NORTH DAKOTA NO. 155.

North Dakota No. 155 Flax takes high rank as one of the very finest, best, heaviest yielding varieties of Flax ever introduced. Its average yield per acre for five years in North Dakota was over 20 bu. per acre, while the common variety yields a trifle over 18 bu.

Our stock is selected from the North Dakota Agricultural College.

Price: 20c a lb., postpaid.

By freight: Pk., 60c; bu., $2.20; 2½ bu., $5.40; 10 bu., $21.00.

CORN.

SILVER KING. (Wisconsin No. 7.)

(See Pages 97 and 98.)

Prof. Moore of the Agricultural College at Madison pronounces this superior to any other White Corn grown in the state, and this does not place it a bit too strong. See page 97 and 98.

Price: Big pkg., 10c; qt., 40c, postpaid.

By freight: Pk., 75c; ½ bu., $1.40; bu., $2.50; 2½ bu., $6.00; 5 bu., $11.50.

EARLIEST YELLOW DENT.

(Wisconsin No. 8.)

John Hauser, a prosperous Wisconsin farmer, calls this the very, very earliest, very large early Yellow Dent Corn grown. It is a great favorite with the Agricultural College at Madison and also with thousands of the progressive younger farmers of Wisconsin. The ears average about 8 in. in length. Kernels are deep, strong, good, very uniform and with remarkably well filled tips.

One of the remarkable features of this Corn is that there are so few barren stalks. Possibly not 1 per cent.

One of our farmer friends in Waukesha County, from whom we purchased a large quantity of this seed last year, says it yielded on a large acreage for him a trifle over 70 bu. to the acre. It is extremely early and will prove a bonanza to everybody planting same.

Big pkg., 10c; qt., 40c, postpaid.

By Freight: Pk., 75c; ½ bu., $1.40; bu., $2.50; 2½ bu., $6.00; 5 bu., $11.50.

UNIVERSITY OF MINNESOTA NO. 13.

Here is an extra early Yellow Dent Corn introduced by the University of Minnesota and for this northern country they claim for it extreme earliness, enormous producing qualities and adaptability to the different varieties of soils and climates.

This Corn has been under the protection of Prof. W. N. Hayes and everybody who knows Mr. Hayes knows that when he sends forth a new variety that that variety stands for something and that the professor is back of it with heart and soul.

Yields of 40, 50 and 60 bu. of this remarkably early Corn are not uncommon.

Big pkg., 10c; qt., 40c, postpaid. By Freight, pk., 90c; ½ bu., $1.60; bu., $3.00; 2½ bu., $7.00; 5 bu., $13.50.

CLARK'S YELLOW DENT.

(Wisconsin No. 1.)

We offered this Corn for the first time in our 1906 catalogue, and last year gave it a full page, showing it in colors on the front cover. It is undoubtedly the best Yellow Dent for southern Wisconsin and is a favorite with the members of the Ex. Ass'n. It has a fine ear, averaging about 9 inches in length; kernels of a bright golden color and very compact.

Big pkg., 10c; qt., 40c, postpaid.

By Freight: pk., 90c; ½ bu., $1.60; bu., $3.00; 2½ bu., $7.00; 5 bu., $13.50.

OATS.

THE SWEDISH OAT. (Wisconsin No. 4.)

4 STRAINS OF SWEDISH OATS.

1. **Ordinary Farm Grown**—Grown by farmers from seed obtained by them from Madison and as is usually sold by seedsmen.
2. **Salzer's Superior**—Grown with great care on our own farms.
3. **Brooking's College**—Grown for us by Prof. Shephard at the Brookings College.
4. **Garton Seed Company's** Regenerated Swedish Oats. Largely advertised in America by an English firm.

In great demand. All the Experiment Stations and the U. S. Dept. of Agriculture commend them highly. Prof. Carleton at Washington says: "Now probably the best American Oat." Prof. Moore, of Wisconsin, who has been largely responsible for their introduction, found them the most satisfactory of 36 varieties after testing them four years. He says: "They are the most popular variety of oats now grown, and are especially well adapted for the upland soils and seem to do better on poorer grades of land than any other variety tried." We give here a few points the introducers claim for this Oats!

1—They outyield all others. Nearly every one who tries them testifies to this.

2. Stiffness of straw. "The straw is coarse, and is noted for its stiffness and power to withstand lodging and great droughts."

3—Fine appearance. They are pure white in color, large, thick and plump. None handsomer. The heads are large, upright and bushy.

4—Great root development. "This is characteristic of the Swedish oats, which enables them to resist drouth better than any other variety tested." So says Prof. Moore. Prof. Shepard, of the South Dakota Station, says: "They are the best drouth-resister of all our new plants."

5—Earliness. They are the earliest, we think, of all large, heavy-yielding oats.

6—Freedom from rust and smut. They are less liable to smut and rust than most any other oat.

7—We are by all odds the largest growers and distributors of this Oats in America. We used, last year, over 29,000 bushels to supply our demand; for 1910 it will take 35,000 bushels—of our 4 different but fine strains of Swedish Oats!

UNIVERSITY NO. 6, MINNESOTA.

The Department of Agriculture of Minnesota can well be proud of this introduction.

Prof. Bull writes: "It has been a question in my mind for the past year or so whether No. 6 or No. 26 is the better. To the farmer No. 6 looks far better when growing, but our trials here show No. 26 yielding more per acre."

The No. 6 has a great resemblance to the Swedish Select Oats and it is possible that some of the Swedish blood is found in Minnesota No. 6.

Price of University No. 6: Bu., $1.25; 2½ bu., $3.00; 10 bu., $11.90.

UNIVERSITY NO. 26.

Also a Minnesota introduction, briefly alluded to in the above description.

Price: Bu., $1.25; 2½ bu., $3.00; 10 bu., $11.90.

60 DAY OAT.

We think the credit for this belongs to the Agricultural College of South Dakota, at least our attention was first called to it growing in South Dakota.

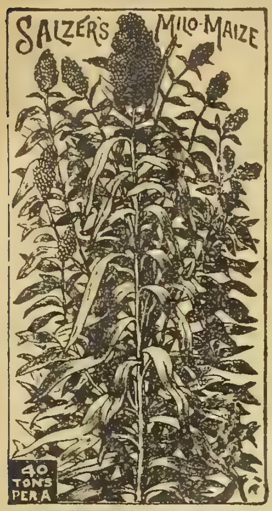
It is an extremely early Oat and we have found many farmers who have sown the 60 Day Oat, and after same is cut they will plow up the soil and put it into Billion Dollar Grass and in that way get a big crop of Oats and a bigger crop of Billion Dollar Grass Hay.

Price of 60 Day Oat: ½ pk., 25c; pk., 30c; bu., $1.15; 2½ bu to 10 bu., $1.00 a bu.

NEW KHERSON OATS.

This is erroneously called by some the 60 Day Oat. Our stock is fine.

½ pk., 25c; pk., 30c; bu., $1.15; 2½ bu. to 10 bu., $1.00 a bu.



MILO MAIZE CORN.

The farmer is fairly wild over this. It will produce more rich, green fodder than any other sort, except Teosinte. It grows well where Amber Cane succeeds. The seed is an excellent fattener, and is relished by all cattle, hogs, etc. Price by mail, pkg., 10c; lb., 25c; by freight, lb., 15c; 5 lbs., 50c; 10 lbs., 75c; 50 lbs., $2.00; 100 lbs., $3.60.

THE JERUSALEM CORN.

Belongs to the non-saccharine sorghums, and was brought a few years ago from the arid plains of Palestine. It is pronounced the best and surest grain crop for dry countries and seasons; even better than Kaffir Corn or Milo Maize. It grows several smaller heads on side shoots, often as many as 8 heads on a stalk. Price by mail, pkg., 10c; lb., 25c. By freight, lb., 15c; 10 lbs., 75c; 25 lbs., $1.60; 50 lbs.. $3.00; 100 lbs., $5.50.

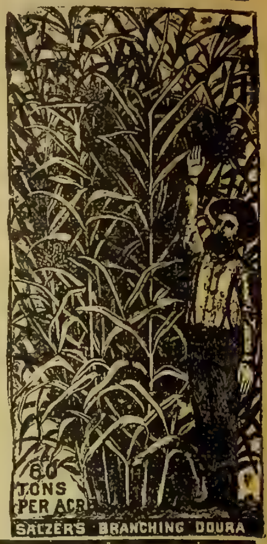
BRANCHING DOURA CORN.

Yields from 6 to 16 stalks from one seed. Being allied to Sugar Cane, cattle, horses and hogs will eat it ravenously. The **Rural New Yorker** says: "Though, during the severe drought, Corn dried up within a few feet of it, the Branching Doura suffered but very little, producing from four to twelve branches and grew sturdily from 6 to 10 feet high. If cut down it starts again with renewed strength. It yielded at first cutting at the rate of 68 tons to the acre."

By mail, pkg., 10c; lb., 30c; by freight, 5 lbs., 50c; 10 lbs., 75c; 50 lbs., $3.25; 100 lbs., $6.00.

TEOSINTE AND BILLION DOLLAR GRASS.

On pages 86 and 105 you will find these great Hay and Fodder plants fully described. Nothing in the wide, wide world can exceed them in food value.



SALZER'S EARLIEST CANE.

Several years ago we had a small field of this Earliest Cane growing. It was about 40 days old, had attained the height of 2 feet, when a large drove of hogs got into it and we thought ruined it entirely. They had eaten off the stalks in great shape. We were ready to plow same under when our farm manager suggested to let the field stand and see what the result would be. We are glad we did it, for it has proven a revelation to us. It has been an eye-opener. It has shown us the great value of cane as a fodder plant. It has proven to us that next to Teosinte and Pencillaria there is no fodder plant which will produce as easily and as quickly, rich, luscious fodder for the milk cow, for sheep and cattle as Salzer's Earliest Cane.

We often wonder how it comes that this magnificent plant is so greatly neglected as a fodder plant. Have you ever tried it? It can be profitably grown everywhere. It will do well in Texas and Manitoba, do splendidly in Maine, and better in California. It can be used as a pasture or a fodder plant. It is readily eaten by cattle and horses, by mules, sheep, swine and fowl, and, in fact, by every animal you need fodder for.

AS A PASTURE AND FODDER PLANT

it beats everything. It is extremely profitable for this purpose, as the cane can be cut and partly cured, and in this way will yield from 40 to 50 tons of magnificent fodder to the acre. For fodder, cut as soon as the blossom comes out of the head. Leave for two or three days on the ground, and then put up in shocks of about one load each. It can be cut repeatedly, and springs up quickly again. As a food supply it seems to be magnificent. Cattle and swine eat it with great relish. Treat in feeding like clover.

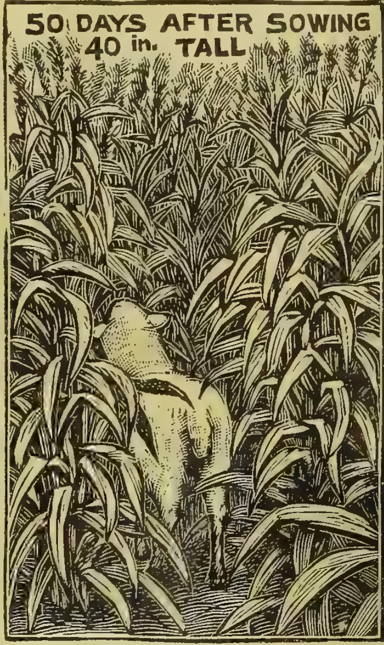
Wm. E. Roberts, of Davenport, Iowa, reports from same a yield of **6 tons** of half cured fodder, while other Nebraska farmers report yields, despite drought and dry weather and rainless sky and hot scorching suns, o from 30 to 40 tons per acre. There is nothing quite as good in the Amber and Sorghum Cane line as our Earliest Cane for quick fodder. Sheep relish it, hogs grunt for pleasure and grow fat, cattle glory in it, horses will jump a wire fence to get into it, while poultry and chickens, in fact, everything living whose home is upon the farm is fond of it. It makes sweeter syrup; in fact, it is A No. 1 in each and every respect.

IN LA CROSSE COUNTY

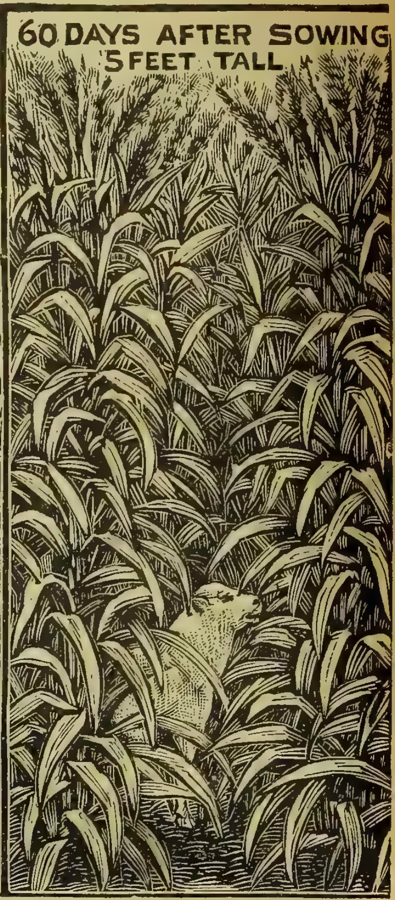
on very rich, sandy, quick acting soil, it was cut three times and pastured for weeks. The estimated yield of green food was **83 tons or 166,000 pounds per acre.**

Dexter Hyde, Ashland Co., O., says: "Your Salzer's Earliest Cane is one of the greatest fodder novelties of the 20th Century and should be raised by every up-to-date farmer."

W. J. Buckner, Crocket Co., Tenn., subscribes to the following: "A half a pound of seed planted of Salzer's Earliest Cane will bountifully supply one cow and her calf until frost."



50 DAYS AFTER SOWING 40 in. TALL



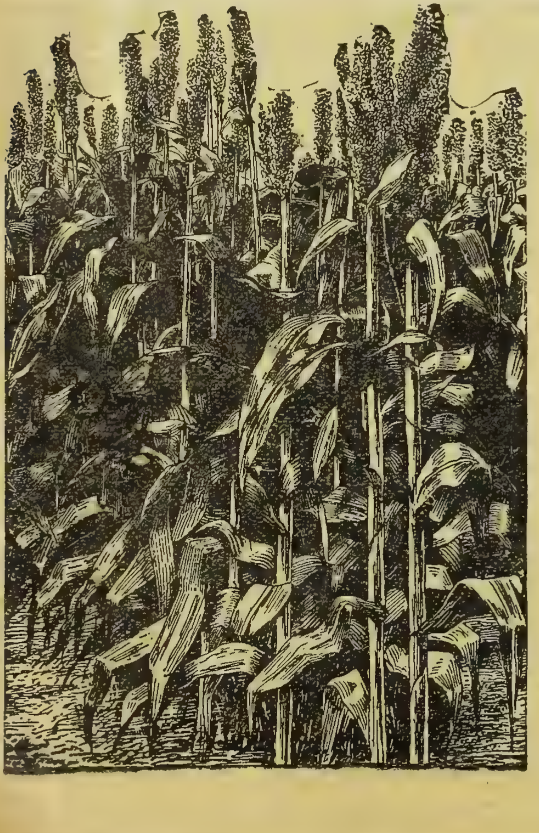
60 DAYS AFTER SOWING 5 FEET TALL

CULTURE OF SORGHUM AND EARLIEST CANE.

☞About 30 pounds of seed is required per acre. Use a wheat drill set to a bushel, stopping every other hole. When plants are about 8 inches high, harrow them with a two-horse harrow. When about 2½ feet high, the first crop can be cut, if desired, for green fodder. They will spring up quickly again, and repeated cuttings can be made.

PRICE OF SALZER'S EARLIEST CANE.

Lb., postpaid, 20c; by express or freight, lb., 12c; 10 lbs., 70c; 30 lbs (sufficient for 1 acre), $1.50; 100 lbs., $3.80; 250 lbs., $9.00.



MINNESOTA EARLY AMBER SUGAR CANE.

Produces from 130 to 280 gallons of syrup, or from 700 to 1,200 pounds of sugar from an acre. Lb., postpaid, 25c; by express, 1 lb., 15c; 10 lbs., 50c; 50 lbs., $2.00; 100 lbs., $3.20.

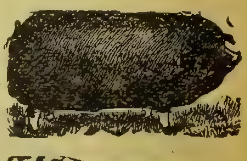
EARLY ORANGE CANE.

This is a Sorghum of unusual merit. It is very early and produces stalks of great sweetness and abundance of juice in great profusion. Lb., by mail, 30c; by express or freight, lb., 15c; 10 lbs., 80c; 50 lbs., $3.00; 100 lbs., $4.50.

SALZER'S EARLIEST KAFFIR CORN.

Out on our Dakota farms, upon our Red Wing properties, down in the town of Holland, in our county, there has grown the past few seasons a fodder plant known as Salzer's Earliest Kaffir Corn. Startling reports the farmers would bring in regarding this tremendous fodder producer. They would go and look at it, drive home and come again in company with their neighbors to see again this marvel. Farmers would come for miles to see this magnificent, this luxuriant, this prodigious producer. There it stood and grew and grew. Look at the illustration. See the sight. Is it not marvelous? Is it not wonderful? Taken from a photograph. Produced by sowing 15 pounds per acre, in rows, on rich, sandy land. Can anything beat it on earth? Almost as good as Salzer's Superior Fodder Corn.

RESISTS AND LAUGHS AT DROUTHS.

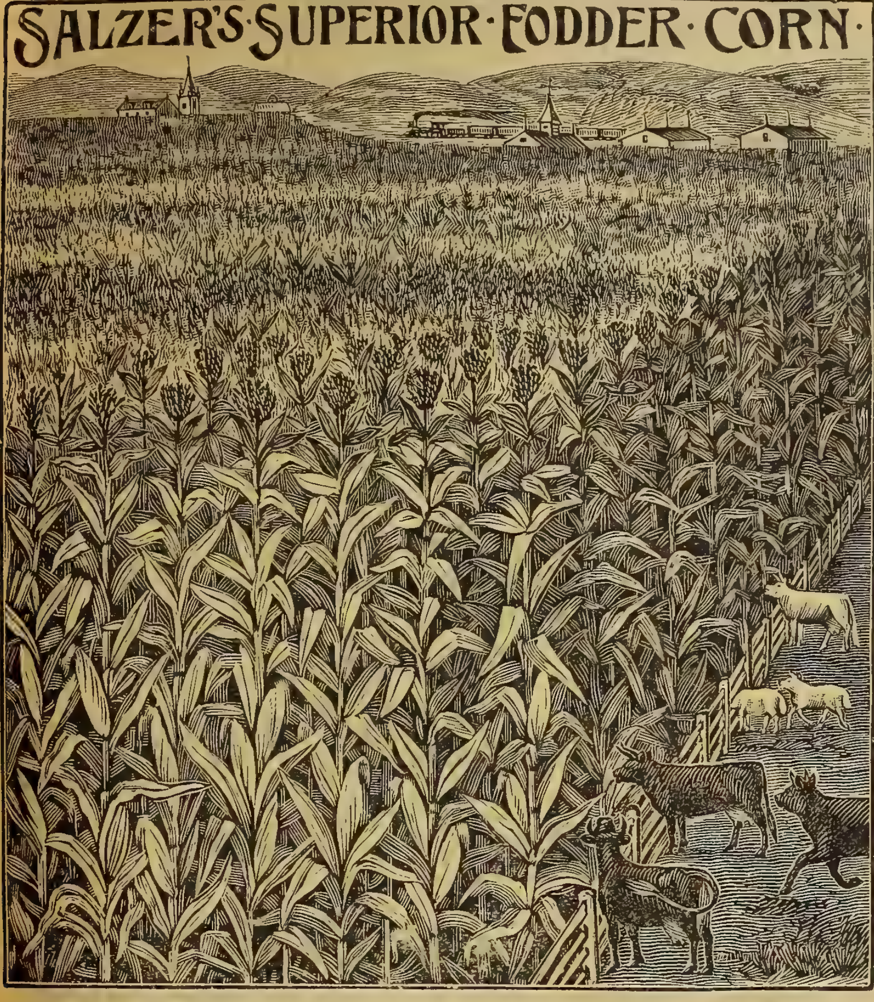


Drouths cannot touch this; at least, that is our experience. It snaps its fingers at dryness. It mocks the hot, withering sun. It is there to grow, rain or shine. It grows and grows, and it matters not whether it rains or whether the sun is hot or not. Salzer's Earliest Kaffir Corn is there to grow. Will you try it this season? Sow in rows 3 feet apart, planting about 6 inches in the row, using from 6 to 15 pounds of seed per acre. It does well as far north as Dakota. It is enormously, prodigiously productive, does so well everywhere that, if you have hogs or sheep, and if you are proud of your horses and love your cattle, you should plant a few acres. Another good thing about it is this, that it will produce tons and tons of seed, which is equally as rich and nutritious and fattening as corn. This seed will fatten your hogs, and do it so cheaply and so well that you will be surprised at the results.

Price by mail, pkg., 10c; lb., 20c. By freight, lb., 15c; 5 lbs., 40c; 10 lbs., 60c; 15 lbs., 75c; 50 lbs., $2.00; 100 lbs., $3.00. Sacks, 22c each.

SALZER'S SUPERIOR FODDER CORN

We have been in the seed business many years; we have spent the greater portion of our lives in improving and helping to better the conditions of the farmer, and in all these years we have never offered anything that has given such tremendous satisfaction near and far as Salzer's Superior Fodder Corn. For years our fodder corn has stood at the head of all varieties of fodder corns. There is reason for this. We grow our fodder corn for seed purposes. We keep sorting and weeding out, improving that type, improving its earliness and at the same time increasing its leafy, bushy, vigorous growth so that we have to-day, without any question, **the very best heavy yielding, large growing, early, rich, nutritious fodder corn on earth!** This statement may seem keen and strong, but more than 100,000 farmers scattered all over the U. S. will back every word that we have said regards same.



For years we have been experimenting with corn for fodder and ensilage purposes, growing every obtainable sort, and carefully testing its real value as a food producer, believing right along that rich **quality is more important** than large yield, but, at the same time looking for a sort combining both, that is, **big yield and rich, nutritive quality.** For this purpose we wanted a **rapid-growing early, short-jointed, tall corn with a great abundance of leaves** and tender stalks, rich, juicy, sweet, sugary flesh in the stalks, with a tendency to mature several ears, as a Corn of this nature furnishes more tons of green fodder per acre, and almost double the nourishment that common Corn gives. This is what we were after, a Corn maturing even in the North; good ears, fine. short-jointed stalk and a prodigal supply of leaves, and this we obtained, by careful selection, in **Salzer's Fodder or Ensilage Corn.** It is immeasurably ahead of the B. & W. Corn—indeed, it outstrips that sort in yield and twice in quality!

SEE THIS, OH FRIEND OF GOOD FODDER.

Chas. E. Brande, Truesdell, Kenosha county, Wis., says: "The Salzer's Superior Fodder Corn that I got from you last spring is truly a great and wonderful Corn. I planted it the latter part of June and some of it nearly ripened before the early frosts. There are two big ears on almost every stalk, and if it had been planted earlier, there would have been magnficent Corn, thoroughly ripened."

"Racine, Wis., Sept. 14—Out on my farms we planted nearly five acres of your Salzer's Superior Fodder Corn, and it is a sight. From one square rod we cut 450 lbs., and this is at the rate of 36 tons (72,000 lbs.) per acre.—C. C. BEEBE."

Mr. Frank Riley, Iowa county. reports the following test:

1.	Red Cob Fodder Corn from Chicago	28,600	lbs. per acre.
2.	B. & W. (obtained from Philadelphia)	31,302	" "
3.	Giant Fodder (from Iowa)	32,307	" "
4.	**Salzer's Superior Fodder Corn**	**54,608**	" "

He says: "Salzer's Superior Fodder is certainly worth three times as much as B. & W., when big ears, full ears, and lots of them, together with the enormous quantity of leafy fodder is considered. Salzer's Superior Fodder Corn is positively worth double the nutritious value of any corn I ever saw! Your Earliest Ripe Fodder Corn is simply peerless for very, very early.

TEN THOUSAND MORE LIKE IT.

Mr. Riley's experiment is only one of ten thousand. Wherever our **Salzer's Fodder Corn** was tested, astonishing reports came of its excellent yield and nutritive quality. It is a fact, that if the farmers of our great and glorious United States would each plant 5 acres of Salzer's Fodder Corn, 5 acres to Billion Dollar Grass, 5 acres Superior Sand Vetch and 10 acres to Salzer's Extra Grass Mixture, they could market over **$300,000,000** worth more cattle than they are now doing! Why not have these 25 acres net you $1,000 a year? How nicely the $1,000 would make the changes in your house you and your good wife have long contemplated! Why not try it?

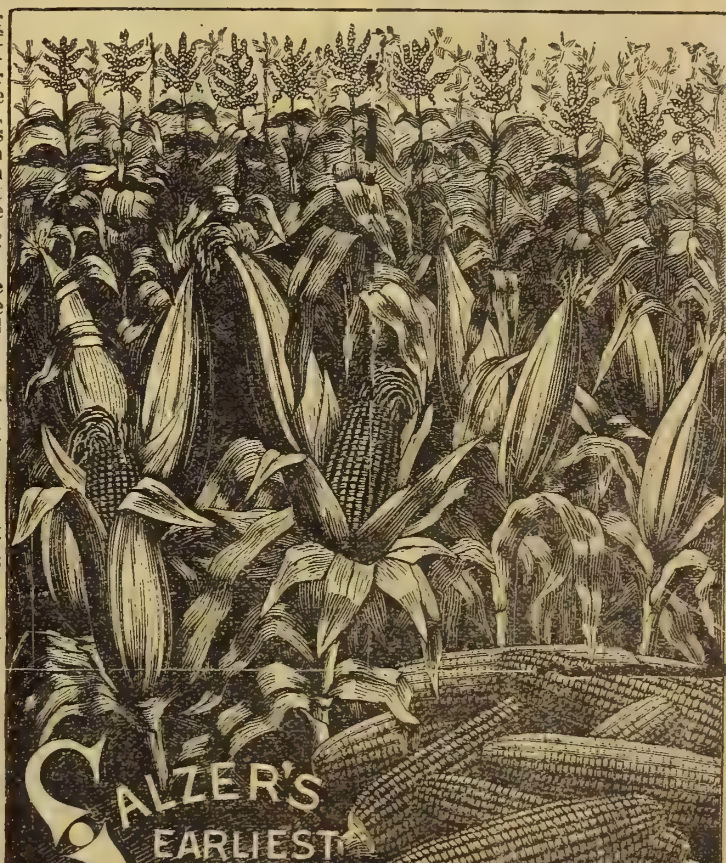
Dont be Fooled by Seedsmen and others offering you sorts "just as good." They are not. Don't believe it; there is only one high grade, high quality, big yielding, nutritious sort, **one that beats them all 50 per cent, yes 100 per cent, and even more!** That's the kind you want to plant, and that kind is **Salzer's Fodder or Ensilage Corn.**

Price of Salzer's Superior Fodder Corn: Pkg., 10c; Qt., 40c, postpaid; by freight, pk., 50c; bu., $1.25; 2 bu., $2.40; 10 bus., $12 net. Sack extra.

SALZER'S EARLIEST RIPE FODDER CORN.

Good morning, Mr. Farmer. How do you do? What is the condition of your herd of cattle and horses and swine and sheep? Have you plenty of fodder? If not, just lend me your ears for a few moments while I recount to you the tremendous advantages gained by planting a few acres of **Salzer's Earliest Ripe Fodder Corn.** While in Europe we found that the fame of this corn had even crossed the ocean and was being planted in large quantities in France, Germany, Holland, Denmark and throughout Europe and in all of these countries, where great stress and value is placed upon a really good article. Now, if fodder corn can be grown in these countries at a profit, it surely can be grown here in America with ten times the profit as it can be grown there, but the beauty about Salzer's Earliest Ripe Fodder Corn is, **that it is the earliest on earth,** that it comes at the time when fodder is always scarce on the farm, during those hot weeks and months, when an acre of corn, with 20 to 30 tons of rich, nutritious food, is worth to every wide-awake farmer lots of money.

This Corn has leaped with one wild bound into popularity, and nothing that we have ever sold has given such great satisfaction. Everywhere throughout the United States where **Salzer's Earliest Ripe Fodder Corn** was planted, it surprised and delighted and pleased and astonished the grower.



IT WAS RIPE IN 70 DAYS

and furnished magnificent feeding corn just at a time when farmers were short of Fodder. If you plant this early, you will have fine feeding corn by July and August, when you can replant same and have good Fodder Corn in September and October. This is the most wonderful early corn in the world.

Our customers would be surprised if we told them how many thousand bushels of Salzer's Superior and Earliest Ripe Fodder Corn are annually planted by our farmer friends. It has gotten to be so that no first-class farmer—that is, a farmer up to the times, wide-awake—allows a season to go by without planting from 3 to 10 acres in Fodder Corn. Fodder Corn is one of the cheapest things that can be grown on the farm, and one of the very best paying things. We ourselves grow very largely of Fodder Corn, using same in preference to hay, and when the hay market is reasonably high, we dispose of our hay and use fodder, because fodder corn can be grown for about one-fifth what hay can; does splendidly for silos; and, another thing, if you get such rich, luxuriant fodder corn as we offer, it is almost as good, yes, many farmers say better, than the very best hay, that is, for cattle.

The Most Perfect, Earliest, Rich Fodder Corn in Existence.

This corn ripens out ears earlier than any Fodder corn we know and usually from 2 to 3 ears on a stalk. The foliage is generally 6 feet high, very leafy and bushy, and contains a tremendous amount of nutritious matter. Of course, this is not as prolific as our Salzer's Superior Fodder Corn, but it has the advantage over any and every other Fodder Corn in the world to-day by its being 30 days earlier. The farmer can easily figure out the great profit in having a fodder corn extremely early, having it come at the time when pasturage is short, and he can then feed this rich, Earliest Ripe Fodder Corn.

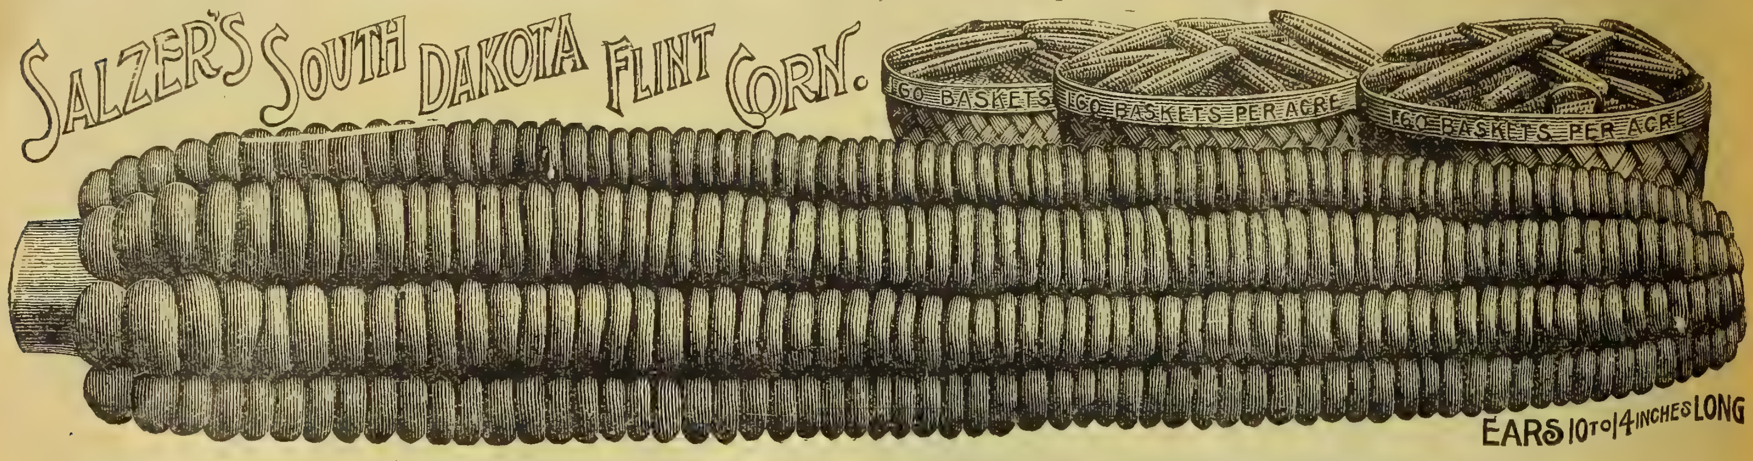
FIELD CORN (FLINT SORTS).

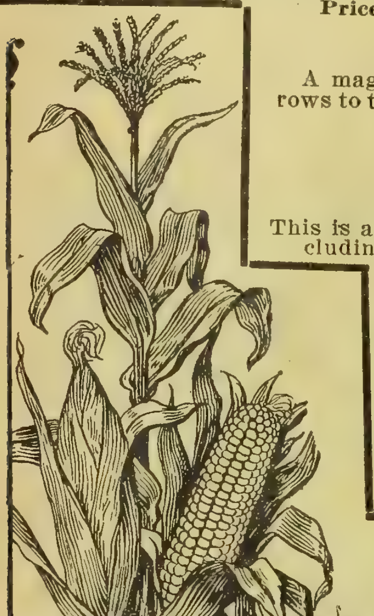
☞We urge our customers to place orders early in order not to be dissappointed. We believe our varieties and our stock are superior to the great bulk that is being offered, and we shall be glad to be favored with your early orders. On the next few pages, you will find some of our superb varieties, such as have given great results wherever planted. Always, please remember, always sow 1 to 2 lbs. Victoria Rape, or 1 lb. Thousand Headed Kale in the last cultivation of Corn, for lots and lots of fall food.



SALZER'S SOUTH DAKOTA YELLOW FLINT CORN.

Ears large, long, of bright yellow color, kernels fair size, thickly set rows from 8 to 12 to a cob, very productive, yielding 160 bushel baskets per acre. It is not uncommon to find 3 to 4 ears, 10 to 15 inches long, on a stalk. It matures early and will be hailed with delight by our thousands of Dakota friends. A great point in its favor is, that it has ripened at La Crosse August 10th, fully 16 days ahead of the first slight frost. It is a magnificent sort, wonderfully prolific and very early; or, as a practical farmer said to us: "Salzer, your South Dakota Yellow Flint is not 'GET there, ELI,' but IS THERE EARLY AND RIPE, waiting for Eli to get there!"

Price: Pkg., 10c; qt., postpaid, 35c; qt., by express, 20c; pk., 60c; bu., $2.00; 2½ bu., $4.50.



SALZER'S NORTH DAKOTA WHITE FLINT CORN.

A magnificent variety of early White Flint Corn with large ears, often 14 inches in length, solid kernels, with 8 to 12 rows to the cob, of a dark silver color. **Pkg., 10c; qt., 35c, postpaid. By freight: Qt., 20c; pk., 60c; bu., $2.00; 2½ bu., $4.50.**

PRICE OF THE FOLLOWING 7 FLINT CORN SORTS:
Pkg., 10c; qt., 35c, postpaid; by freight, qt., 20c; pk., 60c; bu., $2.00; 2½ bus., $4.50.

1. Houghton's Silver White Flint.

This is a well-established variety, with uniform characteristics, including early maturity, medium size, both of stalk and ear.

2. Longfellow Field Flint.

The ears are from 10 to 15 inches long, 1½ to 1¾ inches in diameter. The cob is small, kernels large and broad. This corn is adapted to the Northwest, and is said to have produced 200 bushels of ears to the acre in Massachusetts.

3. Angel of Midnight Flint.

Begins to ripen August 5th, and is the earliest yellow we have ever tried. Longest ears 14 inches, 8 rows, over 60 kernels in a row; kernels, large, broad, yellow, flat.

4. Rideout or Mercer Flint.

Very early Yellow Flint.

5. King Philip Flint Corn.

This Red Flint Corn is so well known that it needs no special description. It is an 8-rowed ear, 8 to 12 inches long, and with good cultivation will yield 75 bushels per acre.

6. Washakum Yellow Flint Corn.

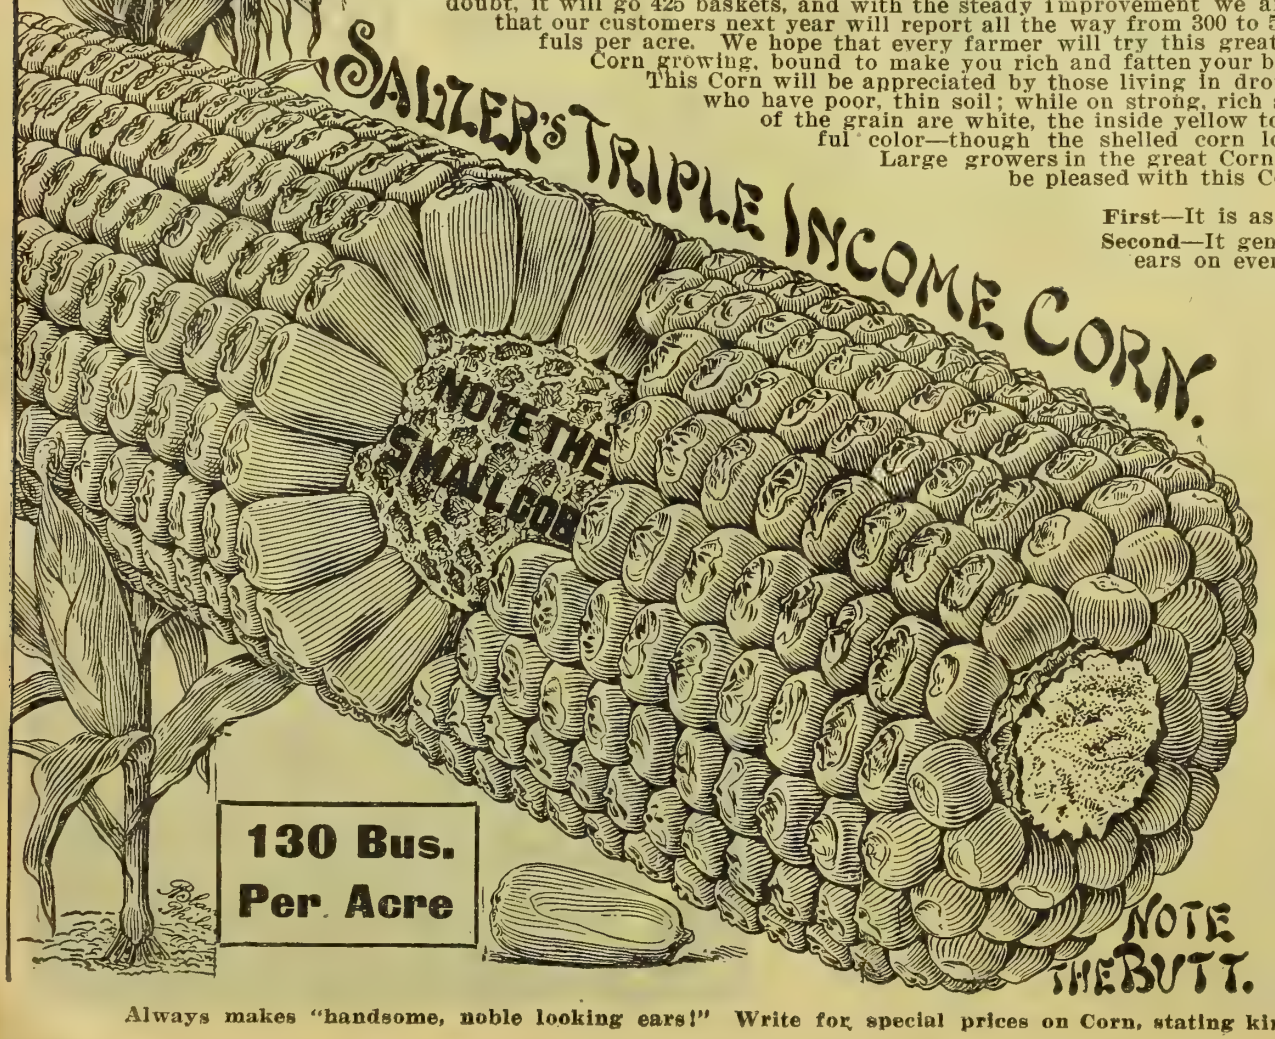
Early; about 9 inches long; the kernel is long and deep; the color rich and glossy.

7. Turtle Mountain White Flint.

This is the earliest Flint Corn in existence. Ears fine, long, early.

SALZER'S TRIPLE INCOME DENT CORN.

Last year Mr. Lovejoy had 400 big baskets full of this Corn per acre. This year he writes us that, without doubt, it will go 425 baskets, and with the steady improvement we are making on this Corn, we believe that our customers next year will report all the way from 300 to 500 great, big heaping bushel basketfuls per acre. We hope that every farmer will try this great Corn. It is bound to revolutionize Corn growing, bound to make you rich and fatten your bank account if you will plant a-plenty. This Corn will be appreciated by those living in drought sections, and by those farmers who have poor, thin soil; while on strong, rich soil it has no superior. The tip ends of the grain are white, the inside yellow to whitish yellow, making it a beautiful color—though the shelled corn looks homely, the ear is handsome! Large growers in the great Corn belt, as well as those out of it, will be pleased with this Corn, because:



SALZER'S TRIPLE INCOME CORN.
NOTE THE SMALL COB
130 Bus. Per Acre
NOTE THE BUTT.

First—It is as natural a yielder as weeds.

Second—It generally produces three well-developed ears on every stalk.

Third—The ears are large, handsome and well filled.

Fourth—It is sure to mature in from 90 to 95 days.

Fifth—It husks easily and shells easily.

Sixth—It commands the highest market price.

Seventh—It will grow more bushels on poor, thin land than any other kind in the world.

Eighth—It stands the drought better than 60 other varieties grown in the same country.

Ninth—It has a large number of rows on the cob, making it a great yielder.

Tenth—It will outshell and outyield Leaming Corn.

Eleventh—It grows its fodder strong, rank and rapidly from 7 to 8 feet high.

NOW MR. FARMER,

this is the Corn for you to try. It's dirt cheap, too! It's new, it's grand, it's a tremendous yielder and scoffs at droughts or rain or bad weather! It defies the elements and returns yields that please, profit and astonish you.

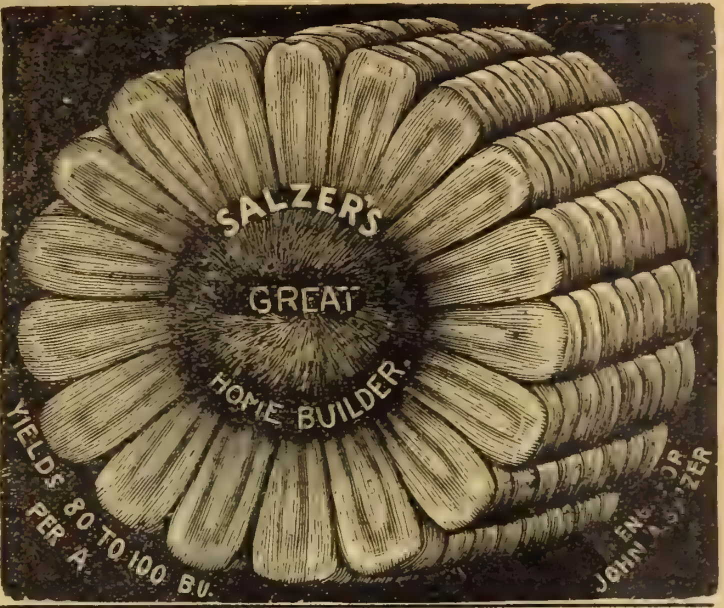
SALZER'S HOMEBUILDER CORN



SALZER'S
GREAT
HOME BUILDER
YIELDS 80 TO 100 BU. PER A.
ENG. FOR JOHN A. SALZER

This Corn was introduced by us in 1906 and it has fairly captured the hearts of every farmer who has tested same. It is a wonderful Corn. It is a pedigree stock. All barren stalks have been carefully eliminated and the moment the kernel touches the ground it is ready for strenuous work. It sprouts quickly. It sinks its roots deeply and firmly into the soil after moisture and nourishment. Then it shoots up and produces Corn weighing from 1 to 1¾ lbs. per ear and often produces 2 and 3 golden ears per stalk. Ears of large size, grain is very deep, cob small and dries out rapidly, thus making it a sure cropper. The corn is so solid on the cob that the kernels appear as if driven in, and it shells out immensely. Will produce a larger crop on poor soil than any other variety we know of and with good culture will astonish everybody. It is the corn to plant and we want all our customers to try it.

Of this Corn H. F. Hunter says: I planted one acre to your new Corn novelty—Salzer's Homebuilder. I put it on my Missouri River bottom farm southwest of Pierre (the capital of South Dakota). There, on Dakota soil it produced at the rate of 276 bushels handsome yellow corn per acre.

48 OUNCES OF SHELLED CORN FROM THREE EARS

ALL PURPOSE CORN.

We cannot say too much for this Corn. It is a splendid Corn in every respect. It is a yellow dent variety. Large ears of strong and rich quality and would easily stand right along at the top of all Corn varieties. It is a very early Corn for its large giant sized ear. We planted same at La Crosse May 15th and it was ripe Sept. 25th.

Now the transcendent merits of this Corn lie in its being an "All Purpose Corn." It is pre-eminently the Corn to plant for all purposes on the farm. It is splendid for feeding horses; it is unsurpassed for fattening hogs; it has no equal for cattle, while sheep delight to eat it and it makes poultry healthy and well and fat if the latter is desired.

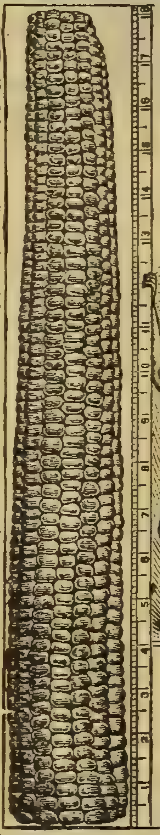
14. **Sterling White Dent**—A medium early white dent Corn.
15. **Rustler White Dent**—An early white dent variety.
16. **Gold Medal**—Long ears, extra early long dent.



EARLY LONGFELLOW DENT.

This is in a class by itself. It has the longest ear of any variety of dent Corn we know of. In good season the ear will run easily 12 to 14 inches long, and it is not uncommon to find them measuring 16 to 18 inches long or more. It is extremely early. **Pkg., 10c; pt., 30c; qt., 45c, postpaid. By freight, pk., 75c; ½ bu., $1.40; bu., $2.60.**

REID'S YELLOW DENT.

Our Reid's Yellow Dent Corn is grown with the view of breeding it up to an average size of ear, eliminating barren and inferior stalks which produce only nubbins, and increasing the amount of OIL and PROTEIN in the corn for feed purposes. We believe in this corn we have a corn in which two bushels will do as much towards developing farm animals as with an ordinary corn 2½ bu. will do. This corn grows best on rich corn soil in the corn belt states. It is here that it attains its greatest perfection, producing the largest yields and richest quality. It ripens in 120 days easily.

Price: Pkg., 5c; qt., 30c, postpaid. By freight, qt., 20c; pk., 60c; ½ bu., $1.00; bu., $1.75; 2½ bu., $3.90.

EARLY NORTHWESTERN DENT.

(Smoky Dent) 12 rows. This corn is in a class by itself, being a reddish dent variety. It is extremely early and quickly adapts itself to a new territory. It is a sure cropper and has become a great favorite with all who have grown it. It is an especial favorite in North Dakota. Under ordinary conditions the average height of stalk of this corn is 7 ft. 8 in. Average distance of base of ear from ground, 3 ft. 5 in. This is so early a corn that you will want it. Our stock is grown in Dakota. It's great for early.

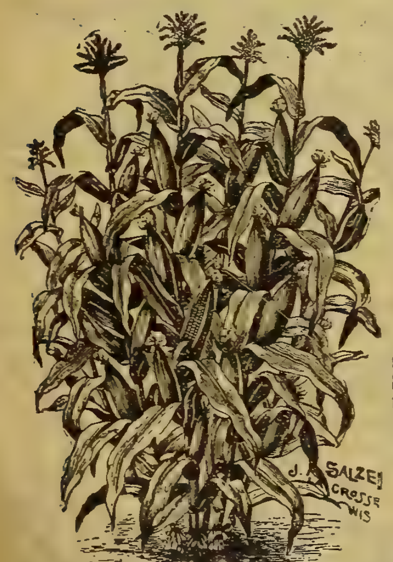
BRAZILIAN FLOUR CORN.



One of the greatest novelties ever introduced. Originated in Brazil, where it constitutes the principal food of the inhabitants. It is truly a marvelous plant. Its strong points are:

1. Twenty-five barrels of flour can be grown from 1 acre (and this flour is of as fine a grade), which is five times as much as wheat produces per acre.
2. The bread and biscuits baked there-from are extremely palatable.
3. When boiled in a green state it has no superior among Sweet Corn, while its yield is thrice that of Sweet Corn.

☞Can be ground with our Family Grist Mill.

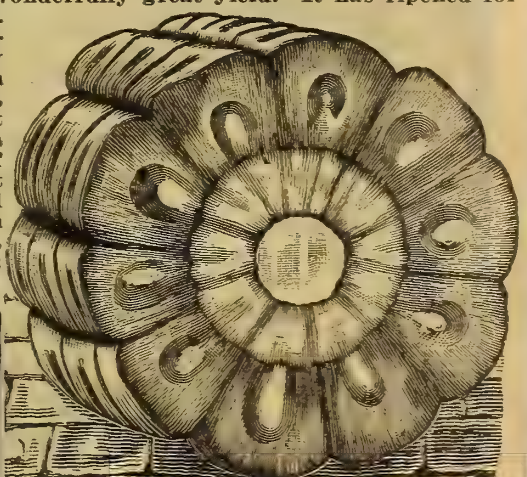
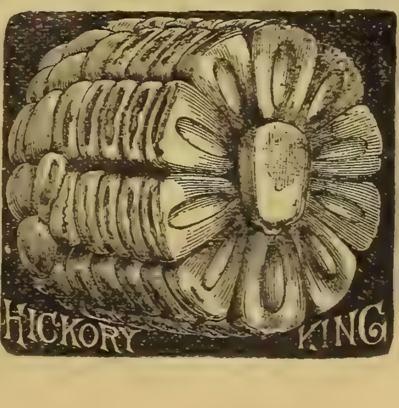
MINNESOTA KING CORN!

This Corn has become immensely popular owing to its extreme earliness, fine ears, beautiful kernels and wonderfully great yield. It has ripened for us at Mellette, S. D., repeatedly.

It's a fine yellow dent Corn, doing well everywhere. Not only does it shine in the Dakotas on account of its extreme earliness, but right here in Wisconsin it makes glad the farmer with a yield equal to 80-120 bushels of as fine corn as you ever saw! It is splendid for fattening hogs and they will run over each other in getting at it. **Pkg., 10c; qt., 35c, postpaid; by freight, pk., 60c; bu., $2.25; 2½ bu., $4.75.**





HICKORY KING CORN.

This is a late variety of White Corn. Kernels similar to the Minnesota King only white and much larger. It is especially adapted for middle and southern states.

SALZER'S PROCLAMATION!

MINNESOTA EARLIEST DENT.

(First Early).

This is the earliest White Dent Corn in existence. The ears measure from 8 to 10 inches long, are extremely healthy, and the kernels seem to be set in as tightly as though they were wedged. It is eagerly eaten by all cattle, swine, horses, poultry, etc. The kernel is quite large, but the cob is small, while the Corn is extremely early. It has ripened without trouble in South and North Dakota, and other Western states. **Ripe and fine on August 25th,** that's what our farm manager reports—and such big ears, too; why it proved itself earlier and finer and heavier yielding than the Flint Varieties, with big ears, often ten inches long. **Price: Big pkg., 15c; pt., 30c; qt., 50c; postpaid; by freight ½ pk., 50c; pk., 75c; bu., $2.00; 2½ bu., $4.75.**

CHAMPION WHITE PEARL.

(Third Early).

This corn easily stands head and shoulder above all other white corn sorts.

When you place this corn into the ground in spring it quickly sprouts. It sinks its roots. It establishes itself firmly and by means of its long rootlings secures nourishment and moisture more than the ordinary corn, and with the sunshine and atmospheric conditions added, it manufactures quickly into large well developed, handsome ears, maturing same early and of colossal size and quality.

Repeated yields and tests from farmers give this corn a yield of 250 bus. of ears per acre. It's a corn to tie to. The ears are larger than Giant White Dent, but it is somewhat later. We are positive this corn will please. **Price by mail.**

EARLY GIANT WHITE.

(Second Early).

A magnificent early, large eared, giant White Dent, yielding enormously in every state where corn grows. It is so early, so good, so heavy yielding, that everyone praises it. It never has failed to ripen big crops of splendid White Dent Corn at La-Crosse. Of it Mr. Layton Yancy, Lafayette Co. Mo., (we don't give his full address; we did a year or so ago, and he was flooded with 1,300 letters or more to answer inquiries about this great Corn), writes: "Your Giant White made a splendid yield. Was ready to crib almost 60 days before our home-grown seed. It has—most all of it—been spoken of for seed." Now, then, the way to make money is to follow Mr. L. Yancy's example. Plant new varieties of Seed Corn, Oats, etc., and sell them to your neighbors for seed.

Pkg., 10c; pt., 20c; qt., 35c, postpaid; by freight, pk., 65c; ½ bu., $1.25, bu., $2.00; 2½ bu., $4.75; 10 bu., $18.00.

Here you have them:

THE THREE BEST WHITE DENTS.

First—The Minnesota Earliest. This is for extremely early. Ears are somewhat small, but very early.
Second—**Giant White Dent. Large eared. Second early. Returned at La Crosse the splendid yield of 930 bus. on six acres.**
Third—**The Wonderful Champion White Pearl** with colossal sized ears of finest quality, yielding 250 bus. per acre.

QUEEN OF THE NORTH.

(First Early.)

Queen of the North makes one of the finest shelled corns. 70 lbs. of corn will shell out 61 to 63 lbs. of the brightest, finest, most solid kernels that you have ever seen, leaving cobs to weigh from 7 to 9 lbs. This Corn is very early. It has repeatedly ripened for us in Dakota, even as far north as Ellendale. The ears are from 7 to 9 in. in length, and are well filled to the butts and exceedingly well developed. The kernels are long, bright and heavy. The very small cob, the deep kernel and the perfect shape make this variety one of the finest to grow for extreme early. We have had same ripen in 80 days, though we call it 80 to 100 days. It matures thoroughly. It is sweet and palatable, making the very best grain feed. The foliage is abundant. Considering the size of the ear. it is a surprisingly good yielder, due to the fact that a great many of the stalks bear 2 or 3 ears each. Every stockman, every farmer, every planter should have at least a small acreage of Salzer's Queen of the North Corn for early feed.

NEW LEAMING.

(Second Early.)

The very best all around heavy yielding Dent Corn of the century. Known the world over as a heavy yellow Corn. Has yielded 1,238 bushels on 10 acres. On our own lands it has repeatedly returned 100 bushels per acre, and Mr. Lovejoy, of Minnesota, had 3,106 bushels from 25 acres. This is bred from the original J. S. Leaming Corn. We have increased the size of the ear and its earliness and also the percentage of grain by careful breeding. We have also increased the depth and roughness of the kernel and the feeding value by increasing the protein and fat. Our stock has repeatedly ripened as far north as the Dakota lines.

IOWA GOLD MINE IS EXTREMELY EARLY.

(Third Early.)

This Corn ripened thoroughly in Wisconsin, Kansas, Nebraska, Iowa and Illinois inside of 100 days. Now, this is very early for this very large, very deep kerneled, very fine Corn, and stamps it as one of the very earliest sorts. We believe this Corn, in a year or two, will thoroughly ripen in the Dakotas inside of 80 days, as through selection and cultivation we hope to ripen this remarkable Corn inside of that time; but when you think of its ripening in about 100 days in these great corn-growing states, you will readily see it is an extremley early sort.

I. SALZER'S SUNBEAM CORN.

If there is a better corn, a larger eared corn, a heavier yielding corn, an earlier giant eared variety than Salzer's Sunbeam, we do not know it.

It is a wonderful corn. It sinks its roots deepely after nourishment and plants itself firmly into the ground, ready to do duty in the way of enormous yields.

In the production of this corn, we have endeavored to breed out all the barren and weakly and sickly stalks that so often cut down the yield and quality of new as also old varieties of corn.

Instead of offering this two or three years ago we have kept it and have worked upon it until today we believe we have it in the finest, heaviest yielding, largest eared, earliest yellow dent corn in existence.

400 BUS. PER ACRE.

It seems almost impossible and yet why should not you get 400 bushels of heavy Yellow Dent corn per acre.

Let us reason together. You have good corn land, rich and strong. We have the proper seed to put thereon. Take an acre and put upon it a peck of Salzer's Sunbeam Corn. Plant it 11 inches apart in the row and the rows good 4 ft. apart. In this way you will get over 11,00 stalks. Ears grow giant in size and if your season is right and the prevailing conditions right there is no reason under the sun why you should not average 2 to 3 pounds per stalk.

3 lbs. to the stalk would mean 33,000 lbs. of corn to the acre. Figuring 70 lbs. to the bushel would make 470 bus. to the acre. Now then cut that in two and it will be 235 bushels. That does not look unreasonable does it?

See here, Mr. Farmer! Your splendid training as a corn grower, and your fine corn land ought to give you for 1910 easily 235 bus. per acre for each and every acre you plant to.

SALZER'S SUNBEAM CORN.

Convince yourself. Try it. The yield will astonish and the quality bewilder you.

Sunbeam is the earliest **giant eared corn we know of.** Planted at La Crosse it was ripe by the 15th of September. It was planted in North Dakota and it was ready to pick before the frost. In South Dakota it snapped its fingers at Jack Frost, while in Iowa and Illinois it made so wonderful a yield as to astonish the farmers who tested same. Plant an acre in the Dakotas, Northern Wisconsin and Minnesota, get it acclimated, save your own seed and in 1911 you will plant largely of this splendid variety.

We hope you and everybody will give same a thorough trial and with this in view we have made the price very, very low.

A 15c package will give you one bushel of selected ears for 1911. A quart should give **you 5 bus. of good** seed corn for 1911.

PRICE: By mail—Big Pkg., 15c; pt., 30c; qt., 45c, postpaid. By express or freight—Pt., 20c; qt., 30c; pk., 90c; ½ bu., $1.50; bu., $2.75; 2½ bus., $6.00.

2. WISCONSIN SUNSHINE CORN.

Introduced by us, and is by far the earliest large dent corn in existence, and also the largest eared early corn. Indeed, it is one of the earliest yellow dent, handsome eared corns in existence. It won easily at the great Interstate Fair at La Crosse over all competitors as the earliest yellow dent corn. In our mind it is decidedly earlier than such corns as Wisconsin No. 8. Queen of the North, Van's Blue Ribbon, Minnesota No. 13, etc. It is the result of a scientific hybridization made fifteen years ago by a practical seed corn grower, and followed by careful selection each year since to obtain the earliest large-eared corn in the world. Of very strong, vigorous character, growing more rapidly than any other variety from the day it is planted. Its quick growth really surprises one with the speed with which it hurries on to make ears. The stalks usually have from nine to eleven blades, while most ordinary corn has thirteen blades. Leaves quite broad of dark, emerald green, healthy color. Has been planted as late as June 26th and yielded a splendid crop. We claim it will mature in eighty to ninety days. Ears are larger, smoother and easier to handle than Pride of the North and will yield one-third more under the same conditions. An average bushel of seventy pounds will make sixty pounds of shelled corn. It has for years been selected from stalks which set the ears three feet or less from the ground and this has a tendency to make it earlier. Fully 40 per cent of the stalks produce two good ears. It is the "farmer's reliance" every year. **The originator has taken the first prize** for early yellow corn at every fair at which it has been exhibited. It's a wonder for so early!

We think that you could safely plant same as far north as North Dakota and Northern Minnesota and Montana.

Our method would be to plant an acre, acclimate same, save the seed stock and next year you will plant a great deal of this corn and wonder how you ever got along without it.

PRICE: By mail—Big Pkg., 15c; pt., 30c; qt., 45c, postpaid. By express or freight—Pt., 20c; qt., 30c; pk., 90c; ½ bu., $1.50; bu., $2.75; 2½ bus., $6.00.

3. SILVER KING (Wisconsin No. 7).

Famous **corn**! best loved corn in Wisconsin; a corn that stands ready to give a glad account of itself whenever planted, and for Southern Minnesota, South Dakota, Northern Iowa, as also the lower two-thirds of Wisconsin, it will yield more bushels of fine corn than any other white Dent.

History—Hats Off to Prof. Moore:—This corn originated in northern Iowa. Prof. Moore brought it to Wisconsin a few years ago and has developed and improved it and sent it out over the state through the members of the Wisconsin Experimental Association. Ours was the first seed house to offer it, cataloging it for the first time in 1907. In 1906, 275 members of the Wisconsin Experimental Association tested it and reported an average yield of 59.2 bushels of shelled corn per acre, which was nearly double the corn average for the whole state. On the Experiment Station farm that year 22 acres yielded 75 bushels per acre. In 1907, a poor corn year, the average yield of Silver King throughout the state was 54.5 bushels per acre, while the breeding plot on the Station farm gave the remarkable yield or **98 bushels per acre.** This past season, 1908, **the entire acreage of the Wis. Ex. Station, 22 acres, gave the very high average of 93 bushels shelled corn per acre.** At the National Corn Exposition in 1907, **Silver King took 8 straight premiums,** and at the recent 1908 show at Omaha it took practically **all the premiums in the Wisconsin Class.**

Description:—Look at the illustration. Ears averaging 8 to 9 inches, always filled out clear to the tips, and very uniform in size and type. The corn is pure snow-white in color with good length kernels set compactly in straight rows. The corn is a strong grower, early enough to mature as far north as Oshkosh, Wisconsin, and is especially adapted to resist cold weather. It has a decided double-ear characteristic, one reason for its fine yield records.

Value:—We feel that we can hardly rate the value of this corn too high. **It gets ripe and it produces the yield.** Prof. Moore says, "Push it hard. It will stand it." It has almost revolutionized corn growing here in Wisconsin, and has placed our state **first in the list of all the states west of Ohio for yield per acre.** The November, 1908, Crop Bulletin of United States Agricultural Department is our authority for this statement. How is that for a state not in the so-called corn belt? Silver King is largely responsible for this. 92.2 bushels shelled corn per acre is a good showing for ordinary field culture. That is the record of this variety at the Station farm in 1908. Hundreds of young men, the leading farmers of Wisconsin, are ready to swear by Silver King. These progressive young farmers, members of the Wisconsin Experimental Association, have grown our stock for us, **the finest and largest stock of corn we ever had to offer. Order our high-grade fire-dried Silver King Corn on the ear if you want the best.**

EMPEROR WILLIAM OATS.

This Oat is making its third annual bow to you. So enormous has been the demand for same that each year we were several thousand bushels short; but believe, that for 1910 we have grain enough! It is an oat that comes from the greatest oat country in the world, Germany. It has been tested on my farms and grown extensively the past few years, and although the seed of this Oat this year is somewhat light, as in ordinary years it weighs easily 40 lbs. to the bushel, nevertheless it is an Oat worth sowing for 1910 and we will tell you why.

Do you know that Germany grows more oats than nearly the whole of Europe put together, outside of Scotland and England? Of course, we know nothing of Russia because that country does not give us statistics on oats, but Germany piles up more bushels of oats than Sweden, Norway, Austria, Italy, Spain, France, Holland and the whole bunch put together. Why is this? Germany has no better land than we have. Germany's farmers are no wider awake than ours, but Germany has always taken high rank in the production of good seeds, whether this be in the flower seed or vegetable seed or farm seed line and this new Oat, Emperor William, is another oat marvel.

It is a great big kerneled variety, big enough to satisfy anybody, and it is in good Oat years unusually heavy, weighing then from 38 to 46 lbs. per measured bushel.

When I was in Germany a few years ago and obtained my seed stock of this Oat, I saw it growing in the richest valleys of the Rhine and was completely captivated with its remarkable appearance and remarkable properties. It was a heavy stooler. That pleased me. It had strong, stiff jointed straw. That tickled me. It had long ears filled to the plump with great big heavy plump kernels. That filled me with delight, and it was not long until I had bargained for the crop.

I have grown this Oat successfully here in Wisconsin and Dakota and Minnesota, and have given it a most thorough trial and find it not wanting in any respect that goes to make up a great splendid variety of oats for the American planter.

A. BLANC, PHILA.

EMPEROR WILLIAM OATS.

Now what I should like to see for 1910 is that every farmer reading this catalouge will sow at least an acre of this oat. It requires 2½ bus. to do this and the price for **2½ bus.** is but **$4.25**, or **$15.00** will plant four acres. Now we are not going to tell you what these four acres will yield, but we believe it will be an eye opener to you, a surprise, a wonder, for if it acts at all as this oat acts in Germany and as it has returned for the past four years on my own farms and under my own observation here in Wisconsin, Minnesota and Dakota, and also the past season in Iowa, Illinois, Missouri and Nebraska, if it will at all do as it has done in these places, you will thank me from the bottom of your heart for having advised you to sow liberally of **Salzer's Emperor William Oat for 1910.**

Two years ago we had a letter from a farmer that would do your heart good. He is an old man; originally came to this country from Norway. Has farmed it for years, but never got ahead more than to pay for his farm.

That spring we induced him to put in 40 acres of **Salzer's National Oats.** Do you know what the result was? He sold over $1500.00 worth of oats, for seed. Shall I tell you, what he did with this money? He and his wife started on a trip for Norway and they spent several hundred dollars of that well earned money on their first vacation, revisiting the scenes of their youth in beautiful Norway!

Now, what this man did, others can do, you can do. The way to do it is to get new seed grains and sell them to your neighbors for seed.

Let us suppose you plant 4 acres of Emperor William Oats and sell but 250 bus. of same to your neighbors at $1.00 a bu. for seed next fall and still retain a great quantity to put in a heavy acreage for the following year. Would not that be making money? Why not try it for 1910?

PRICE OF EMPEROR WILLIAM OATS:

Large package (enough to give you a bushel of seed), 15c; lb., 35c, postpaid.

By Freight: Peck, $0.90; ½ bu., $1.30; bu., $1.80; 2½ bus., $4.25; 10 bus., $15.00; 20 bus., $29.00; 100 bus. at $1.30 a bushel net.

Salzer's National Oats

Clear the Track! Here's the Monarch! The Dan Patch of the Oat field! Nothing like it on Earth!—As Dan Patch captured the world's pacer record, so Salzer's New National Oats takes the cake; carries off the first prize as the biggest yielder everywhere. One of the rare qualities of this Oats is the peculiar, remarkable heavy heads and branches produced by each stalk. Another thing that occurs to us as we write this is: It is the sixth of our really great Oats that the John A. Salzer Seed Co., introduced. First came **Salzer's White Bonanza with 134 bushels** per acre; then came our great Northern Oats with **131 bushels.** Salzer's Silver Mine Oats with **209 bushels,** followed by Salzer's Big Four Oats with **200 bushels,** then our 20th Century Oats with **its big yield; and now** to complete the sextette, comes our **NATIONAL OATS, with a yield so large, so satisfactory, so profitable, so generally good,** yielding here, there, and everywhere, **great healthy, prodigal crops,** that we feel we may well shout "Eureka!" for in our

NATIONAL OATS,

we believe, we have introduced an Oat that combines every good quality that one seeks in Oats.

Good heavy yeilding Oats have long been our hobby. We reasoned, What's the use of growing only 25 to 35, or even 40 bushels White Oats per acre, when with an improved sort, that same acre can be made to yield 60, 80 or 200 bushels and more! We admit that fifteen years ago on our own farms, we seldom had over 35 bu. per acre; but my, how things have changed since then! We would honestly be ashamed to have a yield of less than 80 bushels per acre now.

THE HEADS OF SALZER'S NATIONAL OATS are large, long and filled with big, plump kernels that weigh out a bushel very fast. We are accused by some parties that we exagerate on yields. We claim right here that we do not. There is not a single yield given in our catalogue that some wide-awake farmer did not have. and that you, yourself could have, right on your own soil, under your own eyes and under your own supervision. **If you but will.** There is no question about this. You are just as good a farmer as any one else. if you wish to be, and if you wish these big yields. you can have them every time. You must live up to the conditions: The ground must be plowed thoroughly, seed must be sown carefully, soil must be tilled constantly and kept free from weeds. Get Salzer's big yieding seed. and they will astonish you with big, big, big, yields.

OUR PLAN

would be to try in a small way, 2½ bushels Rejuvenated White Bonanza, 2½ bu. Emperor William Oats, and then a big acreage of 5, 10, 20, 40, or more acres of our wonderful National Oats for your main crop.

PRICE OF SALZER'S NATIONAL OATS.

BIG POINTS!

We will here only enumerate the following points in favor of these Oats:

1st.—It is national *in character, growing, stooling, producing enormously in every state and territory of the U. S.*

2nd. — A Novelty. *This National Oats originated in crossing two of our healthiest, biggest yielding, strongest varieties; hence its quality, to produce such tremendous yields.*

3rd.—Stood the test *on* 15,000 *farms scattered all over America, everywhere it did well, despite unfavorable seasons and produced heavily.*

4th. — Earliness. *Nothing like it in earliness. Our crop was ripe and cut and stacked 8 days before other sorts were ripe.*

5th.—Money. *That's what the earliest Oats always bring in the market, and especially on the farm, for many farmers are short of Oats in the summer when this ripens.*

6th.—Profit. *Now, then, here is an Oat that makes profitable farming absolutely certain in any state from Maine to California, and south to the Gulf, and north through Canada. It will certainly yield from 20 to 80 bushels more per acre than any of the common varieties.*

7th.—Oat Meal.— *Large millers and manufacturers of Oatmeal will gladly pay from 3 to 10 cents more for a bushel of this variety.*

8th.—Yield. *This is simply enormous, some say from 60 to 100, 150, yes, 200 bushels or more per acre.*

9th.—It is Bug-Proof. *This Oat, more than any other variety, laughs at bugs and scoffs at insects, and stands up growing vigorously, while other varieties succumb to the ravages of insects.*

10th.—Withstands Drought. *No sort that we have ever tested so thoroughly and completely withstands dry weather as Salzer's National; indeed, it seems to be proof against every element in the shape of weather, withstanding all and yielding heavily.*

11th.—Strong Straw. *Now, then, Salzer's National Oats has wonderful stiff straw, withstanding severe winds to a marked degree.*

12th.—The Last 20 Bushels. *It is the last 20 bushels per acre that makes farming profitable. If the common sorts yield 30 bushels per acre. and this gave you 50 bushels. the last 20 bushels would be the profit; but if this gave you 100 bushels, it is very easy to figure out great profits on 100 acres.*

TREMENDOUS YIELDS!

We sent out a number of bushels of Salzer's National Oats as a trial and here are some of the great results. We could give you a great many more. (We have the full address of these gentlemen in our office.)

187 BUSHELS PER ACRE.

Dexter Hyde, Ashland County, O. *"Your Oat novelty,* **Salzer's National,** *yielded for me at the rate of 187 bushels per acre. I call that grand."*

231 BUSHELS PER ACRE.

Lawrence Schiestel, Osceola County, Mich. *"I never saw anything like your* **Salzer's National Oats.** *It yielded for me at the rate of* **231** *bus. per acre."*

Salzer's Rejuvenated White Bonanza Oats.

In 1886, or 24 years ago, we first offered this oat to the American public, and at that time it was considered the most remarkable oat ever sown on any soil in America. We received for same $3.50 a bushel for each and every bushel that was sold.

In 1889, just 21 years ago, the American Agriculturist offered a prize of $500.00 in gold to the farmer of the United States raising the greatest number of bushels from 1 measured acre, and of course, Salzer's White Bonanza, easily won out, although every known variety on earth was tried by the 10,000 farmers who entered the brisk contest, and not only did Salzer's White Bonanza win the first prize, but also the second prize, in this then famous oat trial. (See below.)

This Oat, however, in the last 20 years has been **ALLOWED TO DEGENERATE**, but we took a hold of same again a few years ago and have completely rejuvenated and regenerated this oat and believe that today we have something even better than in 1886, 24 years ago! We clipped from our catalog of 1888 what we said about the oat 22 years ago. We know it will be interesting reading to you, while we know that the oat as **rejuvenated,** will prove itself the greatest oat on earth, the proud King of the Oat Field.

DESCRIPTION: (Taken from Catalog 20 Years Old.)

It is a vigorous grower, strong straw, remarkably free from all diseases and almost absolutely rust proof, early ripener and enormously productive, with great, long heads, filled to the tips with fine, plump, solid, heavy, white kernels, of good size.

LOOK AT THIS.

This extra ordinary yield every farmer in America can have, by sowing Salzer's Dakota grown White Bonanza Oats. There's money in it, and money is what everybody wants—to do good with.

COMPARISON.

1st year— 4 acres sown with 10 bu. Bonanza Oats, yield on 4 acres—410 bu.
2nd year—160 acres sown with this 410 bu. Bonanza Oats, yield on 160 acres— 16,200 bu.

COMMON SORTS.

1st year— 4 acres sown with 10 bu. Common Oats, yield on 4 acres—160 bu.
2nd year— 70 acres sown with this 160 bu. Common Oats, yield on 70 acres— 2,950 bu.

Yield more Bonanza Oats in 2 years.........13,250 bu.

13,250 bu. at market price of 30c per bu., would make a difference of just $4,075, if oats are sold for feed purposes to the Elevators at 30c. Truly, sowing White Bonanza pays, if you can make $4,075 in only two years! **$4,075.00**

Take Wisconsin for Example.

In 1887—Sowed 1,328,728 acres to oats—yield only 29,603,429 bus.

Had its Happy Farmers Sown White Bonanza.

On 1,328,728 acres @ say **only 80 bus.** (in 1888 it threshed 212) they would have cropped 106,298,240 bushels or over **80,000,000** more than they did! On 100 acres it would have made a difference of **5,000** bus! The same in every other state! Why not buy Bonanza! and win the **Prizes.** It yielded for us on old wheat soil, 100 bus. per acre!

Just see the wonderful array of figures, the startling yields my customers had with it—Doesn't that look good? Think of 80 to 212 bus. per acre! What oat can beat it.

We could continue pages with further testimonials and yet some of the Seedsmen will tell you: "Oh we have an oat just as good as Salzer's." Don't be fooled, White Bonanza has stood the test, all over America, and everywhere pronounced the peer.

Take White Bonanza for general crop—It will pay you. You can sell it to your neighbor at a **FANCY PRICE FOR SEED.** It will sweep the country like a whirlwind!

JUST THINK OF IT.

Owes its enormous yields largely to its stooling properties. One kernel sending up frequently 50 to 80 solid, strong, stiff stalks, producing long, full fine heads, with from 60 to 75 kernels! **3871 kernels have been grown from one single grain!** The substance of the whole matter is: There is no oat like it in yield, productiveness, earliness, beauty, vigor, and selling properties.

A GOOD THING.

One of our customers in 1886 bought of us 2½ bus. White Bonanza Oats. This was sown on one acre land, yielding **him 91 bus.** In spring of 1887 he sowed these 91 bus. on 40 acres and this fall **threshed 3603 bus.** of as fine oats as was ever seen in his state. He says every bushel is promised for seed at a **fancy price**—giving him a profit over all expenses of **$2000!**

(From Salzer's Catalog of 1890—20 years ago.)

$500.00 IN GOLD.

In 1889 the American Agriculturist offered $500.00 in gold to the farmer raising the greatest number of bushels from one measured acre. It was won by W. R. Strickland, Albion, N. Y., who purchased of us 2½ bushels of White Bonanza Oats and sowed same on one acre,

yielding 134 bushels and 23 pounds.

Some 10,000 entered the contest and the White Bonanza scooped them all, returning the first and second heaviest yields. **The editor of the *American Agriculturist*,** commenting up it, says: "The *American Agriculturist* pronounces it the most prolific of all varieties."

SALZER'S REJUVENATED WHITE BONANZA OATS.

We believe this to be the greatest Oat of the Century; the finest, strongest, heaviest, noblest Oat in the world, and at once, we wish to give it a world-wide distribution; that is, we want to see it sown on every farm in every state of the Union where Oats can grow; and you can bet your last dollar, it will be to you an Eye Opener! A Startler!

Why, Sir! Wright Brothers' Air Navigator or Count Zeppelin's Sky Monster are not in it compared with the remarkable qualities and health and heft, vigor and yield of Salzer's Rejuvenated White Bonanza Oats, the proud King of the Oat field.

HANDSOMEST OAT OUT.

Hon. W. S. Burroughs, a prominent La Crosse Attorney, a great lover of fine horses, and who has owned the past 30 years some of the handsomest trotters in La Crosse, when seeing this Oat, said "he never dreamt an Oat could be so handsome, so plump, so large, so heavy, so beautiful."

This is the universal verdict of everyone who has seen this Oats.

160 ACRE FARMS FREE.

We wish at once to see Salzer's Rejuvenated White Bonanza Oats sown on 10,000 farms in America and for this reason, to create a great rivalry, we offer for the biggest yields the following splendid farm lands free.

FIRST PRIZE, 80 ACRES.

This is a sweep stake prize for the biggest yield obtained by anybody, growing the largest number of bushels per acre from 2½ bushels of seed purchased from us this spring.

SECOND PRIZE, 40 ACRES.

This prize is given to the party, growing the second largest yield per acre from 2½ bushels of seed purchased from us this spring.

THIRD PRIZE, 20 ACRES.

This tract of 20 acres is given to the party, growing the third largest yield per acre, from 2½ bushels purchased from us this Spring.

FOURTH PRIZE, 20 ACRES.

This tract is given to the party, growing the fourth largest number of bushels, per acre, from 2½ bushels of seed obtained from us this spring.

IN ALL 160 ACRES of as fine land as the sun shines on in the famous county of Marinette, Wis.

These tracts are located within 4 or 5 miles of great railroad lines, C. M. & St. P., C. & N. W. and the Soo.—near the best markets of the world, Chicago, Duluth, Milwaukee and St. Paul!

Authentic yield reports must reach us by Oct. 10, 1910.

Land will be deeded Dec. 15th, 1910, so you can begin your work on your new farm at once.

Now, Mr. Farmer, you can win a fine farm just as surely as your neighbor, because someone will win it.

You are just as good a farmer, just as bright a farmer, and a little bit brighter than he, so put on your "I will" and determine to win ONE OF OUR PRIZE FARMS.

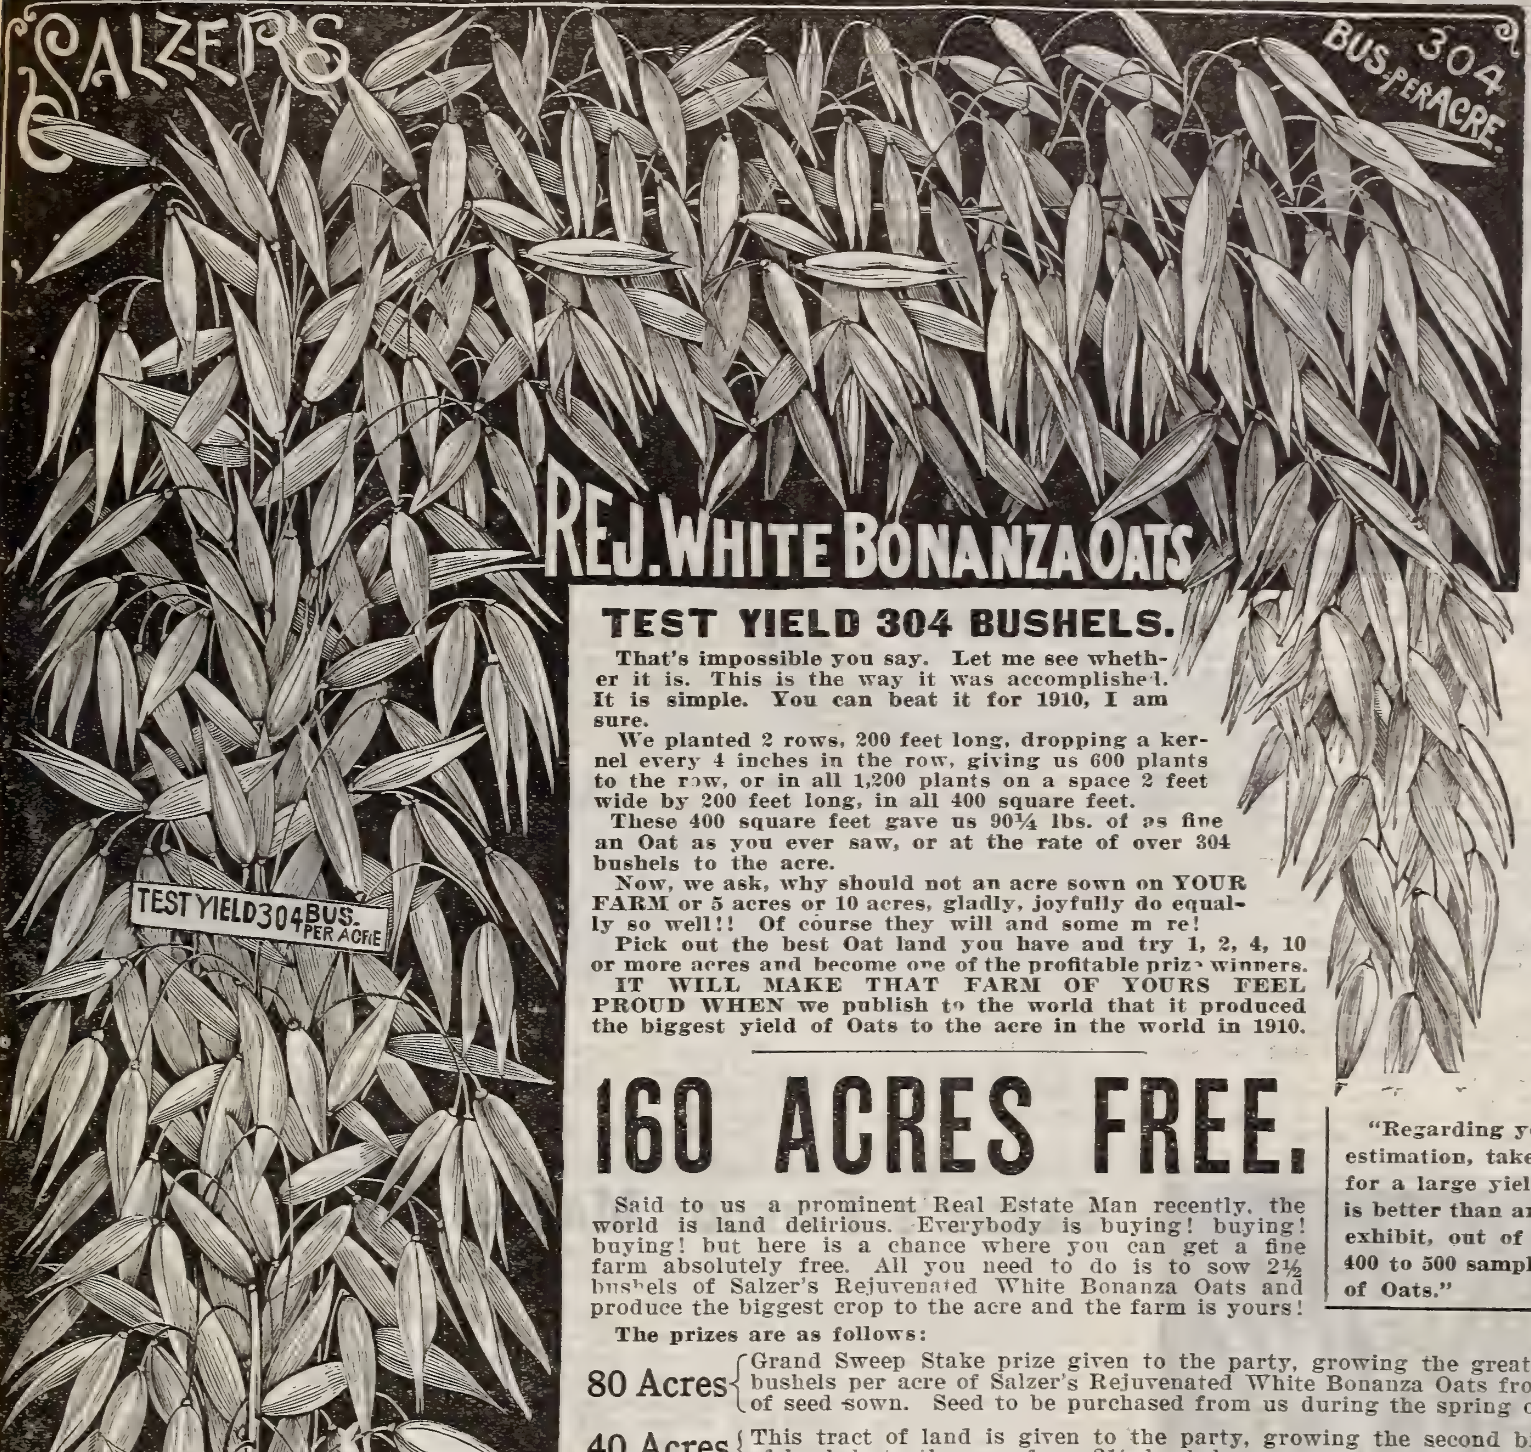
Salzer's Rejuvenated White Bonanza Oats.



TEST YIELD 304 BUSHELS.

That's impossible you say. Let me see whether it is. This is the way it was accomplished. It is simple. You can beat it for 1910, I am sure.

We planted 2 rows, 200 feet long, dropping a kernel every 4 inches in the row, giving us 600 plants to the row, or in all 1,200 plants on a space 2 feet wide by 200 feet long, in all 400 square feet.

These 400 square feet gave us 90¼ lbs. of as fine an Oat as you ever saw, or at the rate of over 304 bushels to the acre.

Now, we ask, why should not an acre sown on **YOUR FARM** or 5 acres or 10 acres, gladly, joyfully do equally so well!! Of course they will and some more!

Pick out the best Oat land you have and try 1, 2, 4, 10 or more acres and become one of the profitable prize winners.

IT WILL MAKE THAT FARM OF YOURS FEEL PROUD WHEN we publish to the world that it produced the biggest yield of Oats to the acre in the world in 1910.

WONDERS NEVER CEASE!

Men fling messages over the ocean without wires! They look through brick walls with an X ray. They fly in the air with machines, heavier than the air bearing them! What astonished you and me yesterday, we scarcely notice today and so it is with this great Oat.

I want to tell you right here that never before has there been so fine an Oat, so wonderful an Oat, so marvelous an Oat offered to the farmers of America, while way back 20 years ago, when the original White Bonanza Oats was introduced by us, the Department of Agriculture at Washington, D. C., boldly proclaimed:

"Regarding your Oat, in my estimation, taken as a whole, for a large yield, this variety is better than any other in the exhibit, out of a lot of from 400 to 500 samples of all kinds of Oats."

160 ACRES FREE.

Said to us a prominent Real Estate Man recently, the world is land delirious. Everybody is buying! buying! buying! but here is a chance where you can get a fine farm absolutely free. All you need to do is to sow 2½ bushels of Salzer's Rejuvenated White Bonanza Oats and produce the biggest crop to the acre and the farm is yours!

The prizes are as follows:

80 Acres	Grand Sweep Stake prize given to the party, growing the greatest number of bushels per acre of Salzer's Rejuvenated White Bonanza Oats from 2½ bushels of seed sown. Seed to be purchased from us during the spring of 1910.
40 Acres	This tract of land is given to the party, growing the second biggest number of bushels to the acre from 2½ bushels sown.
20 Acres	This piece of land is given to the party, growing the third largest yield per acre from 2½ bushels sown.
20 Acres	This fine piece of land is given to the party, growing the fourth biggest yield per acre from 2½ bushels sown.

Total, 160 Acres.

Authentic reports of your yield, signed by yourself and two neighboring farmers must reach us by Oct. 10, 1910. The land will be deeded to you Dec. 15, 1910. These lands are in Marinette County, Wis., where Timothy and Clover grow almost man high, and Oats, small grains, Potatoes, Peas, forage crops thrive to perfection.

Prize winners can go up and are permitted to take their pick out of 640 acres.

160 ACRES FREE.

This remarkable Oat is worthy a test on every farm in America.

Our plan would be to buy 5, 10, 20 or more bushels and sow same in 2, 4 or more separate lots on different portions of your farm and the 2½ bushels sown, giving the largest number of bushels per acre should be entered to win the prize.

Wouldn't that be a proud day for your farm! When it is published to the world that during 1910, you grew the greatest number of bushels of Oats to the acre.

The yield of Salzer's Rejuvenated White Bonanza Oats will surprise you! It will astonish you! It will open your eyes! It will make glad your heart!

We read this remarkable offer of giving 160 acres free to a group of farmers among whom there were a half dozen of their boys, when one bright fellow said. "Pa, let me try an acre" and his good pa turned upon his son with: "You bet, you may, and I'll try too and we will see who is the best farmer, you or I!"

Now, Mr. Farmer, there is no danger of **THAT BOY** ever wanting to leave the farm. Why not buy 2½ bushels for each of the boys and let them enter the race for above farms. Hurray!! for the winner of above prizes. You can have the land just as well as your neighbor. Be in the swim. Try it for 1910.

OATS.

1. SALZER'S SILVER MINE OATS.

No Oats ever offered created such a sensation as Salzer's Silver Mine Oats. It no doubt was the greatest Oats ever introduced up to this time, but must now give way to our National and Emperor William Oats. We have for years made Oats a great specialty of our business, and to show you what Silver Mine Oats can do for you, we introduce here a testimonial on same. It is a White Oats, strong, stiff straw, and we are sure you will be delighted with same.

Mr. P. U. Sinnott, Randalia, Iowa, among others, writes: "Salzer's Silver Mine are the most wonderful Oats I have ever seen. I purchased of you 2½ bushels, which I sowed on 1 measured acre, and harvested 196 bushels and 15 pounds, only lacking 3 bushels and 17 pounds of the coveted 200 bushels. I am sure I would have gotten 200 bushels, yes, much more, but the season was so dry.

PRICE OF SALZER'S SILVER MINE OATS: Pkg., 10c; lb., 30c; 4 lbs. $1.00, postpaid. By freight: Pk., 50c; bu., $1.25; 2½ bu., $2.90; 10 bu., $11.

2. SALZER'S GREAT NORTHERN OATS.

It has very strong, stiff straw, does not lodge easily, with a soft shell, large kernels, and is relished by horses. We introduce herewith one letter to show you what our customers think of this Oat.

Hon. I. D. O'Donnell, General Manager M. & M. Land Co., Montana, under date of July 15: "I had 162½ bushels of Salzer's Great Northern Oats from the 2½ bushels planted on 1 acre." That tells the story; 162½ bu. per acre on 100 acres, 16,250 bu., at 40c, would net $6,500.

Price: Pkg., 5c; pk., 50c; bu., $1.25; 2½ bus., $3.00; 10 bus., $11.75.

3. BLACK PROLIFIC OATS.

A grand Oats which is, with us, absolutely rust-proof, of great vigor and health. Our stock, like all black Oats, runs into light shades. Pkg., 5c; pk., 50c; bu., $1.40; 2½bu., $3.40; 10 bu., $12.50.

4. BLACK EGYPTIAN. (Imported.)

Our climate in America seems to be against keeping Black Oats black. It soon puts on light shades, hence we annually import an almost coal black oat for those who wish something really fancy and are willing to pay the cost.

For our own use we think the prolific Black Oat fully equal to any imported oat, though it is never so heavy, never so black, never so fine looking. We are sure that our farmer friends who will try this oat will say they have never seen any finer.

Price: By mail, big pkg., 15c; lb., 40c, postpaid. By freight: Pkg., 15c; lb., 30c; peck, $1.00; ½ bu., $1.75; bu., $3.00; 2½ bu., $7.00.

BLACK EGYPTIAN OATS

5. IMPROVED WHITE RUSSIAN OATS.

A wonderful stooler; 2,268 grains have been counted from one grain, yielding fully one-third more than common white Oats. Seed this year is light. Pk., 50c; bu., $1.10; 2½ bu., $2.70; 10 bus., $10.75.

6. SALZER'S BIG FOUR OATS.

Named on account of the peculiar whorl, making long heads of Oats with usually a dozen side shoots. Ten acres of **Big Four** under good conditions, ought to give you 1,000 bushels easily.

250 BUSHELS PER ACRE.

Mahlon M. Luther, East Troy, Pa., under oath deposes: "I planted 2½ bushels of Big Four Oats on 1 acre of ground, and harvested 250 bu. of 32 lbs. per bu. It is positively the greatest Oats I have ever grown; has very strong, stiff straw, and long heads filled to the tip with very plump, heavy kernels, and is a great stooler. That is one important reason for such an enormous yield."

Price of Big Four Oats: Pkg., 10c; 1 lb., 30c, postpaid. By freight: Pk., 60c; bu., $1.30; 2½ bus., $3.25; 10 bus., $12.00.

7. LINCOLN OATS.

This Oat has done remarkably well in all sections. It is very early and thus far proved to be rust proof. It has given wonderful results as a yielder. Straw is stiff and strong. Grain is handsome and is valuable for feeding as well as grinding for oatmeal, on account of its thin hull and heavy meat. To get the genuine Lincoln Oats buy of us. **Price of Lincoln Oats: Per pk., 40c; bu., $1.10; 2½ bu., $2.60; 10 bu., $9.50.**

8. SWEDISH SELECT OATS. (Brookings College Grown. See P. 90.)

Price: ½ pk., 25c; pk., 35c; bu., $1.25; 2½ bu., $3.00; 10 bu., $11.50.

9. ROOSEVELT OATS.

Brought forward by a Minnesota firm. We have 600 bushels. Yielded for us, at the rate of 45½ bushels per acre. Claimed by the introducers to go 150 bu. per acre! Well it didn't by us, but will try again for 1910! **Pkg., 10c; lb., 35c, postpaid. By freight: Pk., 50c; bu., $1.30; 2½ bu., $2.75; 10 bu., $10.50.**

Salzer's Famous Marvel Spring Wheat.

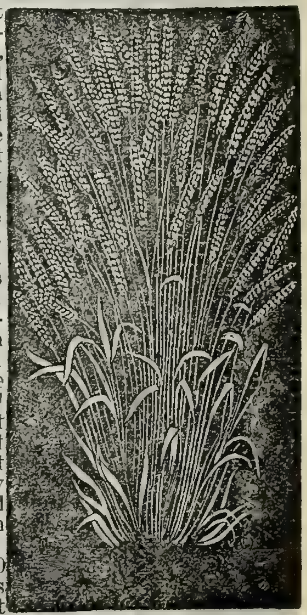
Famous Wheat! Magnificent Wheat! Noble Wheat! Wheat whose sterling qualities, superior vigor, strong, disease and insect-proof properties make it the most famous of all spring wheats grown in the Northwest.

It is a Wheat of superior quality, of beautiful form and shape and although the kernels are not as fine and large and plump and big as ordinarily, yet they will surprise and please you and when it comes to yield there is nothing that will give you better results.

This variety of Spring Wheat is the result of long and careful experimenting, obtained through crossing and careful selection and is as near pure as a hybrid wheat can be. It is not uncommon to find in the field occasionally that a few heads run back to the parents, but that does not harm or detract from the splendid yielding qualities of Salzer's Marvel. We consider it the most prolific, heaviest stooling, healthiest, strongest-growing variety of Spring Wheat with which we are acquainted. The ear is very long and filled up to the point with fine plump, redish kernels.

TAKE WISCONSIN.

Its 1,012,579 acres yielded 12,346,030 bushels of Wheat. Had its farmers sown SALZER'S MARVEL SPRING WHEAT its 1,012,579 acres, at only 30 bushels per acre, would have yielded 30,037,738 bu., a difference of about 17,000,000 bushels in Wisconsin alone. Add to this Iowa, Minnesota, and the Dakotas, the increase of the Wheat yield would have been 75,000,000 bushels, or about $55,000,000! We do not claim this Wheat to be absolutely pure, because it is hybrid—all hybrid Wheats often show parent Wheats—but we do claim it to be the most marvelous, prolific, heavy yielding, quick-selling Spring Wheat that has ever come under our notice, and we have tested every sort known to the trade. It has proven to be hardy and insect-proof. Having been grown in the extreme North assures this variety extreme hardiness—yes, it withstood all kinds of climates, whether storms, warmth drouths or rains, during the growing season and came forth the victor over every known sort and kind. We believe with this Wheat we can make Spring Wheat grow in every state in the Union. It ripens early and thus far has never failed to return kernels unusually plump, large and of fine color. As the average yield in Iowa and Nebraska is but 12 bushels per acre, and of Minnesota and the Dakotas but 18 bushels per acre, it is not difficult to imagine what our Marvel Wheat would do in these localities. Why, it would thresh out yields like 20, 30 and 40 bushels per acre with ease. It gladdens the heart of the farmer and fills his purse. It is a great stooler; 1,213 kernels have been grown from a single grain. Now that means something. It means that, with ordinary care and ordinary fair weather and fair soil, you can have a crop of Wheat that will remind you of the days of your childhood or young manhood when Wheat yielded 40 to 50 bushels per acre right along.



Hon. H. F. Hunter, South Dakota, says: "Last spring I tried 50 acres of Salzer's Famous Marvel Spring Wheat. It took 100 bushels to do it and I paid you full catalogue price! Shall I tell you what it did for me? Well, I threshed 1,740 bushels or nearly 36 bushels per acre! I am sure your Famous Marvel will yet yield for me 50 bushels to the acre!"

U. S. AGRICULTURAL DEPT. MACARONI SPRING WHEAT.

(KUBANKA No. 5639.)

Kubanka No. 5639 Macaroni Spring Wheat was personally selected in the Azov region by Mr. M. A. Carleton, Bureau of Plant Industry, United States Department of Agriculture, Washington, D. C.

Mr. Carleton selected this seed in Russia and sent the original lot direct to Prof. James H. Shepard of the South Dakota Agricultural College Experiment Station under whose direction our Kubanka No. 5639 is grown.

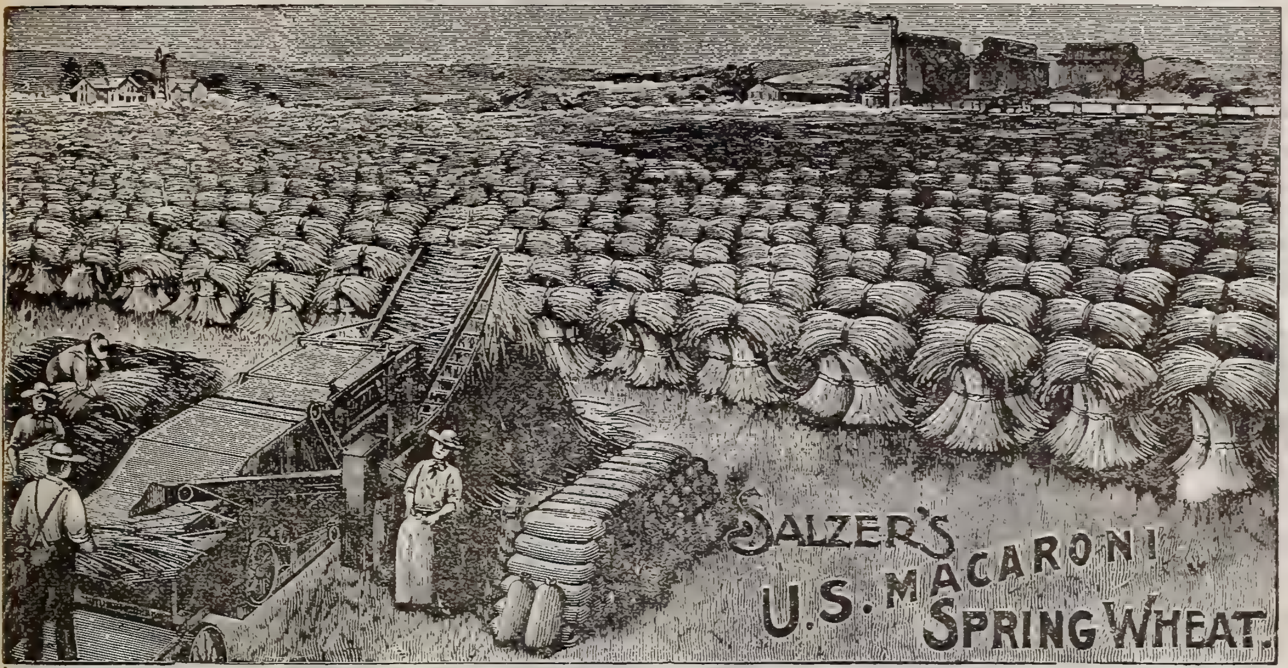
Prof. Shepard considers this the purest Macaroni Wheat in cultivation and for that matter the very choicest and best.

It is now generally conceded by men of science and knowledge, by Millers and Experts that the Kubanka No. 5639 is the best of all Durum or Macaroni Wheat Sorts as it produces

"The highest grade flour and semolina for bread and macaroni and in its chemical and milling characteristics and protein contents," it has no equal for the localities where Durum Wheats are grown.

Kubanka No. 5639 is wonderfully prolific. Indeed 40 to 50 bushels per acre under good conditions is an easy matter for Kubanka No. 5639 to produce and anything less is only brought about by severe climatic conditions or soil.

Great is Kubanka Macaroni Wheat, and the **U. S. Department of Agriculture** has done the farmers of this country a real benefit in calling attention to and urging the sowing of Macaroni Wheat. **Our own observations of this Wheat in Europe convinced us that if the American people once knew the great value of this Wheat, millions upon millions of bushels would be grown and used, especially for bread purposes.** While the Wheat is hard and apparently flinty, yet it makes bread of the richest quality and most delicate flavor imaginable.



Say, John, seems as though these 320 acres of Kubanka Macaroni Wheat would turn out over 60 bushels per acre

63 Bushels.

Macaroni Wheat is great. It gave me 63 bu. per acre. A. G. Orgyle, Brown Co., S. D.

71 Bushels.

Your Macaroni Wheat is simply unsurpassed. My yield was 71 bu. per acre. W. M. Smith, Day Co., S. D.

52 Bushels.

My Macaroni had but half a chance, yet it yielded 52 bu. per acre. Anna Thiel, Barnes Co., N. D.

60 Bushels.

Salzer, you beat the world! Your Macaroni Wheat on my dry soil yielded 60 bu. per acre. Geo. Heldman, Lincoln Co., Neb.

48 Bushels.

Not a drop of water, save a slight rain did my Macaroni Wheat have, yet it yielded 48 bu. per acre. Frank Thompson, Weld Co., Colo.

A GREAT DROUGHT RESISTER.

But more especially does this Wheat come into play in this country in the dry, arid, alkali, hot regions of the United States. Take the Dakotas and Western Nebraska and Kansas and Colorado and Montana and Arizona, Wyoming and Texas—in fact, in any of these states and every other state of the Union this Wheat can be grown and will return yields far beyond the average spring or winter Wheat known today. On our own lands in Dakota we have repeatedly had from 40 to 80 bushels per acre. It does magnificently in Texas, and a large list of our customers have grown same in that state, using it mainly for food purposes. In Dakota and other states, where it has been grown in Russian settlements for the past years, it is ground in the local custom mills for flour, and no other will be used when once tried. It is a wheat that gets along with less moisture than any that we know of, and the yield is always very good. The straw is strong and healthy, and seldom troubled with any of the insects that affect other Wheats. Rust is also unknown on Macaroni Wheat. It will do well, we think, in any State or Territory of the Union, though it is best adapted to soils rich in humus and containing a good portion of potash, phosphate and lime. The U. S. Department of Agriculture says that the Macaroni Wheat stands foremost among all Wheat groups in its excellent adaption to regions of intense heat and drought. It is a Wheat well worth a trial everywhere.

RUST PROOF.

Grand Macaroni Wheat! Noble Macaroni Wheat! You are the only Wheat that defies the black rust, that fearful scourge that did untold damage to the Wheatfields of Minnesota, Dakota and the great Northwest. Marvelous Wheat, Macaroni! You are the wonderful Wheat defying all climates and climatical conditions and sickness, disease, insects and rust; yes, you defied everything and brought easily a yield that astonished everybody, bordering on to marvelous.

HOGS, CATTLE AND POULTRY.

In Russia, hogs, cattle and poultry are kept in a healthy growing condition and fattened on Macaroni Wheat. Indeed it takes the place of corn, and furnishes food of superlative value. It positively makes the growing of hogs possible in almost any state in the Union especially in the hot, dry, arid regions and far north, where corn will not grow. Take Montana, Wyoming and Idaho, and a dozen other states and territories can now grow thousands upon thousands of hogs and sheep and poultry and fatten cattle, at a cost as cheaply as the corn-favored farmer of Iowa, Nebraska, Kansas, Illinois and other states. We hope you will give this a thorough trial.

SALZER'S ASSINIBOIA FIFE SPRING WHEAT.

Here is the wheat for you, Mr. Farmer. Next to your unapproachable, vigorous, hardy high grade remarkably heavy yielding Salzer's Marvel Wheat, comes Salzer's Assiniboia Fife. This sort comes from the Assiniboia Valley, where it has been grown for years, always ripening and returning heavy yields. Indeed, the party from whom our seed stock was purchased assured us that his yield NEVER WAS LESS THAN 30 TO 40 BUSHELS PER ACRE, often reaching 50.

Price of Salzer's Assiniboia Fife. Pkg., 5c; pk., 50c; 1 bu., $1.50; 2½ bu., $3.50; 10 bu., $13.50; sacks, 22c each.

HAYNES' PEDIGREE BLUE STEM WHEAT.

Mr. Haynes took first prize at the World's Fair on this Wheat. So much has this Wheat been improved that it has increased the number of kernels abreast in the spikelet from three to four, with the fifth kernel commencing to make its appearance. The length of the head has increased one-third and the berry much improved in uniformity of color and hardiness. This Wheat we know is A No. 1, and our farmer friends will do well to give it a thorough trial the coming season. **Pkg., 10c; lb., 30c; postpaid: by freight, pk., 50c; ½ bu., 75c; bu., $1.50; 2½ bu., $3.60; 10 bu., $14.00.**

A Bundle of Java Wheat.

EARY JAVA OR BEARDED JOHNSON WHEAT.

Here is a Wheat we know hundreds of our customers have been looking for. It is a bearded spring Wheat variety, resembling the famous French Imperial Wheat which for so many years had such a wonderful sale in the Northwest.

Its points of merit are many, but principally its extreme earliness, being 10 days earlier than Blue Stem or Fife or such varieties.

It has a very stiff straw, reminding you almost of a gas pipe in stiffness with well filled long-bearded heads. Sow 2½ bus. per acre.

The berry is round and plump. It is extremely hardy and of first-class milling quality. It is a splendid yielder. 30 to 40 bu. per acre can be expected of it on wheat soil every time.

Price by mail: Pkg., 10c; lb. 25c, postpaid. Price by freight; Pk., 50c; ½ bu., 85c; bu., $1.50; 2½ bus., $3.60; 10 bus., $14.00.

BILLION DOLLAR GRASS. (Panicum Crusgalli.)

From Japan, that mysterious country, which is furnishing (and has furnished in the past) many rare fruits and vegetable and farm seeds, comes this remarkable grass—remarkable in a hundred different ways, for there is nothing known to man today that is more luxuriant, more wondrously prolific, more marvelously rich and vigorous in growth than the **Billion Dollar Grass.** A number of years ago we obtained a small supply of seed, and for trial sent out a bushel to Mr. Hoffma, one of the most careful farmers in the country. When we say that he is a Hollander, it means that he is fond of cattle, horses, poultry, swine and sheep, and that he, being a Hollander, is accustomed to having the very best that earth can produce on the farm. He, himself, is a long giant, measuring over six feet, but this **Billion Dollar Grass** towers head and shoulders above him. We think it was he who suggested the name **"Billion Dollar Grass."** It was his idea that if the farmers of America would all sow from 5 to 10 acres of this remarkable Grass, they would be worth

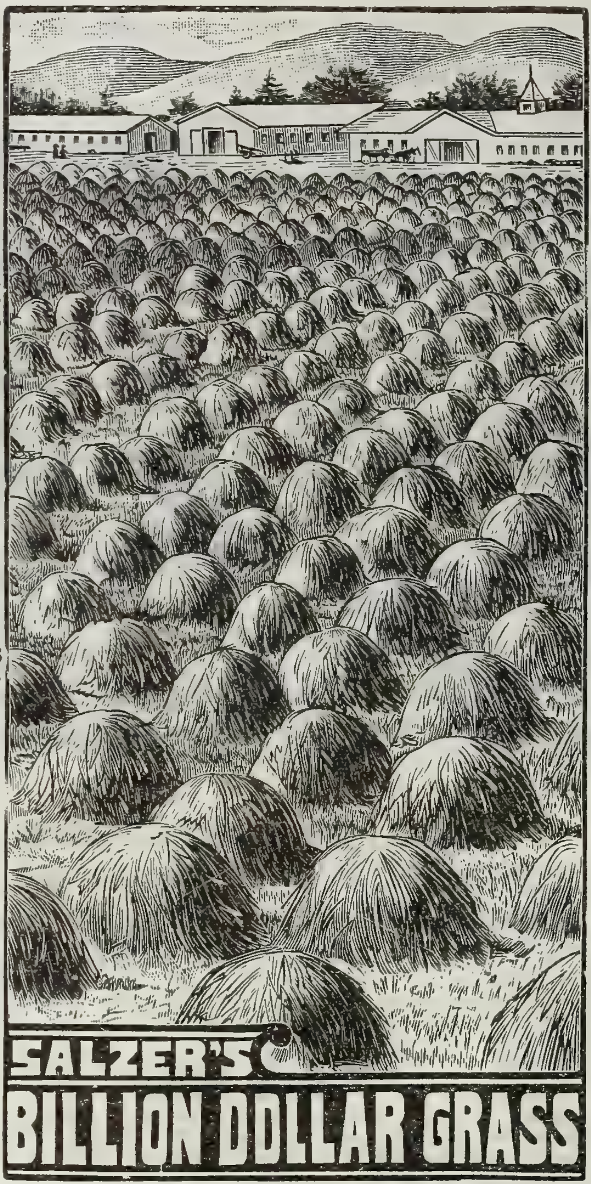
ONE BILLION DOLLARS MORE

every year they so sowed. This seems a startling statement, and when you read this you may think we are trifling with the truth, but hold on a minute, let us explain; let us get at the bottom of the facts; let us see whether this is not the truth, whether the farmers would not be worth **one billion dollars** more if they sowed from 5 to 10 acres of this remarkable Grass. **Prof. Brooks, of the Massachusetts Experimental Station, says: "At our station it produced 67 bushels of seed, 11,297 pounds of straw, 36,000 pounds of green fodder, 12,000 pounds of hay per acre, being superior to good corn fodder in feeding for milk, and in combination with the Soja Bean (or Cow Pea or Peaoat) makes very superior ensilage." Prof. Brooks found by alternating the BILLION DOLLAR GRASS cut from day to day and fed green to cows with well-eared Flint Corn Fodder, that the cows invariably increased in milk when put upon it, and fell off when changed to corn alone.**

You can roll in wealth, as the saying is, if you sow a plenty of Billion Dollar Grass—we paid one grower in 1908 over $6,000 for seed grown on less than 200 acres

A REMARKABLE GROWER.

It is truly the most marvelous grower, the most luxuriant stooler that we have ever seen. Just imagine a field sown to **Billion Dollar Grass** with every spear of it over 6 feet tall, yielding from 26,000 pounds to 50,000 of as rich, green fodder as the world has ever seen. Men talk about hard times, but positively hard times must vanish on every farm where **Billion Dollar Grass** is sown. There is reason for it; you can get two or three rich crops from the same annually; and then a big lot of fodder besides. If you sow early, you will get from 26,000 to 50,000 pounds of fodder, which you can put in your silo or cure for hay and the Billion Dollar Grass will quickly spring up again and give you another yield that will astonish the country. This can be cut again for hay; then the field will give you pasturage all fall long, and horse and hogs and sheep and cattle and poultry will eat it greedily.



TESTIMONIALS.

Jacob Baer, Faulkner Co., Ark.: "Billion Dollar Grass is immense. Seed came up 3d day. When 6 feet high I counted one stalk that had 69 sprouts. It is a tremendous stooler. I cut it and immediately it began to grow again, and is now 2 feet high. It would easily have made 6 tons of hay per acre."

Jas. A. Leppo, Carroll Co., Md.: "I am greatly pleased with the Billion Dollar Grass. I believe it will be a good thing in this country. It was from 5 to 6 feet high when I cut it the first time."

George A. Wright, Orleans Co., Vt.: "Billion Dollar Grass is a great grass for yield, easily making 6 tons of hay per acre. It is a quick growing grass. Stock like it very much. I wish every farmer would try it."

J. E. Park, Marshall Co., Tenn.: "I planted Billion Dollar Grass June 15th; July 20th, in 35 days, it was ready to cut—5 feet high. It is a splendid grass. I want enough for 5 acres."

George Merchant, Iron Co., Wis.: "The Billion Dollar Grass is something immense. I sowed it in June and cut it two times, and it was 5 feet high each time; and now, Sept. 13th, it is again 5½ ft. tall, which I will cut for the third crop of hay. Now it makes 15½ feet that it has grown since early June. At that rate it will make 12 tons of magnificent hay per acre."

David Daniel Tucker: "Consider it the greatest grass of the century. For an annual—one to sow in May and reap in July and cut again in August, and now another time in September and then feed all fall long, sir—for such a grass there is nothing like **The Billion Dollar Grass.** It is great in stooling properties, quick in growth, abundant in leaves, and rich in quality. It is truly the greatest, quickest-growing grass of the century."

LOOK AT THIS.

"I sowed 100 pounds Salzer's Billion Dollar Grass May 15th, on 8 acres. On July 16th I cut from these 8 acres 25 tons of as fine cattle hay as grows. On Sept. 14th I cut for seed and threshed 11,807 pounds of elegant seed which I sold for $280.60. Nothing beats Salzer's Billion Dollar Grass." Amos Miller, Holt Co., Neb.

Houchin Bros., Spink Co., S. Dak.: "Billion Dollar Grass takes the cake. It will yield easily under irrigation, 8 tons of hay and $20.00 worth of pasture besides."

H. H. Dosdel, Cass Co., N. Dak.: "I like the Billion Dollar Grass. Its growth was detained on account of the early summer drought; however, it is to-day 5 feet high, of excellent hay. Three acres of such Grass would be worth $50.00 to any diversifying farmer."

FEEDING VALUE.

Here is where the **Billion Dollar Grass** comes into grand play.

Prof. Williams of the United States Department of Agriculture, says: "Already widely grown as a hay crop, it deserves more general use for soiling, as this Grass is of particular value for feeding to dairy cattle, young stock and sheep. The **Billion Dollar Grass** (Panicum Crusgalli) in many sections of the country can be made a supplement for pasture in such a way as to allow a material increase in the number of stock that can be kept on the farm. On account of the extra yield of forage and good quality of product, the **Billion Dollar Grass** is most excellent for silo use, as frequently a good crop can be raised under conditions which would not admit the growing of corn for ensilage. The **Billion Dollar Grass,** if compared with seed and forage, will run ahead of Timothy. The seed contains almost as much fat and extract matter as shelled corn, a little more protein and about four times as much crude cellulose."

POULTRY, GEESE AND TURKEYS all relish the Billion Dollar Grass in the green state, and keep healthy and happy and fresh on the seed thereof when fed during the fall and winter months.

HOGS AND THEIR FAMILIES—Well, well, how the hogs grunt and give that contented swag of the tail when they can pasture on the Billion Dollar Grass, and then if you wish to fatten them, give them daily rations of the seed. Remember, this Grass will produce from 40 to 100 bushels of seed per acre. This feed, either ground or coarse, makes excellent food, although it is inclined to be slightly laxative.

COWS, CALVES AND HEIFERS look with pleasure on the Billion Dollar Grass pasture and feed in happy contentment upon its luxuriant swath and glory in the Billion Dollar hay, especially if fed along with Cow Pea hay or Peaoat hay or grain. Try it this season, and if you do not wish to make hay out of it, fill your silos therewith and watch the cattle eat same.

HORSES, MULES AND THE LIKE jump over a 4-foot fence to get at the Billion Dollar Grass, and they will fatten and keep healthy thereon. They will eat the hay, although not as eagerly as cattle.

A QUICK PRODUCER.

It will produce a hay crop in from six to ten weeks, anywhere; and if sown the latter part of April will be ready to cut the middle of July for hay, attaining the height of (according to the richness of the soil) from 5 to 7½ feet. It is preeminently the grass to sow if you are going to be short on hay for your cattle and sheep. Indeed, the hay crop of the United States in the past year amounted in round numbers to $700,000,000. Now, if each farmer will sow only 5 acres of the **Billion Dollar Grass,** they could raise enough more cattle and hogs and sheep and horses and poultry to be worth more than a **billion dollars** to the farmers of America. On our own grounds, a rich black sand, it was fit to cut for hay inside of six weeks—that is, it was 5 feet tall. We prefer to cut same when about that height, as it is easier handled. Just stop and read George Merchant's letter, found above.

CULTURE OF THE BILLION DOLLAR GRASS.

Everybody reading the above regarding this wonderful Grass, will wish to know its best method of cultivation. If you wish very fine leafy hay, and have strong, rich ground, sow at the rate of 20 pounds per acre; but if your soil is but moderately rich, then sow at the rate of 12 pounds per acre. This latter is the amount we ourselves sow, and find same very satisfactory. It can be sown at different times of the year, especially if you wish same for pasturage, or if you are short of hay. It can be sown in April, in May, in June, in July, and even in August, and will return glorious, heavy crops.

FOR SEED—Let the Billion Dollar Grass get thoroughly ripe; cut and thresh as you would Timothy. The food value of the seed is remarkable—that is, it is as rich and nutritious as any of the other Panicum family.

FOR FOOD—All rich, luxuriant growing grasses and forage plants must be fed in the green state moderately at first. The Billion Dollar Grass (or Panicum Crusgalli) is one of those rich, magnificently luxuriant growing grasses, therefore you should turn in hogs and cattle and sheep and horses at first moderately, after they have had a good feed somewhere else, and then gradually accustom them to this. It is on the same plan as hungry stock turned into rich clover, they would find harm—yes, possibly death; so they might in the Billion Dollar Grass, or any other rapidly growing food. Turn them in at first moderately, and you can soon permanently.

FOR HAY—Cut just when in bloom—rather sooner than later, as it makes better hay without the seed heads than with them. The hay is then healthier and of finer quality. We prefer to cut Billion Dollar Grass when but 5 feet high; and in curing, we treat as we would a rich field of clover.

MILLET.

1. German Millet.

Cows, horses and other farm stock are exceedingly fond of it, eating it with much relish. Makes a magnificent hay, and is very cheap, as it yields from 3 to 5 tons per acre. **Salzer's German Millet:** By mail, pkg., 5c; lb., 20c; by freight, lb., 10c; bu., $1.50; 2½ bu., $3.50; 5 bu., $7.00; 100 lbs., $3.00; sacks, 22c each.

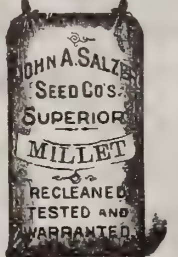
20th Century—Peck, 60c; bu., $2.10; 100 lbs., $4.00.

2. Hungarian Grass.

Luxuriant, vigorous and leafy to an extreme barely imaginable. Unexcelled as a hay producer; all cattle relish it; grown in enormous quantities in all States where grass is short. Pkg., 5c; by freight, pk., 50c; bu., $1.60; 2½ bu., $3.75; 100 lbs., $3.15; sacks, 22c each.

20th Century—Peck, 60c; bu., $2.10; 100 lbs., $4.00.

3. Salzer's Dakota Common Millet.



We hold letters as follows: "Mr. Salzer: Last spring I sowed 5 bushels of your Dakota-grown Common Millet, 6 bushels I received from St. Louis and 6 bushels from an Illinois seedsman. I did this to test the value of the different lots. I was a trifle prejudiced against you, because I thought you talked loud in your catalogue about yield, etc., **but I confess here, that every word you say about yield is true.** The 5 bushels from you gave me more fodder and hay by fully one-third than I received from any of the others, although I planted an acre more of each of the other kinds." **Price of Salzer's Common Millet: By freight, pk., 50c; bu., $1.50; 2½ bu., $3.50; 100 lbs., $3.00; sacks, 22c each.**

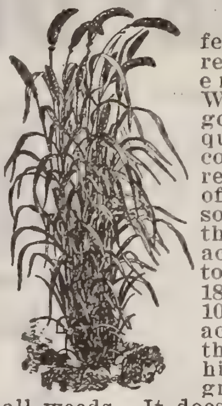
20th Century—Peck, 50c; bu., $1.80; 100 lbs., $3.50.

4. Broom Corn

Hon. F. H. Smith, among others, says "I had 31 hogs which I raised and fattened on Millet Seed. They made an average weight of 524 lbs. on this food, and I fattened one hog that weighed 931 lbs. **Price, pkg., 5c; lb., 30c, postpaid; by freight, bu., $1.50; 2½ bu., $3.65; 100 lbs., $3.00. Sacks 22c each.**

20th Century: Lb., 10c; peck, 75c; bu., $2.40; 2½ bu., $5.75; 100 lbs., $5.00.

5. Japanese Millet.

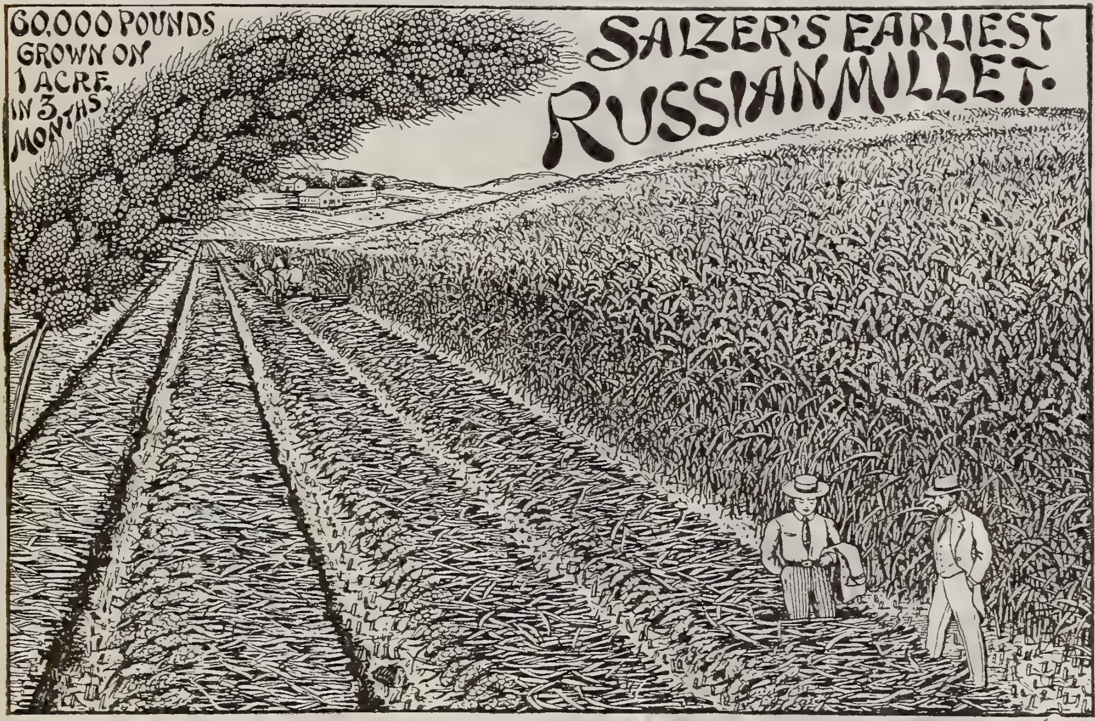


It grows from 6 to 9 feet high, stands up remarkably and yields enormous crops. When cured it makes good hay and in quality is superior to corn fodder. It is relished by all kinds of stock. It may be sown broadcast at the rate of 15 lbs. per acre, but it is better to sow in drills 12 to 18 inches apart, using 10 to 12 lbs. to the acre. Cultivate until the plant is 18 inches high, when its rapid growth will smother all weeds. It does best on low, moist ground. It has some similarity to our Billion Dollar Grass, but not near so bushy, leafy and productive. **Price, lb., 20c, postpaid. By express or freight, pound, 12c; 15 lbs., $1.10; 50 lbs., $2.75; 100 lbs., $4.50.**

20th Century—lb., 15c; 15 lbs., $1.25; 50 lbs., $3.00; 100 lbs., $5.50.

SALZER'S EARLIEST RUSSIAN MILLET.

Go to the ends of the world in search of a Millet that is superior, that is earlier, that is finer, that is richer in quality, that will make better hay, that will do better on a farm, that will give you handsomer results and more pleasure—we say, go to the ends of the world in search of such seed and you must come back to us, because nowhere will you find one that is superior to our Earliest Russian Millet. We know whereof we speak, when we say that **Salzer's Earliest Russian Millet beats anything and everything** that we have ever seen in the millet line.



60,000 POUNDS GROWN ON 1 ACRE IN 3 MONTHS
SALZER'S EARLIEST RUSSIAN MILLET.

Its strong points are these: It is about three weeks earlier than German or Common Millet, wondrously prolific, has great stooling habits, is very leafy and bushy and full of rich green blades; one kernel has been known to produce fifty fine, strong stalks, just the size that are in great demand and eagerly eaten by cattle. On our own grounds a thirty-acre piece, under irrigation, produced 100,000 pounds of seed and it is not an uncommon thing to cut six tons of hay per acre.

EARLIEST RUSSIAN MILLET

is positively the most remarkable, leafy, bushy, vigorous growing, earliest Millet in the world, or, as a farmer who obtained a bushel last year, and from same cropped 15 tons of hay, and had lots of seed besides, said: "It is surely worth its weight in gold to get a start with." The John A. Salzer Seed Co. warrants that every farmer will be delighted, and pleased, and astonished, and profited, by sowing our **Earliest Russian Millet.** It will make a magnificent crop of hay if sown immediately **after your Oats, or Barley, or Rye, or Wheat** is cut, as it will ripen in from 60 to 90 days.

This Millet, like no other Millet, stands the hot, dry winds of the Dakotas, the burning prairies of Kansas, and flourishes on the heated soils of Western Nebraska and Colorado. Sow from 10 to 25 lbs. per acre.

Price of Earliest Russian Millet: Pkg., 5c; 1 lb., by mail, 25c; by freight, 10 lbs., 60c; 50 lbs., $1.90; 100 lbs., $3.50; 2½ bu., $4.40. Sacks, 22c each.

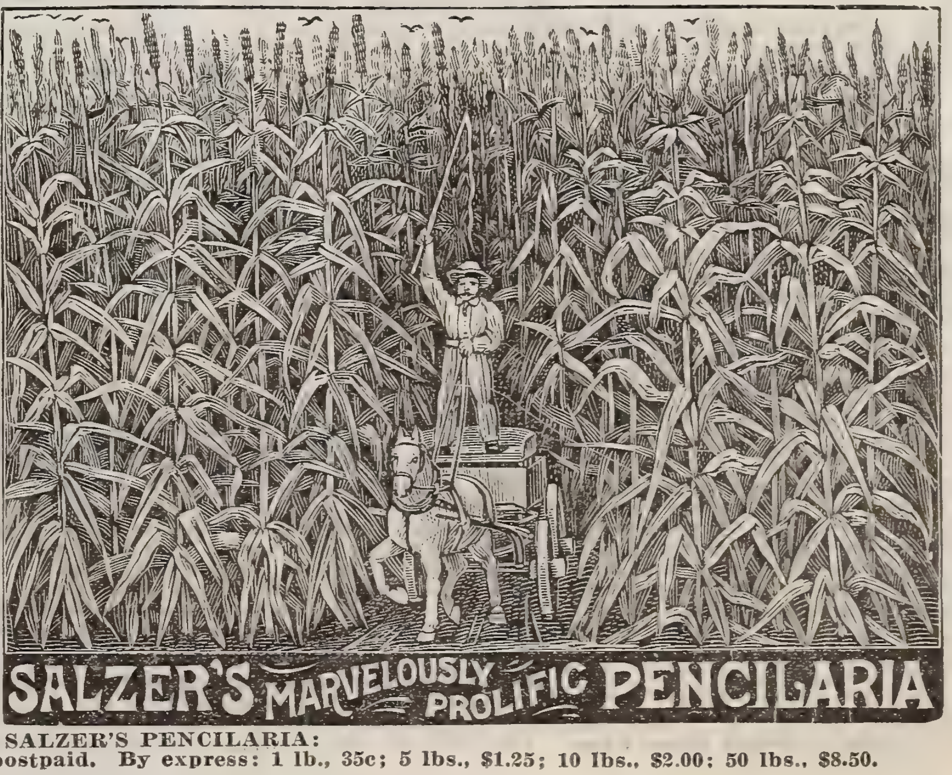
20th Century Russian Millet: Lb., 30c, postpaid. By freight, 10 lbs., 70c; 50 lbs., $2.25; 100 lbs., $4.25; 2½ bu., $5.00.

PENCILARIA.

This plant has been heralded from one end of the earth to the other as the greatest forage plant, as the most wonderful fodder plant, as a marvelous hay producer this side of the stars, indeed, several salesmen have lauded the merits of this plant until one stands bewildered and asks, what next? On our own farms it has done exceedingly well, and we recommend for same a thorough trial, as it requires but very little seed. We know farmers who have planted several acres, and who would not part with the wonderful forage plant. It is a tremendous stooler and in its quality resembles our marvelously prolific, forage plant, Teosinte, known everywhere as the marvelous yielder.

ENORMOUS GROWER!

It should be planted six inches apart in the row and the rows about 3½ feet apart. Cultivate two or three times if possible, and by that time the sight will astonish the beholder, and you will marvel at its luxuriance and you will dream that you are in the tropics, but your wonder will but then begin. As you watch it grow until it has reached 12 or 14 feet and densely covered your land, you will surely believe that you are finding your way through Central American tropical bottoms! It will average 40 rich, juicy, leafy stalks to the plant, which will be covered with seed heads 12 to 24 inches long. The seed makes good food for poultry, and ground for cattle cannot be beat. Sow same as early as you would Indian Corn. The usual way of growing it, however, is to mow the crop when 3 to 6 feet high, and it will immediately start again and can be mowed four to six times during the season. It is greatly relished by all kinds of stock, either in its green or dry state. For fodder purposes sow seed very thinly in drills 24 to 30 inches apart. Every farmer, and in fact, every one who keeps cows, horses and hogs, should try it if they wish to grow an immense crop of fodder cheaply on a small amount of ground.



PRICE OF SALZER'S PENCILARIA:

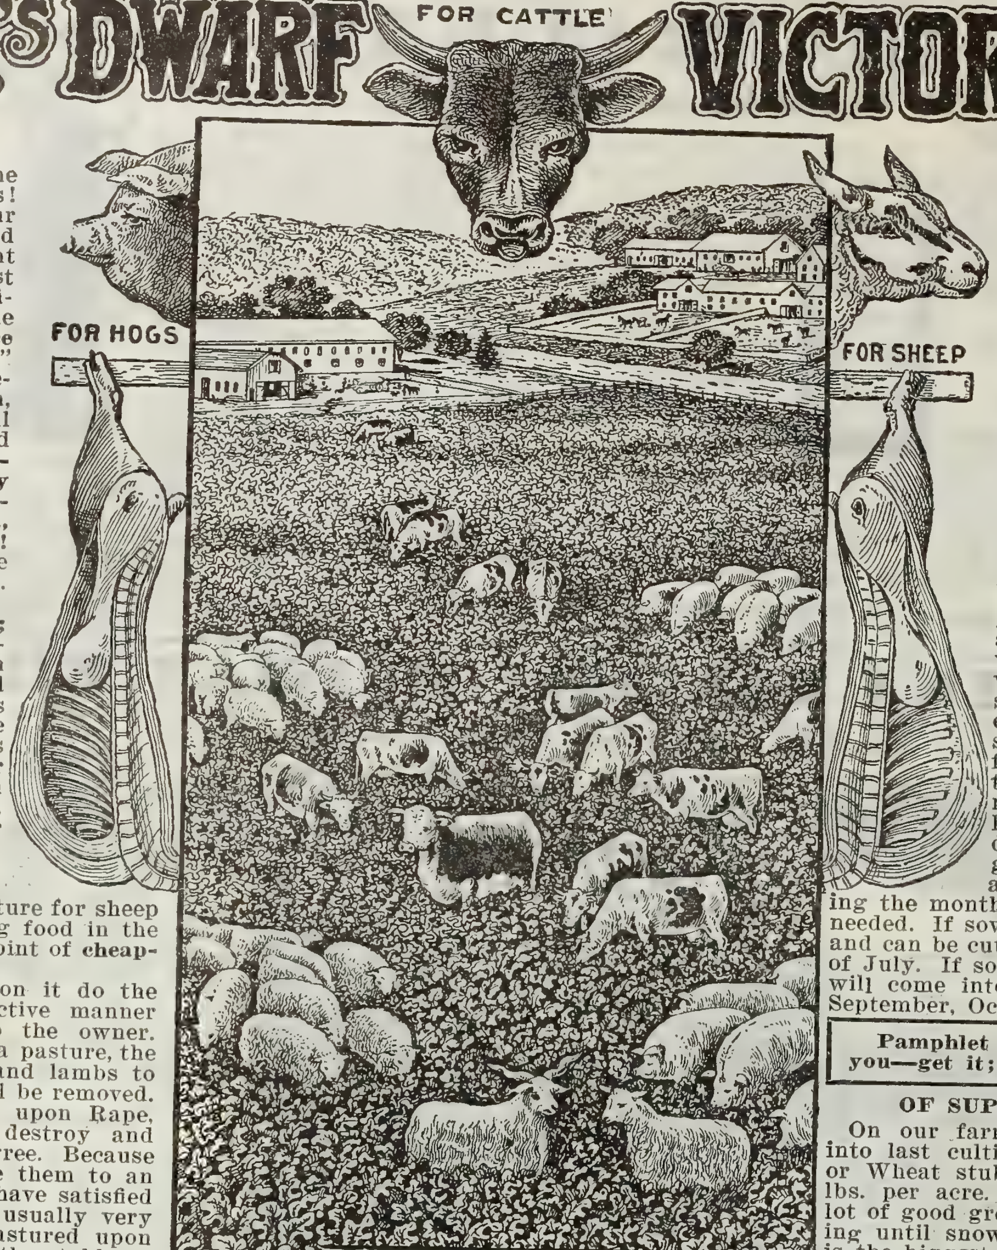
SALZER'S DWARF VICTORIA RAPE



Rape-Dwarf Victoria.

Glory enough! Sound the trumpet, clash the cymbals! Shout for joy, clap your hands, break forth in loud hurrahs! Sheep raising right here in Wisconsin is now just as possible and just as profitable as in any state in the Union—yes, **as in any place on earth.** "What do you say?" I hear a doubting farmer remark; yes, we repeat it again, so you may surely get the full importance of this grand truth: **Sheep and swine raising can now be as profitably conducted in Wisconsin, Dakota, Michigan, Minnesota, etc., as in any place on earth!** How? Four things have done it, and the Salzer Seed Co. did it!

1st, Dwarf Victoria Rape; 2d, Bromus Inermis; 3d, Salzer's Speltz, the great grain food; 4th, Bismarck Hog Food Pea. These are the four plants that make it absolutely sure and possible to grow sheep as successfully in Wisconsin or any other state anywhere on earth, and the Salzer Seed Co. are the introducers of all four of these great plants.

RAPE AS A PASTURE.

Rape is unequalled as a pasture for sheep in the autumn; as a fattening food in the field it is **without a rival** in point of **cheapness or effectiveness.**

The sheep that pasture upon it do the harvesting in the most effective manner and with but little cost to the owner. When Rape is established as a pasture, the necessity for sending sheep and lambs to market in a lean condition will be removed. Cattle may also be pastured upon Rape, but through treading they destroy and waste it in a considerable degree. Because of this it is better to remove them to an adjoining pasture when they have satisfied their wants. The results are usually very satisfactory when they are pastured upon it in the day only and fed in the stable or shed in the morning before going to the Rape pasture. This is an excellent way of making Christmas beef. Rape will keep a long time in early winter in heaps like shocks of hay. When thus put up at the approach of winter, it may be drawn and fed as desired.

RAPE AS A CATCH CROP.

Rape is particularly adapted for being grown as a catch crop, as, like the turnip, it grows better late than earlier in the season. When a grain crop, therefore, has failed from any cause whatsoever, there is ample time to plow the land and sow Rape upon it (at the rate of 5 lbs. per acre).

WHAT DOES RAPE DO IN AMERICA?

Professor Shaw, of the Minnesota Agricultural College, reports on Rape: "On 54 acres Rape, after Winter Rye has been removed, 537 sheep and lambs were fattened thereon; 18 steers fed thereon for 59 days, and several acres were uneaten when winter set in.

* * * Futher, 1 acre of Rape will pasture 10 to 16 lambs 2 to 2½ months, when Rye has preceded it. When sown alone, it will pasture 36 head for 2 months.

* * *That the lowest average gain on lambs fed on Rape alone is 7 to 8 pounds per month." There is a great need of Rape, especially in the fall of the year, when the corn has been harvested, and just before the setting in of winter. Farmers are obliged to depend solely on their pastures, to feed their stock. Now, after the pastures give out, they must begin feeding their hay. Dwarf Victoria Rape does away with all this and gives a luxuriant pasture and a tremendous yield during the months when same is so greatly needed. If sown in May, it grows rapidly and can be cut or pastured the latter part of July. If sown the first half of July it will come into fine play as a fodder in September, October and up to November.

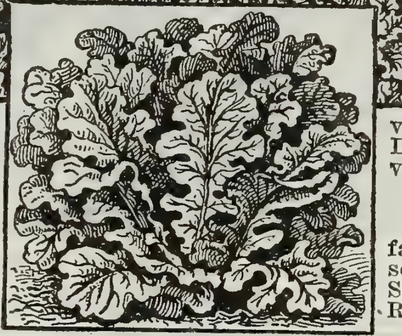
OF SUPERLATIVE VALUE.

On our farms we sow Victoria Rape into last cultivation of Corn or on Oat or Wheat stubble at the rate of 1 to 2 lbs. per acre. This gives a tremendous lot of good green fodder by fall, remaining until snow flies. It is immense! It is the biggest yielder imaginable.

Our sale of Dwarf Victoria Rape is something simply enormous. Nine-tenths of all the Victoria Rape seed used in the United States passes through our hands. We are headquarters for this rich, healthy, vigorous Victoria Rape, which is far ahead of Dwarf Essex Rape; but we also have this latter variety, and handle same in large quantities.



$50,000,000.00

That's the sum a prominent paper claims the farmers of America profited by sowing Rape last season, and the paper further gives to the John A. Salzer Seed Co. the credit of having introduced Rape into every hamlet and village in America.

82,000 SALZER'S VICTORIA RAPE PLANTERS THE LAST YEARS.

We more than doubled our Victoria Rape customers last season and each one endorses every word we have to say regarding Rape. Just read their emphatic declarations. Don't they do you good? Are you going to stand idle this year or will you follow suit and plant Dwarf Victoria Rape and be happy?

TESTIMONIALS:

Mr. John Van Loon, La Crosse County—"10 lbs. Rape gave me magnificent, luxuriant summer pasture for my hogs all summer long. **Its possibilities are unlimited.**"

Hon. H. F. Hunter, South Dakota—"I thought your Bromus Inermis was the best thing on earth, but for hogs, sheep, cows and poultry, in the green state, your Victoria Rape is out of sight, and for grain and winter hay Salzer's Speltz (see page 89) beats the band! Say, Salzer, Victoria Rape, Speltz and Bromus Inermis will make the farmer rich in spite of himself."

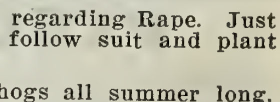
Ex-Governor Hoffman of Illinois—"For cattle, hogs, sheep and poultry, especially for sheep, there is nothing superior to Victoria Rape and Speltz, too."

200 HOGS ON 2 ACRES.

J. L. Hutchinson, Independence, Kan.—"Your Speltz gave me a splendid yield. Your Victoria Rape is out of sight. I sowed 2 acres in spring, and it fed 200 hogs almost all summer."

B. K. Lovejoy, Minnesota—"Best food for hogs and sheep; I think same is immensely, yes, prodigally prolific. For grain food, I swear by Speltz."

American Sheep Breeder endorses Rape as a food for sheep, hogs and cattle.
The Rural New Yorker gives unto Rape its unqualified endorsement.
The Prairie Farmer takes it up with tongue and pen.
The Farm Journal takes no back seat in pushing Rape to the very front.
The Iowa Homestead pushes Rape and Speltz, and writes weighty editorials on Rape.



Give me a chance to fatten on Salzer's Victoria Rape—don't waste your time and my patience on other seedsmen's common Essex Rape. It's 50 miles behind Victoria Rape.

CULTURE OF RAPE

Rape may be sown successfully in the following ways, viz.: 1. In the **early spring** to provide **pasture for sheep and swine.** 2. **In June or July** on well prepared land, to provide **pasture for sheep,** at the rate of 5 lbs. per acre. 3. Along with Wheat, Barley and Rye, using only **ONE OR TWO POUNDS** of seed per acre, to provide **pasture for sheep after harvest.** 4. Along with **peas, oats, clover seed,** to provide **pasture for sheep,** and to get a **"catch" of clover.** 5. Along with corn drilled in broadcast to provide **pasture f r sheep.** 6. **In corn,** sowing the seeed with the last cultivation given to the corn, at the rate of 1 to 2 lbs. per acre. 7. Along with **Rye** sown in **August for sheep pasture.** When Rape is sown broadcast, **5 lbs.** of seed per acre is plenty. When sown in rows, say 30 inches apart, and cultivated, **2 lbs.** will be enough.

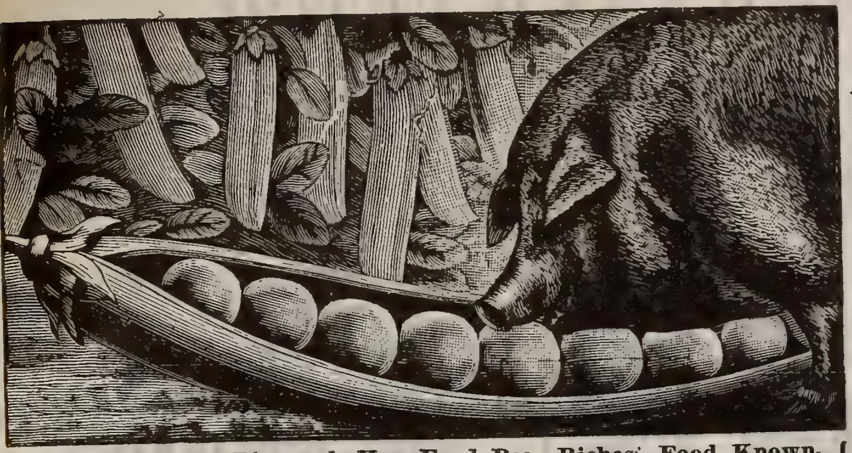
PRICE OF DWARF VICTORIA RAPE: Pkg., 10c; lb., by mail, 30c; by freight, 1 lb., 15c; 5 lbs., 60c; 10 lbs., $1.00; 50 lbs., $3.50; 100 lbs., $6.90. Sacks, 22c each.

DWARF ESSEX RAPE—THE KIND OTHER SEEDSMEN OFFER.

This is the only variety of Rape sold by seedsmen in this country, and is highly recommended by agriculturists, both in Europe and America, but it is fifty miles behind in yield, in bushy leafy quality, in vigor of growth and hardiness to our wonderful Victoria Rape.

Price of **Dwarf Essex Rape:** Pkg., 10; lb., 30c, postpaid; by freight, 10 lbs., 75c; 25 lbs., $1.60; 50 lbs., $2.90; 100 lbs., $5.40 net.

FIELD PEAS!



Feeding on Great Bismarck Hog Food Pea—Richest Food Known.

BISMARCK HOG FOOD AND HAY PEA.

For lots of nutritious hay, nothing will pay better than **Pea-Oat**—gained by sowing 60 lbs. Hog Food Pea and 40 lbs. Oats together. All cattle, horses, swine, sheep, etc., greedily eat same and grow fat. No farm is quite complete without a few acres of this rich food.

We cannot urge you too strongly to give the Bismarck Hog Food and Hay Pea or our Pea Oat a trial this year. We do not see how you can get along without it. If you have hogs and cattle and mules and sheep that you wish to fatten quickly, there is nothing that will do it better than our Pea Oat Mixture sown at the rate of 80 to 100 lbs. to the acre, and cut a couple of weeks after the peas are in bloom will make a hay so rich and so eagerly eaten and so fattening in quality that it will simply surprise you.

We have farmers here at La Crosse dairying and fattening cattle and hogs who would not get along without the Pea Oat for anything on earth. It is so cheap and so quick and rich are the returns that we urge everybody to give it a thorough trial this year. It will please you and will bring profit to the farm.

It would positively take 100 pages of this catalog to properly set forth the wonderful merits of the Bismarck Hog Food or Hay Pea. It is entirely different in its nature than the Cow Pea. The one, that is the Cow Pea, is the greatest fertilizer known. The other in conjunction with oats gives the greatest cattle, horse and hog food on earth.

LET US DO A LITTLE FIGURING, MR. FARMER. 40 acres of Pea-Oat hay, at 5 tons per acre, equals 200 tons. 40 acres of Turnip Rutabagas after the Pea-Oat is cut, at 5 tons per acre, equals 200 tons.

WHAT IS ABOVE WORTH? 200 tons of Pea-Oat hay, at only $8.00 per ton, equals $1,600. 200 tons of Turnip Rutabagas, at $3.60 per ton, equals $600. 200 tons left on the soil for soil enrichment, as only the choicest roots were taken, at $1.00 per ton, equals $200; or a total of $2,400 on 40 acres. Now, Mr. Farmer, have you any 40 acres that pay better?

PRICE OF BISMARCK HOG FOOD PEA: Pkg., 5c; pk., 70c; 1 bu. (60 lbs.), $2.40; 2½ bus., $5.75; 10 bus., $22.90; sacks, each 22c.

PRICE OF PEA OAT (properly mixed): 60 lbs., $2.20; 100 lbs., $3.70; 500 lbs., $17.50; sacks, 22c each.

CANADA FIELD PEA.

All Canada Field Peas, are an almost entire failure, and we look to prices running as high as $3 a bushel before the season closes. At present our prices are: Bu., $2.35; 2½ bus., $5.65; 10 bus., $22.50; sacks, 22c.

☞When stock is exhausted will fill at La Crosse market prices.

VELVET BEAN.

This Bean is creating a great sensation in the South and Middle States. It is going to be one of the great green manure or fertilizing plants. It is tremendously prolific, vines running from 12 to 18 feet long. It is the Bean to try everywhere. It, no doubt, will make as much green herbage as any plant grown. **Pkg., 10c; pt., 35c; qt., 50c, postpaid; by freight, pk., of 15 lbs., $1.50; bu., $5.**

LUPINE.

Succeeds well in the poorest soil and is exceedingly valuable for plowing under. It makes a good fodder in either the green state or as hay, The seeds are very fattening when used with hay. Sow in the early spring at the rate of 60 to 90 lbs. per acre. **Price: By freight or express, lb., 10c; 10 lbs., 80c; 100 lbs., $7.50.**

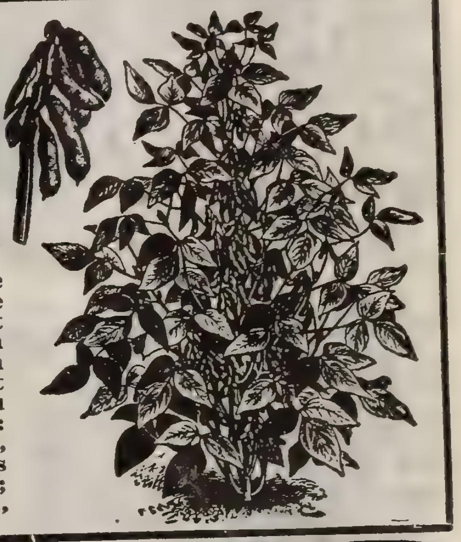
GIANT MUSTARD.

This is the large, coarse leaved Mustard, furnishing a tremendous amount of coarse herbage that is particularly relished and very advantageously fed to sheep. It would not be amiss to sow ½ lb., mixed in with Rape seed in connection with every acre of Rape sown.

Price: Pkg., 10c; ½ lb., 15c; lb., 28c, postpaid; by express, 5 lbs., 75c; 10 lbs., $1.40.

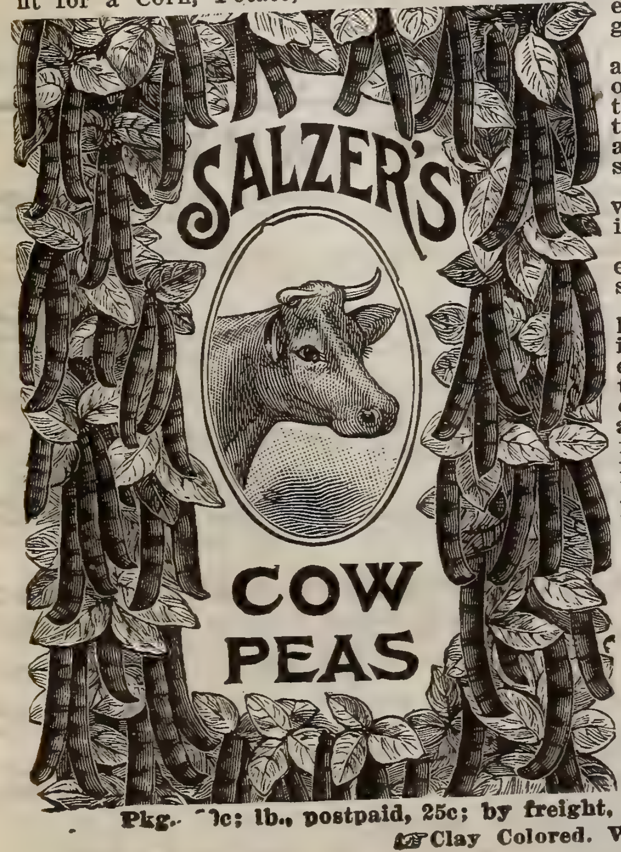
SOJA BEAN.

The Soja Bean is coming right to the front as a great soil enricher, as a food for hogs and cattle, both in the green and dry state. In some parts of the South it is extensively grown only for feeding pigs, and the Agricultural Bulletins throughout the Southern States praise same without stint. It will draw from the sun and return to the earth just the nourishment and properties that you are looking for. **Price: Pkg., 10c; qt., 40c, postpaid; by express or freight, pk., $1.10; bu., $4.00; 2½ bus., $9.50.**



SALZER'S PROLIFIC COW PEA.

The Cow Pea has proven to be one of the greatest fertilizers of the age, and we doubt not—if we make the statement, that it is richer in fertilizing matter, more lasting, more beneficial, a greater soil improver, and a better soil enricher than the fertilizer drawn out from the barnyard—that many of our farmer friends will feel like challenging this statement; but nevertheless, gentlemen, it is a fact. It will take longer to enrich a thoroughly worn-out piece of land by fertilizer from the barnyard than by sowing a plenty of Cow Peas and plowing them under. You can get two very creditable crops of Cow Peas on the same piece of land in one season by sowing them quite early in the spring, after frosts are over, broadcast, at the rate of 50 lbs. per acre, or in drills 12 inches apart, and when these have attained the height of 30 inches, plow them under and sow a second crop at the same rate. This latter crop is ready either to plow under the first of October, or to cut for food, or to let the cattle graze upon same and then replow the field before frost. The next season this land is fit for a Corn, Potato, Oat or Wheat crop. This strain is a careful selection of the celebrated New Era Pea with a view of earliness and heavier yielding quality. We have succeeded in this in a remarkable degree, in fact we think our selection is 100 per cent. better than the old New Era.



I will tell you frankly that I believe that the Bismarck Hog Food and Hay Pea and Salzer's Prolific Cow Pea if abundantly planted on each farm in America would not only pay off every mortgage on every farm but also put money in the bank. Both of these crops cannot be too highly estimated. This is especially so of the Cow Pea. Its tremendous fertilizing value, its wonderful use as a soil renovator, its marvelous adaptability to all climes and soils and its high fertilizing value makes it a plant that should find a place on each and every farm in America.

No matter how rich your soil is or how poor your soil is or how indifferent, if you will plant Cow Peas it will put the soil in shape for any crop you may wish to grow. There is nothing quite so good and quite so cheap and so prolific as Cow Peas.

If cut when in bloom it makes magnificent hay for horses, cattle, sheep, in fact every animal that needs hay will relish same while the plant itself will put into your soil a fertilizing value that is simply astonishing.

The Cow Pea is called by many an agricultural wonder, on account of its great prolificness, its wonderful vigor of growth, its adaptability to all climates and soils, and its enormous yield of green forage. The Cow Pea, in many of its fertilizing qualities, is equal and in some respects superior to Mammoth Red Clover. As a fertilizer it is equal in every respect to our Giant Spurry, though the latter ordinarily can be sown and plowed under three times, and is probably a little cheaper; but the Spurry does not furnish as large a quantity of forage as does the Cow Pea. The Cow Pea ranks high among the best fertilizers, gathering immense quantities of nitrogen from the atmosphere. The ripe Peas contain no less than 18½ per cent of digestible protein. The vines, properly cured, are a most valuable fodder for cattle and sheep, being richer in protein and fat than the best Clover hay. This is not exactly a Pea, but belongs more properly to the Bean family. It is becoming known to the North also as a highly valuable fodder and fertilizing crop. It requires a full season to mature in—that is, to ripen the pods—and can probably be grown as a second crop after wheat in the North. If desired, the pods may be harvested for the grain, and the plants plowed under to fertilize the soil.

Worth its Weight in Gold.

CULTURE OF COW PEA.

Plant in a thoroughly pulverized soil. If wanted to plow under for manure, sow with a grain dril in drills a foot apart. If grown for the seed, plant 3½ feet apart and 1 foot in the row and cultivate thoroughly, using 25 lbs. seed; if for fodder 50 to 100 lbs. per acre. The very finest, most prolific, and at the same time one of the very earliest is Salzer's Prolific Cow Pea. The yield of Peas in a dry state is from 40 to 60 bushels per acre of this sort.

PRICE OF SALZER'S PROLIFIC COW PEAS.

Pkg., [illegible]c; lb., postpaid, 25c; by freight, 15 lbs., 80c; 25 lbs., $1.35; 50 lbs., $2.50; bu., $2.85; 100 lbs., $4.50; 250 lbs., $11.00.

☞Clay Colored. Whippoorwill. or New Era Cow Peas, same price as above.

SALZER'S SUPERIOR SAND VETCH.

There was no patch more eagerly sought and more carefully noticed by thousands of farmers who visited our Dakota farms than our Superior Sand Vetch. It was worth coming miles and miles to see. It was sown in May, but soon covered the ground and kept on growing and blooming and blooming and growing, surprising everybody. The yield must have been something like 7 tons per acre. To show you how rapidly it grows—we put a sample in our green-house, in pure sand, and in 7 days after sowing it was 10 inches tall, without a drop of moisture either in the sand or applied to it after sowing. This shows—

1. **That it is a wonderful, rapid grower,** and gets on with little moisture, and thrives.

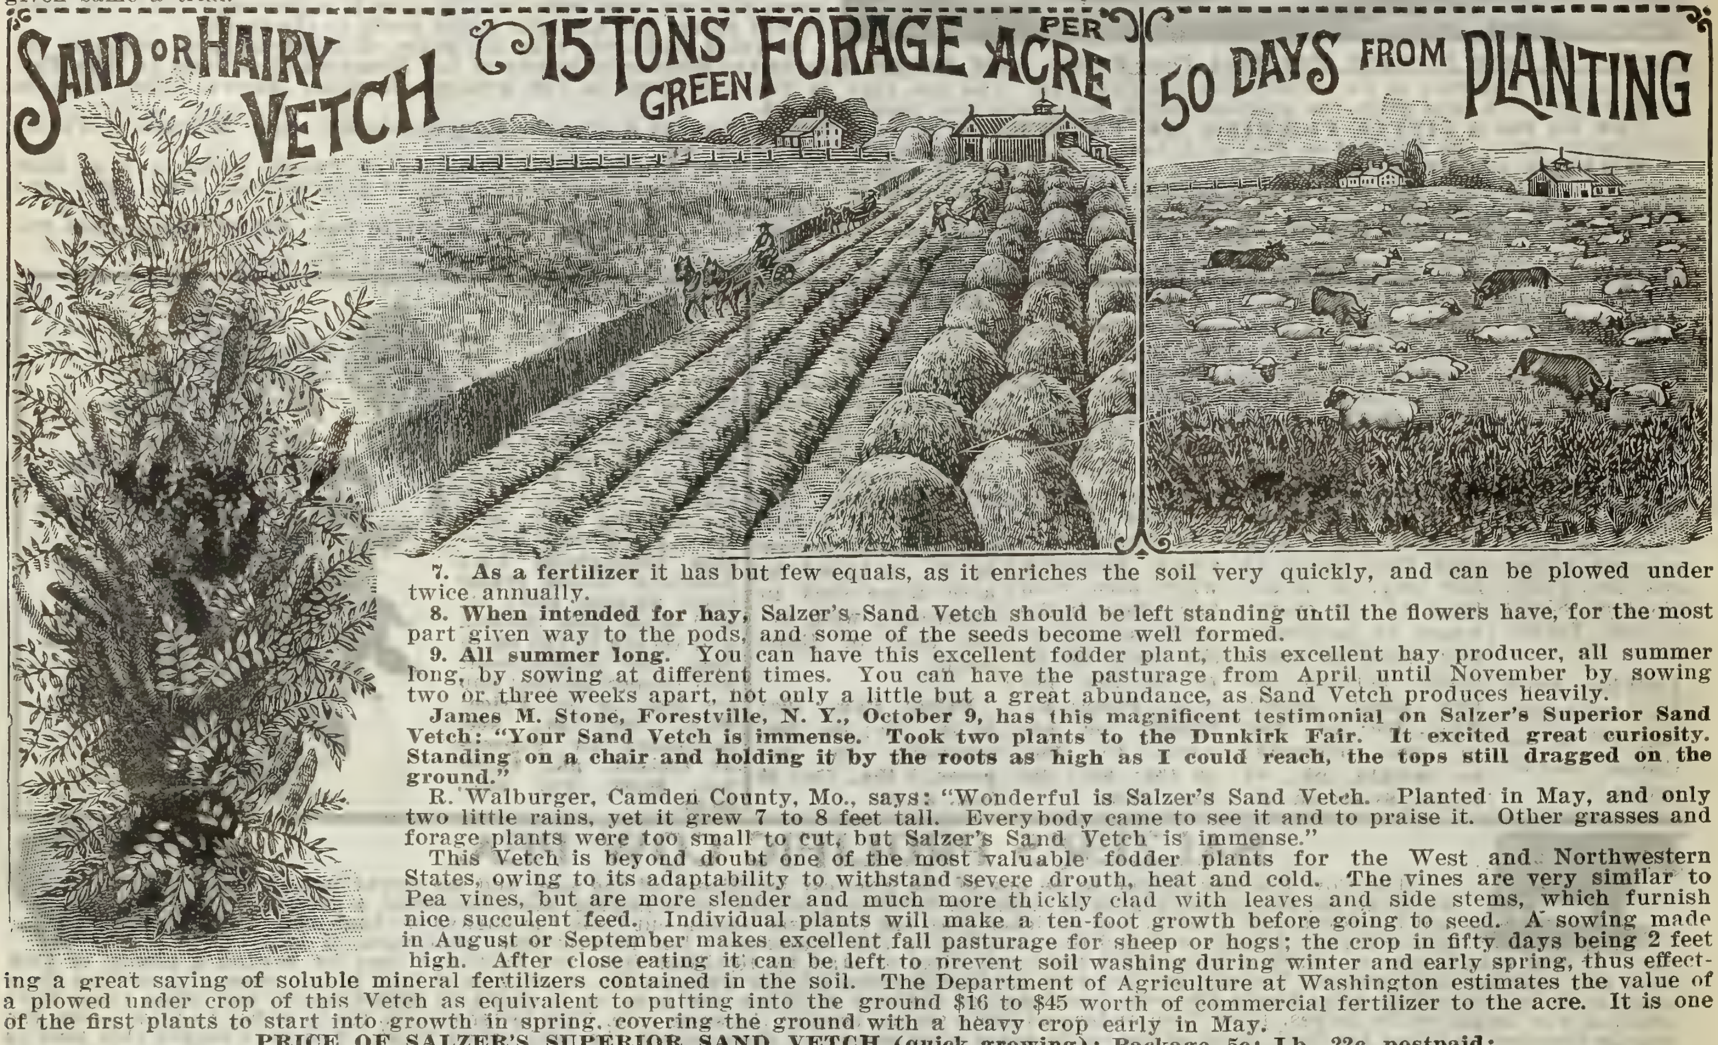
2. **That it withstands cold.** Sand Vetch can be sown in April and May, and mown in the fall, and the next spring, where sheltered, will come forth fresh and green and vigorous, and will form green herbage for cattle at once.

3. **It is a tremendous yielder,** producing all the way from 5 to 7 tons of the very best hay imaginable per acre.

4. **Quality.** Salzer's Superior Sand Vetch makes the very best hay imaginable—the equal of clover.

5. **Culture.** It is a great stooler; therefore but 30 to 50 pounds are sown per acre, either broadcast or in drills three feet apart. To get the best results from it, sow about one-half bushel of Rye or Oats with it, to furnish support for the vines. On good, rich soil it yields enormous crops of green fodder, running from 10 to 15 tons to the acre. It is also a remarkable grower on sandy and thin land. If sown in rows it will soon cover the ground as a complete network, furnishing a tremendous amount of luxuriant fodder.

6. **All agricultural colleges, all writers on agriculture, all practical farmers, recommended the growing of Sand Vetch.** It is especially so in Europe. You cannot find an agriculturist there who would not recommend it, and this is the case here in America by those who have given same a trial.



7. **As a fertilizer** it has but few equals, as it enriches the soil very quickly, and can be plowed under twice annually.

8. **When intended for hay,** Salzer's Sand Vetch should be left standing until the flowers have, for the most part given way to the pods, and some of the seeds become well formed.

9. **All summer long.** You can have this excellent fodder plant, this excellent hay producer, all summer long, by sowing at different times. You can have the pasturage from April until November by sowing two or three weeks apart, not only a little but a great abundance, as Sand Vetch produces heavily.

James M. Stone, Forestville, N. Y., October 9, has this magnificent testimonial on Salzer's Superior Sand Vetch: "Your Sand Vetch is immense. Took two plants to the Dunkirk Fair. It excited great curiosity. Standing on a chair and holding it by the roots as high as I could reach, the tops still dragged on the ground."

R. Walburger, Camden County, Mo., says: "Wonderful is Salzer's Sand Vetch. Planted in May, and only two little rains, yet it grew 7 to 8 feet tall. Everybody came to see it and to praise it. Other grasses and forage plants were too small to cut, but Salzer's Sand Vetch is immense."

This Vetch is beyond doubt one of the most valuable fodder plants for the West and Northwestern States, owing to its adaptability to withstand severe drouth, heat and cold. The vines are very similar to Pea vines, but are more slender and much more thickly clad with leaves and side stems, which furnish nice succulent feed. Individual plants will make a ten-foot growth before going to seed. A sowing made in August or September makes excellent fall pasturage for sheep or hogs; the crop in fifty days being 2 feet high. After close eating it can be left to prevent soil washing during winter and early spring, thus effecting a great saving of soluble mineral fertilizers contained in the soil. The Department of Agriculture at Washington estimates the value of a plowed under crop of this Vetch as equivalent to putting into the ground $16 to $45 worth of commercial fertilizer to the acre. It is one of the first plants to start into growth in spring, covering the ground with a heavy crop early in May.

PRICE OF SALZER'S SUPERIOR SAND VETCH (quick growing): Package, 5c; Lb., 22c, postpaid; by freight, lb., 12c; 10 lbs., $1.00; 30 lbs., $2.40; 50 lbs., $3.75; 100 lbs., $7.00.

SPRING VETCH.

This is an annual. It must be sown each year at the rate of 60 to 80 lbs. per acre. If sown in connection with oats use 50 lbs. Spring Vetch to 32 lbs. oats per acre. **Price of Spring Vetch: Pkg., 5c; lb., 20c, postpaid; lb., 10c; 10 lbs., 70c; 50 lbs., $2.90; 100 lbs., $4.90.**

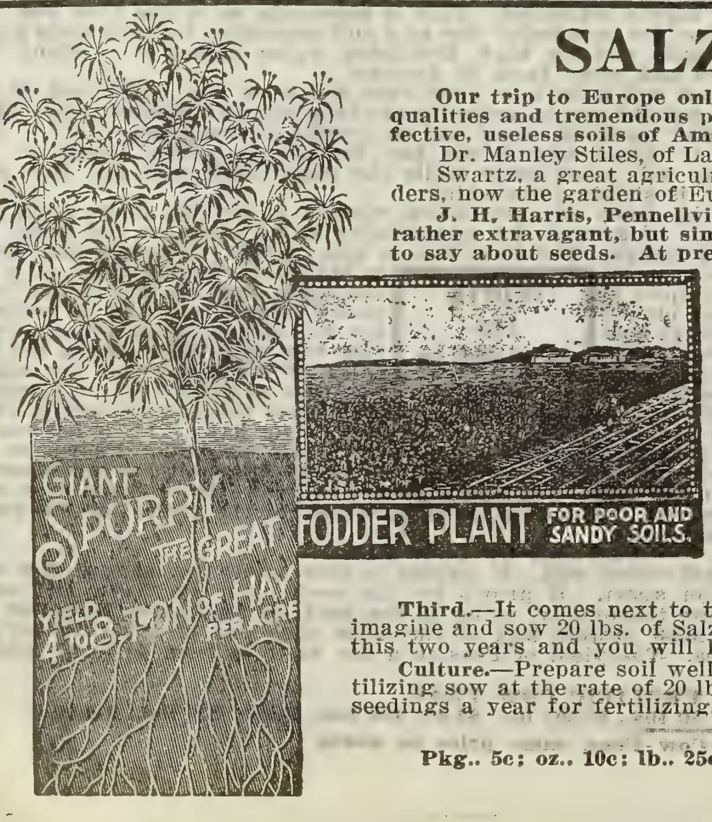
SALZER'S GIANT SPURRY.

Our trip to Europe only the more favorably impressed us with the magnificent properties, splendid qualities and tremendous possibilities of Giant Spurry and Esparsette for old, worn-out, poor, sandy, defective, useless soils of America.

Dr. Manley Stiles, of Lansing, Mich., calls Spurry the "Clover for sandy soils, yielding 7,700 lbs. per acre."

Swartz, a great agricultural writer of Germany, says that "without Spurry the great Waasland in Flanders, now the garden of Europe, would have been impossible."

J. H. Harris, Pennellville, N. Y.—"When I received your catalogue I thought that your claims were rather extravagant, but since I have tried your Giant Spurry I am ready to believe anything that you have to say about seeds. At present it is 30 inches high, and part that I cut is making a good second growth.



GIANT SPURRY THE GREAT FODDER PLANT FOR POOR AND SANDY SOILS.
YIELD 4 TO 8 TON OF HAY PER ACRE

John Thacker, Malvern, Ark.: "Giant Spurry grew about 2 feet high, yielding 3 tons per acre."

Chas. Jennings, Deep River, Conn.: "The Giant Spurry grew 2 feet in height and cut two crops. Cattle seemed to like it very much. After getting second crop we grazed same."

Albert Frantzen, Grant Station, Mich.: "We had no rain from the time we sowed Giant Spurry until after harvested, yet it grew two feet tall and yielded 2 tons per acre. The second crop would have been heavier but we pastured that."

WHY SHOULD YOU PLANT SALZER'S GIANT SPURRY?

First.—Because it is the most prolific fodder and hay plant for sandy soils, for worn-out soils, for poor and doubtful soils known.

Second.—It flourishes on sandy, worn-out soils where no other plant will grow, and returns big yields every time.

Third.—It comes next to the Clover as a fertilizer. Take the poorest soil or the worst soil that you can imagine and sow 20 lbs. of Salzer's Giant Spurry per acre on same and plow under when 15 inches tall. Do this two years and you will have a soil for Wheat, Oats and Potatoes.

Culture.—Prepare soil well. Harrow carefully. Sow for hay at the rate of 10 lbs. per acre. For fertilizing sow at the rate of 20 lbs. per acre, and plow under as soon as it is 15 inches tall. You can sow two seedings a year for fertilizing.

PRICE OF SALZER'S TRUE GIANT SPURRY.

SALZER'S NAMELESS CORN CONTEST.

To Our Many Customers and Friends:

We are just in receipt of word from the Committee in charge of the selection of a name for our nameless corn. We having offered a prize of $500.00 to the party whose name suggested would be selected. The Committee unanimously selected

GLAD HARVEST CORN.

This Committee, as you know, was composed of Hon. J. J. Esch, Congressman from Wisconsin; Prof. R. A. Moore, of the Wisconsin Agricultural College, and Hon. Robert Calvert, U. S. Custom Officer, La Crosse, Wis.

THE WINNER OF THE PRIZE IS MRS. MATILDA REDWING, CHINOOK, MONT., BOX 958.

We wish right here to thank our many friends for the interest taken in this great contest and to congratulate Mrs. Redwing on being the winner of the prize.

Very truly yours, JOHN A. SALZER SEED CO.

Red Russian—The Hardy Red.

Sow Winter Wheat This Fall!

Never before has there been such an active inquiry in Winter Wheat, Winter Rye, Timothy and Alfalfa Clover for Fall seeding. It means the alert farmers are going to sow a plenty, as Wheat next Fall is very apt to touch the $1.30 line! See if it don't! TRY OUR RED RUSSIAN—the Hardy Red. See pages 17-18.

SALZER'S "OLD FASHION" FLOWER GARDEN SEED MIXTURE. Package, 1,000 Kernels, 25c.

We older people remember well the Flower Garden of our childhood home. There was usually a spot in the garden 10x20 or more feet devoted to all kinds of annuals, blooming continuously and gorgeously throughout the whole long summer and fall season.

There was an abundance of Alyssum, Abronia, Ageratum, Adonis, Balsam, Asters, Candytuft, Calliopsis, Centauria, Chrysanthemums, Hollyhock, Eschscholtzia, Pansies, Poppies, Petunias, Sweet Peas, Nasturtiums, Larkspur, Marigold, Mignonette, Morning Glories, Phlox and apparently dozens and dozens of other varieties of flowers that lent charm to the brilliancy of this portion of the garden.

We have endeavored to arrange a Mixture of our childhood's fancy and in this Mixture we have included everything that c[illegible]cessfully grown, and which will, within a few weeks after planting, show bright flowers. Full directions on each package, [illegible]ow to treat this magnificent Old Fashion Flower Garden Seed Mixture. Price, pkg. 500 seeds, 15c; pkg. 1,000 seeds, 25c; 1 oz., 75c; ¼ lb., $2.50.

Mixture of Perennial or Hardy Flower Seed, very brilliant and showy. Pkg., 20c.
Mixture of Straw Flowers and Ornamental Grasses, splendid for winter bouquets. Pkg., 20c.
Mixture of Climbing Vines, all sorts and colors. Elegant for arbors, borders, etc. Pkg., 20c.

LAST WORDS.

ERRORS: We make them—so does every one—and we will cheerfully correct them if you write to us. Try to write to us good-naturedly; but if you cannot, then write to us anyhow. Our best efforts will be put forth in filling all orders carefully, and with the additional room and facilities, we hope to get along the coming season without an error and make 1910 the banner year.

When you sow, you want to reap, not sparingly, but bountifully. That is eternally right! It is our honest and earnest endeavor to furnish you with only good, live, vigorous seeds, so that your crop may be generous—yes, bountiful. We believe that if any seeds can produce good yields and fine specimens, ours can, and we earnestly solicit your orders, and promise same careful and prompt attention.
Sincerely yours,

JOHN A. SALZER SEED CO. LA CROSSE WIS.
